Re: Endorsement of a Proposed Shared Mobility Pilot Program

Dear Mayor Silberberg and Members of City Council:

At its October 17, 2018 meeting, the Transportation Commission voted to endorse the staff proposal to initiate a pilot program to evaluate the operation of shared mobility devices (SMDs) in the City of Alexandria.

These new transportation options have great potential to help address many of the transportation challenges faced by the City of Alexandria. Without a structured and evaluated pilot program, it is hard to forecast how much of this potential can be realized, and how to best regulate these companies to achieve the City's goals.

This SMD pilot program is consistent with the outlined in the City's Transportation Master Plan adopted in 2008, and the Commission appreciates your consideration of its input on this project.

Sincerely,

Memissa McMahon
Vice Chair, Alexandria Transportation Commission
