**Subject:** Delinquent Taxpayers list

There have been several inquiries related to the Delinquent Tax memo, particularly the delinquency of the Northern Virginia Urban League. Although specific tax obligations and situations are confidential, I can share with you that the delinquency for the properties for this particular taxpayer spans more than one year of tax obligations and precedes the request for tax exempt status. In addition, tax exempt status has very limited application in Virginia, including schools, museums and churches, and only the portion of the property that is used specifically for those purposes is ruled tax exempt. As a result, the majority of the tax obligation was not impacted by the tax exemption. Staff is working with all of the taxpayers on the list to help them bring their situation into compliance.
