

# Alexandria's State of Health:

## The challenges and opportunities

David C. Rose, MD, MBA, FAAP  
Sean Curry, MPH  
Alexandria Health Department

Allen Lomax, MPA  
Partnership for a Healthier Alexandria

---

July 2025

We conducted an extensive assessment of health.

There are large differences in health between our neighborhoods.

Let's work with the people most impacted to move the needle on health outcomes.

## **The vision:**

**All Alexandrians must have the opportunity to thrive and achieve their best health.**

## **The assessment:**

**How does reality match that vision?**

An aerial photograph of Alexandria, Egypt, showing the city's dense urban landscape and the Mediterranean Sea. The image is overlaid with a semi-transparent dark layer to make the white text stand out. The title is centered in the upper half of the image.

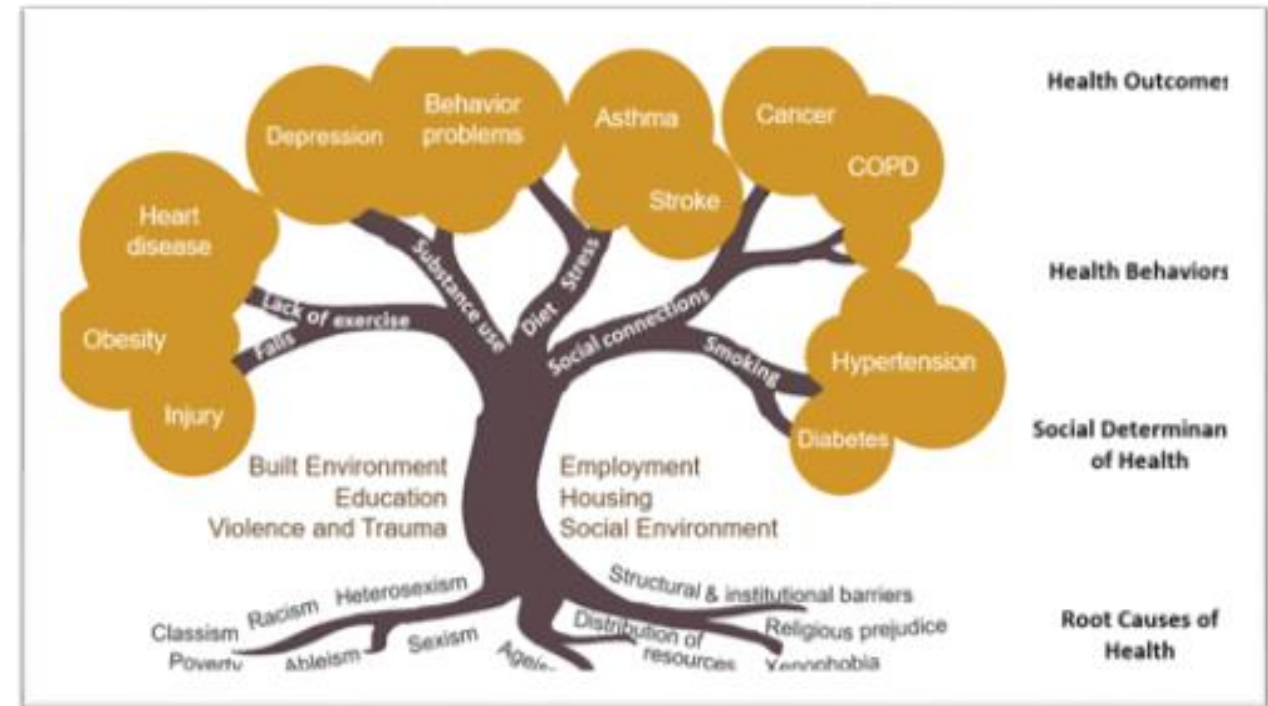

# Measuring the State of Health in Alexandria

---

July 2025

# What is a Community Health Assessment?

- A complete review of the state of health in our city
- Model used nationally to understand local issues
- Asks:
  - What are the health issues, needs, and strengths in our community?
  - Who is most affected?
  - Where do we see differences in health?
  - Why do these differences exist?

[What are the social determinants of health? | Healthy BR](#)

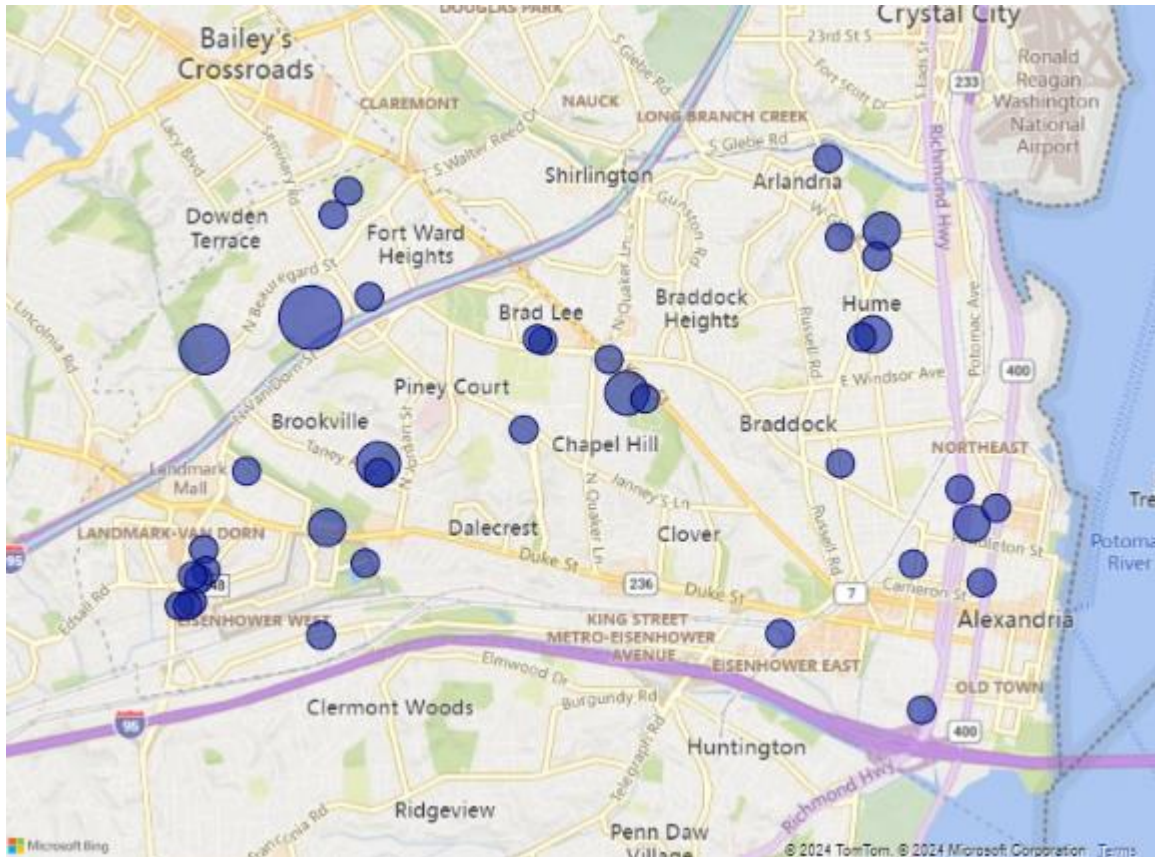

# Collecting the Data

- **Community Survey**
  - ✓ More than 2,000 responses representative of Alexandria demographics
- **Quantitative Analysis**
  - ✓ Over 200 indicators, ~3,000 individual data points
- **Community Voices**
  - ✓ Walk and Talks + Community Photo Album = non-traditional feedback from more than 100 residents
- **Additional Context**
  - ✓ SME input and guidance where appropriate

# Community Survey

Conducted outreach in more than 40 unique locations from September 3rd – November 4th. Along with a major online push.

## Community Health Strengths and Issues

The Alexandria Health Department wants to learn what is most important to Alexandria community members. Your answers to this confidential survey will help make Alexandria a healthier place. For more information, please email [healthmatters@vdh.virginia.gov](mailto:healthmatters@vdh.virginia.gov) or call 703-244-5654.

### 1. In your opinion, what are the biggest health issues in your community? Please choose up to THREE.

- |  |  |
|--|--|
| <input type="checkbox"/> Dental problems   | <input type="checkbox"/> Obesity, physical activity, and nutrition   |
| <input type="checkbox"/> Teen pregnancy  | <input type="checkbox"/> Sexually transmitted infections and diseases (HIV/AIDS, chlamydia, syphilis, gonorrhea)         |
| <input type="checkbox"/> Maternal, infant, and child health  | <input type="checkbox"/> Illnesses spread by insects and/or animals (Lyme, West Nile, rabies)                            |
| <input type="checkbox"/> Violence and crime  | <input type="checkbox"/> Illnesses spread person to person (flu, COVID-19, TB, Mpox, MRSA, measles)                      |
| <input type="checkbox"/> Domestic violence, rape/sexual assault, child abuse                         | <input type="checkbox"/> Environmental health/climate change issues (extreme heat, poor air quality, excessive flooding) |
| <input type="checkbox"/> Preventable injuries (poisoning, falls, car/bike crashes)                   | <input type="checkbox"/> Racism and other forms of discrimination  |
| <input type="checkbox"/> Aging-related health concerns (dementia, arthritis)                         | <input type="checkbox"/> Food insecurity (hunger)  |
| <input type="checkbox"/> Tobacco use (cigarettes, vaping, e-cigarettes)                              | <input type="checkbox"/> Other _____   |
| <input type="checkbox"/> Alcohol, drug, opiate use (including overdose)                              |  |
| <input type="checkbox"/> Mental health (depression, anxiety, suicide, loneliness)                    |  |
| <input type="checkbox"/> Chronic health conditions (asthma, cancer, diabetes, heart disease, stroke) |  |

### 2. In your opinion, what are your community's greatest strengths? Please choose up to THREE.

- |   |  |
|---|--|
| <input type="checkbox"/> Opportunities to be involved in, and belong to, the community (social connections)       | <input type="checkbox"/> A good place for children, youth, and families to live                |
| <input type="checkbox"/> Diversity of the community (social, cultural, faith, economic)                           | <input type="checkbox"/> A good place for older adults to live                                 |
| <input type="checkbox"/> Addresses racism and biases  | <input type="checkbox"/> Public safety (police, fire, and rescue services)                     |
| <input type="checkbox"/> Safe, healthy, and affordable housing  | <input type="checkbox"/> Safe place to live  |
| <input type="checkbox"/> Access to healthy food   | <input type="checkbox"/> Accessible for community members with disabilities                    |
| <input type="checkbox"/> Support for basic needs (food, clothing)   | <input type="checkbox"/> Public parks, green spaces, and opportunities to be physically active |
| <input type="checkbox"/> Access to healthcare   | <input type="checkbox"/> Walkable, bikeable community  |
| <input type="checkbox"/> Access to mental health and substance use services (counseling, therapy, support groups) | <input type="checkbox"/> Public transportation (convenient, reliable, affordable)              |
| <input type="checkbox"/> Educational opportunities (schools, libraries, vocational programs, career counseling)   | <input type="checkbox"/> Sustainable and eco-friendly environment                              |
| <input type="checkbox"/> Jobs and entrepreneurship opportunities  | <input type="checkbox"/> Arts and cultural events  |
|   | <input type="checkbox"/> Access to dental care   |
|   | <input type="checkbox"/> Other _____   |

### 3. In your opinion, what would most improve your community's health? Please choose up to THREE.

- |   |  |
|---|--|
| <input type="checkbox"/> Opportunities to be involved in, and belong to, the community (social connections)       | <input type="checkbox"/> Support for children, youth, and families                             |
| <input type="checkbox"/> Welcoming diversity (social, cultural, faith, economic)                                  | <input type="checkbox"/> Support for older adults  |
| <input type="checkbox"/> Addressing racism and biases   | <input type="checkbox"/> Public safety (police, fire, and rescue services)                     |

# Who Responded

## CHA Survey - Who Answered

2,020

Total Responses

Average age:  
45

58% Women  
28% Men  
14% Other/NA

Fig. 6 - Preferred Language

25%

Live in an income-limited household

25%

have/live with someone who has a disability or functional limitation

28%

Born outside the U.S.

Fig. 7- Educational Attainment

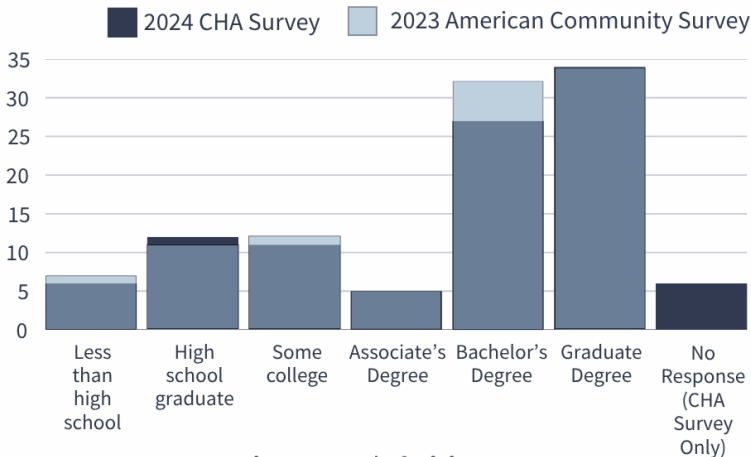

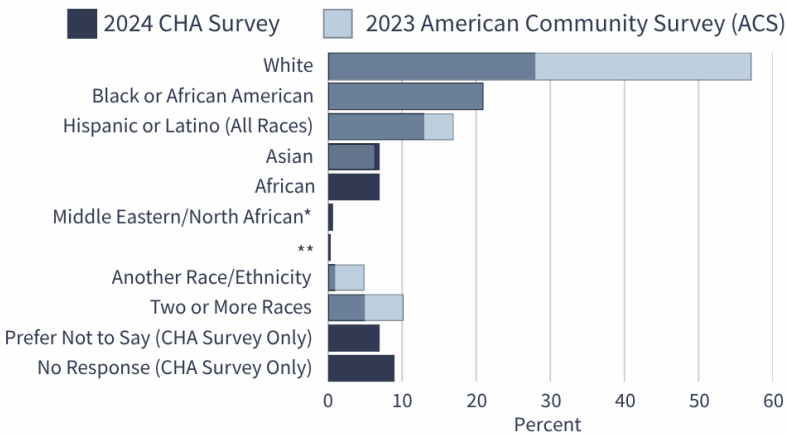

Fig. 8 - Race/Ethnicity

\*ACS does not capture Middle Eastern/North African or African ethnicity. AHD added this category to our survey based on our population.

\*\*American Indian/Alaska Native and Native Hawaiian/Pacific Islander

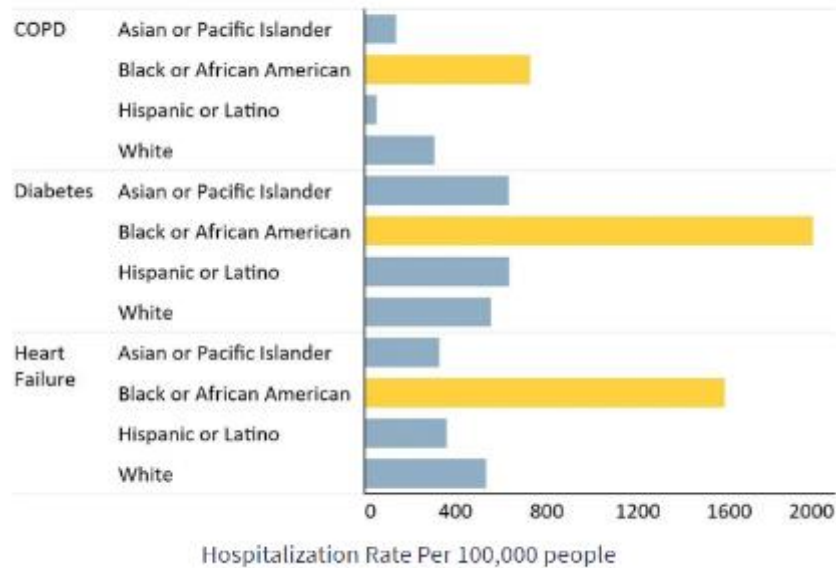

# Quantitative Review

## Looking beyond city-level:

- There are large variations between race/ethnicity, age, location
- When possible, we compared to NoVa, Virginia, and the U.S.

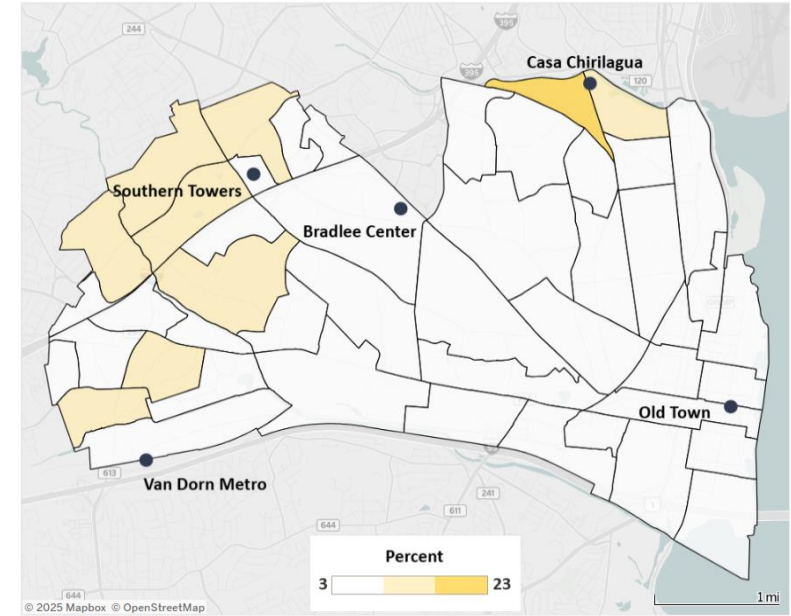

Alexandria Chronic Condition Hospitalization Rate by Race/Ethnicity

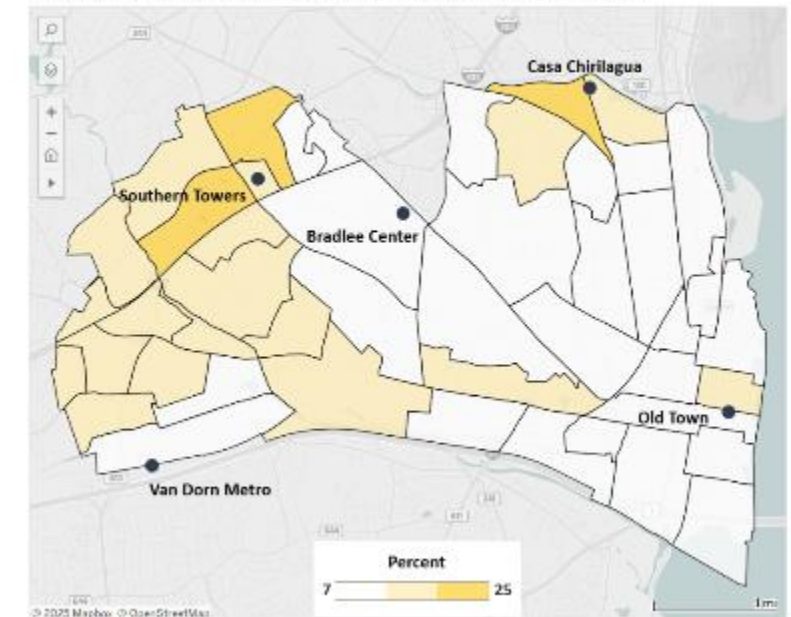

Rate of People in Alexandria with a Disability by Age Group

Current lack of health insurance among adults aged 18-64 y..

Fair or poor self-rated health status among adults

# Explore the Data!

## Alexandria Community Health Assessment Data Dashboard

The Alexandria Health Department developed this dashboard to increase access to public health data. Data is available for each of the 14 topic areas included in the 2025 Community Health Assessment (CHA). If you have questions about the data or need help navigating the dashboard, please email [healthmatters@vdh.virginia.gov](mailto:healthmatters@vdh.virginia.gov).

**Instructions:** To view maps, click on the "Key Indicator Maps" icon.  
To view data by topic area, select a topic area below.

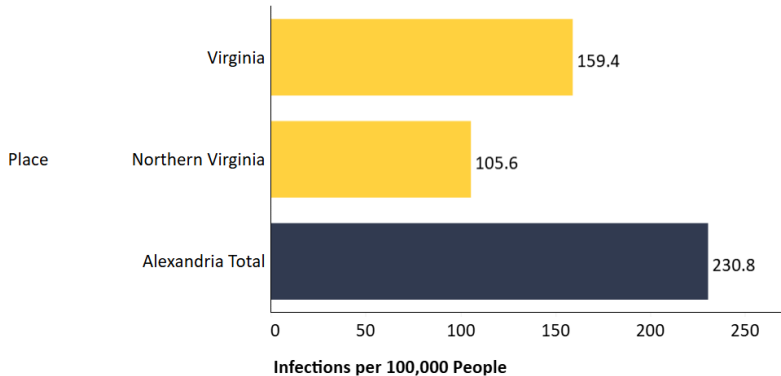

### Topic Area: Sexual & Reproductive Health

# Walk and Talks + Community Photo Album

Surveys and numbers don't tell  
the full story.

## Walk and Talk goals:

- Understand how community conditions impact health locally
- Hear about immediate neighborhood needs from residents

## Community Photo Album goals:

- Humanize key health topics
- Identify strengths and challenges in our environments

July 2025

An aerial photograph of a city, likely Boston, showing a dense urban area with numerous buildings and a large harbor area with many boats docked at piers. The image is overlaid with a semi-transparent dark blue filter.

# What We Found

---

July 2025

# The data and resident feedback were clear...

**Not all Alexandrians have the opportunity to thrive and achieve their best health.**

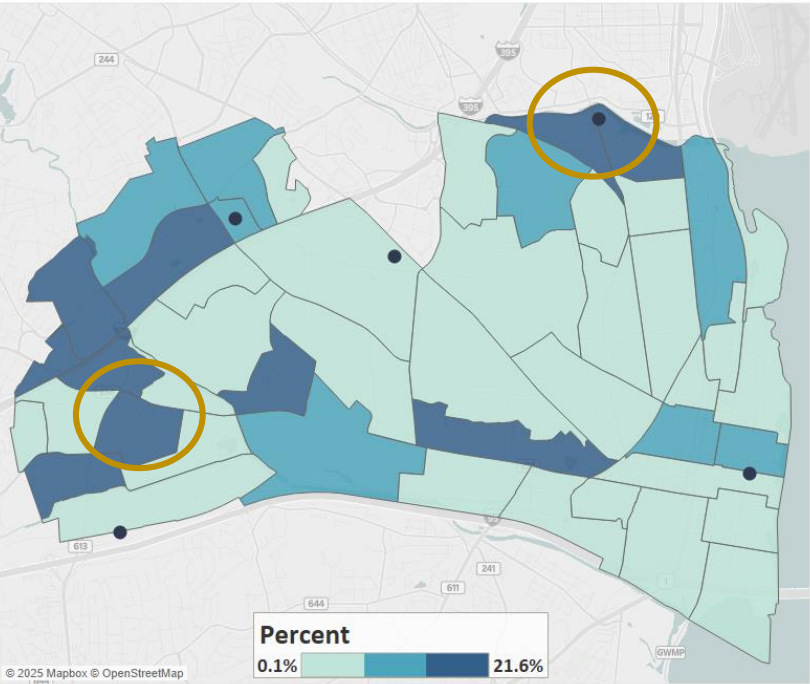

**The bad news:** There are differences in community conditions, health-related actions, and outcomes based on neighborhood and other key factors.

**The good news:** Residents and community partners are willing to put in the time and work to build a healthier community for all Alexandrians, leveraging our existing strengths.

# Disparities in the Same Places

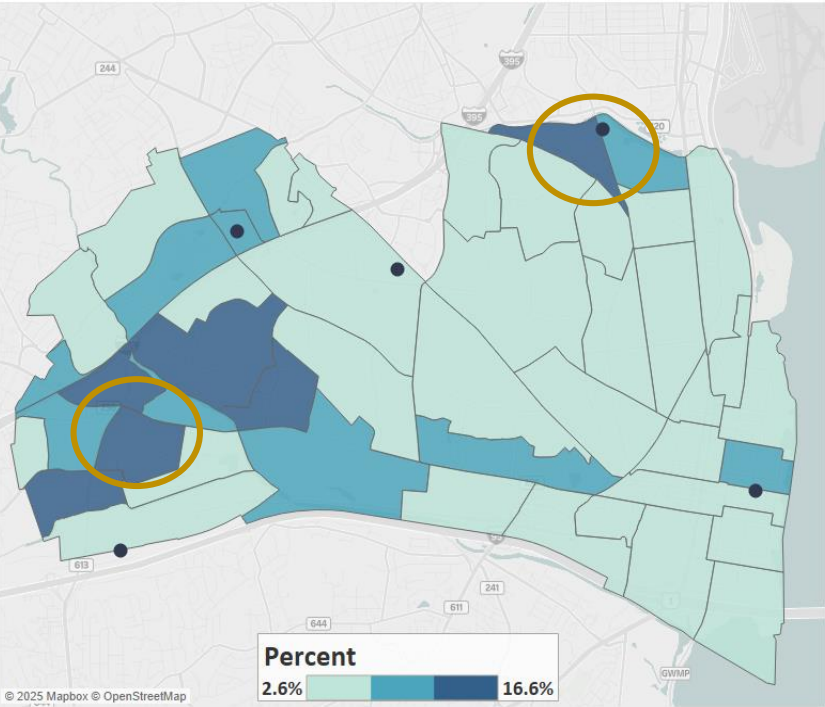

Percent Living Below Poverty Level

Temperature Hot Spots

All teeth lost among adults aged  $\geq 65$  years

What would most  
improve your  
community's health?

**22311**

1. Safe, healthy, affordable housing
2. Public safety
3. Access to healthcare

**22312**

1. Safe, healthy, affordable housing
2. Support for children, youth, and families
3. Job opportunities

**22302**

1. Safe, healthy, affordable housing
2. Access to mental health and substance use services
3. Access to healthcare

**22305**

1. Safe, healthy, affordable housing
2. Access to healthcare
3. Support for children, youth, and families

**22301**

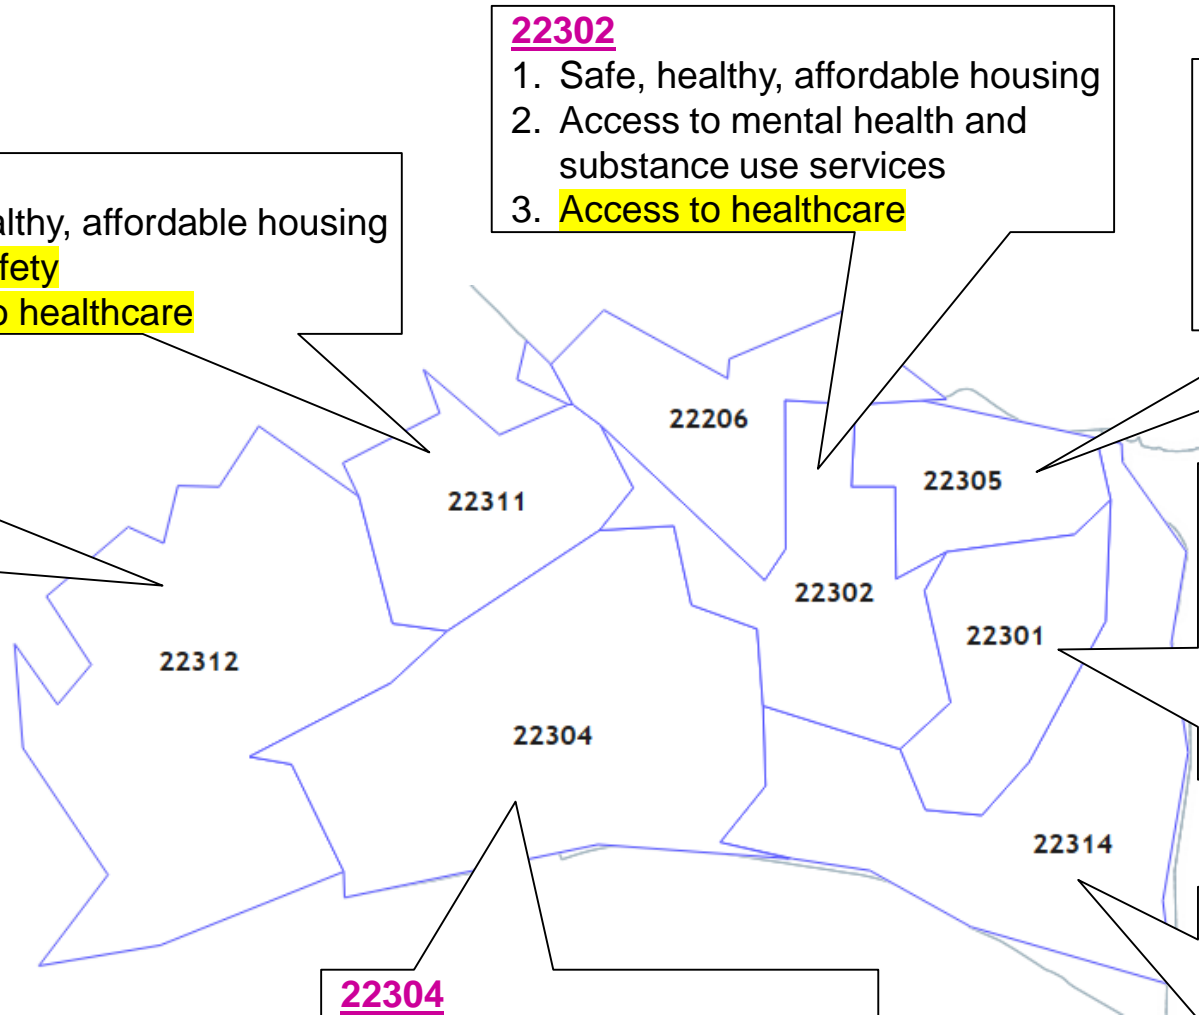

1. Safe, healthy, affordable housing
2. Access to mental health and substance use services
3. Support for children, youth, and families

**22314**

1. Safe, healthy, affordable housing
2. Access to mental health and substance use services
3. Support for children, youth, and families

**22304**

1. Safe, healthy, affordable housing
2. Support for children, youth, and families
3. Access to healthcare

What are your  
community's greatest  
strengths?

**22311**

1. Educational opportunities
2. Diversity of the community
3. A good place for children, youth, and families to live

1. Diversity of the community
2. Opportunities to be involved in the community
3. Educational opportunities

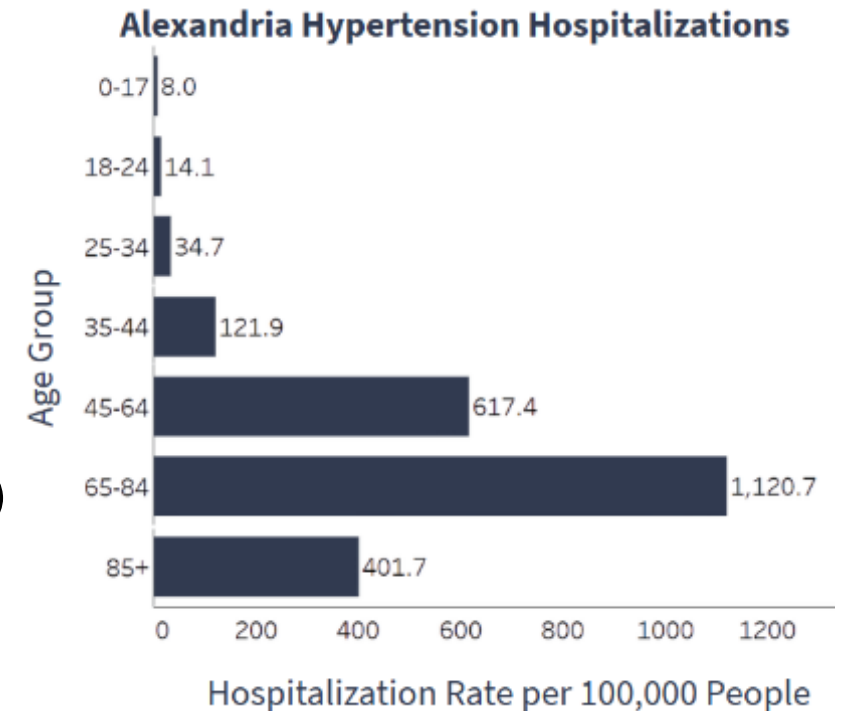

# Community Conditions Drive Outcomes

In Arlandria, one in four residents do not have health insurance.

African Americans (1964.6 per 100,000 population) are hospitalized for diabetes at more than twice the overall rate (976.8) in Alexandria.

Among LGBTQIA+ 10th and 12th grade Youth Risk Behavior Survey respondents:

- Half felt sad or hopeless (2x straight/heterosexual population)
- One in ten (3x straight/heterosexual population) have attempted suicide

An aerial photograph of a city, likely Boston, showing a dense urban area with numerous buildings and a large body of water in the foreground. A prominent white title is overlaid on the image.

# Making Meaningful Change

---

July 2025

# Current Path to Better Health

## CHIP PROGRESS SUMMARY

Overview of tactic progress made within the CHIP.

- Current 5-year Community Health Improvement Plan ends after December 2025.
- Co-facilitated by AHD and the Partnership for a Healthier Alexandria.
- Novel shared-decision making model in partnership with residents.

### Lessons Learned:

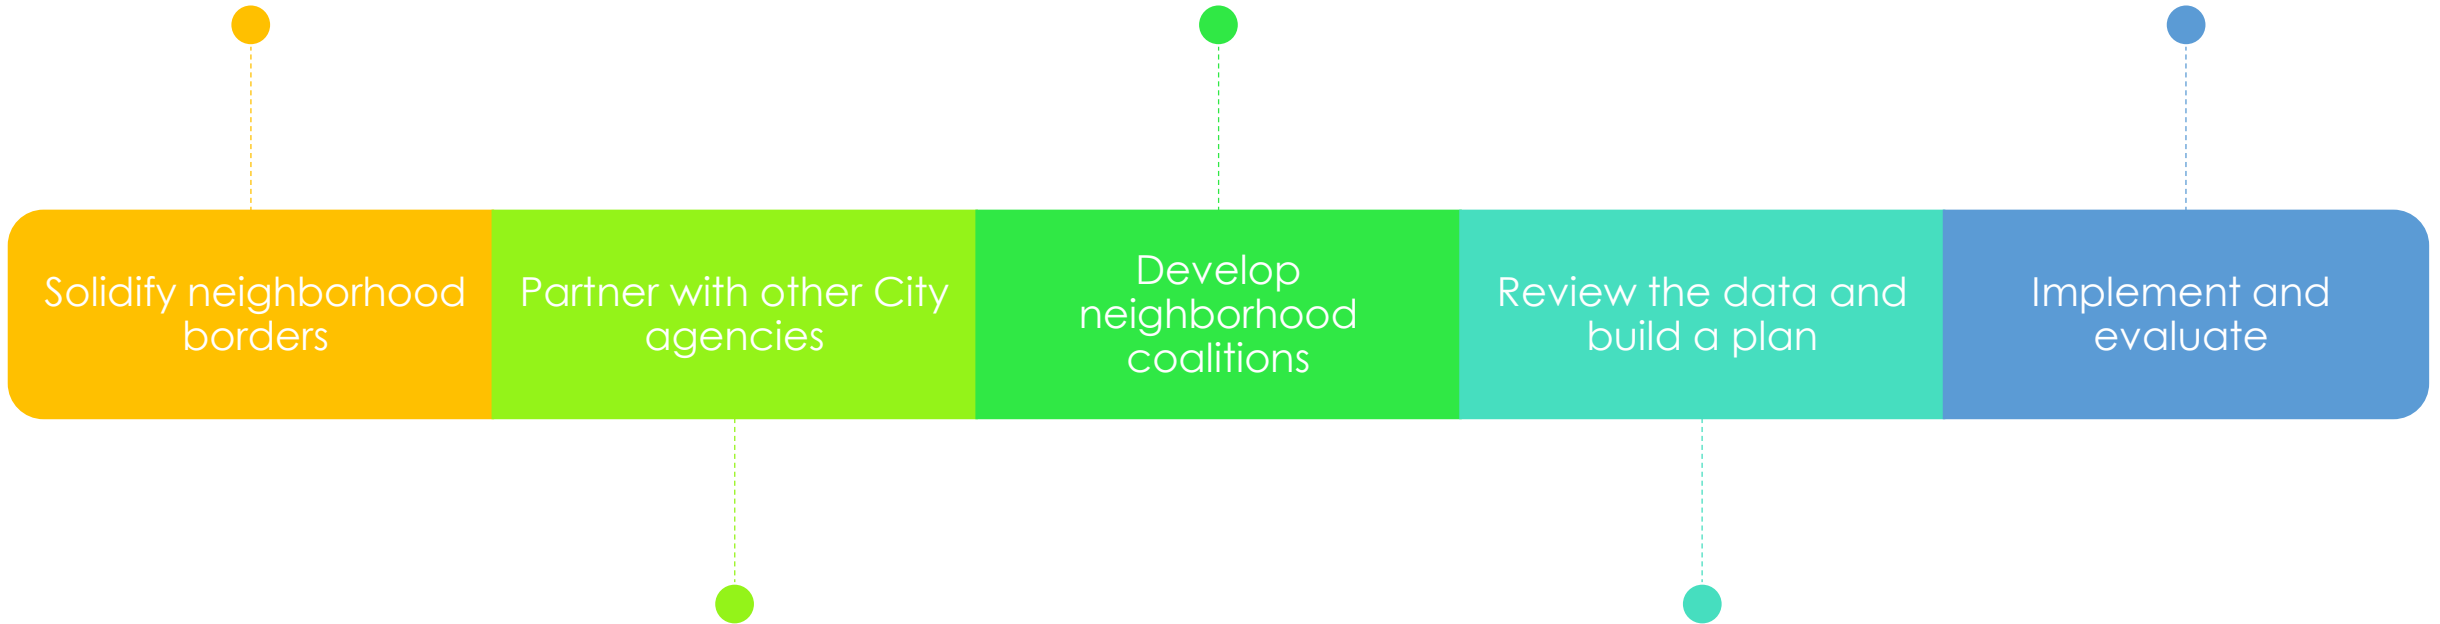

- We need more short-term measures in addition to the long-term outcomes.
- The more targeted and tangible, the more likely it will get done.

**The Opportunity is Clear:  
Support Residents Where They Are**

# Building on Relationships and Successes

CHIP 2020-2025 Citywide topics	CHIP 2026-2030 Place-based
3 citywide topic areas	1 citywide topic area, 2 neighborhood-level plans
Mental health, poverty, housing	Arlandria, Landmark/Van Dorn Corridor, citywide topic (mental health)
Topic workgroups developed, then tactic owners implemented	Neighborhood coalitions that build and implement the plan
Monitoring and evaluation every 6 months	Ongoing tracking for specific short/medium/long-term outcomes
Aligned with other City agency efforts (Housing Master Plan, Children and Youth Community Plan, etc.)	Helps coordinate place-based City agency efforts for streamlined engagement and service delivery

# Roadmap

# Policy Questions

- What do we need to do to align this model with existing place-based efforts?
  - Not as extra work—as resident and data-driven shifts in service delivery and resource allocation
  - To reduce survey fatigue across the community and streamline engagement
- How do you envision this effort could help inform future policy decisions and budgeting?
- How does Council want to be engaged in this work?
  - What about the progress regarding this work?
  - Are there suggestions to support other engagements by city staff?
