Attachments: Highlighted COA Comments on Draft City Strategic Plan (2) (1).doc

Jacquie, this is what I sent to the Council. They all received the comments on the City's Strategic Plan, so if that's all you need, you are all set.

Jane

Subject: Aging and the City's Proposed Strategic Plan
To: "delpepper@aol.com" <delpepper@aol.com>, Timothy Lovain <timothy.lovain@alexandriava.gov>, John Chapman <john.taylor.chapman@alexandriava.gov>, Paul Smedberg <Paul.Smedberg@alexandriava.gov>, Justin Wilson <justin.wilson@alexandriava.gov>

Dear Vice-Mayor and City Council Members,

In December, comments were sent to staff, on behalf of the Commission on Aging, to address goals that the Commission believes should be included in the city's plan. Staff apparently determined not to include many of them.

I am forwarding a copy of our comments, and we have highlighted those that are particularly important.

We hope that you will consider including our recommendations in the city's plan.

I have also contacted the mayor with this request.

Thank you so much for your consideration and support for Alexandria's older residents.

Jane King

Commission on Aging Response to the Draft Vision for Community Input for the City's Strategic Plan

The Commission on Aging has reviewed the Draft Vision available on the Engage Alexandria website, and approved the recommendations cited below (and in accordance with the categories specified in the Vision) at its meeting on December 8, 2016.

While the draft Vision has some excellent proposals, more specific recommendations regarding the needs of older residents are essential. While “The Alexandria of Our Future, A Livable Community for All Ages: Strategic Plan on Aging, 2013 – 2017” successfully focused the city on the steps it should take to make Alexandria a more livable community for all ages, serious gaps still exist. A further complication of the Vision for 2022 in referencing the current Aging Plan is its five-year span, which ends in 2017.

In late spring of this year, the Mayor and City Council authorized the City, at the request of the Commission on Aging, to join the AARP/WHO Age-Friendly Community Network (AFCN). A condition of membership is submission of a plan for enhancing Alexandria's age friendliness for consideration by AARP/WHO by early 2018. (The City has complete flexibility in determining its priorities, but AARP/WHO will review the involvement of older adults in developing the plan and the establishment of appropriate indicators for assessing progress.)

Its membership in the AFCN gives the city a great opportunity to develop a plan that would encompass the years 2018 to 2020. Membership in the Network affords the city the abundant planning resources and innovative ideas available through AARP/WHO.

The Commission on Aging is responsible for developing the plan, in consultation with older residents, the Division of Aging and Adult Services, City agencies, organizations that serve seniors, the faith community, non-profit organizations, businesses and others. The City Council will review the plan and determine its readiness for submission to AARP/WHO.

Given the absence of an aging plan that conforms with the timeframe of the City's Strategic Plan, the Commission recommends that the City's plan include an eleventh theme that could be called “active and secure aging”. The benefit for the City's strategic planning would be its attention to the livability requirements of older adults and adult residents with disabilities. Though their needs often are similar to those of younger residents, it is very important that the consequences of aging and adult disability are taken into account as communities engage in planning for all of their residents. Increased longevity is a boon, but protecting its benefits requires communities to offer appropriate affordable, accessible and rent-supported housing; varied transportation options; community-based services; robust communications about available services and programs; continued involvement by residents in social and civic life; excellent health care, including preventive services and attention to chronic conditions; opportunities for wellness; and safety.

The following are our recommended additions (in blue) to the Draft City Strategic Plan:

Inclusive City (Aging Plan referenced)

In 2022, Alexandria is a caring, compassionate, fair, just and equitable city that supports an affordable and livable community for all. Alexandria provides high-quality social services to eligible residents to reduce poverty and increase self-sufficiency. The City is welcoming to people in all stages of life and **is known as an age-friendly community**. The City has closed the broadband gap by ensuring quality access

Key Indicators to Achieve by 2022:

- Reduce the percentage of low- and moderate-income households considered to be housing cost burdened from 2015's 67%.
 - Increase the percentage of residents who do not perceive barriers to living in Alexandria based on age, gender, race, national origin, religion, disability, or sexual orientation from 2016's 80%.
 - Reduce the percentage of residents living in poverty from 2014's 9.6%.
 - Maintain the unemployment rate below the regional, state and federal unemployment rate.
 - Reduce homelessness from 224 persons in 2016 to 208.
-
- **Increase Alexandria's net stock of affordable and accessible housing and assisted living units;**
 - **Educate residents and managers of Naturally Occurring Retirement Communities about public and private supportive services that can be accessed locally and provided onsite;**
 - **Support through the development process "housing for a lifetime" features in both new housing and redevelopment of existing housing;**
 - **Assess and increase if necessary the City Tax and Rent Relief Programs for the Elderly and Disabled.**

Safe and Resilient Community (Aging Plan referenced)

In 2022, Alexandria residents and visitors feel safe at all hours. If they require help, the response from well-trained staff is timely, courteous and professional. Preventable problems are avoided and the City takes a regional view of planning for safety and emergency response and recovery. **The community is resilient and prepared to handle emergencies and emerging risks**. Buildings in Alexandria are up to code to ensure they are structurally sound and safe.

Key Indicators to Achieve by 2022:

- Reduce the number of violent crimes from the 2015 rate of 209 incidents per 100,000.
- Reduce the response time for 90% of medical incidents from 6:52 (six minutes and fifty-two seconds) in 2016 to 6:30 (six minutes and thirty seconds).
- Reduce the response time for 90% of fire incidents from 6:57 (six minutes and

- fifty-seven seconds) in 2016 to 6:30 (six minutes and thirty seconds).
- Increase the percentage of residents who have a positive overall feeling of safety in Alexandria from 2016's 80%.
- Increase the City's Building Insurance Services Office rating from 82 out of 100 in 2016 to 85 out of 100.
- **Special needs populations within the city of Alexandria are defined and identified so that appropriate support is available to them in the event of an emergency.**
- **Provision of appropriate education of and services for special needs populations support them in time of emergency;**
- **The Office of Emergency Management assures the safety of special needs populations in cases of emergency.**

Flourishing Arts, Culture and Recreation

The City has a network of accessible parks and public open spaces that define neighborhoods and provide connections to local and regional open space systems and trails. Alexandria's parks will be a combination of active and passive open spaces and are intended to integrate historical interpretive elements and public art. The design of these spaces will create and enhance active public gathering places for neighborhood performances, concerts, and cultural activities.

Key Indicators to Achieve by 2022:

- Maintain the percentage of residents satisfied with opportunities to attend arts, culture, and music activities at or above 2016's 74%.
- Maintain the 2015 rate of 7.3 acres of open space per 1,000 residents.
- Increase the percentage of Alexandria households participating in recreation programs from 2016's 52%.
- **Provide additional recreation opportunities for older residents.**
- **Provide accessible community spaces where older adults, those with disabilities and others can safely convene/drop-in to meet others, not just for recreational or organized programs.**

Strong Economy

In 2022, Alexandria is a business destination and center of innovation. Mixed-use development is oriented around transit hubs and activity centers. Alexandria's business community is diverse and robust, and the historic district attracts visitors that contribute to the tax base.

Key Indicators to Achieve by 2022:

- Increase the local gross domestic product from \$11.1 billion in 2015 to \$12.3 billion.
- Reduce the office vacancy rate from 15.6% in 2015 to 12.4%.
- Increase the number of jobs in Alexandria from 106,238 in 2015 to 113,850.

- **Support increased availability of help for older and disabled residents seeking part- or full-time work (particularly important, given fixed incomes and rising living costs);**

Healthy Residents (Aging Plan referenced)

In 2022, Alexandria ensures equal and ready access to opportunities that promote mental and physical well-being, and a happy, active lifestyle. Alexandria will work to reduce inequities in the health system, increase access to care for all residents and provide a system of support for residents with behavioral health needs.

Key Indicators to Achieve by 2022:

- Increase the percentage of residents who feel they are in very good or excellent health from 2016's 73%.
- Increase the percentage of clients who improve functioning after receiving emergency services from 2016's 90%.
- Reduce obesity among city residents from 16% in 2013-2014 to 13%.
- **Include provision for a locally funded nursing case management program for older City residents, including residents in subsidized housing;**
- **Work with the Partnership for a Healthier Alexandria to identify additional methods for reaching older adults who may be eligible for additional health interventions;**
- **Develop intergenerational events or programs to provide this important information to older adults, residents with disabilities and all family members;**
- **Provide intergenerational service locations and programs that bring together people of various ages and abilities;**
- **Enhance education, services, and respite care for family members providing care for children, adults, and parents with health and/or mental health problems;**
- **Include needs of those with disabilities;**
- **Plan for accommodating needs of those with dementia;**
- **Inform and support caregivers, to include those in minority communities who may need assistance in understanding what is available to older family members.**

Multimodal Transportation (Aging Plan referenced)

In 2022, Alexandria is regionally linked and easy to navigate regardless of resources or ability. The City supports a wide variety of connected transportation options that enable access to daily activities. Public transportation has reliable and frequent service that is clearly communicated and understood.

- Increase the percentage of commuters using alternative transportation options from 37% in 2013 to 40%.

- Reduce the number of traffic crashes from 1,440 crashes in 2015 to 1,400 crashes.
 - Reduce the number of traffic crashes that result in fatalities and severe injuries.
 - Maintain the percentage of residents with a positive view of the overall ease of getting to places they usually visit at or above 2016's 73%.
 - Increase Alexandria's Pavement Condition Index rating from 58 out of 100 (fair) in 2016 to 71 out of 100 (satisfactory).
 - Reduce the number of pedestrians and bicycles struck by vehicles.
- Implement Complete Streets design standards that provide safe and accessible streets for all users and prioritize pedestrians. This strategy should include the elimination of brick or paver sidewalk surfaces in areas of new development or redevelopment.
 - Approve Vision Zero as a means of achieving the goals of a multi-modal transportation system.
 - Improve the total fixed route transit system to include the waiting area, customer service provided by operators, enforcement of priority seating, security and accessibility, and accessibility of paths of travel to and from transit stops.
 - Provide public information on transit safety and security as a means of assuring real and perceived safety concerns are addressed at passenger waiting areas and on board transit vehicles.
 - In order to insure accessibility of multi-modal transportation, a centralized information system should be developed that can be accessed by people needing information on applicable mobility resources for them.

The Commission on Aging is also very concerned about the need for more attention to racial and ethnic minority and LGBT communities to inform them about the health and community-based services available in the City. Too frequently these communities experience disparities in health that should be addressed. The Commission, with the support of AARP, expects to hold listening sessions in these communities.

In summary, the Commission on Aging urges the City Council to specifically include "active and secure aging" as an eleventh theme in the City's Strategic Plan. Should it be preferable, because the Council will review and approve the Age-Friendly Community Plan prior to its submission to AARP/WHO, the City's Strategic Plan could simply reference it for incorporation when the AFCN Plan is approved.

City of Alexandria, Virginia

MEMORANDUM

DATE: JANUARY 24, 2017
TO: JUSTIN M. WILSON, VICE MAYOR
FROM: MARK B. JINKS, CITY MANAGER *m/j*
SUBJECT: QUESTIONS AND COMMENTS ON THE
PROPOSED FY 2017-FY 2022 CITY STRATEGIC PLAN

Prior to the City Council Legislative Meeting on January 24, 2017, you sent to the City Manager ideas to consider incorporating into the Proposed FY 2017-FY 2022 City Strategic Plan. Staff have reviewed these ideas and provided comments and suggested language to consider if Council wishes to amend the Proposed Strategic Plan after holding the Public Hearing this coming Saturday. (Attachment1)

Your comments focused on the City Strategic Plan's action items. Please note, action items were developed intentionally to be a high-level list highlighting major staff work adopted by City Council. They are not intended nor do they represent all of the work that staff is doing in these themes because representing everything would become overly detailed.

Attachment 1

cc: The Honorable Mayor and Members of City Council

Attachment 1. Vice Mayor Wilson's Ideas to Incorporate into the FY2017 -FY 2022 City Strategic Plan with Staff Comments (bold and italic)

Under "Inclusive City"

1) There are no actions around the "closing the broadband gap" language. Seems as though we have many actions we can list, and I would probably list one under the "Strong Economy" section.

Action items to consider adding are:

- ***"The City intends to close the broadband gap by ensuring quality access to all residents by forming a public-private partnership with broadband service providers to utilize the City's available spare conduit infrastructure"***
- ***"Deploy a fiber optic infrastructure for the City Government"***

2) I think the actions we have listed only touch on a portion of the housing affordability issue. Did staff look at any actions to include around the impact of our land-use actions on affordability. Not sure how to phrase that.

One action item to consider adding is: ***"Develop strategies and identify resources to preserve existing committed affordable units."*** However, please note, we do not have in any staff work program a broad analysis of the impact of land use controls on affordability.

Under "Well Managed Government"

1) Why are there no actions around our City facility work? We should probably add the on-going Strategic Facilities Planning, and add that plan to the list of plans referenced.

One action item to consider adding is: ***"The City will develop a citywide Strategic Facilities Master Plan"***

Under "Safe & Resilient"

1) Under actions, it says that we are implementing the IACP Staffing Study. I believe we just accepted it, and we still have a lot of analysis to go to determine which portions we will implement and how. I think it's premature to say we will completely implement it?

The action item could be updated to read: ***"Continue to analyze, prioritize, and determine areas to implement from the IACP Staffing Study"***

2) There is no reference to the Fire Station Study, that I believe is in the process of concluding. It seems as though that should be referenced as a broader action, versus the analysis of Fire Station 205 on its own.

The action item could be updated to read: ***"Complete the Fire Station location analysis to identify the impact of relocating or replacing stations throughout the City"***

Attachment 1. Vice Mayor Wilson's Ideas to Incorporate into the FY2017 -FY 2022 City Strategic Plan with Staff Comments (bold and italic)

3) Why haven't we included any actions around the on-going dual-mode provider implementation within the Fire Department?

One action item to consider adding is: ***“Continue the Fire Department’s fire and medical dual role provider implementation”***

Under "Flourishing Arts"

1) It seems as though we need an action around our efforts for recreation. If we're going to increase participation, how?

An action item to consider adding is: ***“Twenty percent of the recreation programs offered are new each registration session.” Please note, this is an industry benchmark that staff are tracking now.***

Under "Strong Economy"

1) Not listing actions around Landmark Mall redevelopment in this section seems like a major omission.

An action item to consider adding is: ***“In conjunction with the owner/developer facilitate the redevelopment of the Landmark Mall site.”***

Under "Thriving Children and Youth"

1) I think we need an action around early education, and probably after-school.

Two action items to consider adding are:

- ***“Continue implementation of the Early Care and Education Work Group’s “Common Agenda” for early care and education.”***
- ***Complete analysis and begin development of citywide afterschool programs including Alexandria City Public Schools”***

2) Those are pretty dramatic decreases in Teen Pregnancy. If we're going to include those types of reductions, it seems as though we would need more aggressive actions. Same issue for infant mortality.

Action items to consider adding are:

Teen Pregnancy

- ***“Encourage delayed onset of sexual activity through outreach and education”***
- ***“Increase access to family planning services”***
- ***“Increase use of highly effective contraceptives”***

Attachment 1. Vice Mayor Wilson's Ideas to Incorporate into the FY2017 -FY 2022 City Strategic Plan with Staff Comments (bold and italic)

Infant Mortality

- ***“Expand OB-Prenatal care to Teen Wellness Center (to reduce access barrier)”***
- ***“Increase participation by vulnerable pregnant women and infants in AHD Baby Care case management”***
- ***“Expand outreach of WIC Nutrition Prevention services to vulnerable pregnant women, infants and young children”***

Under "Environmental Sustainability"

1) We don't really have any actions listed that will help increase tree canopy. Perhaps some language around how we use the redevelopment process to do so?

An action item to consider is: ***“Maintain proactive maintenance of street trees on a five-year cycle.” “Develop and implement new landscape guidelines.***

2) I think we should have an indicator around our green building progress. Perhaps percentage of new development meeting a specific LEED level, or equivalent?

The City Strategic Plan includes a comprehensive indicator, citywide greenhouse gas emissions, which is inclusive of the impacts of the city's green building progress. Because of this, staff suggest considering as a supporting indicator ***“the percentage of new development meeting green building guidelines”***, which the City currently tracks.

Under "Multimodal Transportation"

1) I think we need to include an action around our Transportation Management Plan/Demand Management work.

A refinement to consider is to update the action item: ***“implement adaptive traffic management initiative” to include “that enhances safety and accessibility for multimodal transportation.”***

RE: DRAFT 2022 City Strategic Plan

Dear All:

All the best to you Karl, Radhika, and Greg as you prepare to brief the Draft Plan to the City Council on Tuesday, January 24, 2017. If able, all or most of our group members will attend. Also, please know we appreciate the email notification sent by Radhika dated January 19th informing our group of the recent website posting of the updated version of the referenced strategic plan.

Instead of asking more questions about the Plan, we would like to share a few comments about our joint endeavor to prepare “*a Plan to guide the City and community toward a future we [Alexandrians] collectively envision*”. *Firstly*, we appreciate all your work that has gone into preparing this thoughtful draft. *Secondly*, we are delighted to see the addition of the quantifiable action items for FY 2018. We presume the Plan’s action items will be updated to reflect the appropriate fiscal year respectively - FY 2019, FY2020, FY 2021 and FY2022. *Thirdly*, while we did not see any clear reference nor response to our group’s letter submissions/input of August 11, 2016 and November 29 2016 in any of the related materials marked “community input”; we hope it will be added, especially with regards to the following:

- a. Suggestion that the Plan include the City’s Values since the City Council made a point of stressing this in their November 19, 2016 Press Release Statement on Inclusion and Core Values;
- b. Suggestion that the Plan also include a glossary of terms as was done in the case of the City’s 2030 Environmental Action Plan. Our rationale for including a glossary is self-explanatory given a real need to ensure the Plan is understandable to all Alexandrians.
- c. Suggestion that the less impactful description of the City in the revised vision statement be changed with the hope your office and/or the City Council are open to distinguishing Alexandria as a “historically preserved kind compassionate inclusive City ... not as a relic but with a purpose.

Please know we, the undersigned, appreciate the opportunity to engage and collaborate with you. Moreover, as mentioned previously, we look forward to scheduled updates highlighting achievements in all key indicators/action items that are not only quantifiable (meaning measurable) but verifiable. Our contact persons for this endeavor remain unchanged.

Respectfully submitted,

Amy Jackson, Bert Ely, Carter Flemming, David Olinger, Elliott Waters, Jack Sullivan, Katy Cannady, Mimi Goff, Siegfried (Sieg) Schencinski

4. Safe and Resilient Community
 In 2022, Alexandria residents and visitors feel safe at all hours. If they require help, the response from well-trained staff is timely, courteous and professional. Preventable problems are avoided and the City takes a regional view of planning for safety and emergency response and recovery. The community is resilient and prepared to handle emergencies and emerging risks. Buildings in Alexandria are up to code to ensure they are structurally sound and safe.

Safe and Resilient Community
 In 2022, Alexandria residents, workers, and visitors feel safe at all hours. If they require help, the response from well-trained staff is timely, courteous and professional. Preventable problems are avoided, and City government takes a regional view of planning for safety and emergency response and recovery. The community is resilient and prepared to handle emergencies and emerging risks, including providing support to residents with special needs during emergencies. Buildings in Alexandria are up to code to ensure they are structurally sound and safe.

- Key Indicators to Achieve by 2022:**
- Reduce the number of violent crimes from the 2015 rate of 209 incidents per 100,000.
 - Reduce the response time for 90% of medical incidents from 6:52 (six minutes and fifty-two seconds) in 2016 to 6:30 (six minutes and thirty seconds).
 - Reduce the response time for 90% of fire incidents from 6:57 (six minutes and fifty-seven seconds) in 2016 to 6:30 (six minutes and thirty seconds).
 - Increase the percentage of residents who have a positive overall feeling of safety in Alexandria from 2016's 80%.
 - Increase the City's Building Insurance Services Office

- Key Indicators to Achieve by 2022:**

OTHER SUGGESTED IMPROVEMENTS

Include Core Values of the City

<p>Suggestion: City Core Values referenced in letter below) <i>For Immediate Release: November 19, 2016</i> The members of the Alexandria City Council have issued the following statement on inclusiveness:</p> <p>Alexandria, Virginia, is a city of kindness and compassion.</p> <p>We are a thriving community of engaged residents with strong ideals of peace, community service, and both shared and diverse cultures.</p> <p>Our city declares itself to be a hate-free zone. We are an accepting and embracing community where we treat each other with human dignity and respect. There is no place for intolerance in our community. This is a core value of our city.</p> <p>In recent times, many of our neighbors, families and children have expressed fear and apprehension, and there has been an increase in hateful and dangerous speech and acts nationwide. Recognizing everyone's First Amendment right to freedom of speech, we are also dedicated to freedom from fear.</p> <p>People of diverse culture, race, color, nationality, gender, age, sexual orientation, gender identity, and persons with disabilities live and work together in Alexandria and bring pride and prosperity to our community.</p> <p>On behalf of the City of Alexandria, the Alexandria Human Rights Commission, and the people we serve, we reaffirm our responsibility to ensure that each person within our jurisdiction is accorded equal protection under the law, including the rights enshrined in the Constitution of the United States and the Virginia Constitution, and those set</p>	<p>Adding core values informs residents and gives clarity to this vital matter <i>Rationale: Clarifies what the City values and informs its actions/decisions</i></p>	<p>Not addressed</p>
---	--	-----------------------------

forth in the Alexandria Human Rights Code.

We proclaim that we remain committed to diversity and to fostering an atmosphere of inclusiveness that respects the dignity and worth of every person without regard to race, color, sex, religion, ancestry, national origin, immigration status, marital status, age, disability, sexual orientation, gender identity, or familial status, and we declare that we denounce hate speech, hate crimes, harassment, racial bias, anti-Semitism, Islamophobia, anti-immigrant activity, and harmful bias and discrimination in all forms.

Mayor Allison Silberberg
 Vice Mayor Justin Wilson
 Councilmember Willie F. Bailey Sr.
 Councilmember John T. Chapman
 Councilmember Timothy B. Lovain
 Councilmember Redella S. "Del" Pepper
 Councilmember Paul C. Smedberg

Include Glossary of Strategic Planning Terms

Define Terms
 (as was done in City's 2030 Environmental Action Plan)

Improvements: Include list of definitions provided staff on different occasions. *The glossary will help enhance the reader's understanding of term distinctions such as infill and landfill as well as neighborhoods and communities. It will also help facilitate timely and meaningful dialogue/collaboration.*

Not addressed

Glossary of strategic planning terms
 (recommend undefined terms be defined by staff proponent)

Action plan: A detailed description of the strategies and steps used to implement a strategic plan.

Baseline: Base level of previous or current performance that can be used to set improvement goals and provide a basis for assessing future progress.

Benchmarking: Gathering information about model efforts or best practices by other organizations engaged in similar endeavors to help establish project targets and goals.

Buy-in: Obtaining agreement from key stakeholders that the proposed plan is acceptable.

Capacity building: The development of an organization's core skills and capabilities, such as leadership, management, finance and fund-raising, programs and evaluation, in order to build the organization's effectiveness and sustainability. The process of assisting an individual or group to identify and address issues and gain the insights, knowledge, and experience needed to solve problems and implement change.

Capacity building is facilitated through the provision of technical support activities, including coaching, training, specific technical assistance, and resource networking.

Capital: Assets that are available for on-going business needs to produce income.

Capital improvement: Addition to an organization's fixed assets.

is the Improvement result from an outlay of funds over a specific and finite period of time that results in a permanent addition to an organization's fixed assets.

Capital plan: A plan for maintaining assets to continue programs.

Case study: A study containing qualitative data (such as observations and information drawn from interviews) about one subject. These studies are typically based on what is termed anecdotal evidence. A series of case studies can provide useful information that something of significance is happening that may merit further study.

Civic association:

Civic engagement:

Client: Anyone whose interests are served by an organization, or who receives or uses an organization's resources or services. Clients can be internal to an organization, for example one department may be the client of another department, or external to the organization.

Collaboration: To work together sharing ideas and resources, especially in a joint intellectual effort.

Compensation: Money or another item of value given or received as payment or reparation for a service or loss.

Community:

Constituency: A group served by an organization or institution; a clientele.

Corporation: A group of individuals legally empowered to transact business as one body.

Cost-benefit: A management tool that involves calculating or estimating analysis the monetary costs and potential benefits of a proposed course of action.

Crosswalk: A research tool used to guide analysis and reporting, particularly when there are multiple data sources. A crosswalk does not present any of the findings or results, just the types of information that has been gathered from the different data sources.

Cultural: A set of values, behaviors, attitudes, and practices which competence enable people to work effectively across racial/ethnic and cultural lines.

Demographics: The characteristics of human populations and population segments, especially when used to identify consumer markets.

Descriptive statistics: Numbers that describe or summarize information about a sample. Three basic descriptive statistics (generally known as measures of central tendencies), are the mode, median, and mean. The mode is the number, item, score or other value that occurs most often. It is the most frequent occurrence in the sample. The median is the middle or midpoint of a distribution. Therefore, it is the number, item, score, or other value that has 50 percent of the others above and 50 percent of the values below it. The mean, perhaps the most often used measure of central tendency, is the average number, item, score, or other value in the distribution.

Distinct:

Diversity: Difference, distinctness, variety.

Dynamic: Information that is characterized by continuous change, information activity, or progress.

Empowerment: An evaluation approach that includes collaborative and evaluation training functions within a goal of the empowerment of management and program staff to continuously assure quality of services.

Evaluation: A study to determine the extent to which a program or project reached its goals.

External: Analysis of the elements or forces that affect the Assessment environment in which an organization functions—also called an “environmental scan.”

Facilitator: A person who makes it easier for other people to accomplish objectives by offering advice and assistance in solving problems, either with technical issues or with other people.

Feasibility: Capable of being accomplished or brought about; possible. Federal mandates: Any provision in a bill or joint resolution before Congress or Mandates in a proposed or final Federal regulation that would impose a duty that is enforceable by administrative, civil, or criminal penalty or by injunction (other than a condition of the bill or joint resolution or implementing regulation).

Fiscal: Related to finance or finances.

Focus group: A qualitative research process designed to elicit opinions, attitudes, beliefs, and perceptions from individuals to gain insights and information about a specific topic.

Gap analysis: The identification of the difference between the desired and current state.

Goal: A desired end result.

Grant: A giving of funds for a specific purpose.

Homeowner Association (HOA):

Impact evaluations: Evaluations that look specifically at whether or not the evaluation program achieved its goals and had its intended effect. An outcome or impact evaluation measures the final results of a program or initiative. (See also, Outcome Evaluation).

Inclusivity: Breadth in orientation or scope (frequently used in terms of broadness of culture and ethnicity).

Infill:

Inputs: The “nouns” of projects; the resources that are used to make the project happen (such as people and equipment).

Instrument: Research tool used to assess variables during an evaluation. Examples include surveys, questionnaires, telephone interview protocols, executive interview protocols, or focus group protocols.

Internal: Analysis of an organization’s position, performance, assessment problems, and potential.

Interview: A research process that obtains structured information from an individual or group of individuals, usually based upon an established set of questions and/or probes.

Jurisdiction: The limits or territory within which authority may be exercised.

Landfill:

Legislation: A proposed or enacted law or group of laws.

Limus test: A test that uses a single key indicator to prompt a decision.

Long range: 25 yrs? Based on Ed Facilities Plan Rpt

Mid range: 5-20 yrs? Based on Environmental Action Plan

Mission : A brief, comprehensive statement of purpose of an agency statement or program.

Monitoring: Assessing the inputs and activities of a project.

Multimodal transportation:

Needs assessment: A structured process to determine the needs of a designated survey field, i.e., individuals, an agency, a system, etc.

Neighborhood

Objectives: Specific and measurable targets for accomplishing goals.

Operating costs: The day-to-day expenses incurred in running an organization or project, as opposed to costs associated with production.

Operational definitions: Definitions for terms and research variables specific to one program or project; a definition used within a program or project. Research variables must be clearly defined. For example, if the term “recidivism” is being used in a study, it should be defined, such as “committing another criminal or juvenile offense.” How these variables are measured has a great impact on the success of the study. For example, is “committing another offense” measured by arrest data, conviction data, or interviews that may identify additional violations?

Outcomes: The long-term end goals that are influenced by the project, but that usually have other influences affecting them as well. Outcomes reflect the actual results achieved, as well as the impact or benefit, of a program.

Outcome evaluations: Evaluations that look specifically at whether or not the program achieved its goals and had its intended effect. What were the “outcomes” of this program? An outcome or impact evaluation measures the final results of a program or initiative (see also, Impact Evaluation).

Output: A type of performance measure that focuses on the level of activity in a particular program.

Performance measures: Tools or information used to measure results and ensure accountability.

Pilot study: A “scaled down” version of a major effort conducted before a larger study to test feasibility. For example, a pilot test might test proposed measurement instruments, hone the research methodology, or see if there is a preliminary basis for supporting the hypothesis.

Proactive: Acting in advance to deal with an expected difficulty.

Process: Investigates issues regarding the program’s current evaluation operations or the implementation of new initiatives. Questions most often focus on what the program does, who does it, and how it is done.

Project logic: A model that arrays the resources, activities and goals of a project to allow the relationships to be clearly viewed and understood.

Qualitative: Qualitative research is conducted in a more interpretive and research contextual fashion and goes beyond the “facts and figures” gathered by objective measures. Qualitative research attempts to measure the complexity of a given topic and often involves narrative responses to questions, rather than categorical responses.

Quantitative: Quantitative studies rely upon statistics and measures that research can be expressed numerically. In order to make valid inferences from quantitative research, certain rules need to be followed in terms of the research design and sampling methods.

Questionnaire: Written documents that contain a series of questions that are answered by respondents. Typically some form of objective response is required, such as “true-false” or numerical scales (for example, “1 to 5” rankings).

Quasi-experimental research design: These research designs are very typical in field research and program evaluations where, unlike true experimental designs, research subjects cannot be randomly assigned to their respective grouping in the study (for actual or ethical reasons).

Research questions: Questions that ask what variables can and will be manipulated and studied. For example, do restraining orders issued on stalkers reduce violence to victims? Does having a restraining order, the independent variable, result in a reduced likelihood of the stalker hurting the victim, the dependent variable? A research design is based on research questions.

Resource: The determination and allotment of resources or assets allocation necessary to carry out strategies and achieve objectives, within a priority framework.

Resource plan: Part of the definition statement stating how the program will be resource loaded and what supporting services, infrastructure, and third party services are required. Also, a component of the program definition statement stating how the program will be resourced, and specifying what supporting services, infrastructure and third party services are required.

Restitution: The act of restoring to the rightful owner something that has been taken away, lost, or surrendered.

Results: The “outputs” of the activities of a project, directly measurable and within the control and influence of the project.

Request for Proposal (RFP): A formal invitation containing a scope of work which seeks a formal response (proposal) describing both methodology and compensation to form the basis of a contract. An RFP is prepared by the customer to solicit proposals from potential providers.

Sample: Some smaller part of a larger population that is being studied. One of the key aspects of a sample is whether it is truly representative of the larger population. To be representative, the methods of drawing the sample are critical.

Service: The method used to provide services to a client delivery

Short range:

Strategic plan: A practical, action-oriented guide based on an examination of internal and external factors that directs goal-setting and resource allocation to achieve meaningful results over time.

Survey: A study where data are collected by way of questionnaires or interviews. Surveys can either be observational, if no intervention or treatment occurred, or can be used as pre-test and post-test measures before and after some intervention or treatment.

Sustainable community is an environmentally, economically, and socially healthy place where people can live, work, play and thrive for decades to come

Sustainability:

SWOT analysis: An abbreviation used to denote analysis of an organization’s internal Strengths and Weaknesses and external Opportunities and Threats. Also called an “internal/external assessment.”

Survey: The research tool used to conduct a survey—for example, an Instrument mailed questionnaire, a telephone script, etc.

Theme

Theme statement

Tracking systems: Systems set up to monitor progress, compile management information, and keep goals on track.

Underserved populations: Groups identified as potential clients who are not receiving the full extent of services an organization provides, often because of a history of exclusion due to race or ethnicity.

Unique identity:

Unserviced populations: Groups identified as potential clients who are not receiving any services an organization provides, often because of a history of exclusion due to race or ethnicity.

Urban village:

Values statement: A narrative description that outlines an organization’s beliefs and guiding principles.

Vision statement: A narrative description of a future state to help keep project teams focused. A concise statement of what needs to change, typically the promoter, sponsor, or leader’s “agenda.” A compelling, conceptual image of the desired future.

Source: See City’s 2030 Environmental Action Plan

Summary of Comments as of January 23, 2017

Community Input (less participation group’s)	The responses to the community input are a wonderful addition but there is no trace of our group’s input/participation in the civic engagement process with suggestions submitted in the form of letters and attachments. <i>Please include them along with responses.</i>
Vision Statement (less impactful)	In 2022, Alexandria is a historic, inclusive city of kindness... vs. historically preserved kind compassionate inclusive City
Glossary of terms (omitted)	Since definitions are included in the 2030 Environmental Action Plan to facilitate understanding on the part of the reader, it seems reasonable to expect that definitions would be included in the equally important 2022 Draft City Strategic Plan.

Subject: Call.Click.Connect. #112888: Mayor, Vice Mayor, City Council RE: 2017-2022 Alexandria City Strategic

Dear *Call.Click.Connect.* User

A request was just created using *Call.Click.Connect.* The request ID is 112888.

Request Details:

This is a "public" request. Information may be provided to anyone who requests it.

- Name: Elizabeth McCall
- Approximate Address: No Address Specified
- Phone Number: 703 519 1860
- Email: Elizabeth.McCall@comcast.net
- Service Type: Mayor, Vice Mayor, City Council
- Request Description: RE: 2017-2022 Alexandria City Strategic Plan (Jan 24 docket)

Dear Mayor Silberberg and Members of Council,

The Alexandria Archaeological Commission would like to comment on the City's draft Strategic Plan for 2017 -- 2022, which scheduled to be raised at the Council meeting of January 24, 2017. Because the latest draft was only posted to the website on the 17th, we did not have an opportunity to review it earlier. While the draft offers a far reaching vision for Alexandria, we find that the important role of historical and archaeological resources (from our museums to our evolving waterfront) is largely absent as a major contributing cultural element and economic driver in the plan. It also omits reference to The Waterfront History Plan among the existing City plans and policies. I am forwarding an annotated copy for your consideration, with some specific, modest and minimal suggestions to enhance the plan to include a few vital points:

1) Previous city strategic plans have treated historic preservation as a cornerstone in our goals and objectives for diverse and vibrant neighborhoods, to include the City's the archaeological code requirements. Our neighborhood identities are deeply rooted in special local and national history. We urge that such references be preserved and have noted places where it can be inserted again.

2) Alexandria's tourism is driven in a large part by our historical resources, and this will be increasingly true as we craft our waterfront in the coming years. Creating and implementing historical interpretation, based on the Waterfront History Plan you have already approved, is a core aspect of any major city strategic plan over the next several years -- as it will be major contributing factor to any economically sustainable waterfront as a source of visitor traffic and revenue. Furthermore, the discoveries along the waterfront, such as the ship and warehouse will be joined by a series of yet uncovered artifacts, all of which must be included in urgent practical planning for display as part of that interpretation of our maritime heritage. For these reasons, we ask that the Waterfront History Plan be included on the list of existing plans and policies, and that specific reference be made to waterfront interpretive planning and implementation.

3) OHA and Archaeology rely on grants for major, and growing, portions of their budget, and it is important that any strategic plan and planning documents include provision for history and archaeology as granting-making institutions require such specific documentation. The recent grants for the Reeder House and the ship conservation are excellent examples. For these reasons, we suggest the inclusion of references to historical resources, educational outreach, and life-long learning and have noted various places and appropriate language.

4) Our existing historic fabric and resources across the city, such as our museums and archaeological sites,

require maintenance and enhancement, not to mention the fabric the city has recently acquired, such as the Reeder House. The plan overlooks provisions for studying, evaluating and preserving this fabric, which is central to our cultural identity and education. We have suggested some language for insertion.

Thank you for your support and interest.

Elizabeth C. McCall
Chair, Alexandria Archaeological Commission
