2. **COMPLIANCE WITH BAR POLICIES:** All materials must comply with the BAR's adopted policies unless otherwise specifically approved.
3. **BUILDING PERMITS:** Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Department of Code Administration (including signs). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, Permit Center, 4850 Mark Center Drive, Suite 2015, 703-746-4200 for further information.
4. **ISSUANCE OF CERTIFICATES OF APPROPRIATENESS AND PERMITS TO DEMOLISH:** Applicants must obtain a copy of the Certificate of Appropriateness or Permit to Demolish PRIOR to applying for a building permit. ## **I. APPLICANT'S PROPOSAL**

The applicant requests a Certificate of Appropriateness for alterations to retain a steel five-panel door, at 229 North Alfred Street. The steel door was installed on the east façade on April 30, 2025, without Board or staff approval. Staff notes that the door doesn't comply with the Board's *Design Guidelines*. The policy states that replacement doors on buildings, or portions of buildings, constructed prior to 1932 should be wood when located on street-facing elevations.

## **II. HISTORY**

The four-bay, two-story Federal style frame house was constructed prior to **1885**, when it first appears on Sanborn Fire Insurance Maps.

### *Previous BAR Approvals*

No prior approvals.

## **III. ANALYSIS**

The *Design Guidelines* states that exterior doors are prominent visual elements of a building's main façade and are highly visible to pedestrians when buildings are adjacent to the sidewalk. The design, material and doorway are all important architectural features. Additionally, doors on the street-facing side of early buildings should be made of wood and appropriate to the architectural style of the structure and not detract from it.

Photo 1: Door installed without approval.

Photo 2: Exterior Door prior to April 2025.

The installed steel colonial-revival style door is not architecturally appropriate and doesn't comply with the *Design Guidelines*. The applicant should install a wood six-panel door that complies with the Board's guidelines and policies. Staff recommends denial of the after-the-fact approval.
