WHY VERSATEX?

Innovative, practical solutions for a sustainable future.

VERSATEX Building Products are manufactured from cellular PVC, which is impervious to insects and moisture and capable of below-grade installation. Our product formula ensures VERSATEX maintains its bright white color and is dense enough to use the same cutting tools & fasteners one would with a traditional product. These factors and more create an ideal solution for moisture-sensitive areas, including those along coastal zones or regions affected by salt and high humidity.

Warping, fading, cupping, or splitting is now a thing of the past – just a building product with high aesthetic value backed by an industry-best, lifetime, fully transferable, non-prorated warranty.

A big "thank you" to the builders whose craftsmanship is featured in this brochure.

Note: Sikagard FlexCoat ATC is the top coat that is designed and tested as a component for the Sikagard FlexCoat system.

The final cured color of the actual product may vary. Use actual cured product for color matching.

Prior to each use of any Sika product, the user must always read and follow the warnings and instructions on the product's most current Technical Data Sheet, product label and Material Safety Data Sheet which are available online at www.sikaconstruction.com or by calling Sika's Technical Service Department at 800-933-7452.

Nothing contained in any Sika materials relieves the user of the obligation to read and follow the warnings and instruction for each Sika product as set forth in the current Technical Data Sheet, product label and Material Safety Data Sheet prior to product use.
