Statement of Interest (Do not include personal information such as phone numbers, addresses, emails, etc.)
I am seeking appointment to the Alexandria Housing Affordability Advisory Committee because I am deeply committed to advancing equitable, sustainable, and accessible housing opportunities for all Alexandria residents. As a City employee in the Department of General Services and a long-time resident, I have a strong appreciation for the City's mission, the importance of effective policy, and the role housing plays in overall community well-being. I recently completed the Metropolitan Washington Council of Governments' Institute for Regional Excellence program, where my capstone project focused on affordable housing challenges and regional strategies across the DMV. This work strengthened my understanding of the complexities of housing policy, funding mechanisms, and cross-jurisdictional coordination, and it reinforced my belief that stable housing is foundational to individual and community success. My professional background in human resources, organizational effectiveness, and policy implementation has equipped me with a collaborative, systems-focused approach to problem-solving. I am passionate about contributing to efforts that expand opportunity, reduce barriers, and support the long-term stability of Alexandria families. Serving on AHAAC would allow me to bring a balanced perspective, thoughtful analysis, and a commitment to equity as the Committee advises City Council on housing priorities and trust fund stewardship. Thank you for considering my application. I welcome the opportunity to contribute to this important work.

Statement of Interest (Do not include personal information such as phone numbers, addresses, emails, etc.)

Statement of Interest To the Honorable Members of the Alexandria City Council, I am a sophomore student at Alexandria City High School, and I am writing this letter seeking appointment to the Children, Youth, and Families Collaborative Commission. I am highly interested in advancing equity, amplifying youth voices, and strengthening the well-being of all children and families in Alexandria, Virginia. I strongly believe that it is imperative that every young person in Alexandria; irrespective of race or socioeconomic status, deserves equitable access to opportunities, resources, and support systems that set them up for success. I am eager to utilize my experiences to contribute to a commission whose mission aligns closely with my values and long-term goals. I am especially interested in the Commission's potent research-driven approach to analyzing and identifying needs and designing solutions. Intellectually, I am motivated by data collection and evidence-based analysis. I also welcome the opportunity to help look closely at disparities and elevate underrepresented voices in Alexandria. This allows for strategies that promote underlying systemic improvements. Engaging in meaningful and community centered research is highly compelling to my personal and academic interests. In addition to my deep passion for research, I believe that I bring a strong work ethic and leadership role from my work in the Student Government Association at Alexandria City High School. As Vice President of the Sophomore Class, I have acquired strong organizational skills, efficient communication abilities, and the capacity to advocate effectively on behalf of my peers. More specifically, I help organize fundraisers for our class and voice my peers’ concerns to administrators. Furthermore, I serve as a social media coordinator for both my school's AVD program and student government. In this, I have developed a strong proficiency in digital communication and community outreach. These experiences have enhanced my ability to convey information clearly and engage diverse audiences. As a first-generation African American woman, I believe I bring a unique and invaluable perspective molded by lived experiences and an understanding of the many challenges faced by students and families who face systemic barriers. I hope to bring to the Children's, Youth, and Families Collaborative Commission a combination of leadership, curiosity, and excellent communication skills. I am confident that my dedication to the improvement of Alexandria residents' equal access to sources will enable me to contribute with purpose and responsibility as a board member of this commission. Thank you for your consideration. Sincerely, Leslie Eyeson

As a resident of Alexandria and a person living with cerebral palsy, I have a deep, personal understanding of the challenges and opportunities facing people with disabilities in our city. My lived experience has shaped my perspective and fueled my passion for promoting equality, dignity, and independence for all. I know firsthand the importance of accessible transportation, equitable employment opportunities, and public spaces that welcome everyone. I am committed to ensuring that Alexandria is a city where people with disabilities are not only accommodated but truly included and empowered. I believe that my voice and perspective can help inform the commission's advice to city leaders, and that my personal investment in these issues will drive me to advocate for meaningful change. Professionally, I bring nearly two decades of experience in strategic communications, public affairs, and cross-functional leadership within government and public service. Thank you for considering my application. I look forward to the opportunity to contribute both my lived perspective and my professional expertise to the commission's important work.

Statement of Interest (Do not include personal information such as phone numbers, addresses, emails, etc.)
I'm Regina Davis, AIA; an architect and design leader whose work centers on___ I believe I am well served to balance innovation with practicality, and vision with stewardship—qualities essential to shaping Potomac Yard's continued growth as an accessible, connected, and forward-looking district. Through my professional experience I have championed design advocacy as a tool for community empowerment. Previously serving on the AIA (American Institute of Architects) New Orleans Board as the Young Architects Forum Director and co-chair of the Emerging Professionals Committee; 2022 - 2024. Under my leadership, the EP committee was awarded a 2022 FAIA Emerging Professionals Grant. We organized an event titled "Tracing Influence"; a curated symposium and exhibit focused on BIPOC emerging professionals and FAIA members. As an advocate for women in the profession, I draw on my own experiences, and work to elevate young professionals and create a more equitable profession. As co-chair of the AIA New Orleans Women in Architecture committee, I led the group throughout the period of pandemic lockdown and through reopening. The pandemic prompted the committee to be both creative and nimble with programming- after postponing in-person events, WIA New Orleans repositioned to transform the Design + Practice Exchange into a virtual event. In collaboration with AIA New Orleans and WIA Austin, Regina chaired the 2020 Design + Practice Exchange: "Design to Change" symposium. The 2020 event focused on equity and the environment with a goal to advance and promote women leaders of all racial, ethnic, and economic backgrounds in architecture and the allied design and building industries. I led the two-day symposium which celebrated the voices of women in architecture and consisted of compelling conversations and design presentations. In total, WIA New Orleans hosted over 200 attendees and set a precedent for future programming. As an active alumnus, I participate in Tulane University and the University of Virginia's mentor program, giving design and career advice to undergraduate students. In my current role as an Associate + Project Architect at Eskew Dumez Ripple, I am working on renovations and contextually sensitive new addition projects throughout the east coast and gulf south. I am part of Revit template development and Project Manager cohort continuing to develop project standards. I am eager to bring my collaborative approach and commitment to inclusive design to the Potomac Yard Design Advisory Board. I believe through this role I can help guide the district's growth in a way that reflects community priorities, environmental responsibility, and a forward-looking vision for the built environment.

Statement of Interest (Do not include personal information such as phone numbers, addresses, emails, etc.)
I am writing to express interest in the Business Community Representative vacancy on the Potomac Yard Design Advisory Committee. As a Del Ray resident living adjacent to Potomac Yard and an active member of the local business and civic ecosystem, I am strongly invested in the responsible development, design quality, and long-term economic and community impact of the Potomac Yard corridor. Professionally, I serve as the Defense Innovation Unit's (DIU) NCR Liaison and Head of Marine Corps Partnerships, where I routinely bridge federal agencies, private industry, and community stakeholders to drive solutions that balance innovation, practicality, and long-term sustainability. This role requires strategic planning, cross-functional coordination, risk assessment, and an ability to evaluate complex infrastructure projects—skills directly applicable to design review and advisory oversight. As a local business owner and founder of an Alexandria-based company, I understand how land use, design decisions, pedestrian flow, and neighborhood cohesion affect economic vitality. My perspective reflects both a resident's vested interest in walkability, accessibility, and public spaces, and a business owner's focus on economic growth, safety, and integrated community design. With Potomac Yard entering a critical phase of transformation—including mobility infrastructure, retail development, public spaces, and future-forward design choices—I want to contribute to ensuring that growth is both community-aligned and business-smart. I would bring a disciplined, collaborative, and mission-focused voice to the committee, grounded in public service and practical, real-world project management.
