Board member

Do you currently live in the City of Alexandria? NOTE: If your answer is no, a residency waiver is required for positions that are not specific to an organization or profession.

Yes

How long have you lived in Alexandria?

37 years

Statement of Interest

I am applying for reappointment to the Alexandria Renew Board. I've been a member of the Board since March 2016, and Vice Chair since 2022, serving on the Board's Finance and Audit committee, and chairing the Board's Governance committee since 2022. Since 2022, I've also been a member of the River Renew Council-Board workgroup, along with Alex Renew Chair John Hill, Mayor Justin Wilson, and Vice-Mayor Amy Jackson. My time on the Alex Renew Board has been one of great change. We've overseen the River Renew tunnel project, from the 2018 regulatory transfer of the City's storm outfalls to Alex Renew in 2018, to the completion of the tunnel and underground facilities in 2024. In the past two years, we hired a new Chief Executive/ General Manager and developed the Lifeline Emergency Assistance Program (LEAP) to benefit community members facing financial challenges paying their wastewater bills. In 2024, the Governance Committee developed, and the Board adopted, Alex Renew's first Environmental Justice policy. We continue to develop and implement guidance on the inclusion of environmental justice considerations, procedures, and outcomes in appropriate AlexRenew programs. We've also continued a robust program of engagement with the neighborhood associations, citizens' groups, and varied communities in the city. The next few years will be a time of challenge and opportunity for Alex Renew as we pursue our goals of equity and affordability for our diverse ratepayers, provide needed capital improvements to maintain and improve our facilities, evaluate alternatives to mitigate capacity issues in the Commonwealth Interceptor (a separate sanitary sewer that is owned and operated by Alex Renew), and make our facilities more climate resilient. We have a responsibility to our ratepayers to continue to pursue our mission, "to treat wastewater to protect public health and the waterways that connect us" in ways which also address the needs of Alexandria's diverse communities. An Alexandria resident since 1987, I am an active member of the Old Presbyterian Meeting House, having served multiple terms as an Elder on the church board. I'm also a long-time member of the Del Ray Civic Association. My professional experience includes over thirty years of infrastructure design and project management in both the public and private sectors. Serving on the Alexandria Renew Board has allowed me to combine my professional and technical experience with my commitment to environmental sustainability and my appreciation of our area's natural resources. I would appreciate the opportunity to continue to give back to the Alexandria community as a member of the Alex Renew board, as we work toward achieving a fishable, swimmable Potomac.

Have you ever served the City of Alexandria in any capacity?

Yes (Please explain), Currently a member of the Alex Renew Board

Have you ever attended a meeting of the Board or Commission for which you are applying?

Yes

Are you now paid by the City of Alexandria?

No

Do any of your immediate relatives or business associates now serve the City of Alexandria in any capacity?

Yes

Please explain relation and capacity:

My daughter, Emma Beall, is employed by the Department of Community and Human Services

Attendance Requirements: Sec. 2-4-7 of the City Code requires appointees to attend at least 75% of the yearly committee meetings. Absences may be excused because of personal illness or serious illness of members of the immediate family, death of a family member, unscheduled business trips and emergency work assignments only. All other absences are recorded as unexcused. In light of the aforementioned statement, will you be able to attend at least 75% of the regular meetings of the board which you may be appointed?

Yes

If applicable, will you comply with the provisions of the City's conflict of interest requirements in City Ordinance 2867 regarding the completion of a financial disclosure statement?

Yes

Educational Background

Bachelor of Science degree, Rice University

Summary of Work and Experience

Civil engineer with over over thirty years of infrastructure design and project management in both the public and private sectors. See details on resume.

Statement of Interest

I consistently walk past the pump station on Four Mile Run. I am always struck by the clear, straightforward communication emblazoning the gates, enabling community members to understand and engage with the wastewater treatment process. As a member of the water sector, we are always talking about effective communication and community engagement, and an exceptional example of it is right in my community. Since I initially saw the pumping facility, I've taken the time to understand better AlexRenew's role in the Alexandria community and efforts like the LEAP program to support affordability and equity. I believe that I can further the interests and successes of AlexRenew as an engaged community member, versed in the regulatory nuances of water and wastewater. With the risks of being passive receivers of PFAS, aging water workforces, and ongoing resilience challenges, I can support best practice sharing and innovation to address these pressing issues. My experience in regulatory advocacy equips me to navigate complex legislation and ensure compliance while promoting transparency and community involvement. I am passionate about fostering partnerships that enhance public understanding and engagement in water management. As a proactive leader, I believe in creating forums for dialogue between utilities and the community it serves, ensuring that residents feel informed and empowered regarding their water resources, especially as masterfully demonstrated in the Four Mile Run facilities. I am energized by the prospect of contributing to AlexRenew's mission of delivering safe, reliable, and equitable wastewater services.

Have you ever served the City of Alexandria in any capacity?

No

Have you ever attended a meeting of the Board or Commission for which you are applying?

No

Are you now paid by the City of Alexandria?

No

Do any of your immediate relatives or business associates now serve the City of Alexandria in any capacity?

All other absences are recorded as unexcused. In light of the aforementioned statement, will you be able to attend at least 75% of the regular meetings of the board which you may be appointed?

Yes

If applicable, will you comply with the provisions of the City's conflict of interest requirements in City Ordinance 2867 regarding the completion of a financial disclosure statement?

Yes

Educational Background

I offer a Master of Public Health, focused on environmental health, and an undergraduate degree in Chemistry. My professional experiences have allowed me to build subject matter expertise, including completion of AWWA's "Water Treatment Operator - Level 1" coursework, with Level 2 coursework in progress. My experience working in construction and time with the American Red Cross have afforded me my OSHA-30, Competent Industrial Rescuer, and other EHS-relevant certifications. I offer significant first-hand experience with crisis management and have completed FEMA's basic through advanced incident management trainings.

Summary of Work and Experience

My resume offers a variety of intersectional experiences to support my application. I served as a volunteer and an Americorps employee to the American Red Cross, facilitating resiliency and emergency response efforts in a 7-county region of Texas. In this role, I led our regional sheltering response to Hurricane Harvey and partnered with stakeholders at the Local Emergency Planning Committee (LEPC), Brazos Valley Council of Governments, and Homeland Security Advisory Council (HSAC) to improve the regional posture for contingencies. I worked in critical infrastructure, developing and implementing renewable construction projects, affording me an understanding of the complexities of capital improvement efforts and the challenges with underground utilities. In this role, I led environmental functions on multiple projects, including NPDES permit compliance, SWPPP implementation to prevent discharges and general regulatory compliance. I also led the safety function across these projects, providing trainings and coaching for a transient workforce, and facilitated organizational process improvement efforts for workforce development including improved onboarding processes. Currently, I lead regulatory advocacy efforts for the Association of Metropolitan Water Agencies, a trade association focused on drinking water policy. In this role, my expertise offers overlap with wastewater priorities including contaminants of concern like PFAS. I am a member of the sector coordinating council, supporting sector security and resilience efforts within the sector, and while my focus is on the Safe Drinking Water Act, I regularly engage with Clean Water Act regulation.
