**Statement of Interest**  
Dear Members of the Health Systems Agency of Northern Virginia, I am writing to express my interest in serving on the Health Systems Agency of Northern Virginia. As both an operator in and a consumer of the U.S. healthcare system, I am deeply committed to improving care quality and access. My background in healthcare operations, regulatory compliance, and community health aligns closely with your mission to enhance health systems in the region. In my current role as Chief of Staff at Malama Health, a YC-backed maternal health startup, I lead daily operations and product development to support Medicaid mothers across multiple states—work that mirrors the Agency’s focus on equitable, outcomes-driven, value-based care. Prior to this, I scaled legal service operations at Dispute and built internal systems to improve service delivery and compliance—experience that informs how I approach regulated, consumer-facing services. Earlier in my career at Health Care Service Corporation, I managed regulatory oversight for mental health parity, coordinating state and federal compliance efforts. My time at the Center for Asian Health Equity further shaped my understanding of culturally responsive care, as I led SAMHSA- and NIH-funded programs addressing disparities in underserved communities. This opportunity excites me because it allows me to apply my skills to improve the systems that shape care for Northern Virginia’s diverse populations. I would welcome the chance to support the Agency’s mission and contribute to building a more effective and inclusive healthcare future. Thank you for your consideration. Sincerely, Yimin Amy Wang

**Statement of Interest**  
As a regulatory affairs professional, where meticulous document retention and management are critical, I am eager to contribute to the preservation, transparency, accessibility, and integrity of Alexandria’s public records. It is my hope that my experience proves that I can add value to this Commission. I have experience creating large-scale record systems for regulatory documents at Fortune 500 companies and served as a researcher at Johns Hopkins University, where I developed document management and record retention systems for artificial intelligence and data valuation. I understand the importance of digitalization, accessibility, and physical record storage. As a proud Alexandria resident, I am deeply invested in our community’s success, which inspires me to contribute positively to its future through this effort. It would be a true honor to contribute, and I give my word to the Commission and the City that I will be a dedicated member.
