Yes

How long have you lived in Alexandria?
10 years (minus 3 years abroad, when I rented out my home)

Statement of Interest
I spent much of my career working for USAID, managing contracts and grants under contract to countries aiming to improve the effectiveness of governance, social programs, infrastructure development, citizen engagement, etc., in the face of crisis. Since the federal administration has nearly eliminated the sector that I've worked in for most of my life, I am keen to apply my knowledge, skills, and experience at home, in the city where I live. In my work for USAID and private sector companies that serve the federal government, I have developed and defended budgets for multimillion dollar programs, developed solicitations and participated in award of contracts for services, supervised and monitored budget implementation of both contracts and portfolios of awards, and both evaluated and supervised the evaluation of outcomes of funded initiatives. I hold an M.A. in economics from the Johns Hopkins University, where I focused on understanding behavioral characteristics (of a population) that should be taken into consideration when developing policies, strategies, and plans for developing a country or community. I earned my place and a fellowship at Johns Hopkins, as well as many professional awards and accolades, by being a meticulously detailed analyst, manager and supervisor of economic initiatives and portfolios in complex environments. I enjoy this work--especially population engagement in local governance processes--and believe I would be a competent and scrupulous addition to Alexandria's Budget and Fiscal Affairs Advisory Committee as it no doubt will seek to improve and adjust its processes in the face of shifting federal policies' and funds' effects on Virginia as a whole and Alexandria in particular.

Statement of Interest
The highlight of my graduate school career was being the treasurer of my union local, AFT 6196 the Graduate Employees Union. It was in this role I came to understand exactly what it means when we say a budget is the most truthful and transparent statement of our values. The puts and takes of budget lines are vital when we have limited resources- as we do thanks to Dillon's Law- and so we owe a thorough examination of our spending plans to our citizens. In my professional career within the NNSA's department of Management and Budget I've taken that further- drafting the process for integrating our priorities with our available funds. For this reason I believe I have the technical knowledge to support the community- but it is because of my deep love and concern for our most margianlized Alexandrians that I wish to serve- including transgender, homeless, and marginalized Alexandrians. I want to help make sure our budgets prioritize those who need the most help- not by making the decisions but by providing analytic assessments of what our decisions will do and providing those to the elected council whom I trust to act on the best interest of all Alexandrians.
