## I. DISCUSSION

The applicant, Toto Moto Academy LLC, requests an amendment to the official zoning map to rezone the subject property at 4154 Duke Street from CL/Commercial Low with proffer to CL Commercial Low with an amended proffer to permit expanded commercial uses.

The existing proffer permits professional office use only. The proffer has other restrictions on architectural features, floor area ratio and landscape buffering. The current request includes expanded commercial uses and includes removing the proffer language restricting any building additions to be in the same architectural style. No other changes to the proffers are proposed.

### SITE DESCRIPTION AND BACKGROUND

The subject property is located at the corner of Duke Street and South Gordon Street and developed with a building used as an office. The property has approximately 150 feet of frontage along Duke Street and approximately 72 feet of frontage along South Gordon Street. The property contains 0.4087 acres, or 17,803 square feet and the 1,930 square foot building was constructed in 1936 according to the City's real estate records.

*Figure 1: Front Facade*

The site is accessed along Duke Street and contains an unmarked parking lot. Both residential and commercial uses surround the subject property. It is bordered by residential uses to the south and east, while commercial uses are located to the north and west. The townhomes to the south are zoned CL/Commercial Low and the remaining area south of Duke Street is zoned R-2-5/Residential. The properties across Duke Street are zoned CG/Commercial General and CC/Commercial Community. For a comprehensive zoning map see figure 2.

The site is in the Strawberry Hill/Seminary Hill Small Area Plan. The site also fronts Duke Street and is part of the ongoing Duke Street Land Use Plan updates, which are being drafted for Fall 2026.

### BACKGROUND

The building on the property, originally used as a single unit dwelling, was constructed in 1939 according to City Real Estate

*Figure 2: Current surrounding zoning*

records. In 1954, City Council approved a city-wide rezoning, changing the zoning designation for the property to R-2-5. On June 24, 1981, City Council approved Ordinance 2605, to rezone the property to C-O/Commercial office zone with proffer to allow a professional office. The staff report for this rezoning request noted that the subject property was currently designated for low density residential use, but since the adjacent properties across Duke Street and South Gordon Street were already zoned for commercial use and this property was the only site remaining with development potential, the rezoning request was found to be a reasonable fit for the area. As a part of that rezoning request, the former owner offered multiple proffers restricting the use and development of the property. The 1981 proffer and ordinance are attached to the end of the staff report.

The 1981 proffer reads as follows:

- 1. Property will be restricted for professional office uses only.*
- 2. The existing structure will be retained, and any future additions, if needed, will be in the same architectural style as the existing structure.*
- 3. The floor area ratio will be limited to 0.5.*
- 4. The proposed driveway and parking area will be landscaped and buffered to the satisfaction of the City Arborist, and in such a manner as to provide adequate screening to protect the residential nature of the neighborhood.*

In 1992, City Council approved city-wide small area plan and zoning map updates, rezoning the site to the existing CL/Commercial Low zone with proffer. At that time, the small area plan recognized that the existing office use, and other commercial low intensity uses as compatible with the adjacent low density residential area. Since the rezoning approval, the existing businesses which have occupied the site seemingly fit into the surrounding area well. There have been no zoning violations found within the last five years.

## PROPOSAL

The applicants request an amendment to the official zoning map to rezone the subject property from CL/Commercial Low with proffer to CL/Commercial Low with proffer to expand the commercial uses allowed on the property. Specifically, the applicants want to use the property as a residential childcare home, then transition to a commercial day care center. If approved, the property could be used in accordance with commercial uses permitted by the CL zone or as a single dwelling unit with a childcare home. The applicant also requests to remove the portion of the second proffer which restricts any additions to the same architectural style of the existing building. The applicant is retaining proffers three and four. The request does not require a Master Plan Amendment because the proposal would be consistent with the Strawberry Hill/Seminary Hill Small Area Plan.

The applicant requests the following amended proffers:

- 1. The property will be restricted to commercial uses and/or a residential single dwelling unit with a childcare home.*
- 2. The existing structure will be retained.*

3. *The floor area ratio will be limited to 0.5.*
4. *The proposed driveway and parking area will be landscaped and buffered to the satisfaction of the City Arborist, and in such a manner as to provide adequate screening to protect the residential nature of the neighborhood.*

#### ZONING/MASTER PLAN DESIGNATION

The site is zoned CL/Commercial Low with proffer and is part of the Strawberry Hill/ Seminary Hill Small Area Plan. The City's Master Plan designates this site for low density commercial uses.

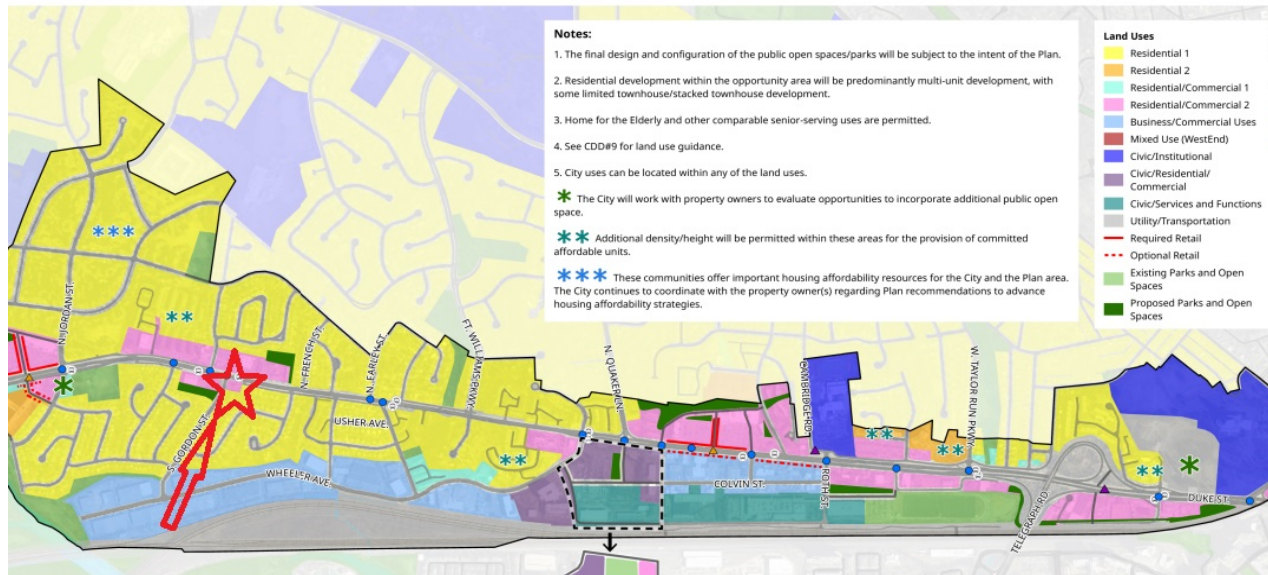

The current zoning regulations with the proffer only permit the subject property to be used for "professional office use". The CL zone permits low density commercial uses. Zoning Ordinance sections 4-101 to 4-103, attached to the end of the staff report, lists the commercial uses permitted in the CL zone with varying degrees of zoning approval. Many of the commercial uses have further use limitation requirements.

#### Strawberry Hill/Seminary Hill Small Area Plan

The Strawberry Hill/Seminary Hill Small Area plan has this site designated for low density commercial uses. The plan notes that commercial low intensity uses are compatible with the existing neighborhood. Since the adoption of the plan in 1992, many of the commercial zones along Duke Street have allowed low density commercial uses that would be compatible with the residential nature of the area.

The property is located in and governed by the land use recommendations of the 1992 Seminary Hill/Strawberry Hill Small Area Plan. Last June, the City launched an 18-month community planning process to review and propose potential changes along Duke Street as part of the Duke Street Land Use Plan process. The property has been identified as an opportunity site for future development and is near a future Duke Street Transitway bus rapid transit (BRT) stop. Last month, the Framework Plan was made available for public comment through the end of June and proposes flexible land uses for this site at greater densities and additional building height than currently allowed. Draft plan recommendations will be released this Summer, and the draft Duke Street Land Use Plan will be released in the Fall with additional community engagement opportunities scheduled throughout the year before docketing before Planning Commission and City Council for approval. The image below shows an expanded view of the Duke Street Land Use Plan and the drafted land uses.

## Land Use DRAFT | APRIL 2026

## II. STAFF ANALYSIS

Staff recommend approval of the rezoning request to amend the proffers. The request is consistent with the Strawberry Hill/Seminary Hill Small Area Plan, which designates the area for low-density commercial uses, and is compatible with the surrounding residential and commercial uses. Because the master plan no longer designates the property as low-density residential, as it did when the proffer was created, the proffer which limits the property to only professional office uses is no longer necessary. The amended proffer gives the property owner more flexibility for small scale commercial uses of the property, which offer services to the nearby residential areas and provides the option for the property to be used as a residence with a childcare home

Staff have no objection to the removal of the proffer relating to architectural requirements, as the existing building does not have architectural significance.

Because the City is in the process of the Duke Street Land Use Plan, staff supports the applicant's request to keep the current proffers limiting the development of the site.

### ADDITIONAL CONSIDERATIONS

The applicants, The Toto Moto Academy, plan to operate a residential childcare home and day care center use, which are permitted by-right uses in the CL zone with an approved drop-off and pick-up plan.

Staff notified the Wakefield Tarleton Civic Association of the application. Staff received one inquiry from the Wakefield Tarleton Civic Association President related to the proposed daycare center's traffic impacts, number of children, and hours of operation. In response, staff informed them of the proposed number of children but noted a formal drop-off and pick-up plan would be

reviewed by Planning and Zoning and Transportation & Environmental Services (T&ES) for traffic impacts. At the time of this report, staff has not received any other questions or comments.

CONCLUSION

Staff recommends approval of the rezoning request as it would be consistent with the City's master plan.

## **JUSTIFICATION FOR AMENDMENT**

(attach separate sheets if needed)

- 1.** Explain how and why any proposed amendment(s) to the Master Plan are desirable, beneficial to surrounding properties, in character with the applicable Small Area Plan and consistent with City policies:

The proposed amendment is to remove an outdated proffer condition that restricts the property to professional office use only. The subject property is designated as Commercial Low in the Master Plan, where daycare use is consistent and appropriate. The amendment will allow a small daycare facility that is compatible with surrounding uses and provides a needed community service. The proposed use will operate at a +
- 2.** Explain how and why the proposed amendment to the Zoning Map(s) is consistent with the proposed amendment to the Master Plan, or, if no amendment to the Master Plan is being requested, how the proposed zoning map amendment is consistent with the existing Master Plan:

No change to the underlying zoning classification (CL) is requested. The amendment is consistent with the existing Master Plan designation of Commercial Low and will allow a permitted use that aligns with current zoning intent.
- 3.** Explain how the property proposed for reclassification will be served adequately by essential public facilities and services such as highways, streets, parking spaces, police and fire, drainage structures, refuse disposal, water and sewers, and schools.

The property is adequately served by existing public facilities and infrastructure. It has direct access to Duke Street and a private parking area sufficient for staff and parents. Water, sewer, and emergency services are available. The proposed daycare use will not create significant additional impact on public services.
- 4.** If this application is for conditional zoning approval pursuant to Section 11-804 of the Zoning Ordinance, identify all proffered conditions that are to be considered part of this application (see Zoning Ordinance Section 11-804 for restrictions on conditional zoning):

No additional proffered conditions are proposed at this time. The application is solely to remove the existing restriction limiting the use to professional office.
