April 18, 2026

Agenda

1. Summary
2. Project Location
3. Layout and Architecture
4. Highlights and Benefits
5. Community and Recommendation

Summary

Request

- Extend approval for a 91-unit all-affordable building

Action

- Planning Commission recommendation of approval

Key Elements

- Project design and benefits
- 2019 Green Building
- High-quality architecture

Project Location

Zone:

- ▶ RMF/Residential Multi-unit

Small Area Plan:

- ▶ Arlandria-Chirilagua

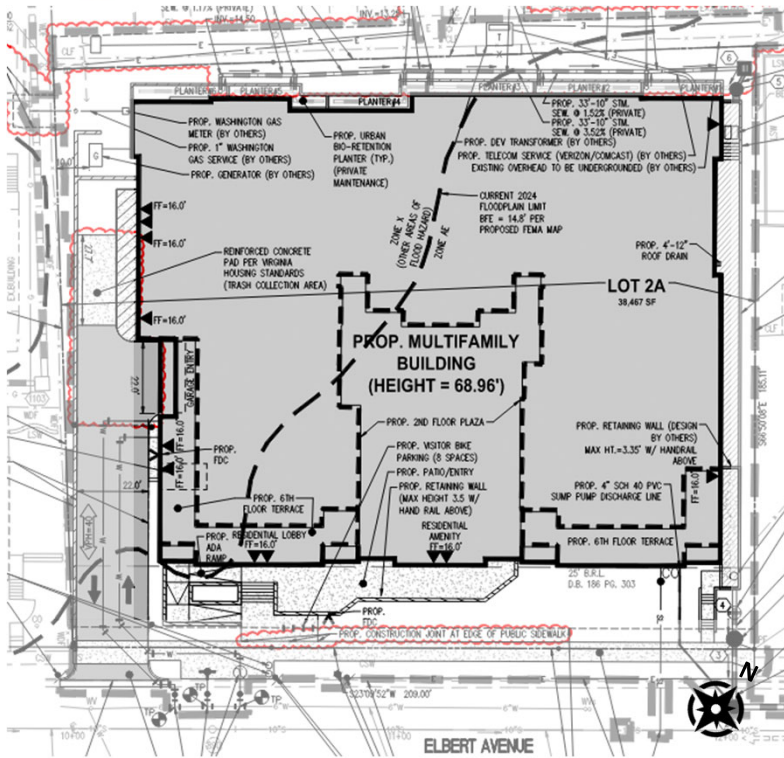

Surrounding Uses:

- ▶ Primarily residential, with commercial along Mt. Vernon Avenue

Layout and Architecture

Highlights & Benefits

Highlights

- **Stormwater management:** 13% more phosphorus removed than required
- **Transportation:** Trip generation for the project does not trigger a traffic study, TMP to mitigate potential impacts
- **Schools:** 55 total students (27 net new students), Mount Vernon Elementary, George Washington Middle, and Alexandria High School

Benefits

- 91 units (63 net new) deeply affordable housing, available to households earning 30-50% of the area median income;
- Compliance with the 2019 Green Building Policy;
- High-quality architecture

Community
