You'll Love It At Lindsay

The Lindsay Automotive Group in an effort to continue its long standing reputation as a caring and responsible neighbor to the citizens of Alexandria has addressed some recent concerns brought to our attention.

The following is our plan of action:

1. Rental vehicles parked on city streets.
  - Provided sufficient parking off street for Hertz and Enterprise vehicles.
2. Employees parked on city streets.
  - Confirmed that all employees have been assigned a place to park other than the city streets of Alexandria.
  - Communicated with all employees our rules and the cities rules regarding the compliance with our Special Use Permit.
  - Enforced our rules regarding parking on city streets to include written warnings and the termination of an employee.
3. Commercial vehicles parked on city streets
  - Instructed employees to not use Peach Street delivering lunch which is provided to our employees on Saturdays.
  - Currently devising a plan with Cintas Corporation and Petro Choice to prevent delivery trucks from parking on Peach Street or Kenwood Avenue around the Lexus Service Center while actively delivering product.
4. Ice and snow removal from sidewalks
  - Reviewed our snow removal plan and confirmed that all sidewalks surrounding the Lexus Service Center are included in our plan.

The goal of the Lindsay Company is to work with our neighbors to create an environment that will be beneficial to everyone. We will continue to seek ways in which to improve communication and create a more intimate relationship with the surrounding neighbors. To promote improved communication, please find attached a list of manager's names and contact information. We encourage our neighbors to contact us in the future with any concerns. We pledge to address any and all concerns immediately.
