- Request Description: Mayor Silberberg,

As you are likely aware President Trump made the decision to leave the Paris Climate Agreement last week making the United States one of only three countries to not join together to support action in the face of climate change. Since then over 200 mayors from around the country, with the number growing, have joined in a collective statement to adopt, honor, and uphold the Paris Climate Agreements, work to continue to cut greenhouse gas emissions, work for a clean economy, and fight for environmental justice. This includes mayor Stoney of Richmond, mayor Signer of Charlottesville, and mayor Alexander of Norfolk. Can we expect a similar commitment from yourself in representation of the people of Alexandria?

The pledge can be found following this link: <https://medium.com/@ClimateMayors/climate-mayors-commit-to-adopt-honor-and-uphold-paris-climate-agreement-goals-ba566e260097>

Thank you

- Request Description: I am writing to strongly object the your support of the Paris Agreement. It is non-binding and gives a pass to both China and India. It also would have required spending a whole lot of money to emerging nations efforts, if they used the money for that anyway. I am concerned as I see our City take on so many issues that are not appropriate and lead to ever increasing taxes. Even though I have heard the argument that we have lower tax rates than some others in the region, that does not make it right to spend on needless things.

Climate change is not what it is represented to be, it is certainly not settle science. I believe in conservation but not making expensive efforts which have virtually no positive effect.

Please do not continue to follow the Paris Agreement plans.

- Request Description: Alexandria Mayor and Leadership,

Are we going to join ranks with other cities across this nation in showing support for taking action to address climate change? Or, are you going to stand alongside Syria and Nicaragua and a national NON-leadership in this critical area impacting the health, quality of life, economy, and future of our city? Demonstrate to this national administration that Alexandria, a sea level city, is more concerned with the opportunity cost of turning our backs on the Paris accord rather than the presumptuous shortsighted ploy of claiming to be "negotiating a better deal". Please stand alongside other progressive cities in the USA in support of taking action in a global partnership to address climate change

In the absence of national leadership and vision, and based on respect for science and the collaborative strength now offered by a global partnership, it is our responsibility to do the right thing for the future of our city and the planet. Negotiate a better deal?? Better than standing with 190+ other countries in a common cause??

Don't lose this opportunity for Alexandria because of the shameless bravado and buffoonery of the current national administration and it's willingness to sell out our future to appease it's political 30%. It is unworthy of Alexandria and our future citizens.

I am willing to volunteer and help in this effort.

Bonnie Bailey
proud 3rd generation Alexandrian

- Request Description: In light of the disappointing announcement yesterday that the U.S. will not honor our commitments in the Paris Climate Accord, I began researching how local governments can help mitigate this devastating national policy. I found the Mayors National Climate Action Agenda & was incredibly disappointed to discover that our great city is not a member. It is obvious that we cannot sit idly by as the federal government shirks its responsibility to the environment and our future. Please consider joining this worthwhile effort to uphold our responsibilities to the environment. Alexandria should be the first city in Virginia to join this effort. We can lead the way for our state. Can we show the world that the President isn't representing the nation's views on the importance of the environment? I still believe we can. <http://www.climate-mayors.org/>
