You don't often get email from potentiaeromanorum@gmail.com. [Learn why this is important](#)

Allowing auxiliary dwelling units in our city's commercial zones is an important, much-needed change to economically integrate our community and make it more environmentally sustainable. This policy opens the door to various entrepreneurial ventures including small businesses run by families who might be able to live where they work. Allowing for such creativity and vibrancy is wonderful to see. It is my sincere hope that this will open up new land use possibilities outside of areas currently most associated with bustling street life, namely Old Town and Del Ray. I and my grassroots pro-housing organization strongly endorse this measure and urge the council's unanimous adoption of it.

Thank you and best regards,
