**ISSUE:** Certificate of Appropriateness for alterations

**APPLICANT:** Virginia Horgan

**LOCATION:** Old and Historic Alexandria District

923 South Saint Asaph

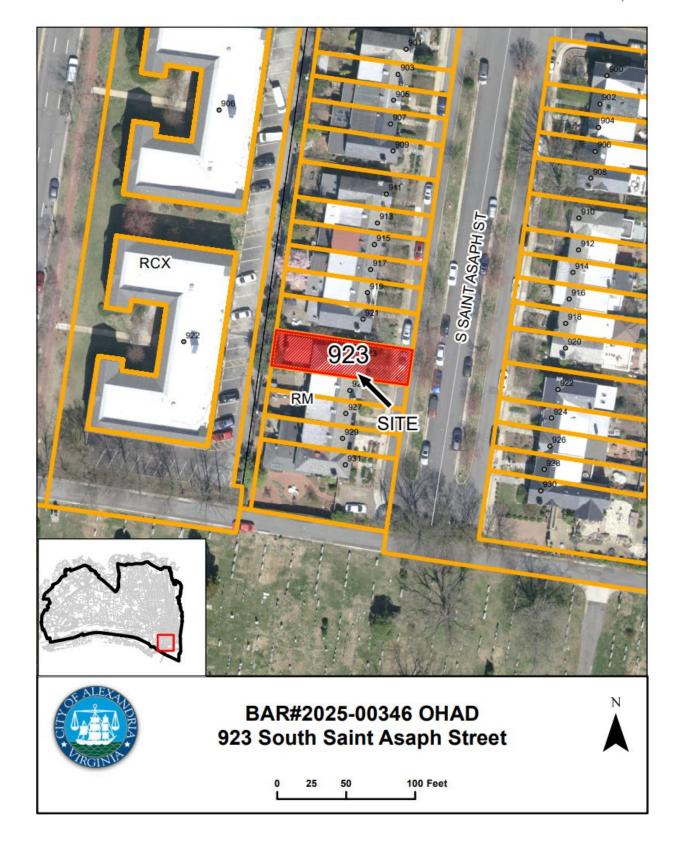

**ZONE:** RM

#### STAFF RECOMMENDATION

Staff recommends approval of the Certificate of Appropriateness for alterations, as submitted.

#### **GENERAL NOTES TO THE APPLICANT**

- 1. APPEAL OF DECISION: In accordance with the Zoning Ordinance, if the Board of Architectural Review denies or approves an application in whole or in part, the applicant or opponent may appeal the Board's decision to City Council on or before 14 days after the decision of the Board.
- 2. COMPLIANCE WITH BAR POLICIES: All materials must comply with the BAR's adopted policies unless otherwise specifically approved.
- 3. BUILDING PERMITS: Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Department of Code Administration (<u>including signs</u>). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, 703-746-4200 for further information.
- 4. ISSUANCE OF CERTIFICATES OF APPROPRIATENESS AND PERMITS TO DEMOLISH: Applicants must obtain a copy of the Certificate of Appropriateness or Permit to Demolish PRIOR to applying for a building permit. Contact BAR Staff, Room 2100, City Hall, 703-746-3833, or preservation@alexandriava.gov for further information.
- 5. EXPIRATION OF APPROVALS NOTE: In accordance with Sections 10-106(B), 10-206(B) and 10-307 of the Zoning Ordinance, any Board of Architectural Review approval will expire 12 months from the date of issuance if the work is not commenced and diligently and substantially pursued by the end of that 12-month period.
- 6. HISTORIC PROPERTY TAX CREDITS: Applicants performing extensive, certified rehabilitations of historic properties may separately be eligible for state and/or federal tax credits. Consult with the <u>Virginia Department of Historic Resources (VDHR)</u> prior to initiating any work to determine whether the proposed project may qualify for such credits.

#### I. APPLICANT'S PROPOSAL

The applicant requests a Certificate of Appropriateness for alterations to replace the existing slate roofs with both natural and synthetic slate.

#### Site context

The building is bound by South Saint Asaph Street to the east and a public alley to the west. The front roof is visible from South Saint Asaph Street, and the rear roof is visible from the public alley.

#### II. <u>HISTORY</u>

923 South Saint Asaph Street is part of George Washington Gardens developed by Joseph K. Seidle, Inc. and constructed and completely sold out in **1940** (Joseph K. Seidle, Inc., Opens New Model Home to Public; Is First in Group of 16," <u>Alexandria Gazette</u>, October 19, 1940, p.3). This is a separate subdivision from Yates Garden which begins directly north across Green Street.

Previous BAR Approvals BAR2024-00025

Replace windows

#### III. ANALYSIS

The applicant requests a Certificate of Appropriateness for alterations to replace the slate roof. The front roof and most of the rear roof will be replaced with SSQ Domiz gray natural slate roofing (Figures 1 and 2). A small portion of the rear roof will be replaced with CertainTeed Grand Manor synthetic slate roofing (Figure 2).

Figure 1. Photo taken by staff of front slate roof, from Saint Asaph Street.

synthetic slate

Figure 2. Photo taken by staff of rear slate roof, from the alley.

The roofing chapter of the Old and Historic District Design Guidelines states that "original or existing roofing which has acquired historic importance over time should be preserved and repaired whenever possible. When staff determines that this is not feasible, replacement materials that match the original roofing material should generally be used." The subject property is a Later building and the existing slate appears to be original. However, genuine slate has a life span of 50-100 years, and the house is approximately 85 years old. While replacing genuine slate with synthetic slate is generally not appropriate, the small roofing area in the rear is very minimally visible from the public alley. Staff also notes that this alley is mainly used for parking for the adjacent apartment complex, and thus the rear roof is rarely ever visible to pedestrians. Most of the roof, including the entire front part, will use natural slate, which is appropriate and will match the color of the existing slate.

Staff believes that replacing the small portion of rear roof with synthetic slate will not detract from the architectural character or historic integrity of the house. While standing in the alley, the difference between the natural and synthetic slate would be very difficult to notice. Staff therefore recommends approval of the Certificate of Appropriateness for alterations, as submitted.

#### **STAFF**

Brendan Harris, Historic Preservation Planner, Planning & Zoning Tony LaColla, AICP, Land Use Services Division Chief, Planning & Zoning

#### IV. <u>CITY DEPARTMENT COMMENTS</u>

Legend: C- code requirement R- recommendation S- suggestion F- finding

#### **Zoning**

- C-1 Proposed roof replacement will comply with zoning.
- C-2 Not approved for expansion of the height or footprint of the building.

#### **Code Administration**

No comments received.

#### **Transportation and Environmental Services**

- R-1 The building permit must be approved and issued prior to the issuance of any permit for demolition, if a separate demolition permit is required. (T&ES)
- R-2 Applicant shall be responsible for repairs to the adjacent city right-of-way if damaged during construction activity. (T&ES)
- R-3 No permanent structure may be constructed over any existing private and/or public utility easements. It is the responsibility of the applicant to identify any and all existing easements on the plan. (T&ES)
- F-1 After review of the information provided, an approved grading plan is not required at this time. Please note that if any changes are made to the plan it is suggested that T&ES be included in the review. (T&ES)
- F-2 If the alley adjacent to the parcel is to be used at any point of the construction process, the following will be required:
  - <u>For a Public Alley -</u> The applicant shall contact T&ES, Construction Permitting & Inspections at (703) 746-4035 to discuss any permits and accommodation requirements that will be required.
  - <u>For a Private Alley</u> The applicant must provide proof, in the form of an affidavit at a minimum, from owner of the alley granting permission of use. (T&ES)
- C-1 The applicant shall comply with the City of Alexandria's Solid Waste Control, Title 5, Chapter 1, which sets forth the requirements for the recycling of materials (Sec. 5-1-99). (T&ES)
- C-2 The applicant shall comply with the City of Alexandria's Noise Control Code, Title 11, Chapter 5, which sets the maximum permissible noise level as measured at the property line. (T&ES)

Docket Item #3 BAR #2025-00346 Old and Historic Alexandria District October 16, 2025

- C-3 Roof, surface and sub-surface drains be connected to the public storm sewer system, if available, by continuous underground pipe. Where storm sewer is not available applicant must provide a design to mitigate impact of stormwater drainage onto adjacent properties and to the satisfaction of the Director of Transportation & Environmental Services. (Sec.5-6-224) (T&ES)
- C-4 All secondary utilities serving this site shall be placed underground. (Sec. 5-3-3) (T&ES)
- C-5 Any work within the right-of-way requires a separate permit from T&ES. (Sec. 5-2) (T&ES)
- C-6 All improvements to the city right-of-way such as curbing, sidewalk, driveway aprons, etc. must be city standard design. (Sec. 5-2-1) (T&ES)

#### Alexandria Archaeology

No archaeology comments.

# **Domiz Natural Slate Roofing**

#### **Product information**

#### **About SSQ**

Established in 1983, the SSQ Group is one of the world's leading quarriers and suppliers of high-grade, unfading natural slate for roofing and architectural applications. From our headquarters in London we provide natural slate to over twenty countries, with North America and Europe being our principal markets. Find out more at: www.ssqslate.com

#### **Product profile**

SSQ Domiz Natural Slate Roofing is quarried from the Rozadais geological formation within the Province of Ourense in north-west Spain. The geological composition of the Domiz slate demonstrates a range of properties that make it suitable for high-performance roofing slates.

A proven slate that is durable with exceptional color stability, impermeable to water, unaffected by temperature variations and fire proof. Domiz achieves excellent results when tested to the BS EN 12326 achieving the all-important "A1-T1-S1" classification. In addition Domiz surpasses the rigorous Norm Francais (NF 228), which is the world's highest standard for natural slate roofing.

#### **Appearance**

Domiz is an unfading slate with a rich dark blue-gray appearance and bold natural texture, providing a stunning finish to any building.

#### Guarantee

You should never have to bear any risk when you're choosing what to put on your roof. That's why we take on all the risk and guarantee your Domiz roof for up to 100 years.

Sizes, pieces per square and exposure

Imperial	Metric	Pcs per	Exposure at

14 x 8	35 x 20	327	5 1/2"

#### Thicknesses and weights

SSQ Domiz Natural Slate Roofing is hand split by craftsmen into two nominal thicknesses:

1/4"- 3/8" (6-8mm) - average weight: 850 lbs/sq

3/8" (8-10mm) - average weight: 1100 lbs/sq

Other dimensions and thicknesses can be produced as a custom order.

# **Grand Manor**®

**Id** certainteed SAINT-GOBAIN

**Luxury Roofing Shingles** 

# The Peak of Perfection

Some roofs say more. About you. About your style. About the home that uniquely showcases your life.

Grand Manor says it all with a style and grace that is exceptional from every angle. The luxurious multi-layered laminated shingle replicates the look of slate with the confidence backed by a lifetime warranty.

Your home becomes your castle with one of the heaviest shingles we've ever made. CertainTeed developed Grand Manor to endure all types of weather and always look its best, even on the steepest slopes.

#### STRIKING LOOKS

Deep shadows and random tabs are the secrets behind the design genius in Grand Manor. The result is a shingle with the incredibly authentic depth and dimension of slate.

#### LASTING BEAUTY

Our exclusive Super Shangle\* construction design results in a shingle that, once installed, offers virtually five layers of protection. Made of the industry's most durable roofing materials, you'll have a roof with unsurpassed defense against the elements.

#### **Streak**Fighter® PROTECTION

The ultimate in stain protection, CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper to combat the ugly black streaking caused by algae and help your roof maintain its beauty for years to come.

With Grand Manor on your home, you'll have the assurance of being protected by one of CertainTeed's finest, most durable luxury shingles—and the confidence of knowing that whenever you look up at your roof, you'll see something beautiful.

# GRAND MANOR® COLOR PALETTE

# Elegance Defined with Style and Grace

### GRAND MANOR®

- Authentic depth and dimension of natural slate
- Dynamic color options
- Super Shangle<sup>\*</sup> construction offers five layers of protection
- Streakfighter® protection against algae
- Classified as UL 2218 Class 4 Impact Rated

# Strength with Style

## GRAND MANOR®

- Class A fire resistance
- Algae resistance
- 110 MPH wind warranty, upgradeable to 130 MPH
- Lifetime-limited warranty
- Classified as UL 2218 Class 4 Impact Rated

#### **SPECIFICATIONS**

- Two full-size, fiberglass-based shingles with randomly applied tabs
- Authentic depth and dimension of natural slate
- · Virtual five-layer coverage when applied

CertainTeed products are tested to ensure the highest quality and comply with the following industry standards:

#### Fire Resistance:

- UL Class A
- UL certified to meet ASTM D3018 Type 1

#### Wind Resistance:

- UL certified to meet ASTM D3018 Type 1
- ASTM D3161 Class F

#### Tear Resistance:

- UL certified to meet ASTM D3462
- CSA standard A123.5

#### Wind Driven Rain Resistance:

 Miami-Dade Product Control Acceptance: Please reference www.certainteed.com to determine approved products by manufacturing location.

#### Impact Resistance:

• UL 2218 Class 4

#### **Quality Standards:**

• ICC-ES-ESR-1389 & ESR-3537

#### **WARRANTY**

- Lifetime limited transferable warranty against manufacturing defects on residential applications
- 50-year limited transferable warranty against manufacturing defects on group-owned or commercial applications
- StreakFighter® 30-year algae-resistance warranty
- 10-year SureStart<sup>™</sup> protection
- 15-year 110 MPH wind-resistance warranty
- Wind warranty upgrade to 130 MPH available. CertainTeed starter and CertainTeed hip and ridge required.

See actual warranty for specific details and limitations.

# **Add a Little Accent** to Your Roof

For a stylish finishing touch to cap hips and ridges, use Shangle Ridge® accessory — available in colors to match your Grand Manor shingles.

# **Color Companion Products for Flat Roof Areas**

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.

# The Ultimate in Protection

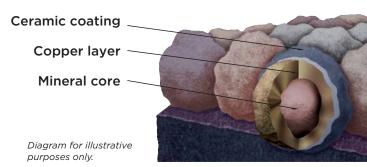

# **Streak**Fighter®

Algae Resistance

The ultimate in stain protection.

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America. CertainTeed's **Streak**Fighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

#### Granule with StreakFighter Technology

# CertaSea/®

**Uplift Protection** 

**Certa**Seal® is a fast-activating modified asphalt sealant with a 20-year record of proven performance. Designed to seal shingles together upon installation, it protects roofs from wind uplift and shingle blow-off so that homes stay safe and dry. It's also engineered to remain flexible after installation, unlike harder sealants that can dry out and crack over time.

# Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.
