## I. DISCUSSION

The applicant, Carmen Silvia Alvarado, requests Special Use Permit approval to operate a child care home at 134 Jasper Place.

### SITE DESCRIPTION

The subject site is one lot of record with approximately 35 feet of frontage on Jasper Place, 98 feet of depth and a total lot area of 3,377 square feet. The property is improved with a two-story semi-detached residential dwelling.

The surrounding area is comprised of primarily semi-detached residential dwellings.

### PROPOSAL

The applicant proposes to provide child care in her home for up to nine children at one time. At this time she anticipates caring only for children aged three months through five years.

Hours of Operation: 7 a.m. – 6 p.m. Monday-Friday

Number of children: Nine

Play Area: Rear yard provides play area for children

### ZONING/MASTER PLAN DESIGNATION

The subject property is located in the R-2-5 / Single and Two-Family Residential zone. Section 7-500(B) of the Zoning Ordinance allows a child care home in residential areas only with a Special Use Permit.

The proposed use is consistent with the Seminary Hill chapter of the Master Plan which designates the property for residential uses.

### PARKING

The Zoning Ordinance does not require any additional parking for child care homes than would be required for a residential use. One off-street parking space is located in the applicant's driveway and on-street public parking is available on Jasper Place.

## II. STAFF ANALYSIS

Staff recommends approval of the applicant's request to operate a day care home in this location. The operation will provide additional, and much-needed, child care options in the City. The site will retain its primary function as a residence given that the overall scope of the operation is small at a maximum of nine children, which is consistent with zoning requirements and reinforced through recommended Condition #3.

Although the block in which the subject property is located contains several curb cuts leading to short driveways with only one or two off-street parking spaces, staff believes that parking will be adequate for the proposed child care home. The small size of the operation will translate into a low number vehicles arriving at the site each day for pick-up and drop-off. In addition, the applicant or her staff will be required to guide children to or from vehicles in the unlikely event that on-street parking is unavailable for parents (Condition #6). Staff has included similar condition language as a back-up measure in other recent child care home cases.

Subject to the conditions contained in Section III of this report, staff recommends approval of the Special Use Permit request.

## III. RECOMMENDED CONDITIONS

Staff recommends **approval** subject to compliance with all applicable codes and ordinances and the following conditions:

1. The Special Use Permit shall be granted to the applicant only or to any corporation in which the applicant has a controlling interest. (P&Z)

STAFF: Barbara Ross, Deputy Director, Department of Planning and Zoning;  
Nathan Randall, Urban Planner.

Human Services:

A site visit was made on June 25, 2012. This is a two level townhome, with three bedrooms and two full bathrooms. The bedrooms and one bathroom are on the main level; the second bathroom is in the basement. She is using the entire basement as her major child care area. The basement has a direct exit door that leads to the fenced backyard. In the basement, there is a small area (with a door that is kept closed) with a refrigerator, toaster and microwave. There is no stove in the basement. The main level will not be accessible to children. She has a safety gate at the bottom of the basement steps. The parents will use the basement exit door to drop off or pick up children. The electrical plugs were all covered. She has a small table with chairs to be used for daily activities. She prepares meals the night before in her kitchen on the main level and stores it in the basement kitchen refrigerator for the next day. She warms the food before serving the children.

She has two designated napping areas, one for the infants and one for older children, with two cribs and cots for the older children. She has designated areas for manipulative and active play, with appropriate toys, such as puzzles, blocks, dolls, puppets, pretend play toys, arts and crafts accessories, music CD's, and books. All play materials are well organized and accessible to children.

The pathway leading to the fenced backyard is clear. It has abundant space for the children to play, with swings, slides and other equipment. Ms. Alvarado operates her business between the hours of 7 a.m. and 6 p.m., Monday through Friday.

Recommend approval of Mrs. Carmen Alvarado's special use permit to allow her to care for up to nine (9) non-resident children, pending compliance with other departments' recommendations and subject to licensing and registration requirements and other limitations of local and state regulations.
