Substandard Lot

- Subject property is substandard (does not meet minimum lot width requirement)
- SUP review required for redevelopment of substandard lot
- Pursuant to Section 12-901(C), City Council must find the proposal compatible with existing neighborhood character in terms of:
 - Bulk
 - Height
 - Design

Compatibility

Proposal would not affect compatibility with the neighborhood character in terms of bulk, height and design:

- New dwelling would be in roughly same location as existing
- Subject property landscaping would screen proposed dwelling from street and neighbors

Modifications

The requested modifications would be desirable for good site design and not be detrimental to neighboring property because the proposed site layout would:

- Minimize disturbed area
- Preserve many existing trees
- Be minimally visible from the street or neighboring property
