

Neighborhood Petition

BAR#2023-00433 OHAD
810 Prince St, Alexandria, VA 22314

The undersigned oppose the installation of a 10 feet tall x 18 feet wide garage door and its housing structure and respectfully request the BAR Members deny approval of the Waiver of fence height and deny issuance of a Certificate of Appropriateness at the property listed above for the following reasons:

- 1) The garage door and housing will be very visible from the public way
- 2) A 10 foot high fence will exceed the regulation height (8 feet) by 66%
- 3) There are alternative solutions available that would be in compliance with regulations
- 4) The scale, height, and volume of this fence is completely out of character with its surrounds
