Re: BZA Case #2021-00021 (Application for Special Exception for Addition)

Dear Members of the Board,

We have reviewed the draft plans for the addition to the Carland's home at 2001 Commonwealth Avenue and don't have any objections to the planned addition. We feel that the proposed addition will not have an adverse effect on our property, and we support the approval of their request for a Special Exception.

Sincerely,

Stephan Lally and Jennifer Veech

I strongly support the proposal! It will make the house more livable for a growing family. In addition the design of the roof and attic addition greatly improve the appearance of the building! It's refreshing to see an attractive addition to an attractive older structure instead of the tear downs, which are now very common in Del Ray. Ironically the city's revisions to the zoning code have decreased incentives to renovate homes and encouraged tear downs.
