

ISSUE: Permit to Demolish/Capsulate (partial) and Certificate of Appropriateness for alterations

APPLICANT: Stephanie Salek and Thomas Fogarty

LOCATION: Old and Historic Alexandria District
410 North Union Street

ZONE: RM/Residential Townhouse Zone

STAFF RECOMMENDATION

Staff recommends approval of the Permit to Demolish/Capsulate (partial) and Certificate of Appropriateness for alterations.

GENERAL NOTES TO THE APPLICANT

1. **APPEAL OF DECISION:** In accordance with the Zoning Ordinance, if the Board of Architectural Review denies or approves an application in whole or in part, the applicant or opponent may appeal the Board's decision to City Council on or before 14 days after the decision of the Board.
2. **COMPLIANCE WITH BAR POLICIES:** All materials must comply with the BAR's adopted policies unless otherwise specifically approved.
3. **BUILDING PERMITS:** Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Department of Code Administration (including signs). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, Room 4200, City Hall, 703-746-4200 for further information.
4. **ISSUANCE OF CERTIFICATES OF APPROPRIATENESS AND PERMITS TO DEMOLISH:** Applicants must obtain a copy of the Certificate of Appropriateness or Permit to Demolish PRIOR to applying for a building permit. Contact BAR Staff, Room 2100, City Hall, 703-746-3833, or preservation@alexandriava.gov for further information.
5. **EXPIRATION OF APPROVALS NOTE:** In accordance with Sections 10-106(B), 10-206(B) and 10-307 of the Zoning Ordinance, any Board of Architectural Review approval will expire 12 months from the date of issuance if the work is not commenced and diligently and substantially pursued by the end of that 12-month period.
6. **HISTORIC PROPERTY TAX CREDITS:** Applicants performing extensive, certified rehabilitations of historic properties may separately be eligible for state and/or federal tax credits. Consult with the Virginia Department of Historic Resources (VDHR) prior to initiating any work to determine whether the proposed project may qualify for such credits.

BAR #2022-00023 & BAR #2022-00024
410 North Union Street

0 15 30 60 Feet

Note: Staff coupled the applications for a Permit to Demolish (BAR #2022-00023) and Certificate of Appropriateness (BAR #2022-00024) for clarity and brevity. The Permit to Demolish requires a roll call vote.

I. APPLICANT'S PROPOSAL

The applicant requests a Permit to Demolish/Capsulate (partial) and Certificate of Appropriateness to add front and rear dormers at 410 North Union Street.

Permit to Demolish/Capsulate

Approximately 75 square feet of roof slope on both the front and rear will be demolished to accommodate the new dormers.

Certificate of Appropriateness

- Installation of new, operable composite shutters on the front and rear and the second and third story windows.
- Three-part dormer with central pedimented roof and six-over-six double hung windows on the front.
- Two pedimented-style dormers on the rear elevation with siding in between.
- Roof deck with recessed panel posts and tradition pickets.
- Materials consist of aluminum clad windows, fiber cement siding, painted composite pvc trim and railing, standing seam dormer roof, and wood rake and crown molding.

Site context

The property faces Founders Park across North Union to the east. A public alley runs east-west behind the property and abuts the subject property. Both the front and rear elevations of the property are visible from the public way.

II. HISTORY

The three-story, three-bay townhouse at 410 N. Union Street is one of a group of 86 brick townhouses bounded by North Union, North Lee, Queen, and Oronoco streets which were approved by City Council in 1968 (Special Use Permit #1084) and constructed in 1971. This particular townhome was built in **1974**. This area was not included in the Old and Historic Alexandria District until June of 1984.

Previous BAR Approvals

BAR2003-00141: After-the-fact approval of a brick wall.

BAR2013-00033: Administrative approval of window replacement.

BAR2017-00220: Administrative approval of a garage door and storm door.

III. ANALYSIS

Permit to Demolish/Capsulate

In considering a Permit to Demolish/Capsulate, the Board must consider the following criteria set forth in the Zoning Ordinance, §10-105(B), which relate only to the subject property and not to neighboring properties. The Board has purview of the proposed demolition/capsulation regardless of visibility.

Standard	Description of Standard	Standard Met?
(1)	Is the building or structure of such architectural or historical interest that its moving, removing, capsulating or razing would be to the detriment of the public interest?	No
(2)	Is the building or structure of such interest that it could be made into a historic shrine?	No
(3)	Is the building or structure of such old and unusual or uncommon design, texture and material that it could not be reproduced or be reproduced only with great difficulty?	No
(4)	Would retention of the building or structure help preserve the memorial character of the George Washington Memorial Parkway?	N/A
(5)	Would retention of the building or structure help preserve and protect an historic place or area of historic interest in the city?	No
(6)	Would retention of the building or structure promote the general welfare by maintaining and increasing real estate values, generating business, creating new positions, attracting tourists, students, writers, historians, artists and artisans, attracting new residents, encouraging study and interest in American history, stimulating interest and study in architecture and design, educating citizens in American culture and heritage, and making the city a more attractive and desirable place in which to live?	No

Staff does not believe that the proposed demolition meets any of the criteria above, as the structure was constructed in the early 1970s and has not achieved historic significance in its own right through time or as the work of a nationally recognized architect. The townhouse is typical of the multitude of perfectly functional, vernacular garage townhouses constructed in Alexandria in the mid-to-late 20th century when railroad tracks still ran down Union Street, Founders Park was envisioned to be mid-rise office buildings visually isolating this development from the river, and much of the waterfront was still noxious industrial uses. The demolition does not remove any character-defining features of uncommon design or historic merit, does not compromise the

integrity of historic areas of the district, and will not be a detriment to the public interest. Therefore, staff supports the application for a Permit to Demolish/Capsulate, as submitted.

Certificate of Appropriateness

This dwelling is part of a larger development where the BAR has approved substantial alterations and redesigns to most of the townhouses since this development was added to the historic district in 1984, 10 years after its construction. These townhouses are an architectural product of their time and location and lack historic significance or architectural distinction. They have a vaguely Colonial Revival architectural character with the street level devoted to multiple curb cuts, large garage doors and randomly placed fenestration.

As the image above shows, the townhouse at 410 N. Union Street is one of only two townhouses in this block of sixteen townhouses that does not have a front dormer. While there are fewer rear dormers, the great majority of these townhouses also have rear dormers and some also have roof decks. In cases such as this, where there is no historic context to protect, the BAR has given applicants a good deal of latitude to alter the original architectural style and to accommodate personal taste and changing lifestyles.

Figure 1: Aerial view of 400 block of N. Union St.

In summary, when the Old and Historic Alexandria District was established in 1946, 28 years before this townhouse was constructed, it was not created to freeze Alexandria at a specific point in time, the way Colonial Williamsburg is often described, but to prevent the demolition of identified historic resources and ensure that infill was compatible with nearby buildings of historic merit. The BAR's Standards and criteria in the Zoning Ordinance (Section 10-105), as well as the BAR's adopted policies and *Design Guidelines*, recognize that the historic fabric of Old Town may be modified, altered, and expanded to accommodate contemporary needs and to allow all buildings to continue to be used and cherished. As this development has evolved the Board has approved dormers and decks in a variety of styles, as reflected in the image above, and in the past few years have even approved more contemporary alterations.

Staff has no objection to the proposed alterations and recommends approval of the application as submitted.

STAFF

Stephanie Sample, Historic Preservation Planner, Planning & Zoning
Tony LaColla, AICP, Land Use Services Division Chief, Planning & Zoning

IV. CITY DEPARTMENT COMMENTS

Legend: C- code requirement R- recommendation S- suggestion F- finding

Zoning

- C-1 The property received variance BZA1084 in 1968 which set the FAR at 1.67, for a total of 1,870 square feet. With floor area exclusions, the proposal is under the allowed floor area and complies with BZA1084.
- C-2 Per §6-403(B), guardrails may all be erected as part of the main building to their required heights.
- C-3 Per §6-403(B)(2), the Board of Architectural Review may waive or modify the screening requirement for rooftop appurtenances.
- F-1 The proposed new dormers, guardrails, and renovations all comply with zoning.
- F-2 Average finished grade must be labeled when submitting for building permit.

Code Administration

- C-1 A building permit and plan review are required prior to the start of construction.

Transportation and Environmental Services

CONDITIONS

- R-1 The building permit must be approved and issued prior to the issuance of any permit for demolition, if a separate demolition permit is required. (T&ES)
- R-2 Applicant shall be responsible for repairs to the adjacent city right-of-way if damaged during construction activity. (T&ES)
- R-3 No permanent structure may be constructed over any existing private and/or public utility easements. It is the responsibility of the applicant to identify any and all existing easements on the plan. (T&ES)

FINDINGS:

- F-1 After review of the information provided, an approved grading plan is not required at this time. Please note that if any changes are made to the plan it is suggested that T&ES be included in the review. (T&ES)

CODE REQUIREMENTS

- C-1 The applicant shall comply with the City of Alexandria's Solid Waste Control, Title 5, Chapter 1, which sets forth the requirements for the recycling of materials (Sec. 5-1-99). (T&ES)
- C-2 The applicant shall comply with the City of Alexandria's Noise Control Code, Title 11, Chapter 5, which sets the maximum permissible noise level as measured at the property line. (T&ES)
- C-3 Roof, surface and sub-surface drains be connected to the public storm sewer system, if available, by continuous underground pipe. Where storm sewer is not available applicant must provide a design to mitigate impact of stormwater drainage onto adjacent properties and to the satisfaction of the Director of Transportation & Environmental Services. (Sec.5-6-224) (T&ES)
- C-4 Any work within the right-of-way requires a separate permit from T&ES. (Sec. 5-2) (T&ES)

Alexandria Archaeology

- F-1 No archaeological oversight will be necessary for this undertaking.

SUBMITTAL REQUIREMENTS:

Items listed below comprise the **minimum supporting materials** for BAR applications. Staff may request additional information during application review. Please refer to the relevant section of the *Design Guidelines* for further information on appropriate treatments.

Applicants must use the checklist below to ensure the application is complete. Include all information and material that are necessary to thoroughly describe the project. Incomplete applications will delay the docketing of the application for review. Pre-application meetings are required for all proposed additions. All applicants are encouraged to meet with staff prior to submission of a completed application.

Electronic copies of submission materials should be submitted whenever possible.

Demolition/Encapsulation : *All applicants requesting 25 square feet or more of demolition/encapsulation must complete this section. Check N/A if an item in this section does not apply to your project.*

- ☒ N/A
- ☒
☒
☒
☒
☐

☐ Survey plat showing the extent of the proposed demolition/encapsulation.
☐ Existing elevation drawings clearly showing all elements proposed for demolition/encapsulation.
☐ Clear and labeled photographs of all elevations of the building if the entire structure is proposed to be demolished.
☐ Description of the reason for demolition/encapsulation.
☐ Description of the alternatives to demolition/encapsulation and why such alternatives are not considered feasible.

Additions & New Construction: Drawings must be to scale and should not exceed 11" x 17" unless approved by staff. All plans must be folded and collated into 3 complete 8 1/2" x 11" sets. Additional copies may be requested by staff for large-scale development projects or projects fronting Washington Street. Check N/A if an item in this section does not apply to your project.

- ☒ ☐ N/A Scaled survey plat showing dimensions of lot and location of existing building and other structures on the lot, location of proposed structure or addition, dimensions of existing structure(s), proposed addition or new construction, and all exterior, ground and roof mounted equipment.
- ☒ ☐ FAR & Open Space calculation form.
- ☒ ☐ Clear and labeled photographs of the site, surrounding properties and existing structures, if applicable.
- ☒ ☐ Existing elevations must be scaled and include dimensions.
- ☒ ☐ Proposed elevations must be scaled and include dimensions. Include the relationship to adjacent structures in plan and elevations.
- ☐ ☐ Materials and colors to be used must be specified and delineated on the drawings. Actual samples may be provided or required.
- ☐ ☐ Manufacturer's specifications for materials to include, but not limited to: roofing, siding, windows, doors, lighting, fencing, HVAC equipment and walls.
- ☐ ☐ For development site plan projects, a model showing mass relationships to adjacent properties and structures.

Signs & Awnings: One sign per building under one square foot does not require BAR approval unless illuminated. All other signs including window signs require BAR approval. Check N/A if an item in this section does not apply to your project.

- ☐ ☐ N/A Linear feet of building: Front: _____ Secondary front (if corner lot): _____
- ☐ ☐ Square feet of existing signs to remain: _____
- ☐ ☐ Photograph of building showing existing conditions.
- ☐ ☐ Dimensioned drawings of proposed sign identifying materials, color, lettering style and text.
- ☐ ☐ Location of sign (show exact location on building including the height above sidewalk).
- ☐ ☐ Means of attachment (drawing or manufacturer's cut sheet of bracket if applicable).
- ☐ ☐ Description of lighting (if applicable). Include manufacturer's cut sheet for any new lighting fixtures and information detailing how it will be attached to the building's facade.

Alterations: Check N/A if an item in this section does not apply to your project.

- ☐ ☐ N/A Clear and labeled photographs of the site, especially the area being impacted by the alterations, all sides of the building and any pertinent details.
- ☐ ☐ Manufacturer's specifications for materials to include, but not limited to: roofing, siding, windows, doors, lighting, fencing, HVAC equipment and walls.
- ☐ ☐ Drawings accurately representing the changes to the proposed structure, including materials and overall dimensions. Drawings must be to scale.
- ☐ ☐ An official survey plat showing the proposed locations of HVAC units, fences, and sheds.
- ☐ ☐ Historic elevations or photographs should accompany any request to return a structure to an earlier appearance.

ALL APPLICATIONS: *Please read and check that you have read and understand the following items:*

- ☒ I have submitted a filing fee with this application. (Checks should be made payable to the City of Alexandria. Please contact staff for assistance in determining the appropriate fee.)
- ☒ I understand the notice requirements and will return a copy of the three respective notice forms to BAR staff at least five days prior to the hearing. If I am unsure to whom I should send notice I will contact Planning and Zoning staff for assistance in identifying adjacent parcels.
- ☒ I, the applicant, or an authorized representative will be present at the public hearing.
- ☒ I understand that any revisions to this initial application submission (including applications deferred for restudy) must be accompanied by the BAR Supplemental form and 3 sets of revised materials.

The undersigned hereby attests that all of the information herein provided including the site plan, building elevations, prospective drawings of the project, and written descriptive information are true, correct and accurate. The undersigned further understands that, should such information be found incorrect, any action taken by the Board based on such information may be invalidated. The undersigned also hereby grants the City of Alexandria permission to post placard notice as required by Article XI, Division A, Section 11-301(B) of the 1992 Alexandria City Zoning Ordinance, on the property which is the subject of this application. The undersigned also hereby authorizes the City staff and members of the BAR to inspect this site as necessary in the course of research and evaluating the application. The applicant, if other than the property owner, also attests that he/she has obtained permission from the property owner to make this application.

Pella® Reserve™

Traditional Wood & Clad/Wood

Exquisitely designed windows and doors with unparalleled historical detailing.

Double-Hung Interior

Double-Hung Exterior

- **Historical details**

Our most historically authentic line of wood windows and patio doors. Featuring through-stile construction, deliberate proportions and intricate profiles. Pella Reserve - Traditional products are the ideal choice for historical renovations and traditional building projects.

- **Authentic hardware**

Complement your project with historically authentic spoon-lock window hardware. Our Antiek casement window hardware is inspired by period furniture to deliver authentic traditional style.

- **Architectural interest**

Featuring the industry's only foam spacer solution, Pella's Integral Light Technology® grille helps capture the look of true-divided-light without sacrificing energy performance. Further your aesthetic with the putty profile, recreated with historically accurate angles – providing meaningful depth and a realistic shadow. Pella Reserve products offer the industry's deepest sash dimension.

- **Virtually unlimited customization**

If you can dream it, we can build it with our most customizable product line. From extra tall to extra wide, Pella can craft unique windows that complement your aesthetic. Custom sizes, grille patterns and designs, finishes, wood types and glass options are available.

- **Tailor-made solutions**

From preliminary drawings to installation, Pella's expert team of architects, engineers, drafters and consultants can work to deliver custom window and door solutions for your project. Partner with Pella to achieve your unique vision without concessions.

- **Intentional innovation**

Winner of the 2019 Most Innovative Window from Window and Door Magazine, the Integrated Rolscreen® retractable screen preserves aesthetics and the view. It is a double- and single-hung screen that appears when you open the window, and rolls away, out of sight, when you close it.

- **Durable interiors and extruded aluminum exteriors**

To help save you time on the jobsite, interior finish options are available in a variety of paints and stains, or primed and ready-to-paint. To complement your exterior aesthetic, choose from our carefully curated color palette or define your own custom color for your project.

- **ENERGY STAR® certified¹**

Pella wood products offer energy-efficient options that will meet or exceed ENERGY STAR guidelines in all 50 states. Pella Reserve products with triple-pane glass have been awarded the ENERGY STAR Most Efficient Mark in 2021.¹

- **Testing beyond requirements**

At Pella, our products are tested beyond requirements to help ensure they have long-lasting performance and reduce call-backs for you.

- **Best limited lifetime warranty²**

Pella Reserve products are covered by the best limited lifetime warranty in the business for wood windows and patio doors.²

Available in these window and patio door styles:

Special shape windows also available.

¹² See back cover for disclosures.

Integrated Security Sensors

Integrated wireless security sensors maintain aesthetics, streamline security installation and ensure no warranty loss is caused by post-installation drilling. Sensors can be monitored via the free Pella[®] Insynctive[®] App and are compatible with major security panel systems.¹⁰ For more information, go to connectpella.com.

The Best Limited Lifetime Warranty in the Industry
We know your reputation matters and you stake your reputation on quality, dependable products. That's why we have the best limited lifetime warranty in the industry for wood windows and patio doors.²

¹ Some Pella products may not meet ENERGY STAR[®] guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.
² Based on comparing written limited warranties of leading national wood window and wood patio door brands. See written limited warranty for details, including exceptions and limitations, at pella.com/warranty or contact Pella Customer Service.
³ Ratings are contingent on product configurations.
⁴ Color-matched to your product's interior and exterior color.
⁵ Available Fall 2021.
⁶ Flush multi-slide handle is a Pella exclusive design.
⁷ Flush multi-slide handle is not available in Champagne.
⁸ Availability may be limited. Contact your local Pella rep for details.
⁹ EnduraClad Plus protective finish is not available with all colors. See your local Pella sales representative for availability.
¹⁰ Requires the Insynctive App on a smart device, an Insynctive Bridge and a wireless home router with internet connection.
