**Non-Discrimination Data Supplemental Questions
For Applications to City Boards, Commissions, and Committees**

Completion of this section is **VOLUNTARY**. When completed, the section is separated and redacted from your application prior to the application's submission to City Council. **COUNCIL AND STAFF DO NOT USE THIS FORM IN DETERMINING APPOINTMENTS.** Information provided in this section is treated confidentially and the information is forwarded to the Alexandria Office on Human Rights for compilation of statistics. One responsibility of the Human Rights Commission (HRC) is to track whether the diversity in our City's population is reflected in appointments made to boards, commissions, committees and authorities; the HRC does this using only data supplied on this form. The HRC reports statistics only to Council.

The HRC's main role is to ensure discrimination does not occur in our city based on race, color, sex, religion, ancestry, national origin, marital status, familial status, age, sexual orientation or disability with respect to housing, employment, public accommodations, health and social services, education, credit or city contracts.

Member of the Environmental Policy Commission for six years, and the EPC representative to the Waterfront Commission for six years

Interests & Experiences

Statement of Interest/Why You Should Be Appointed

Summary I have an extensive background and a very strong interest in technological issues and natural systems in general, and in air, water, and natural resource protection in particular. In addition, both my professional career and my daily life have consistently included a strong focus on service to the natural world and to my community. I also have a keen sense of the importance of collaboration and teamwork for the success of advisory entities such as the Environmental Policy Commission (EPC) As a member of the Alexandria EPC for 6 years, I am most proud to have contributed to the very intensive and collaborative efforts of the EPC members and T&ES staff that have resulted in the formulation of Alexandria's 2040 Environmental Action Plan. I believe that plan provides an explicit outline of the path that Alexandria needs to follow to reduce its greenhouse gas emissions as required by our commitment to the goals of the Paris Climate Accord, and I applaud City Council's unanimous adoption of that EAP. I was also honored to serve as Chair of the Planning Committee for Alexandria Earth Day in both 2018 and 2019. In addition, I'm pleased to serve as the EPC representative Alexandria's Waterfront Commission. Finally, I am pleased have helped the city formulate a common-sense plan for addressing erosion issues along the Taylor Run and Strawberry Run watersheds. I am very interested in continuing to contribute to the environmental and natural resource conservation causes of Alexandria and this region. While I am already active in a number of related areas, such as river cleanups, promoting safe bicycling among youth, and natural resource education efforts, I believe that I can continue to make valuable contributions to the Environmental Policy Commission's efforts to provide sound and informed guidance on the full spectrum of environmental and resource protection issues facing our community and region. In particular, I want to support the very intensive actions that Alexandria will be undertaking to meet its climate action goals, especially through the coming collaborative efforts of the City, the EPC, the Planning Commission, and the public. Details Please see the attached resume for more information on my 40-year career in energy and environmental issues, as well as my interests and strengths relevant to serving on Alexandria's Environmental Policy Commission.

Interests & Experiences**Statement of Interest/Why You Should Be Appointed**

I am looking to join this commission to advance advocacy in Environmental policy in relation to an urban core city. I have been interested in joining and getting involved with the city and Environmental policy is in area I have high interest for. I should be appointed in part due to my age, as a 25 year old Gen Z the environmental impacts of climate change impact me and my generation more significantly. I have long been following the ins and outs of local and national policy and I'm excited about the opportunity to get involved in the process.

Interests & Experiences

Statement of Interest/Why You Should Be Appointed

To whom it may concern: I am a local Alexandria resident, and I am very proud to live here. I see and appreciate the effort our government and our citizens are putting into continually making this a better place for everyone to live here. I want to raise my daughter here, and I want to help make it even better for her as she grows up. I am applying for this position with the Environmental Policy Commission for several reasons: 1. I care deeply about the trajectory of our climate and how it will affect my life and those of future generations. I feel personally responsible and feel the need to do my part to help my community take collective action. 2. I think I represent the average Alexandrian in that climate change is a major concern for me, but also that sometimes I am not very informed on how I can do better individually or what policies are optimal for our city to adopt. Because of this, I think I offer the citizen's perspective and can help inform how best to disseminate information or carry out public education programs. 3. I am an avid DASH bus and general public transit supporter/user and see it as integral to our work to maintain and improve the local environment and reduce emissions. I sometimes worry about the loudest voices in our community being against funding going into public transit, and so I feel the need to represent the local resident who relies on these services and can personally attest to their success as they have been enhanced over the last few years. 4. As a bike commuter, I see where there is a lack of political will to improve bike infrastructure. This is another critical component to urban planning that can really improve local air quality, noise pollution, and public safety, and I would love to be a citizen representative to advocate for this cause. I may not be an expert in environmental science, but I am passionate about this topic. Moreover, I am in the privileged position to have some time to devote to aiding in this cause. Because of this, I would be honored to participate on this board and hopefully make a positive impact in my community. Thank you for considering my application, and I look forward to hearing from you to discuss this opportunity further. Regards, Cynthia Vint
