Subject: Re: Del Ray parking inquiry

Ann,
Please forward to the city council.

City the Council,

I do not support the parking being removed at the new garden center on Mount Vernon Ave.

- 1) we have a parking shortage and in no way can accommodate
 - A) loading and unloading trucks.
 - B) lack of employee and customer parking.
 - C) there literally is a few spots on front of this business to park. He feels he will receive 100 customers a day.
 - D) I own the business across the street and have witnessed for 11 years the lack of parking for both the post office and my business.
 - E) the support the new owner has received is from the Del Ray Business Assoc which he is in the board!
 - F) my business will be severely impacted by the lack of parking.

Thank you in advance!
