- Request Description: Dear Mayor Euille and members of the City Council,

I am writing to urge you to fully fund the Dr. Crawley's recommended \$7.4 million budget for ACPS.

We are a military family and 3 years ago chose Alexandria to live in and to invest in as homeowners because of the remarkable achievements of students at TC Williams. Honestly, it was a total crap shoot when it came to middle schools...but we are incredibly pleased with the education our children have received at both TC and Hammond. Sadly, we have not been able to persuade even one family (of the 14 we know who have moved to the area in the past 18 months) to likewise choose Alexandria.

By choosing to not fully fund the Superintendent's budget, Alexandria chooses to stunt the growth of an amazing school district.

We urge you to fund ACPS at the \$7.4million level and to leave room in the tax rate cap so that we can continue to offer our children the best education in Northern Virginia.

- Request Description: The Alexandria Law Library is a treasure to all Alexandrians - whether they use it or not. While its presence may not directly effect a large percentage of us, it certainly effects us all indirectly by making an Alexandria a safer, happier, and more just place to live. Many, many times I (and other local attorneys) have used the Law Library resources to help clients who had no ability to pay for legal services. Without this resource, the quality and quantity of pro bono work would drop immensely. The value of this alone cannot be overstated.

Also, on a fundamental level, the existence of a law library in a town is a differentiator - its sets a place apart and helps qualify it as City of a certain merit. It also helps justify the tax burden its citizens pay to live here.

Please do all you can to preserve the Alexandria Law Library.

Thank you,

David Damiani

- Request Description: To our Mayor, Vice Mayor, and City Council, regarding ACPS budget and related tax rate cap issue:  
First, let me say "thank you" for plans to increase ACPS funding by \$5 million over last year's level. I am aware that our new superintendent Dr. Crawley has requested an additional \$2.4 million in order to keep up with rising enrollment in our schools. It is my understanding that if the schools do not receive this additional amount, then the level of funding per student will actually decrease as enrollment increases.  
Related to this overall budget issue is your upcoming vote on setting the tax rate. It seems prudent to me, when setting the tax rate cap, to leave some flexibility so that, if additional funds are needed to fully fund our schools, then you could raise taxes later if needed for that purpose. Thank you for believing in our public schools and for funding them to the highest level possible in order to support our wonderful students, educators, and schools.  
Sincerely,  
Nancy Hall-Berens

Hello Mayor Euille and Members of City Council: Thank you for supporting the increased \$5 million in funding for ACPS. I am adding my voice to those who are asking you to please also fund another \$2.4 million that will maintain the per pupil spending for next year. I'm sure you are aware that enrollment is anticipated to increase by another 500 students next year. ACPS has been addressing the enrollment in a variety of ways, including increasing class size by two students per class. But the funding is needed to maintain services. I continue to serve on the Long Range Educational Facilities Plan (a joint effort with the city and ACPS) and remain acutely aware of the challenges in our schools. I know that you remain aware of this as well, and I know that you have many requests coming before you.

Our public schools are a vital part of our community. I am a proud parent of an ACPS graduate and another enrolled as a sophomore at TC Williams. Administrators and teachers are working hard to meet the educational needs of all our students. Please show your support by fully funding the ACPS budget.

Thank you for your service to Alexandria and to the students and families of ACPS.

- Phone Number: 703-684-6006
- Email: [djaygold@comcast.net](mailto:djaygold@comcast.net)
- Service Type: Mayor, Vice Mayor City Council
- Request Description: To the Mayor and Members of the City Council:

I urge you to fully fund the Superintendent's request for the coming year's school budget. We cannot fail to step up to address the needs of a growing student population that should experience the finest education we can possibly offer them. Alexandria is one of the most diverse school systems around and I'm sure you are aware that the varying needs of such a diverse enrollment are significant.

In order to accomplish the best for our students, don't tie your hands by setting the city tax rate cap too low in the event that adjustments have to be made later on.

Let's always be able to say that we have done the best by our youth.

Kind regards, Donna Gold

- Request Description: I am writing to encourage you to fully fund the superintendent's \$7.4M request for Charles Barrett Elementary School for next year. I will have 2 children at Charles Barrett next year and am aware of the expected enrollment increase. This is a wonderful, wonderful school and I would hate to see the care and excellence they are able to give children diminish due to a budget shortfall.

Sincerely,

- Request Description: Dr. Crawley presented a budget in January that asked for a \$7.4 million increase over last year's funding. His proposal includes a 4% increase over last year's funding, to reflect our projected enrollment growth of 4%. In other words, Dr. Crawley's request maintains the same city appropriation per student.

I understand the history to be as follows:

Since 2012, Alexandria's population has grown by 4.94%, ACPS's enrollment has grown by 9.91%, and our city appropriation per student has DECREASED by 3.47%. In addition, ACPS numbers continue to increase for costly special services..

Given that, please fully fund the superintendent's \$7.4M request.

- Request Description: Mayor Euille and City Council Members: I am writing on behalf of the 3,400 PTA members in ACPS in support of increased funding for our public schools for the 2015 budget year.  
We were heartened to see that the city manager increased ACPS funding by \$5 million in his proposed budget. But with another 500 additional students expected to enroll in our schools next year, here's why that \$5 million will cover only two-thirds of what we will need.  
For the past seven years, the dollar amount appropriated by the city per pupil has been sloping steadily downward, from more than \$15,000 in 2008 to \$13,500 last year. During that same period of time, the percentage of students receiving free or reduced-price meals and the percentage of English Language Learners has increased. These two categories of students require additional resources; for ELL students, that difference is \$3,500 more per student per year. Last year, elementary class sizes were increased by two students per class in an effort to serve more students with fewer resources.  
Under the city manager's proposed increase of \$5 million, the downward trend in spending per pupil would continue. The budget passed by the school board on Thursday night, which requests a modest additional \$2.4 million, would not increase spending per pupil...it would merely hold it constant. The total \$7.4 million request from ACPS represents a 4% increase in funding to keep pace with the 4% expected growth in enrollment. Many comparisons are made between Arlington and Alexandria because we compete against them in the real estate market for homebuyers, and in the labor market for teachers. Our school populations are quite different, however. About 60% of our students are economically-disadvantaged (as measured by their eligibility for free or reduced-priced meals); in Arlington, it's 31%. In Alexandria, 27% of our students are English Language Learners; in Arlington, it's 19%. And yet... Arlington spends \$3,300 MORE per pupil than we do here in Alexandria. Tomorrow, we ask you to remain flexible on the property tax rate cap so that you leave open the option for funding ACPS at the level necessary to maintain current per pupil spending. As more students pour through our doors and hallways, our responsibility to provide each of them with the education that they need and deserve has not diminished. And nor should our funding. Thank you.

- Request Description: I am writing to request that you fully fund the \$7.4 million request put forth by the Superintendant of the City of Alexandria. Both our cities population and enrollment have grown over the last year and I believe that if we do not fund the request fully, we will be cheating our students out of a quality education. Alexandria is not known for having an "excellent" public school system as it is and it would be a shame if circumstances were even worse and more schools are unable to meet the needs of their student population. Please consider fully funding the Superintendants request to increase the budget for ACPS schools
