Dear Mayor Euille & Members of City Council,

I would appreciate your support of Kevin Beekman's application to serve on the City's Traffic & Parking Board at City Council's meeting on Tuesday April 22nd. With 7 applicants for 3 board positions, the competition is certainly tight, but Kevin deserves your support.

Kevin has been active and involved with these issues for well over a decade and is in command of the factors involved with traffic and parking decisions. He's been a tireless advocate for the community and is well suited to make well informed and fair recommendations to help promote our community's goals.

Thank you for your consideration.

- Request Description: Support for Kevin Beekman on the Traffic and Parking Board

Dear Mayor, Vice Mayor, and City Council,

I am writing to express support for Kevin Beekman's nomination to the Traffic and Parking Board. As a civically-active resident of Del Ray, I have observed Mr. Beekman's activities to improve the quality of life in nearby Arlandria. Kevin has been an effective leader and an effective communicator. As Alexandria looks to a more urban future, I believe Mr. Beekman can both support that future with positive action and can articulate that future.

I believe we all need to work together to continue to grow the considerable support that already exists for a more transit-oriented Alexandria. At the same time we must preserve automobile access where there is an actual need, such as for the disabled. I feel Mr. Beekman will be able to help the Traffic and Parking Board preserve this balance as we move forward.

Thank you for your time and attention.

Sincerely,

Jonathan Krall

I have known Kevin for over 10 years and have worked with him in a variety of capacities. I believe he will bring careful thought and consideration to the issues that come before TPB. He is passionate about our community and as many of you know, has great ideas about how we can be an even better community. As you may know, the position for which he is applying is a 'vacant/not reapplying' slot, so he would not be displacing anyone currently on the TPB. Dear Mayor Euille & Members of City Council,

I would respectfully request that you give serious consideration to, and your support of, the application of Kevin Beekman to serve on the City of Alexandria's *Traffic & Parking Board* at City Council's meeting this Tuesday, April 22nd.

I have had the privilege of working with Kevin, and seeing firsthand for at least the last 12 years, as he consistently outperforms his peers on issues of concern to our Home Owners Association, our neighborhood, including the Arlandria and Del Ray neighborhoods and on countless City-wide issues as well.

As I'm sure you have witnessed, Kevin's ability to understand the issue, conduct research, attention to details, regulations with a focus on the overall impact and outcome of the issue/s being addressed are outstanding.

I am certain that most of you know Kevin Beekman and have seen him in action on behalf of our City over the years. One recent example (over several years now) is the Four Mile Run Farmers and Artisans Market which would not have come to fruition without Kevin's tireless advocacy.

Thank you, in advance, for your consideration and hopefully giving Kevin Beekman your support and the opportunity to continue to actively serve the City of Alexandria on the *Traffic & Parking Board*.

Thank you.

Kevin devotes more energy than anyone else I know to improving the City and lives of its residents. **Subject:** FW: Appointment to the Alexandria Traffic and Parking Board

Dear Mayor and Council Members:

I am writing to endorse the appointment of Jim Neurohr for the Alexandria Traffic and Parking Board to a two-year term of service.

I believe Jim Neurohr is a good fit for the Traffic and Parking Board. Jim's 30 years of experience with the City of Alexandria provide an important historical prospective that will be an asset. Jim knows why many of the traffic controls were placed on the City's streets because Jim designed and installed many of them. Over the past 30 years Jim formed close working relationships with the Police Department, Fire Department and the Parks and Recreation Department. He has contacts he can rely on when important issues come before the Board. Jim understands of the principles and theory of traffic engineering will help the Board resolve difficult issues. As the Transportation & Environmental Services representative on Special Events Committee Jim had a unique understanding of how different events and traffic controls affect various stakeholders. None of the current Board members have a background in traffic engineering or planning. Jim is also well connected in the community and, I believe, he has a good appreciation for the pulse of the community.

Very Respectfully,
