

#14 NO THROUGH TRUCKS

14
5-17-14

Hello. I'm Carolyn Wallace. I've lived at 2241 N. Early Street, near the corner of N. Early and Menokin Drive, since 1999. I appreciate the opportunity to address ^{Madam} the Mayor, Vice Mayor and Council Members today concerning the trucks on N. Early Street. N. Early Street is being used as a cut-through to bypass the Quaker Lane/Braddock Road/King Street intersection. I've noticed a marked increase in truck traffic over the last couple of years, including massive 18-wheelers, dump trucks, and box trucks, which has created a safety hazard for the residents, pedestrians, and the many children who play along our lovely tree-lined street.

N. Early was designed to be a LOCAL street. It's imperative we get the NO THROUGH TRUCKS signs as soon as possible because once the new Lifestyle Safeway is completed we could see a huge increase in the already overpowering number of trucks that run up and down along our narrow street (since all delivery trucks will be directed toward N Early from the newly designed Braddock Road entrance/exit). N Early is not and cannot become a substitute Service Road for the Bradlee Shopping Center and new Super Safeway complex. I have a Petition that many residents signed, if you would like to have that, but I can assure you that ALL residents on our street will appreciate not having to dodge trucks when NO THROUGH TRUCKS signs go up. I also have printed out some truck photos, just in case you all haven't seen enough photos from me.

I want to end by saying THANK YOU to the Council for listening to our concerns and understanding that the safety of your citizens is paramount in maintaining the lovely Alexandria we are all so very proud to be a part of.

We, residents of N. Early Street and Menokin Drive, request that NO THRU TRUCK signs be placed at the corner of Menokin Dr. and N. Van Dorn and the corner of Braddock Road and N. Early Street to secure the safety/quality of our neighborhood.
