BAR CASE # 2015-00002 &
2015-00004

BAR Meeting
February 18, 2015

ISSUE: Permit to Demolish and Certificate of Appropriateness
for Alterations

APPLICANT:

LOCATION: 724 South Royal Street

ZONE: RM / Residential

STAFF RECOMMENDATION

Staff recommends approval of the Permit to Demolish and Certificate of Appropriateness with the conditions:

- That the aluminum clad wood windows proposed on the addition are consistent with the *Window Performance Specifications* – including putty profile muntins.
- That BAR approval is subject to compliance with the Zoning Ordinance. Applicant must submit FAR and open space calculations for bay window bump-out for zoning approval prior to the release of Building Permits.

****EXPIRATION OF APPROVALS NOTE:** In accordance with Sections 10-106(B) and 10-206(B) of the Zoning Ordinance, any official Board of Architectural Review approval will expire 12 months from the date of issuance if the work is not commenced and diligently and substantially pursued by the end of that 12-month period.

****BUILDING PERMIT NOTE:** Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Building and Fire Code Administration (including signs). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, Room 4200, City Hall, 703-838-4360 for further information.

****APPEAL OF DECISION:** In accordance with the Zoning Ordinance, if the Board of Architectural Review denies or approves an application in whole or in part, the applicant or opponent may appeal the Board's decision to City Council on or before 14 days after the decision of the Board.

BAR2015-00002 & BAR2015-00004

Note: In the interest of clarity and brevity, staff has coupled the reports for the Permit to Demolish (BAR 2015-0002) and the Certificate of Appropriateness (BAR 2015-0004.)

UPDATE

On February 4, 2015, this case was deferred by the Board in order for additional information to be provided by the applicant and staff. The applicant was asked to provide a scaled, front elevation drawing and BAR staff was asked to survey the configurations of Yates Gardens' bay windows and front door shutters.

The requested drawing has been drafted by the applicant and included as Attachment 3.

A photographic summary of the survey can be found on Attachment 4. Staff's original recommendation has not changed after the completion of the survey. Staff still finds that the bay window's original design and proportions are appropriate for this building. In addition, the survey concluded that entry doors with or without shutters can be found on buildings which contain bay windows throughout the Yates Garden development. This development truly contains a wide variety of Colonial features in a vernacular form.

I. ISSUE

The applicant requests approval of:

Permit to Demolish

- Demolish a portion of the front façade on the first floor for a new window (approx. 35 sq. ft.)

Certificate of Appropriateness

- Install a new, bay window on the first floor of the front façade. The bay window will feature 6/6 and 4/4 double-hung, aluminum clad wood windows, composite base panels and a standing seam metal roof.
- Install new, 6/6 aluminum-clad wood full-frame replacement windows on the front façade to replace the existing, single-glazed wood windows.

Note: The HVAC condenser currently located in the front yard is proposed to be relocated into the rear yard as part of this project. Due to its location in the rear yard, it will not be visible from a public right-of-way and therefore not subject to review by the BAR.

II. HISTORY

The Yates Gardens subdivision is located on the original plot of land used as "Pleasure Gardens" by 18th century Alexandrians. These public gardens encompassed an abundant supply of water around which vegetable, botanical and social gardens emerged. These social gardens included billiard rooms, bathhouses and theatres and became a popular location for private as well as

public events. There were two main *gardens* in this area “Spring Garden” and “Yeates’ Garden.” These gardens remained in existence until the first half of the 20th century, when Alexandria saw an increase in the industrial and commercial growth especially along the waterfront and an increase in federal government jobs in the 1920s and 1930s, which required a demand for moderately-priced multi-unit residential developments in the region.

The Yates Gardens development is significant for being one of the Washington area’s first, late 1930s-early 1940s, multi-unit developments. The project, as a whole, retains a large measure of its original, architectural character and setting. This development’s character-defining features include its varied Colonial Revival style rowhouses set back from the street on uniform city blocks and its focus on quality of life. Parking lanes between the sidewalk and street are installed to provide a separation from automobile traffic and landscaped medians are added down the centers the main streets to support this philosophy.

The two-story, brick townhouse at 724 South Royal was built in the Colonial Revival style in the 1940s¹ as part of the Yates Gardens subdivision. It is a mid-block, interior unit in a string of seven attached houses. Based on staff research on the Yates Garden’s development, it appears when these buildings were designed and ultimately constructed an array of Colonial Revival details, including bay windows, were part of the subdivision’s original features, as shown in the photos and drawings below.

Figure 1: c1940s Yates Gardens Photo

¹ Building Permit 2923 Issued for the block 722-732 S. Royal on March 10, 1941. See Permit in Figure 4 below.

No. 2923

Application for Permit to Build
CITY OF ALEXANDRIA, VA.

Alexandria, Va., MAR 10, 1941

TO THE CITY ENGINEER:

The undersigned hereby applies for a permit to build according to the following specifications:

1. State how many buildings to be erected? ONE (GROUP #9)
2. Material BRICK & CINDER BLOCK - INTERIOR PART FRAM
3. What is the owner's name? YATES GARDENS INC.
4. What is Architect's name? KIRKHOFF & BAGLEY
5. What is Builder's name? YATES GARDENS INC.
6. What is Location? 5 ROYAL BETWEEN FRANKLIN & JEFFERSON
7. What No. of house? 722-732 5 ROYAL ST.
8. What is purpose of the building? RESIDENTIAL
9. What will the building be erected on, solid or filled land? PART SOLID PART FILLED
10. Size of building, No. of feet front 120; No. of feet rear 120; No. of feet deep 42
No. of stories in height 2; Finished outside grade to cellar floor, feet 7
1st floor is 3 feet above curb grade.
11. Material of foundation CINDER BLOCK
12. Thickness of external walls; cellar or basement 12; 1st story 8; 2nd story 8
3rd story 8; 4th story 8; 5th story 8
Thickness of party walls, cellar or basement 8; 1st story 8; 2nd story 8
3rd story 8; 4th story 8; 5th story 8
13. What will be the materials of the front? BRICK
14. Will the roof be flat, pitch or mansard? PITCH
15. Roofing material SLATE OR 40 Lb. EXTRA-CORTEX TIN
16. What will be the means of access to the roof? NONE
17. How is the building heated? HOT AIR
18. Are there any bay windows? No; height ---; width ---; projection ---
19. What will be the projection of steps from building line? NONE
20. Are there vaults? No; Dimensions ---
21. Will there be an area? No; width ---; how protected? ---
22. Will there be any cellar steps? No; how protected? ---
23. Is the lower story to be used for business purposes of any kind? No
24. What is the estimated cost of the improvement? \$ 35,250
25. Have deposited \$ --- as required by City ordinance.
26. After completion will the building conform, in every respect, with the requirements of the building law? YES

Figure 3: 1941 Building Permit for 722-732 South Royal Street

III. ANALYSIS

Permit to Demolish/Capsulate

In considering a Permit to Demolish/Capsulate, the Board must consider the following criteria set forth in the Zoning Ordinance, §10-105(B):

- (1) Is the building or structure of such architectural or historical interest that its moving, removing, capsulating or razing would be to the detriment of the public interest?
- (2) Is the building or structure of such interest that it could be made into a historic house?
- (3) Is the building or structure of such old and unusual or uncommon design, texture and material that it could not be reproduced or be reproduced only with great difficulty?
- (4) Would retention of the building or structure help preserve the memorial character of the George Washington Memorial Parkway?
- (5) Would retention of the building or structure help preserve and protect an historic place or area of historic interest in the city?

- (6) Would retention of the building or structure promote the general welfare by maintaining and increasing real estate values, generating business, creating new positions, attracting tourists, students, writers, historians, artists and artisans, attracting new residents, encouraging study and interest in American history, stimulating interest and study in architecture and design, educating citizens in American culture and heritage, and making the city a more attractive and desirable place in which to live?

The area proposed for demolition dates from the mid-20th century. However, the Board regularly approves selective amounts of demolition on buildings if the demolition is limited to ordinary features or elements that are easily reproducible and fabricated of readily available materials. In this case, the front elevation of this building is constructed in a pumpkin colored brick veneer in an eight-course common bond pattern. Similar brick is still produced and easily found in many local brickyards. In addition, the applicant is proposing removal of the existing, 6/6 single glazed wood window with operable shutters. This window contains nailed joints and float glass. It does not have a high level of craftsmanship, such as a pre-1920s window which contains cylinder glass and mortise and tendon joints, and is not of unusual or uncommon design. Staff does not object to its removal and supports the demolition, as submitted.

Certificate of Appropriateness

Since it is generally viewed that this development is significant for its collection of late 1930s-early 1940s Colonial Revival buildings, as well as its site design and overall development pattern, and not for the significance of the individual buildings themselves, staff supports a more moderate level of design review when evaluating alterations and changes, as long as the original design intent of the architect and the overall integrity of the Yates Garden's development is retained. Any changes, however, should continue to respect the resource's predominant architectural style and character.

The Board's *Window Policy* generally discourages the use of modern materials, including aluminum-clad wood windows, on buildings constructed prior to 1965. It states that "High quality, appropriately detailed aluminum-clad, wood composite or fiberglass replacement windows may be used on buildings constructed after 1965...[they] may also be used on any 20th-century commercial buildings more than four stories in height and on multifamily projects with greater than four units." Staff finds that the *Window Policy* allows for a variety of options and believes that this is the reason the Board reserved the ability to interpret the policy on a case-by-case basis. Staff finds the use of aluminum-clad windows on a c1940s building within the Yates Garden development will not compromise the resource's overall character and recommends that the Board find the material in conformance with the Board's *Window Policy*.

Regarding the proposed alterations to the existing building, staff supports the installation of a new window on the front elevation based on the above photo documentation, which identifies that bay windows of very similar configurations were an original design option provided by the architect for townhouses throughout the development. Staff finds that, since this was a design element used on these buildings during the first period of construction, and the applicant's design is very similar to the architect's original renderings, the proposed bay window is not a conjectural feature but architecturally appropriate, yet subtly differentiated. Therefore, staff recommends approval of the Certificate of Appropriateness, with the general condition that the

applicant must submit detailed window specifications for the aluminum-clad wood windows which comply with the Board's *Window Performance Specifications*.

STAFF

Michele Oaks, Historic Preservation Planner, Planning & Zoning
Al Cox, FAIA, Historic Preservation Manager, Planning & Zoning

IV. CITY DEPARTMENT COMMENTS

Legend: C- code requirement R- recommendation S- suggestion F- finding

Zoning Comments

C-1 Zoning compliance cannot be determined. Applicant must submit open space and FAR calculations for bay window bump out.

Code Administration

F-1 The following comments are for BAR2015-00002. Once the applicant has filed for a building permit and additional information has been provided, code requirements will be based upon that information and the building permit plans. If there are any questions, the applicant may contact Charles Cooper, Plan Review Division at Charles.cooper@alexandriava.gov or 703-746-4197.

C-1 Building, trade permits and inspections are required for this proposed construction to partially demo and capsulate. Five sets of construction documents that fully detail the construction as well as layout and schematics of the mechanical, electrical, and plumbing systems shall accompany the permit application(s).

Transportation and Environmental Services

R-1 Applicant shall be responsible for repairs to the adjacent city right-of-way if damaged during construction activity. (T&ES)

R-2 No permanent structure may be constructed over any existing private and/or public utility easements. It is the responsibility of the applicant to identify any and all existing easements on the plan. (T&ES)

F-1 After review of the information provided, an approved grading plan is not required at this time. Please note that if any changes are made to the plan it is suggested that T&ES be included in the review. (T&ES)

C-1 The applicant shall comply with the City of Alexandria's Solid Waste Control, Title 5, Chapter 1, which sets forth the requirements for the recycling of materials (Sec. 5-1-99). (T&ES)

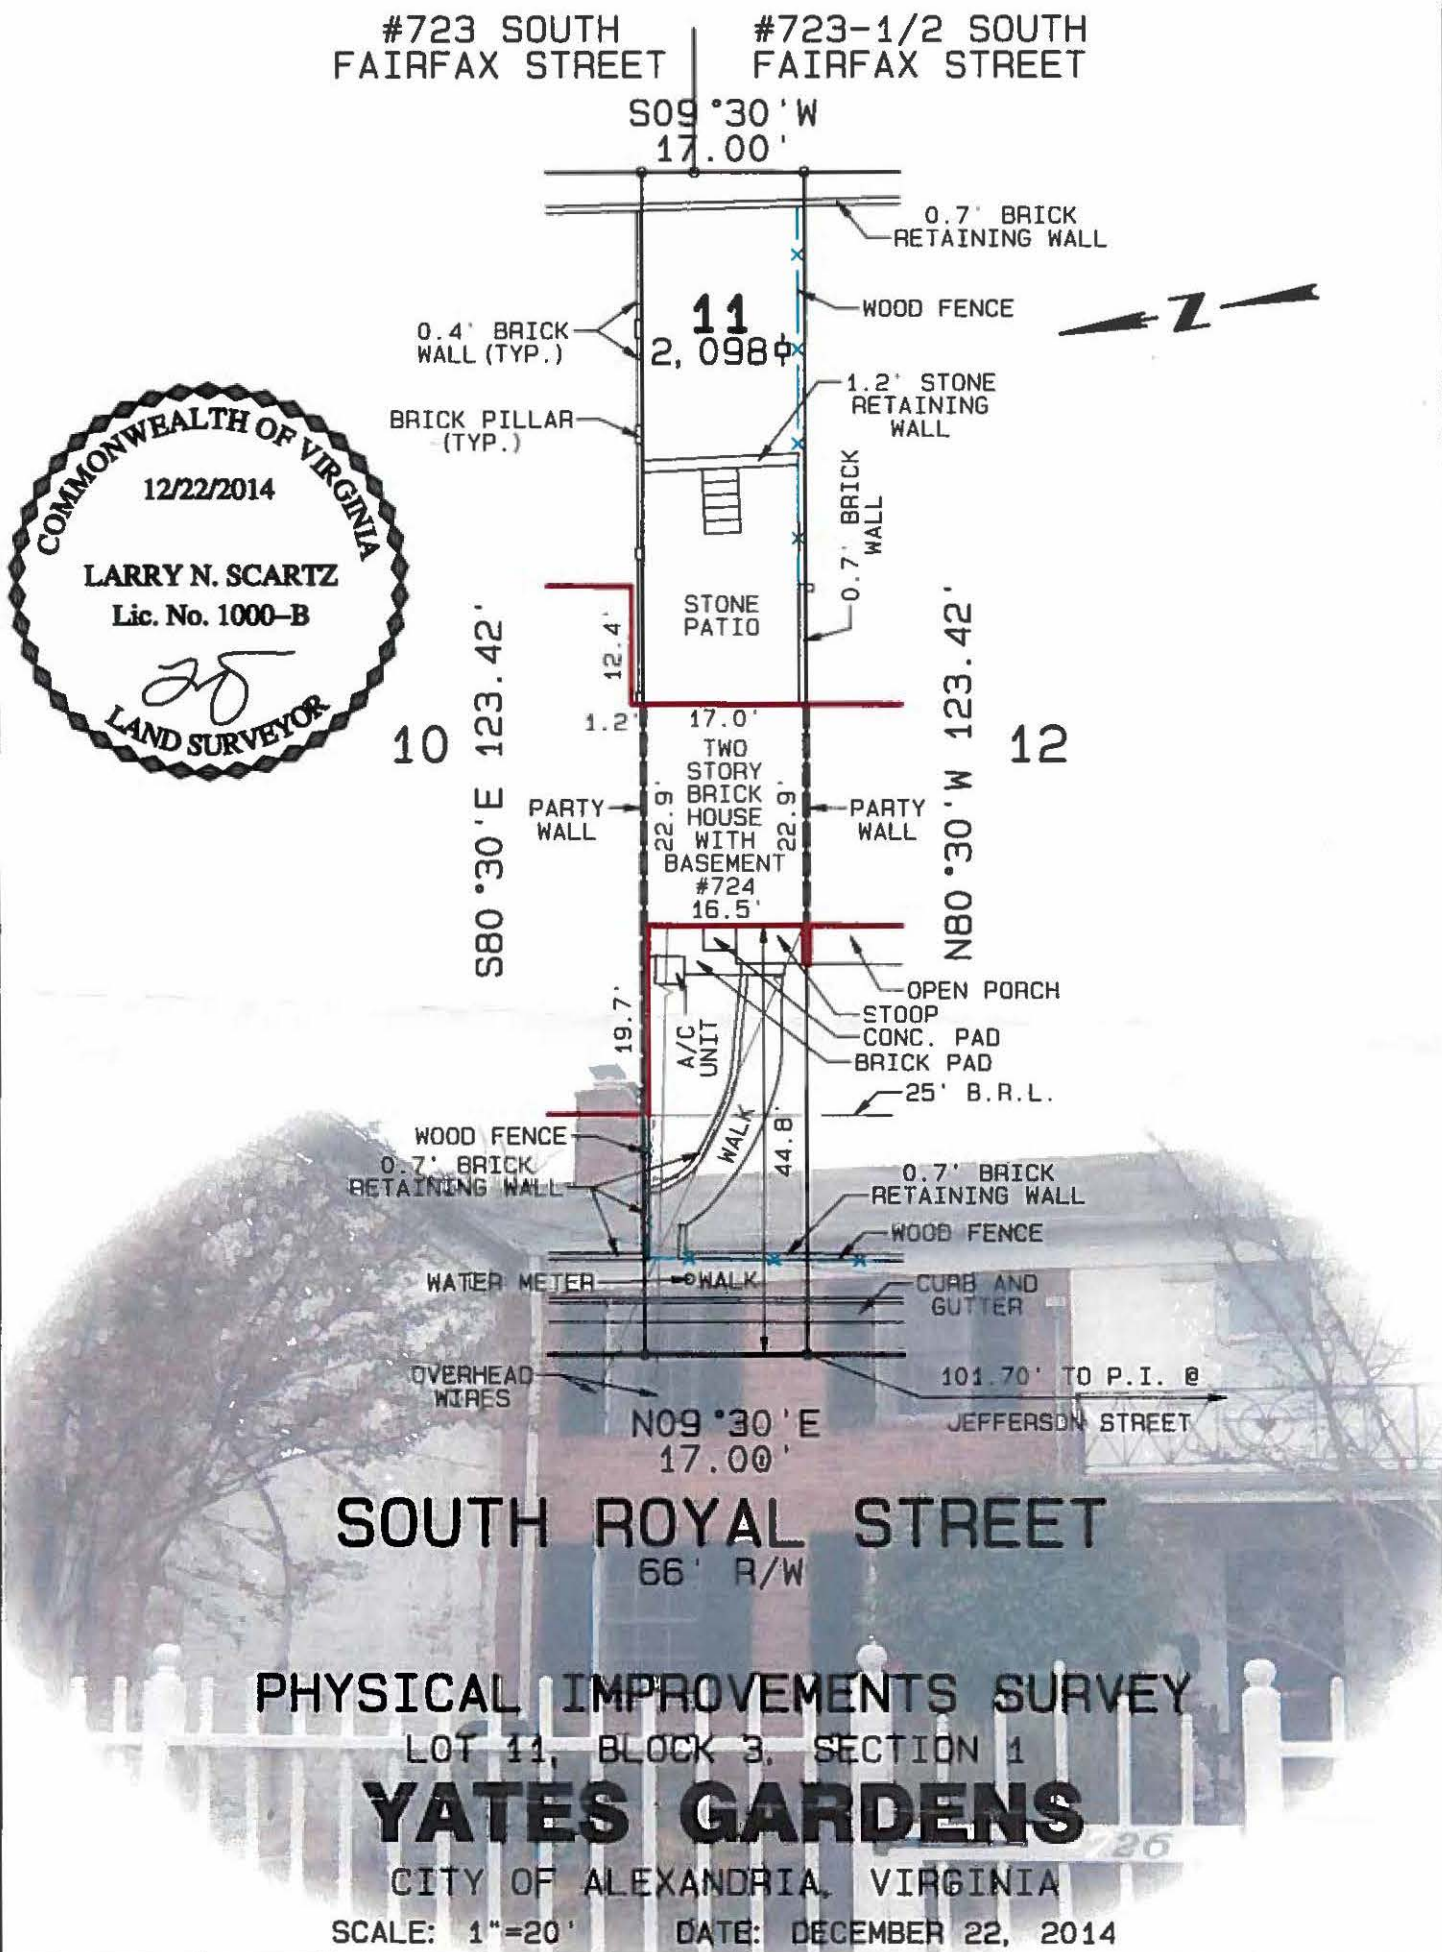

C-2 The applicant shall comply with the City of Alexandria's Noise Control Code, Title 11, Chapter 5, which sets the maximum permissible noise level as measured at the property line. (T&ES)

- C-3 All secondary utilities serving this site shall be placed underground. (Sec. 5-3-3) (T&ES)
- C-4 Any work within the right-of-way requires a separate permit from T&ES. (Sec. 5-2) (T&ES)

DESCRIPTION OF PROPOSED WORK: Please describe the proposed work in detail (Additional pages may be attached).

Requesting approval to 1) replace two front upper level windows with standard double hung wood windows and 2) replace lower level front window with wood bay window. Please see attached diagrams and specifications for more detail.

SUBMITTAL REQUIREMENTS:

Items listed below comprise the minimum supporting materials for BAR applications. Staff may request additional information during application review. Please refer to the relevant section of the *Design Guidelines* for further information on appropriate treatments.

Applicants must use the checklist below to ensure the application is complete. Include all information and material that are necessary to thoroughly describe the project. Incomplete applications will delay the docketing of the application for review. Pre-application meetings are required for all proposed additions. All applicants are encouraged to meet with staff prior to submission of a completed application.

Electronic copies of submission materials should be submitted whenever possible.

Demolition/Encapsulation : All applicants requesting 25 square feet or more of demolition/encapsulation must complete this section. Check N/A if an item in this section does not apply to your project.

- ☐ ☒ N/A
- ☐ ☐ Survey plat showing the extent of the proposed demolition/encapsulation.
- ☐ ☐ Existing elevation drawings clearly showing all elements proposed for demolition/encapsulation.
- ☐ ☐ Clear and labeled photographs of all elevations of the building if the entire structure is proposed to be demolished.
- ☐ ☐ Description of the reason for demolition/encapsulation.
- ☐ ☐ Description of the alternatives to demolition/encapsulation and why such alternatives are not considered feasible.

Additions & New Construction: Drawings must be to scale and should not exceed 11" x 17" unless approved by staff. All plans must be folded and collated into 3 complete 8 1/2" x 11" sets. Additional copies may be requested by staff for large-scale development projects or projects fronting Washington Street. Check N/A if an item in this section does not apply to your project.

- ☐ ☐ N/A Scaled survey plat showing dimensions of lot and location of existing building and other structures on the lot, location of proposed structure or addition, dimensions of existing structure(s), proposed addition or new construction, and all exterior, ground and roof mounted equipment.
- ☐ ☐ FAR & Open Space calculation form.
- ☐ ☐ Clear and labeled photographs of the site, surrounding properties and existing structures, if applicable.
- ☐ ☐ Existing elevations must be scaled and include dimensions.
- ☐ ☐ Proposed elevations must be scaled and include dimensions. Include the relationship to adjacent structures in plan and elevations.
- ☐ ☐ Materials and colors to be used must be specified and delineated on the drawings. Actual samples may be provided or required.
- ☐ ☐ Manufacturer's specifications for materials to include, but not limited to: roofing, siding, windows, doors, lighting, fencing, HVAC equipment and walls.
- ☐ ☐ For development site plan projects, a model showing mass relationships to adjacent properties and structures.

Signs & Awnings: One sign per building under one square foot does not require BAR approval unless illuminated. All other signs including window signs require BAR approval. Check N/A if an item in this section does not apply to your project.

- ☐ ☐ N/A Linear feet of building: Front: _____ Secondary front (if corner lot): _____
- ☐ ☐ Square feet of existing signs to remain: _____
- ☐ ☐ Photograph of building showing existing conditions.
- ☐ ☐ Dimensioned drawings of proposed sign identifying materials, color, lettering style and text.
- ☐ ☐ Location of sign (show exact location on building including the height above sidewalk).
- ☐ ☐ Means of attachment (drawing or manufacturer's cut sheet of bracket if applicable).
- ☐ ☐ Description of lighting (if applicable). Include manufacturer's cut sheet for any new lighting fixtures and information detailing how it will be attached to the building's facade.

Alterations: Check N/A if an item in this section does not apply to your project.

- ☒ ☐ N/A Clear and labeled photographs of the site, especially the area being impacted by the alterations, all sides of the building and any pertinent details.
- ☒ ☐ Manufacturer's specifications for materials to include, but not limited to: roofing, siding, windows, doors, lighting, fencing, HVAC equipment and walls.
- ☒ ☐ Drawings accurately representing the changes to the proposed structure, including materials and overall dimensions. Drawings must be to scale.
- ☐ ☒ An official survey plat showing the proposed locations of HVAC units, fences, and sheds.
- ☐ ☒ Historic elevations or photographs should accompany any request to return a structure to an earlier appearance.

ALL APPLICATIONS: Please read and check that you have read and understand the following items:

- ☒ I have submitted a filing fee with this application. (Checks should be made payable to the City of Alexandria. Please contact staff for assistance in determining the appropriate fee.)
- ☒ I understand the notice requirements and will return a copy of the three respective notice forms to BAR staff at least five days prior to the hearing. If I am unsure to whom I should send notice I will contact Planning and Zoning staff for assistance in identifying adjacent parcels.
- ☒ I, the applicant, or an authorized representative will be present at the public hearing.
- ☒ I understand that any revisions to this initial application submission (including applications deferred for restudy) must be accompanied by the BAR Supplemental form and 3 sets of revised materials.

The undersigned hereby attests that all of the information herein provided including the site plan, building elevations, prospective drawings of the project, and written descriptive information are true, correct and accurate. The undersigned further understands that, should such information be found incorrect, any action taken by the Board based on such information may be invalidated. The undersigned also hereby grants the City of Alexandria permission to post placard notice as required by Article XI, Division A, Section 11-301(B) of the 1992 Alexandria City Zoning Ordinance, on the property which is the subject of this application. The undersigned also hereby authorizes the City staff and members of the BAR to inspect this site as necessary in the course of research and evaluating the application. The applicant, if other than the property owner, also attests that he/she has obtained permission from the property owner to make this application.
