SUP #2014-0129
4608 & 4610 Kenmore Avenue
Parcel Address: 4550 Kenmore Avenue

I. DISCUSSION

The applicant, 7-Eleven, Inc., represented by M. Catherine Puskar as counsel, requests to amend a previously approved Special Use Permit (SUP) to expand a convenience store into the adjacent tenant space, formerly a Quiznos Sub Sandwich Restaurant, at 4608 Kenmore Avenue.

SITE DESCRIPTION

The subject property is one lot of record with approximately 824 feet of lot frontage on Kenmore Avenue, 964 feet on Library Lane, and a total lot area of 247,522 sq. ft. The site contains a 51,224 square foot shopping center, constructed in 1964, and a 2,739 sq. ft. gasoline service station that opened in 1995 (SUP#1727 and #1727A).

Known as the Seminary Plaza Shopping Center, the subject property is surrounded by a mix of commercial, residential, and institutional uses. An Exxon service station is located to the north and residential apartments are located to the east. An office building is located to the south and is separated by an access road from the shopping center. A public library, fire station, and middle school are sited farther to the south on Seminary Road. The Courtyard Hotel is located to the west, across Kenmore Avenue.

The existing convenience store occupies 1,600 square feet and is one of nine tenants in the shopping center. The applicant's business is located between a vacant tenant space, where Quiznos Sub Sandwich Restaurant formerly operated, and a salon. A health club, dry cleaner, pharmacy, restaurant, and bank are also tenants at the subject site. The anchor tenant space, which previously housed a Magruder's grocery store, now is vacant.

BACKGROUND

The Planning Commission approved SIT#62-006 on July 23, 1962 for the Seminary Plaza Shopping Center and a 379 space parking lot at 4550 Kenmore Avenue. At that time, the developer proposed to lease tenant space to three retail operations, four personal service businesses, and one amusement establishment.

The applicant has operated a 7-Eleven convenience store at 4610 Kenmore Avenue since March 1964 and is one of the original shopping center tenants. City Council approved SUP#2003-0116 to permit the continued operation of the then nonconforming convenience store. A recent staff SUP inspection revealed violations for litter and for the storage of materials outside. The applicant immediately addressed these violations and now complies with all SUP conditions.

City Council approved SUP#2004-0046 for a Quiznos restaurant in the abutting 2,112 square foot tenant space at 4608 Kenmore Avenue. Zoning inspections in 2010 and 2012 resulted in

three warning tickets for the display of portable signs, which were immediately removed. Quiznos closed and vacated the space on September 14, 2014

PROPOSAL

The applicant requests approval to expand its existing convenience store into the former Quiznos restaurant space at 4608 Kenmore Avenue creating a 3,712 square foot retail operation. The applicant proposes to increase its selection of fresh and hot prepared food items, such as sandwiches, salads, fruits, pizza, chicken wings, hot dogs, and snack foods. The coffee bar and fountain drink area would be expanded and more grocery items would be available for purchase. Interior lighting, display, and décor upgrades are proposed to reflect current 7-Eleven corporate standards. Additionally, the interior renovation would include improvements to store security features that include higher resolution video monitors for the four existing cameras, three additional cameras, and enhanced lighting.

Characteristics of the existing convenience store which will continue are:

Hours of operation:	24 hours a day
Customers:	Approximately 1,350 per day
Employees:	Twelve employees per day
Alcohol:	Off-premises alcohol sales between 6 a.m. and midnight daily pursuant to Virginia ABC regulations
Noise:	Noises typically associated with a retail business are expected
Odors:	No odors are expected from the business
Trash:	Typical solid waste from a small retail business such as cardboard. Trash would be collected daily.
Litter:	Employees would regularly monitor the property for litter.

ZONING/ MASTER PLAN DESIGNATION

Pursuant to Section 4-403(G) of the Zoning Ordinance, a convenience store is permitted in the CG zone with Special Use Permit approval. The convenience store use is consistent with the Seminary Hill/Strawberry Hill Small Area Plan, which designates this area for commercial use.

PARKING

Sections 8-100(A)(3) and 8-200(F)(1) of the Zoning Ordinance exempt the shopping center and the existing convenience store from parking requirements because SIT#62-006 was approved prior to 1963. The convenience store expansion of 2,112 square feet, however, is considered a new use that requires 13 additional parking spaces. The 379-space parking lot provides a sufficient number of spaces to accommodate the grandfathered uses in the shopping center as well as the convenience store's 13 required parking spaces.

II. STAFF ANALYSIS

Staff believes the proposed expansion of the existing convenience store is a reasonable request. The additional space at 4608 Kenmore Avenue would permit the applicant to expand its merchandise selection and upgrade the store's interior to be consistent with contemporary 7-Eleven models. Additionally, the proposed expansion would increase the availability of quick-service food options for nearby office employees and hotel guests while reducing shopping center vacancy.

Importantly, the proposed store expansion and upgrade provides an opportunity for the applicant to improve security measures in the Seminary Plaza Shopping Center convenience store. As a general matter, convenience stores are encouraged to develop sound security programs because these businesses are often open 24 hours a day and sell off-premises alcohol. The applicant's business ranks in the mid-range for police calls from City convenience stores with 41 calls to police between January 1, 2014 and January 22, 2015. All calls for service, however, did not result in reportable offenses. The lowest number of calls for service from a City convenience store during that same time period was eight and the highest was 157.

To improve security, the applicant's proposal would increase visibility into the space through the wider expanse of windows integrated into the proposed storefront. The proposed high resolution security system, additional cameras, and improved lighting, would also improve public and employee safety within the store. In addition to these security enhancements, staff and police have added several security-related conditions, similar to those that were included in recent SUPs for convenience stores in the Carlyle area and at 410 East Glebe Road. First, staff recommends that at least eighty percent of the storefront windows must remain free of signage, shelves, and products to provide clear views into the store, as stated in Condition 18. The cash register must be located in an area where employees can observe indoor and outdoor activity as well as public restrooms and the ATM. These measures are addressed in Conditions 19 and 20, respectively. Police recommend that two employees work at the store at all times in Condition 21 and the installation of high quality, closed circuit television cameras is included in Condition 22. Additional conditions refer to methods designed to reduce loitering. Condition 23 recommends that the applicant sign an agreement with the Police Department to enforce no-trespassing and no loitering policies on the store property and signage prohibiting trespassing and loitering is stipulated in Condition 24. Moreover, the case can be docketed for Planning Commission and City Council review prior to the standard one year SUP review if security matters arise, as stated in Condition 25.

Further conditions have been carried over from SUP#2003-0116 and several have been amended to reflect current SUP standard language, including more stringent requirements for off-premises alcohol sales and the posting of DASH and Metrobus schedules. Modern-day standard conditions regarding supply delivery schedules and the proper disposal of waste products have been added in Conditions 26 and 27, respectively.

Subject to the conditions stated in Section III of this report, staff recommends approval of the Special Use Permit request.

The system should be one in which a perpetrator can be clearly identified. There should also be a camera strategically placed outside of the store that monitors the ingress and egress of the store as it is located in a shopping center and is not a stand-alone store as most are. This same camera should also cover some of the parking area that is closely situated to the store for crime purposes.
- S-1 The height of the isles should be such that the employees are able to see over them and convex mirrors should be used to rid the store of unseen/unmonitored hidden areas
- S-2 The register area should be “raised” from the floor to allow the employees to have a clear view of the entire store and to help prevent would-be robbers from jumping over the counter.
- S-3 Refrain from business practices that may encourage loitering such as offering free refills of coffee and fountain drinks.
- S-4 A comprehensive security plan for taking out the trash should be implemented in situations when one employee remains inside the store while one is outside disposing of trash (possibly in the rear of the store leaving the back door unlocked and unsecured).

See attached narrative description.

3. Narrative Statement

7-Eleven, Inc. ("The Applicant") requests approval of a special use permit to expand the existing convenience store located on a portion of the property identified as Tax Map Reference 020.04-01-01 (the "Subject Property"). The parcel is addressed as 4550 Kenmore Avenue, and the Applicant is proposing to expand the 7-Eleven (the "Store") in the Seminary Plaza shopping center space identified as 4610 Kenmore Avenue to include the space addressed 4608 Kenmore Avenue. The two spaces, 4610 and 4608 Kenmore Avenue, are directly adjacent to each other and when combined will yield approximately 3,712 gross square feet.

The existing 7-Eleven store has been operating in this location in Seminary Plaza since March 1964. The Store has been an integral part of the community since that time and has provided a valuable service to residents and office workers nearby, particularly as currently there are limited shopping options for grocery and convenience items in the area.

All parking at Seminary Plaza is shared among the shopping center tenants. A 3,712 square foot convenience store use requires 1 parking space per 210 square feet for a total of 18 parking spaces. The overall site includes 145 surface parking spaces primarily located to the west of the building, in front of the storefronts, and will be adequate for the required parking for the Store.

The Applicant proposes to expand the Store to fill a currently vacant space previously occupied by Quizno's, and will complement the other uses within the retail center. The current 7-Eleven has been operating at this location since 1964. As such, it is smaller than other typical stores in the area and the layout and design do not represent the current 7-Eleven model and is in need of an upgrade. With this expansion, the applicant intends to update the interiors to current standards, including modernized lighting, displays, and décor scheme, similar to other recently modernized 7-Eleven stores in Alexandria, including Carlyle, Eisenhower Avenue and Braddock Road. The expansion will allow for the sale more fresh and hot food items (sandwiches, salads, fruits, pizza, wings, hot dogs, etc.); a greatly expanded coffee bar; baked goods selections; snack foods; expanded cold fountain beverage area and some grocery items.

The proposal will allow the expansion of a community serving use in a location convenient for area residents, employees, and visitors. This store will help to enliven the shopping center which is currently lacking an anchor tenant, and to provide much needed convenience options for those living and working nearby. The Applicant looks forward to expanding its current location at Seminary Plaza to better serve its customers and the community.

Ann and Alex,

After our call on Friday, I discussed it with my client and we are going to remove the 4 seats that seem to be causing so much concern. As such, we do not need a meeting on Friday as all other Police Dept comments should be consistent with what we recently got approved for the 7-11 on Eisenhower Ave. Thanks.

Good morning Ann,

Below please find the responses to the questions you asked us previously. We will follow up with a revised application shortly as well.

If you have any questions, please do not hesitate to contact me.

Thank you,
Amy

Do owners exist for 7-Eleven, Inc. who have 10% or more of a share in the company? If so, please send those to me along with their ownership percentage.

7-Eleven, Inc. is 100% held by SEJ Asset Management & Investment Company, Inc., which is 100% held by Seven Eleven Japan Co., Ltd., which is 100% held by Seven & I Holding Co., Ltd., which has more than 500 shareholders and stock is traded on a national stock exchange.

We will update the application to show this more detailed information.

How many customers are expected – 1000 or 1500? We prefer one number on the application instead of a range. We will update the application to indicate 1350 average customers per day.

What type of security features are used at the store now?

The store currently has an alarm system and a video monitoring system that constantly records the activity of the store, as well as a state-of-the-art safe which cannot be opened by the staff. There are 4 cameras located within the store. The alarm system will be upgraded and the video monitoring system will be upgraded with newer higher resolution cameras and 3 additional cameras. A monitor will be placed near the entrance so that customers will know they are being recorded when they enter the store. The staff is currently trained to leave less than \$50 in the cash drawers at all times and will continue to be instructed to do this after the renovation and expansion. Signs will be prominently posted regarding cash drawer limits.

In addition, the renovated store will have a brighter interior look with additional lighting as well as a wider store front that will allow for more street visibility.

How will the expansion change the store? What will the applicant be able to offer now that it does not currently?

The current 7-Eleven has been operating at this location since 1964. As such, it is smaller than other typical stores in the area and the layout and design do not represent the current 7-Eleven model and is in need of an upgrade. With this expansion, the applicant intends to update the interiors to current standards, including modernized lighting, displays, and décor scheme, similar to other recent renovations in Alexandria, including Carlyle, Eisenhower Avenue and Braddock Road.

The expansion will allow for the sale more fresh and hot food items (sandwiches, salads, fruits, pizza, wings, hot dogs, etc.); a greatly expanded coffee bar; baked goods selections; snack foods; expanded cold fountain beverage area and some grocery items.

We have included some pictures of another new 7-Eleven store in the area which are indicative of the planned build-out and offerings for this location.

What is the height of the shelves that are shown on the floor plan?"
The gondolas are five feet tall.

Mr. Sipe also requested that the applicant be allowed to continue selling single beers in there have been no complaints related to single sales at this location.

PLANNING COMMISSION ACTION, MARCH 2, 2004: By unanimous consent, the Planning Commission deferred the request.

PREVIOUSLY
APPROVED
STAFF REPORT

I. DISCUSSION:

REQUEST

The applicant, 7-Eleven Inc., requests special use permit approval for the continued operation of a nonconforming convenience store located at 4610 Kenmore Avenue in the Seminary Plaza Shopping Center.

SITE DESCRIPTION

The subject property is one lot of record on Kenmore Avenue at North Van Dorn Street, with a total lot area of almost six acres. The site is developed with the one-story Seminary Plaza Shopping Center. The subject tenant space is approximately 1,600 square feet and is located toward the center of the building.

SURROUNDING USES

The 7-Eleven store is adjacent to a pizza and sub restaurant and a vacant tenant space. A grocery store and CVS pharmacy are also located in the center. The area surrounding the shopping center is a mix of office and commercial uses, with residential uses in the near proximity.

PROJECT DESCRIPTION

The applicant proposes to continue operating the nonconforming 7-Eleven convenience store. The applicant is the lessee of the property, and has operated the existing convenience store on the property since March 1964. The 7-Eleven store is a typical convenience retail store selling a variety of goods including food and beverages, which are consumed off the premises. The following information discusses the proposed continued operation:

Hours: The store is open 24 hours a day, 365 days a year.

ABC License: The store has an Alcoholic Beverage Control license for off-premise sale of beer and wine between the hours of 6:00 a.m. and 12:00 midnight.

Landscaping: The store is located in a shopping center with minimal landscaping. Common areas are maintained by the owner, Seminary Plaza, LC.

Sign: The sign is not a typical 7-Eleven sign, but includes white lettering consistent with the other tenant spaces of the center (see attached photo).

Parking: The original Site Plan#62-006 approved parking for commercial uses at this building, and additional parking is not required.

Waste

Management: Trash generated is typically solid waste from a small retail establishment, largely consisting of paper, cardboard and plastic. Trash is picked up by a private hauler several times per week. Store employees perform a minimum of two litter walks per day to pick up litter around the store. Seminary Plaza provides groundskeeping of the common areas. There are two trash cans to control litter located in the area at the front of the business.

ZONING

The subject property is located in the CG/Commercial general zone. Section 4-403 (G) of the Zoning Ordinance allows a convenience store in the CG zone only with a special use permit.

MASTER PLAN

The proposed use is consistent with the Seminary Hill/Strawberry Hill small area plan chapter of the Master Plan which designates the property for uses compatible to the CG zoning.

II. STAFF ANALYSIS:

Staff does not object to the continued use of the 7-Eleven located at 4610 Kenmore Avenue. Because the store is located in a shopping center, many of the impacts normally associated with convenience stores can be better controlled, including that there is adequate parking, ample area for vehicular circulation to accommodate delivery and trash trucks, building staff to monitor maintenance and upkeep issues at the property, and that the store is not located in the immediate proximity of residential uses reducing the potential for negative impacts caused from this store. Staff did not observe any problems with litter or other maintenance problems on the premises. The 7-Eleven sign is subtle and consistent with the other tenants in the building. Finally, the business provides a valuable convenience retail service to the community.

In regard to alcohol sales, staff recommends the standard condition prohibiting single sales. The applicant discussed with staff the possibility of not including the condition because there does not appear to be any major issues with alcohol sales at this location. Although staff is not aware of specific problems caused from single sales at this location, staff supports the Police recommendation prohibiting single sales to prevent any potential problems, such as littering and loitering, and to be consistent with Police's policy to limit such sales city-wide.

Staff recommends a number of other conditions similar to those already approved for the previous 7-Eleven cases.

With these conditions, staff recommends approval of the special use permit.

III. RECOMMENDED CONDITIONS:

Staff recommends **approval** subject to compliance with all applicable codes and ordinances and the following conditions:

1. The special use permit shall be granted to the applicant only or to any business or entity in which the applicant has a controlling interest. (P&Z)
