DESCRIPTION OF PROPOSED WORK: *Please describe the proposed work in detail (Additional pages may be attached).*

This project proposal describes suitable repairs to a damaged, existing, historic wrought iron fence and to protect that fence from further damage. The damage resulted from cars and trucks backing into it from a parking lot adjacent to our property. The repair will restore the wrought iron fence to its original configuration, consistent with its historic nature, and erect it further within our property to allow for a discrete pipe rail to be constructed in its previous location to protect the fence from further damage, as recommended by our contractor (Flaherty Iron Works) as the most secure and effective means of protecting the fence. Until this repair and protection is approved, the damaged fence remains supported by temporary wooden braces inconsistent with the architecture of our property and the surrounding structures.
