

DOCKET ITEM #12
Encroachment #2016-0005
3000 Potomac Avenue - National Industries for the Blind

Application	General Data	
Request: Public hearing and consideration of a request for an encroachment into the public right-of-way.	Planning Commission Hearing:	September 8, 2016
	City Council Hearing:	September 17, 2016
Address: 3000 Potomac Avenue	Zone:	CDD #10
Applicant: National Industries for the Blind, represented by Kenneth W. Wire, attorney.	Small Area Plan:	Potomac Yard / Potomac Greens
Staff Recommendation: APPROVAL subject to compliance with all applicable codes and ordinances and the recommended permit conditions found in Section III of this report.		
Staff Reviewers: Dirk H. Geratz, AICP, dirk.geratz@alexandriava.gov Michael Swidrak, AICP, michael.swidrak@alexandriava.gov Robert M. Kerns, AICP, robert.kerns@alexandriava.gov		

Special Use Permit #2016-0035
Encroachment #2016-0005
3000 Potomac Avenue

I. DISCUSSION

The applicant, National Industries for the Blind, requests approval of an encroachment in the public right-of-way of future Dogue Street to allow the construction of an underground Dominion Virginia Power vault underneath the adjoining sidewalk.

SITE DESCRIPTION

The site of the proposed encroachment is located in a public right-of-way to the west of the recently approved National Industries of the Blind (NIB) building, within the future Dogue Street. The applicant's property was approved for development (DSUP#2014-0028) in Landbay G (Potomac Yard Town Center), Block A, which was subdivided into blocks A1 and A2. Block A2, bounded by Potomac Avenue to the east, E. Glebe Road to the south, the future Dogue Street to the west, and Block A1 to the north, will be developed with a 100,000 net-square-foot, mixed-use building and be served by the underground electrical vault proposed below Dogue Street (see Figure 1). The property is located across Potomac Avenue from the future Potomac Yard Metrorail station, which will have an entrance located at the intersection of Potomac Avenue and E. Glebe Road.

BACKGROUND

The aforementioned office building with ground-floor retail was approved by City Council in September 2015, and the project moved through the staff-led final site plan process, with mylars of the final site plan submitted in May 2016 for final approval. The general location of the encroaching vault was identified in the original Preliminary Plan, dated July 2, 2015, and the vault location was included in the subsequent Final Site Plan submissions. Notice was sent during the Final Site Plan process to the applicant that a separate encroachment application would be required for the approval of the underground vault.

PROPOSAL

The applicant requests an encroachment into the public right-of-way to install an underground electrical vault. The vault will be located underneath the sidewalk within the Dogue Street right-of-way, adjacent to 3000 Potomac Avenue, the building which it will be serving. The proposed area of encroachment is rectangular in shape, measuring 58.68 feet in length and 17.34 feet in width (see Figure 1). The encroachment is approximately 1,018 square feet, and encompasses an area below portions of the sidewalk and driveway apron that will lead into the loading area and underground garage serving the future NIB building.

ZONING/MASTER PLAN

The subject property is located in CDD#10 which permits a mix of uses. The proposed uses at the site (retail and office) are consistent with the goals of the Potomac Yard / Potomac Greens Small Area Plan chapter of the Master Plan.

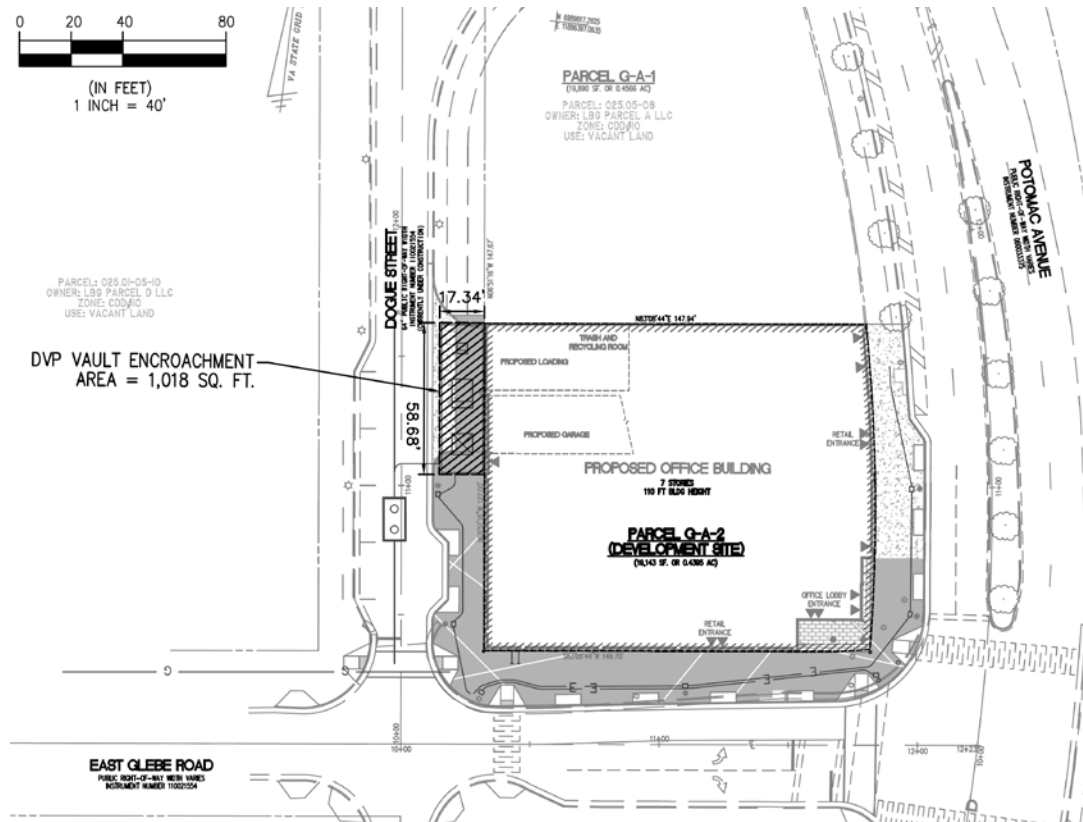

Figure 1

II. STAFF ANALYSIS

Staff does not object to the applicant's request to install an electric transformer vault in the public right-of-way in the proposed location. A similar request has been made recently for the Edens development at 530 First Street (DSUP2015-0019 / ENC2016-0001), where an underground vault is proposed to be placed underneath the sidewalk adjacent to the development site.

Dogue Street is a future public-owned right-of-way that will be constructed as part of the Landbay G or National Industries for the Blind developments. The construction of the underground vault in the right-of-way for Dogue Street will facilitate necessary access for Dominion Virginia Power to service the vault. Since the new building is being built to the sidewalk on all three sides there are no other reasonable areas to locate the transformer. Dogue Street functions as a service street, and is a more appropriate location for a vault compared to E. Glebe Road and Potomac Avenue, which have significant retail frontages and will attract more pedestrian traffic.

As proposed, the vault hatch will be covered with a grate and will be flush with the sidewalk eliminating any potential obstructions to pedestrian movement across the grate. Staff has added a

condition that the applicant covers the hatch with brick pavers that match the adjacent sidewalk to the extent possible. This takes into account that the vault may require some ventilation through the hatch. Staff finds that no impacts to the right-of-way will occur of the granting of the encroachment.

III. STAFF RECOMMENDATION AND CONDITIONS

Staff recommends **approval** of the requested encroachment subject to compliance with all applicable codes and ordinances and the following conditions:

1. The applicant shall not be permitted any above grade encroachment in the public right of way except access hatches that must be flushed with the side walk. The opening of the access hatches shall be minimum required to maintain and replace the transformers and switch gears when needed. (T&ES)
2. Consistent with the approved Preliminary Plan for DSUP2014-0028, dated July 2, 2015, the electrical transformer vault hatch shall be covered with a material that matches the adjacent brick sidewalk. The hatch may incorporate areas of ventilation, and shall be designed to the satisfaction of the Directors of P&Z and T&ES. (P&Z) (T&ES)
3. The underground encroachment shall be limited from 5 feet below grade to the depth needed for installation of transformers and switch gears. The 5 feet below grade depth may be used by the City for landscaping or other infrastructure improvements. (T&ES)
4. The applicant (and his/her successors, if any) must obtain and maintain a policy of general liability insurance in the amount of \$1,000,000, which will indemnify the applicant (and his /her successors, if any) and the City of Alexandria, as an additional named insured, against all claims, demands, suits, etc., and all costs related thereto, including attorney fees, relating to any bodily injury or property damage which may occur as a result of the granting of this encroachment. The insurance for each building shall be posted prior to the release of the first Certificate of Occupancy for that building. (T&ES) (DSUP2007-0022)
5. Neither the City nor any Private utility company will be held responsible for damage to the private improvements in the public right-of-way during repair, maintenance or replacement of any utilities that may be located within the area of the proposed encroachment. (T&ES) (DSUP2007-0022)
6. In the event the City shall, in the future, have need for the area of the proposed encroachment, the applicant shall remove any structure that encroached into the public right-of-way, within 60 days, upon notification by the City. (T&ES) (DSUP2007-0022)

STAFF: Robert M. Kerns, AICP, Chief of Development, Planning and Zoning;
Dirk H. Geratz, AICP, Principal Planner, Planning and Zoning;
Michael Swidrak, AICP, Urban Planner, Planning and Zoning.
