INTRODUCTORY SECTION

DRAFT 11.03.16

ALEXANDRIA CITY GOVERNMENT ORGANIZATIONAL CHART

DRAFT 11.03.16

November 9, 2016

To the Honorable Mayor and Members of City Council,
the Residents and Businesses of the City of Alexandria:

We are pleased to present the City of Alexandria's (the City) **Comprehensive Annual Financial Report** (the CAFR) for the fiscal year ended June 30, 2016. This report is designed to present fairly the financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City in all material respects and to demonstrate compliance with applicable finance-related legal and contractual provisions. The report adheres to the principle of full disclosure so that the reader may gain the maximum understanding of the City's financial affairs.

The Finance Department has prepared this report in accordance with the following standards:

- Accounting principles generally accepted in the United States, which are uniform minimum standards and guidelines for financial accounting and reporting in the United States;
- Governmental accounting and financial reporting statements, interpretations and technical bulletins issued by the Governmental Accounting Standards Board (GASB); and
- Uniform financial reporting standards for counties, cities and towns issued by the Commonwealth of Virginia's Auditor of Public Accounts (APA).

The responsibility for the accuracy, completeness, and fairness of the data presented in the report, including all disclosures, rests with the City.

THE CITY

Alexandria, Virginia, which is located on the west bank of the Potomac River across from Washington, D.C., is an integral part of the Washington metropolitan area, serving as a financial, commercial, and transportation center. Alexandria is also one of America's most historic cities. George Washington and George Mason served as two of the City's first Trustees (the forerunner of the Alexandria City Council).

Alexandria is an independent full-service city with sole local government taxing power within its boundaries. The City is autonomous from any county, town, or other political subdivision of the Commonwealth of Virginia. Alexandria was founded in 1749, and derives its governing authority from a charter granted by the General Assembly of the Commonwealth of Virginia.

The City adopted the Council-Manager form of government in 1922. The governing body of the City is the City Council, which formulates policies for the administration of the City. The City Council is composed of a Mayor and six Council Members elected at-large for three-year terms. The Mayor is elected on a separate ballot. City Council appoints the City Manager who serves as the City's chief executive officer and is responsible for implementing the policies established by City Council. The City Charter was first granted in 1852.

The City provides a comprehensive range of municipal services including education, health, welfare, housing and human services programs, public safety and administration of justice, community development, recreation, library, cultural and historic activities, transportation, environmental services, and planning.

FINANCIAL REPORTING ENTITY

This report includes the financial activities of the City of Alexandria government (the primary government), as well as the financial activities of the City's component units. Component units are legally separate entities for which the primary government is financially accountable. Discretely presented component units are reported in a separate column in the financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations, and cash flows from those of the primary government. The School Board, the Library System, and the Alexandria Transit Company are reported as discretely presented component units. This report does not include the financial activities of the City's Deferred Compensation Plan, Alexandria Industrial Development Authority, Alexandria Redevelopment and Housing Authority, Alexandria Economic Development Partnership, Inc., Alexandria Renew Enterprises (formerly the Alexandria Sanitation Authority), Visit Alexandria, or Sheltered Homes of Alexandria because the City Council is not financially accountable for these entities, and therefore, these entities are not component units.

LOCAL ECONOMY

While Alexandria's economy was somewhat stable, the City did feel the impact of major changes in federal government spending. In part this is due to Alexandria's geographical location as an inner suburb to Washington, D.C. It is also due to a mix of higher paying jobs in Alexandria. City employment has grown by 2.6 percent over the last decade, while wages per job have increased by 11 percent (inflation-adjusted). The greatest employment growth has been in the public administration and management sectors, which have grown by 103.2 percent and 40.4 percent respectively. The greatest wage growth per job has come from the real estate and information sectors, which have experienced inflation-adjusted wage growth of 29.9 percent and 28.5 percent, respectively. The largest sectors by total wages are also professional scientific and technical services and public administration, which represented a combined 51.3 percent of all wages earned in the City. Because the City's federal employment is not as dependent on federal appropriations, the number of employees in public administration remained stable as the U.S. Patent and Trademark Office (PTO), continues to need employees to assess and review increasingly complex patent applications. The National Science Foundation is relocating to Alexandria, and it is expected to add approximately 3,100 high level jobs to the City, as well as 60,000 visitors annually to the foundation over the next several years.

One measure of the local economy is how economically sensitive City revenues fared. During FY 2016, the City showed improvement in some of these taxes. Overall, FY 2016 collections from the transient lodging tax compared to FY 2015 showed modest growth of 3.1 percent. The meals tax increased by 5.8 percent compared to the prior fiscal year. Since FY 2014, revenues from transient lodging taxes have grown by more than 10 percent. Revenues from sales tax were up 4.2 percent when measured against FY 2015 and personal property tax revenues on vehicles and business equipment showed a 2.4 percent increase over FY 2015.

The real estate tax base, which generates over half of the City's General Fund revenues continues to show steady but moderate growth. Total locally assessed real property increased in value by 2.8 percent compared to 2015. Residential real property increased by 2.4 percent while locally assessed commercial assessments increased by 3.3 percent. However, the office vacancy rate of 16.9 percent in the second quarter of 2016 is nearly one percent higher than one year earlier, but approximately two and a half percent lower than the office vacancy rate in neighboring Arlington County. The City's unemployment rate of 2.6 percent in June 2016 is down nearly one percent from a year earlier, and still well below the national unemployment rate of 5.1 percent and the average for Virginia of 3.7 percent.

MAJOR INITIATIVES

Strong fiscal management remains a hallmark of Alexandria's City government and has enabled the City to respond to revenue declines, address priority needs, including public safety, public education, and modernization of heavily used recreation and library facilities. Alexandria is among a select group of cities in the United States to hold the top AAA/Aaa bond ratings from two of Wall Street's major credit rating agencies (Standard & Poor's and Moody's Investors Service).

During the past fiscal year, the City made progress or contributions in a number of important areas, including using City funds to complete construction on a new fire station to better serve an area of Alexandria with a growing population and with strong development pressures.

FINANCIAL CONDITION

The City government continues to be in very sound financial condition as demonstrated by the financial statements and schedules included in this report. Within the context of a fiscally prudent budget and careful management, the City has continued to provide a wide range of services, has achieved many of its program goals, and enhanced the quality of life in the City. The City's cash and investment position was strong throughout a very difficult fiscal year.

The relatively slow recovery from the national economic recession continued to exert pressure on maintaining services at existing levels. Keeping existing programs funded and salaries of public employees competitive, and addressing the expanding program needs of the community have required careful budgeting. The City Council has adopted a Strategic Plan to ensure that City resources remain focused on City priorities. The seven goals of the Strategic Plan are:

1. Alexandria has quality development and redevelopment support for local businesses and a strong, diverse and growing local economy.
2. Alexandria respects, protects and enhances the health of its citizens and the quality of its natural environment.
3. A multimodal transportation network that supports sustainable land use and provides internal mobility and regional connectivity for Alexandrians.
4. Alexandria is a community that supports and enhances the well-being, success and achievement of children, youth and families.
5. Alexandria is financially sustainable, efficient; community oriented and values its employees.
6. The City protects the safety and security of its residents, businesses, employees and visitors.
7. Alexandria is a caring and inclusive community that values its rich diversity, history and culture.

The City Council's approved FY 2017 – 2026 Capital Improvement Program (CIP) totals \$1.7 billion, which is a \$105.3 million increase over last year's approved CIP, or 6.72 percent. The Approved CIP maintains the reserved 2.2 cents on the base real estate tax rate for the continuation of the City's Transportation Improvement Program (TIP) approved by City Council beginning in FY 2012 to support capital infrastructure needs and new operating costs associated with new transportation capital projects. It also reflects the additional cents that Council added to the real estate tax rate in CY 2016 to exclusively fund additional facility and infrastructure capital needs. The City Council's Approved FY 2017 – 2026 CIP is a balanced 10-year plan in that all projects have identified funding sources.

Over the last five years, the City has been able to maintain its fiscal strength as the result of the City Council's adoption of, and subsequent adherence to, the series of financial policies listed on pages 9 and 10. These policies are aimed at (1) limiting debt and annual debt service requirements and (2) maintaining an appropriate General Fund balance so as to retain the City's AAA/Aaa bond ratings and to keep the City on firm financial footing. When City Council initially adopted the financial policies in 1987, the City's general obligation debt as a percentage of the real estate tax base was 1.4 percent. Because of the City's use of "pay-as-you-go" financing for many capital projects, the City has maintained superior debt ratios since their implementation in 1987. At the end of FY 2016, the City's debt to tax base ratio was just 1.31 percent (excluding self-supported sewer project related debt). The City's financial policies encourage the use of surplus General Fund revenues and resources derived from spending less than the full budget to fund capital projects.

Additional information on the City's financial status can be found in the Management's Discussion and Analysis section of this report.

GENERAL GOVERNMENT FUNCTIONS

The following table shows that the overall real property assessed value for locally assessed property has increased by over \$3.3 billion since 2007. This includes a 2.8 percent increase from calendar year 2015 to 2016. Real property taxes, which are based on assessments as of January 1 of each year, are due in two payments. The first half of the real estate tax is due on June 15 and the second half of the tax is due on November 15.

DRAFT 11.03.16

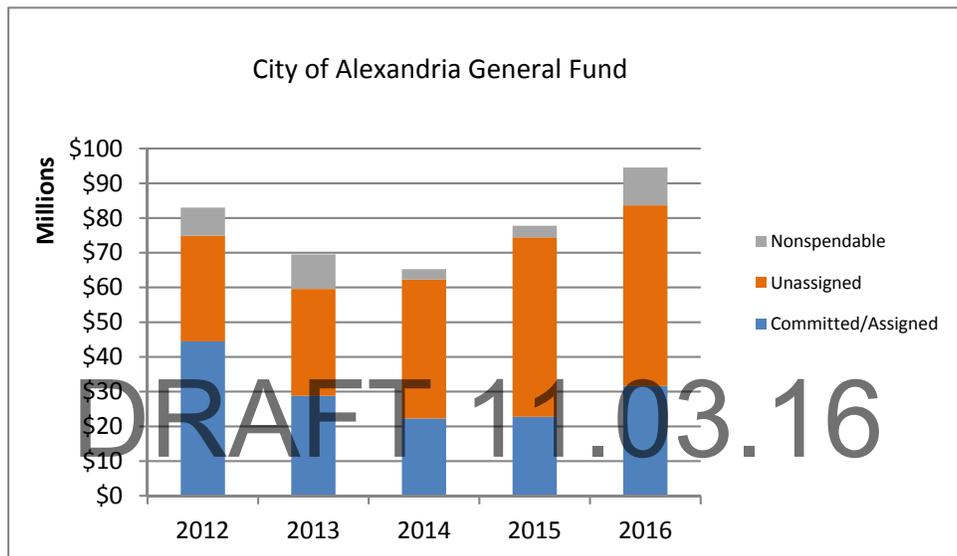

1. Includes apartment buildings.
2. Total assessed value includes only locally assessed property.

Change in Total Tax Base
Tax Year 2007-2016

The chart in the previous page displays the increases and decreases in assessed values for the last 10 years as appreciation and depreciation of existing properties and new properties. (Each of the bars in the chart is comprised of single year snapshot and is not cumulative.)

The fund balance financial policies for the General Fund are one component of the City’s overall financial strength and stability. At the end of FY 2016, the City’s General Fund fund balance was \$94.5 million and included a non-spendable fund balance of \$10.9 million, a number of commitments and assignments totaling \$31.6 million, including \$11.3 million assigned for future capital funding, leaving a remaining unassigned fund balance of \$52 million. At the end of FY 2016 the City’s ending General Fund fund balance condition was consistent with the City’s established financial policies.

CAPITAL FINANCING AND DEBT MANAGEMENT

In conjunction with the annual operating budget preparation, the City Manager annually prepares a ten-year Capital Improvement Plan to provide for the financing of improvements to the City's public facilities. The first year of the program constitutes the capital budget for the current fiscal year; the remaining nine years serve as a planning guide. The City accounts for capital improvement expenditures in the Capital Projects Fund and finances the projects from the General Fund (including appropriations of Committed Fund Balance), general obligation debt, the sale of surplus property, and intergovernmental grant revenues. The City's Capital Improvement Plan for FY 2017 through FY 2026 represents \$1.2 billion of City-funded public improvements to the City's schools, public buildings, parks, and transportation systems. In addition, state and federal grants and other non-City sources will provide \$428.3 million in additional planned capital funding for the FY 2017—FY 2026 time-frame.

To continue a strategy of improving and then maintaining the City's creditworthiness, the City Council established the following key target and ceiling ratios as of June 30 of each year:

	Ceiling	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	Target
Debt as a Percentage of Fair Market Value	1.60%	0.85%	0.73%	1.12%	1.15%	1.27%	1.36%	1.46%	1.50%	1.46%	1.39%	1.10%
Debt Per Capita as a Percentage of Per Capita Income ¹	4.50%	2.90%	2.60%	3.70%	3.40%	3.80%	4.00%	4.30%	4.50%	4.40%	4.43%	3.20%
Debt Service as a Percentage of General Governmental Expenditures ²	10.00%	4.50%	4.40%	4.40%	4.90%	5.30%	5.90%	6.50%	7.00%	7.50%	7.83%	8.00%
General Fund Balance as a Percentage of General Fund Revenue:												
Unreserved Spendable	10% (floor)	13.40%	12.00%	9.30%	11.10%	-	-	-	-	-	-	N/A

Net Position as a Percentage of General Revenue	4% (floor)	19.00%	19.00%	9.40%	11.80%	5.30%	5.30%	5.60%	6.50%	8.00%	8.00%	
						11.70%	14.20%	17.90%	20.20%	(5.97%)	(2.68%)	5.50%

DRAFT 11.03.16

¹ Per capita information from the U.S. Bureau of Economic Analysis, as revised

² Data includes School Board and Library component units.

³ The City updated these policies in FY 2011 to reflect new terminology per GASB 54.

The adopted financial policies include the following:

- The City will increase its reliance on current revenue to finance its capital improvements.
- The City will consider a designation for 'pay-as-you-go' capital a priority when additional General Fund resources become available at the end of a fiscal year.
- The City will not use General Fund equity to finance current operations for periods of longer than two years.
- The City will annually prepare a 10-year Capital Improvement Plan.
- The City will not issue tax or revenue anticipation notes to fund governmental operations.
- The City will not issue bond anticipation notes for a term of longer than two years.

The City's General Obligation Bonds have the top available ratings which were reaffirmed in July 2016 as follows:

Moody's Investors Service

Aaa

Standard & Poor's

AAA

BUDGETARY ACCOUNTING AND INTERNAL CONTROLS

The City Charter requires the City Manager to submit a balanced budget to City Council no later than the first regular meeting in April of each year. The School Board prepares the Schools' budget and transmits it to the City Manager. The City Manager then submits his or her recommendation to City Council for consideration. If Council does not adopt a budget before June 27, the budget submitted by the City Manager for the upcoming fiscal year has full force and effect as if Council had adopted it.

As a management tool, budgetary control is maintained in the General Fund at the character level (i.e., personnel, non-personnel, capital outlays) and by the encumbrance of estimated purchase amounts before the release of purchase orders to vendors. Management can transfer appropriations at the department appropriation level without approval from City Council. The City follows a similar procedure with the Special Revenue Fund, but the level of control is at the grant or program level. In the Capital Projects Fund, the level of control is at the project level. With the Schools' budget, the level of control is at the total appropriation level.

City management is responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft or misuse. Internal controls are intended to provide reasonable, but not absolute, assurance that these objectives are met. In addition to the examination of controls implemented by members of the Finance Department, the City's Internal Audit staff continually reviews and assesses the soundness and adequacy of the City's financial systems.

REPORT FORMAT

The City's Finance Department has prepared this Comprehensive Annual Financial Report in an effort to present all the information necessary to meet the needs of the many persons and groups that have an interest in the City's financial affairs. The objective of this report is to present financial information on a comparative basis with other governmental entities in Virginia and in accordance with established reporting standards. We believe the data is accurate in all material respects and is reported in a manner designed to present fairly the City's financial position and results of operations.

INDEPENDENT AUDIT

Section 5.18 of the City Charter requires an annual audit of the accounting and financial records of the City by independent certified public accountants. This section requires the auditors to examine the funds of the City in accordance with auditing standards generally accepted in the United States of America and the standards set forth in the Government Accountability Office's *Government Auditing Standards*. In addition, the auditors must conduct the compliance examinations required by the Single Audit Act Amendments of 1996, the related U.S. Office of Management and Budget's Uniform Grant Guidance, and the *Specifications for Audit of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

The Alexandria City Council has selected the firm of CliftonLarsonAllen LLP to perform these audit services. Their reports are presented in the Financial Section and the Single Audit Section of this report.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the City of Alexandria a Certificate of Achievement for Excellence in Financial Reporting for the City's Comprehensive Annual Financial Report (CAFR) for the thirty-eighth consecutive year in 2015. The GFOA awards a Certificate to

governmental units that exemplify excellence in financial reporting and conform to stringent reporting requirements promulgated by that Association and various authoritative bodies.

To earn a Certificate of Achievement, a CAFR must tell its financial story clearly, thoroughly, and understandably. The report must be efficiently organized, employ certain standardized terminology and formatting conventions, minimize ambiguities and potentials for misleading inference, enhance understanding of current generally accepted accounting theory, and demonstrate a constructive "spirit of full disclosure."

A Certificate is valid for a period of one year only. The City believes our current report continues to conform to the Certificate of Achievement Program requirements and standards. We are submitting it to GFOA to determine its eligibility for another certificate for FY 2016.

REPORTING REQUIREMENTS

As required by the U.S. Securities and Exchange Commission Rule 15c2-12, the City has agreed for the benefit of the owners of City general obligation bonds and joint enterprise waste-to-energy-revenue bonds, to provide each nationally recognized municipal securities information repository and to any appropriate state information depositor, if any is hereafter created, certain financial information not later than 270 days after the end of each of its fiscal years, commencing with the fiscal year ended June 30, 1996. The City is currently in compliance with the new arrangement to file this information through the Electronic Municipal Market Access (EMMA) website which is the comprehensive source for official statements, continuing disclosure documents, advance refunding documents and real time trade price information on all municipal securities. This CAFR provides the 15c2-12 general bond obligation bond information, which includes the "Debt Statement" found in Note 9 of Notes to the Financial Statements, a "Five Year Summary of General Fund Revenues and Expenditures" found in Table XXII, a summary of debt found in Table XXIII (Summary of Total General Obligation Bonds Debt Service), and "Tax Revenues by Source" found in Table III.

ACKNOWLEDGMENTS

We would like to express our appreciation to everyone in the City who assisted with and contributed to the preparation of this report. Special recognition is extended to the Accounting Division for their dedicated pursuit of excellence and leadership in financial reporting.

Respectfully submitted,

Kendel Taylor

Director of Finance

Ian Greaves, Ph.D.

MANAGEMENT’S DISCUSSION AND ANALYSIS

The following discussion and analysis of the City of Alexandria’s financial performance provides an overview of the City’s financial activities for the fiscal year ended June 30, 2016. Please read it in conjunction with the transmittal letter at the front of this report and the City’s financial statements, which follow this section.

FINANCIAL HIGHLIGHTS FOR FY 2016

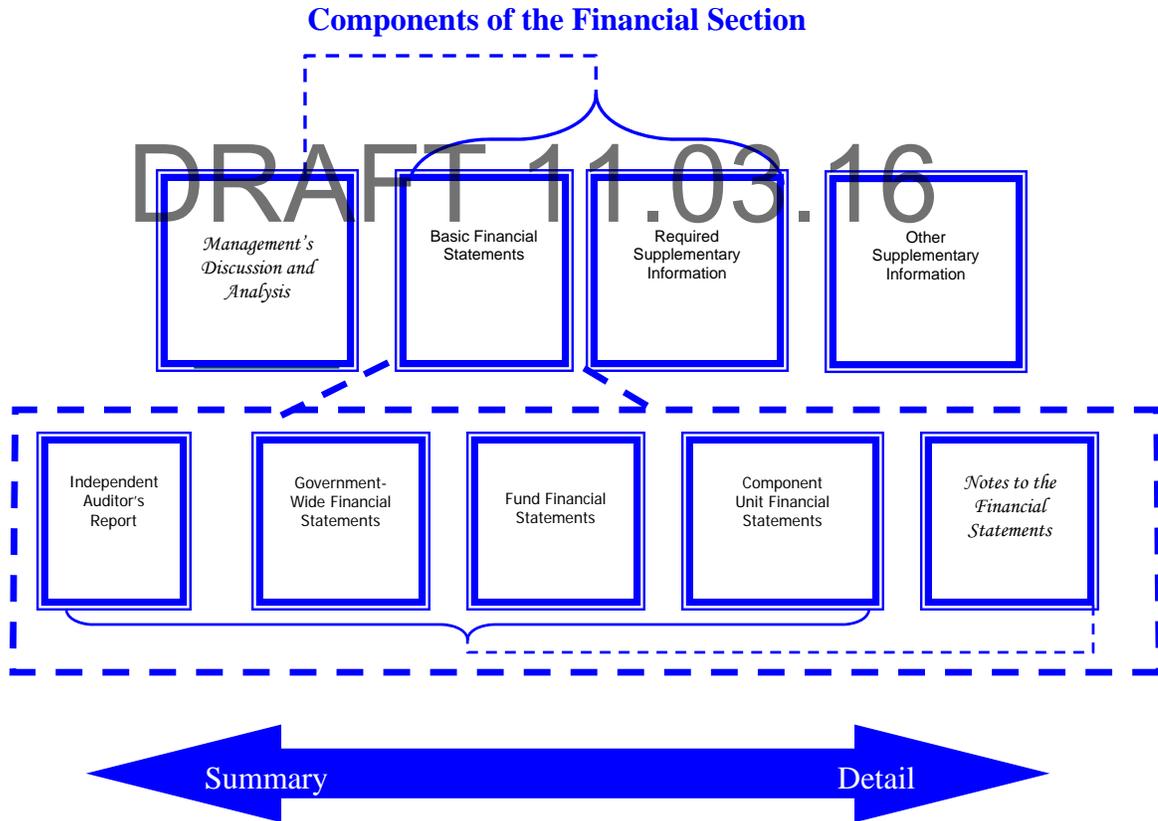

The City’s total Net Position, excluding component units, on the governmental-wide basis, increased approximately \$27.9 million from \$344.8 million to \$372.8 million at June 30, 2016.

The government-wide activities had an unrestricted net position of (\$17.2 million) (Exhibit I) at June 30, 2016, an increase of \$19.0 million. On a government-wide basis for governmental activities, the City’s general revenues of \$640.7 million were \$27.9 million more than the \$612.8 million of expenses net of program revenue (Exhibit II).

The General Fund, on a current financial resource basis, reported revenues and other financing sources in excess of expenditures and other financing uses by \$16.9 million (Exhibit IV) after making a budgeted \$16.2 million transfer to the capital projects fund and a \$47.8 million transfer to the special revenue fund.

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT

This Comprehensive Annual Financial Report consists of four sections: introductory, financial, statistical, and single audit. As the following chart shows, the financial section of this report has four components - *management’s discussion and analysis* (this section), the *basic financial statements*, the *required supplementary information* and the *other supplementary information*.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The government-wide financial statements provide both long-term and short-term information about the City’s overall financial position. The Statement of Net Position and the Statement of Activities, which are the government-wide statements, report information about the City as a whole and about its activities in a way that illustrates this information. These statements include all assets and liabilities using the accrual basis of

accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in those assets. The City's net position is the difference between (1) assets and deferred outflows of resources, and (2) liabilities and deferred inflows of resources. Net position should be displayed in three components: Net investment in capital, Restricted, and Unrestricted. Over time, increases or decreases in the City's net position are indicators of whether its financial health is improving or deteriorating. Other nonfinancial factors need to be considered, such as changes in the City's property tax base and the condition of the City's infrastructure, to assess the overall health of the City.

The Statement of Net Position and the Statement of Activities include the following:

Governmental activities—Most of the City's basic services are reported here: Police, Fire, Transportation and Environmental Services, Recreation, Parks and Cultural Activities Departments, and general administration. Property taxes, other local taxes, and state and federal grants finance most of these activities.

Component units —The City of Alexandria School Board, the Alexandria Library, and the Alexandria Transit Company. Although legally separate, these component units are included because the City is financially accountable for them, and provides operating and capital funding to them. The Alexandria Transit Company component unit is also a proprietary fund.

FUND FINANCIAL STATEMENTS

The fund financial statements provide additional information about the City's most significant funds, not the City as a whole. The fund financial statements focus on the individual parts of the City's government.

The City has three kinds of funds:

Governmental funds—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are greater or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statements that explains the relationship (or differences) between them.

Proprietary funds—Services for which the City charges customers or City users a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information.

The City uses an internal service fund (one kind of proprietary fund) to report activities that provide supplies and services for the City's other programs and activities. The Equipment Replacement Reserve Fund is the City's only internal service fund. Its primary purpose is to provide for the accumulation of money to replace capital equipment used in City operations. The Transit Company component unit is considered an enterprise fund since fees are charged to fund the operations.

Fiduciary funds—The City is the trustee or fiduciary for its employees' pension plans and employee benefit trusts. It is also responsible for other assets (known as agency funds) that, because of a trust arrangement, can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. Agency funds are City custodial funds used to provide accountability of client monies, for which the City is custodian. The City excludes pension plans and agency funds from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Statement of Net Position:

The following table presents the condensed Statement of Net Position:

Table 1
Summary of Net Position
As of June 30, 2016 and 2015
(in millions)

	Primary Government		Component	
	Governmental Activities		Units	
	2016	2015	2016	2015
Current and other assets	\$ 681	\$ 652	\$ 99	\$ 103
Capital assets	<u>800</u>	<u>805</u>	<u>31</u>	<u>34</u>
Total Assets	<u>\$ 1,481</u>	<u>\$ 1,457</u>	<u>\$ 130</u>	<u>\$ 137</u>
Deferred Outflows	<u>57</u>	<u>29</u>	<u>34</u>	<u>19</u>

Restricted	17	17	12	17
Unrestricted	<u>(17)</u>	<u>(36)</u>	<u>(185)</u>	<u>(201)</u>
	<u>\$ 373</u>	<u>\$ 345</u>	<u>\$ (142)</u>	<u>\$ (150)</u>

Amounts may not add due to rounding

The City's Net Position, (which is the City's bottom line) increased eight percent, or \$28.0 million from \$345.0 million to \$373.0 million. The increase is primarily attributable to an increase in net deferred outflows of resources related to pensions and a decrease in long-term liabilities due to bonds.

Statement of Activities

The following chart shows the revenue and expenses of the governmental activities:

Table 2
Changes in Net Position
For the Fiscal Years Ended June 30, 2016 and 2015

Amounts may not add due to rounding

REVENUES

For the fiscal year ended June 30, 2016, revenues from governmental activities totaled \$757.0 million. Real estate tax revenues, the City's largest revenue source, reflecting the recognition of the taxes associated with the last half of calendar year 2015 and the first half of calendar year 2016 real property tax billings, were \$393.5 million. The increase in tax revenues is primarily attributable to an increase in the City's assessed real property tax base in calendar year 2016. The component units' net position increased by \$8.7 million due to the City's contribution to schools.

Net Expenses for Governmental Activities

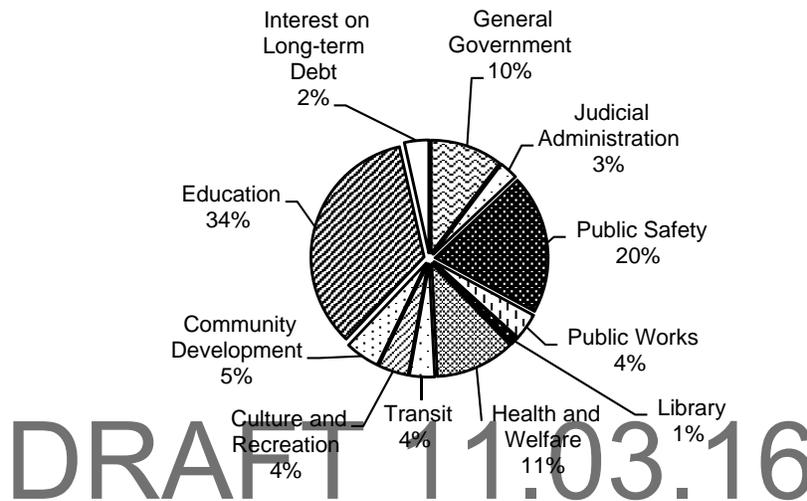

Chart does not add to 100% due to rounding.

EXPENSES

For the fiscal year ended June 30, 2016, expenses for governmental activities totaled \$728.1 million reflecting an increase of \$29.4 million due to an increase in education and public safety.

Education continues to be one of the City's highest priorities. Capital funding included \$4.0 million in addition to the City's operating subsidy to the Schools of \$198.8 million.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

For the fiscal year ended June 30, 2016, the governmental funds reflect a combined fund balance of \$333.1 million (Exhibit III). The Governmental fund balance increase of \$15.3 million is primarily due to expenditures savings in the General Fund.

- The General Fund contributed \$16.2 million to pay-as-you-go financing of capital projects.
- The City contributed \$198.8 million to the schools for operations.
- The City spent \$62.9 million in the Capital Projects Fund primarily to fund school projects and the new Transit initiatives.
- The Northern Virginia Transportation fund received \$6.5 million in taxes for transportation.
- The Potomac Yard fund received \$8.8 million in real estate taxes to be used to build a Metrorail station.
- NVTa and Potomac Yard are special revenue funds.

Except for non-spendable and restricted fund balances (Exhibit III), there are no significant limitations on fund balances that would affect the availability of fund resources for future uses.

GENERAL FUND BUDGETARY HIGHLIGHTS

Table 3

General Fund Budget
(in millions)

	FY 2016		
	Original Budget	Amended Budget	Actual
<u>Revenues, Transfers, and Other Financial Sources</u>			
Taxes	\$ 428	\$ 428	\$ 429
Other Local Taxes	127	127	129

Total	\$ 649	\$ 665	\$ 650
Change in Fund Balance	\$ -	\$ (5)	\$ 17

Amounts may not add due to rounding

Revenues and other financing sources exceeded expenditures and other financing uses by \$17.0 million in the General Fund for FY 2016.

Actual General Fund revenues and other financial sources exceeded the original budget by \$18.0 million and exceeded the amended budget by \$7.0 million during FY 2016. Including supplemental appropriations, actual General Fund expenditures were below the original budget by \$9.0 million, while General Fund expenditures were less than the amended budget by \$14.0 million. This was primarily for funds that have been committed or assigned for future use and reduced spending to offset projected revenue shortfalls.

During FY 2016, City Council amended the budget four times. These budget amendments, or supplemental appropriation ordinances, were primarily for the following purposes:

- To reappropriate monies to pay for commitments in the form of encumbrances established prior to June 30, 2015, but not paid by that date.
- To reappropriate monies to pay for projects budgeted for FY 2015 but not completed before the end of the fiscal year.
- To reappropriate grant, donation and other revenues authorized in FY 2015 or earlier, but not expended or encumbered as of June 30, 2015.
- To appropriate grants, donations, and other revenues accepted or adjusted in FY 2016.

CAPITAL ASSETS

At the end of FY 2016, the City’s governmental activities had invested cumulatively \$800.6 million (see Note 5) in a variety of capital assets and infrastructure, as reflected in the following schedule, which represents a net decrease of \$4.9 million.

Table 4
Governmental Activities
Change in Capital Assets
(in millions)

	<u>Balance</u> <u>30-Jun-15</u>	Net Additions/ <u>(Deletions)</u>	<u>Balance</u> <u>30-Jun-16</u>
Non-Depreciable Assets			
Land and Land Improvements	\$112.9	\$0.2	\$113.1
Construction in Progress	21.5	(1.3)	20.2
Other Capital Assets			
Intangible Assets	17.4	8.3	25.7
Buildings	653.7	11.4	665.1
Infrastructure	255.7	7.9	263.6
Furniture and Other Equipment	98.3	5.1	103.4
Accumulated Depreciation on Other Capital Assets	(354.0)	(36.4)	(390.4)
Totals	<u>\$805.5</u>	<u>(\$4.8)</u>	<u>\$800.7</u>

Amounts may not add due to rounding

The FY 2017—FY 2026 Approved Capital Improvement Program (CIP), which was approved by City Council on May 5, 2016, sets forth a 10-year program with \$1.2 billion in new City funding and \$428.3 million in other non-City sources for public improvements for the City and the Alexandria City Public Schools.

This represents (in City funding) an increase of approximately \$105.3 million above the FY 2016—FY 2025 CIP. For purpose of comparison the Approved FY 2016—FY 2025 CIP totaled \$1.6 billion in total funding, of which \$384.0 million was from non-City sources.

LONG-TERM DEBT

At the end of FY 2016, the City had \$522.7 million in outstanding general obligation bonds, a decrease of \$18.5 million, over last year due to the refinancing of the existing 2006 B and 2008 B bonds. More detailed information about the City's long-term liabilities is presented in Note 9 to the financial statements.

During 2016, Moody's Investors Services, Inc. and Standard & Poor's (S&P) credit rating agencies reaffirmed the City's triple-A bond ratings. The City received its first triple-A rating from Moody's in 1986 and from S&P in 1992. Standard and Poor's Financial Management Assessment concluded that the City's financial practices were "strong."

The Commonwealth of Virginia limits the amount of general obligation debt the City can issue to 10 percent of the assessed value of real property within the City. The City's outstanding debt is significantly below, or less than one-tenth of this state law limit—which would equate to \$3.8 billion for the City.

During Fiscal year 2016 the City Council issued \$73.7 million in General Obligation Bonds with a premium of \$10.5 million and a true interest cost of 2.1 percent. The \$73.7 million General Obligation bonds will be used to finance certain capital improvement projects including the continuing commitment in public school facilities. See details in footnotes 5 and 9 of this document for additional information.

The City did not issue any short-term debt or have any short-term debt outstanding during FY 2016. Other short term liabilities represent unclaimed money and deposits.

ECONOMIC FACTORS

The number of jobs in the city decreased slightly in FY 2016. As of March 2016, the number of Alexandria jobs totaled 83,447 (the latest data available from the Virginia Employment Commission). Tourism improved slightly, with lodging tax showing an increase of 3.1 percent in FY 2016 from all sources.

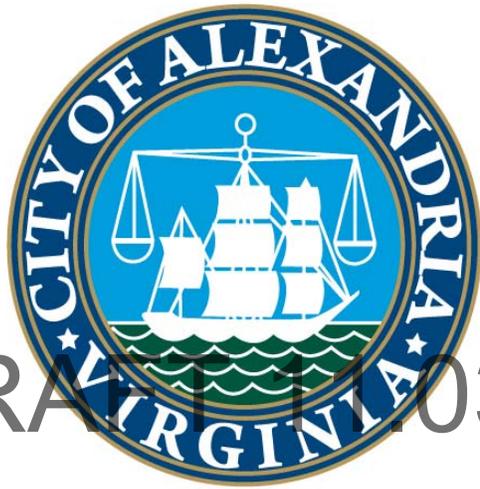

As of 2014 (the latest data available from the U.S. Bureau of Economic Analysis), the city per capita personal income of \$77,142 remains one of the highest in the United States, and is the second highest of any major jurisdiction in Virginia. The city office vacancy rate stood at 16.9 percent by the end of FY 2016.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Kendel Taylor, Director of Finance, City Hall, P.O. Box 178, Alexandria, VA 22313, kendel.taylor@alexandriava.gov, telephone (703) 746-3900, or visit the City's web site at alexandriava.gov.

DRAFT 11.03.16

Adjustments for the Statement of Net Position:

(1) Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds. (Note 5)	785,833,747
(2) Other long-term assets are not available to pay for current period expenditures; the taxes offset by deferred revenue in the governmental funds. (Note 1)	23,357,240
(3) Deferred inflows of resources related to Pensions (Note 17)	(21,109,588)
(4) Deferred outflows of resources related to Pensions (Note 17)	56,811,005
(5) Internal service funds are used by management to charge the costs of equipment replacement to City Departments; and, therefore, the assets and liabilities of the internal service fund are included in governmental activities in the Statement of Net Position. (Exhibit V)	28,453,603
(6) Long-term liabilities, including bonds payable, are not reported as liabilities in the governmental funds. (Note 9)	(833,712,496)

Fund Balance at Beginning of Year	77,781,815	68,978,984	171,248,033	
(Decrease) in Reserve for Inventory	(134,668)	-	-	(134,668)
Fund Balance at End of Year	<u>\$ 94,525,932</u>	<u>\$ 66,479,290</u>	<u>\$ 172,124,584</u>	

Adjustments for the Statement of Activities:

- (1) Repayment of bond principal and payment to bond escrow agent are reported as an expenditure and other financing uses in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. 52,344,293
- (2) Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which new capital assets exceeded capital expenditures in the current period. (Note 5) (6,629,093)
- (3) Governmental funds report pension contributions as expenditures, however in the statement of activities the cost of pension benefits earned net of employee contributions is reported as pension expense. 1,897,747
- (4) Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds. (Note 4) (1,740,418)
- (5) Issuance of debt, refunding bonds and premium provide current financial resources to governmental funds, but issuing debt increases long term liabilities in the Statement of Net Position. (Note 9) (36,191,295)
- (6) Some expenses reported in the Statement of Activities do not require the use of current resources and therefore are not reported as expenditures in governmental funds. (Note 9) individual funds. 49,705
- (7) The net revenue of the internal service fund (except depreciation which is reported in capital outlays above) is reported with governmental activities. (Exhibit VI) 3,086,562

June 30, 2016

Exhibit XII

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Narrative Profile

The City of Alexandria, located in northern Virginia and bordered by the District of Columbia (Potomac River) and Arlington and Fairfax Counties, was founded in 1749 and incorporated in 1779. With a population of 146,294 and a land area of 15.75 square miles, Alexandria is the seventh largest city in the Commonwealth of Virginia and one of the most densely populated cities in the Commonwealth.

The City is governed under the City Manager-Council form of government. Alexandria engages in a comprehensive range of municipal services, including general government administration, public safety and administration of justice, education, health, welfare, housing and human service programs, transportation and environmental services (Public Works), planning, community development and recreation, cultural, library, and historic activities.

The financial statements of the City of Alexandria, Virginia, have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and U.S. generally accepted accounting principles (GAAP) as specified by the Governmental Accounting Standards Board (GASB). The more significant of the City's accounting policies are described below.

A. Financial Reporting Entity

The City follows GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. GASB Statement No. 34 requires the following financial statement components:

Management's Discussion and Analysis – A narrative introduction and analytical overview of the government's financial activities. This analysis is similar to analysis the private sector provides in their annual reports.

Government-wide Financial Statements – These include financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable), but also capital assets (such as buildings and infrastructure, including bridges and roads) and long-term liabilities (such as general obligation debt and unfunded pension costs). Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter. The government-wide statements include the Statement of Net position and the Statement of Activities.

Statement of Net Position – The Statement of Net Position displays the financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report depreciation expense – the cost of “using up” capital assets – in the Statement of Activities. Net Position represents the difference between assets, liabilities, and deferred inflow (outflow) of Resources. The Net Position of a government is broken down into three categories – 1) net investment in capital assets; 2) restricted; and 3) unrestricted. Net invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets.

Statement of Activities – The Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the City's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements – The fund financial statements display the financial transactions and accounts of the City based on funds. The operation of each fund is considered to be an independent accounting entity. The fund financial statements also include reconciliation to the government-wide statements, which briefly explains the differences between the fund and government-wide financial statements.

Budgetary Comparison Schedules – Demonstrating compliance with the adopted budget is an important component of a government’s accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have an interest in following the actual financial progress of their governments over the course of the year. The City Council approves revisions to its original budget over the course of the year for a variety of reasons.

As required by GAAP, these financial statements present the primary government and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the government’s operations and so data from these units are combined with data of the primary government. The City has no component units that meet the requirements for blending. The discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. Each of the City’s discretely presented component units has a June 30 fiscal year-end.

Component Units:

City of Alexandria School Board

DRAFT 11.03.16

Since FY 1995, the Alexandria City School Board (School Board) has been an elected body. The School Board is substantially reliant upon the City because City Council approves the School Board’s total annual budget appropriation, levies taxes, and issues debt for school projects. The legal liability for the general obligation debt issued for school capital assets remains with the City. The City’s primary transaction with the School Board is the City’s annual General Fund revenue support, which totaled \$198.8 million for operations and \$4.0 million for capital equipment in FY 2016.

The APA establishes financial reporting requirements for all localities in the Commonwealth of Virginia. The APA has determined that all Virginia School Boards shall be reported as discretely presented component units of the locality. The APA has also specified additional reporting requirements with respect to School Boards.

City of Alexandria Library System

City Council appoints the Library Board (Library) and approves the Library budget. The City is responsible for issuing debt, and acquiring and maintaining all capital items on behalf of the Library. The City only maintains the assets based on agreements reached with the Library Board. The legal liability for the general obligation debt issued on behalf of the Library remains with the City, but is based on needs requested by the Library Board. The City’s primary transaction with the Library is the City’s annual operating support, which was \$6.7 million for FY 2016. The seven-member Library Board consists of three members of the Alexandria Library Company, three citizens and a member of the Alexandria City Council. The Library provides a variety of services to the community that is funded by endowments and is not completely government services. The City has no say in the selection of books and materials the Library carries. The City has no say in the day to day management of the operations of the library buildings or staffing.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Alexandria Transit Company

The City Council, acting as sole shareholder, elects members of the Alexandria Transit Company's board of directors. City Council approves bus routes, fares, and budgets. The City funds deficits and may issue debt on behalf of the Alexandria Transit Company. The City's primary transactions with the Alexandria Transit Company are the City's annual subsidy, which was \$11.8 million in FY 2016.

The Alexandria Transit Company does not issue separate financial statements and is included as a Component Unit. Complete financial statements for the School Board and Library component units may be obtained at each entity's administrative offices.

City of Alexandria School Board
1340 Braddock Place
Alexandria, Virginia 22314

City of Alexandria Library System
5005 Duke Street
Alexandria, Virginia 22304-2903

Excluded from Reporting Entity:

City Council is not financially accountable for the Deferred Compensation Plan, Alexandria Economic Development Partnership, Alexandria Industrial Development Authority, Alexandria Redevelopment and Housing Authority, Alexandria Renew Enterprises (formerly the Alexandria Sanitation Authority), Visit Alexandria, or Sheltered Homes of Alexandria, Inc. Accordingly, these entities are excluded from the City of Alexandria's financial statements.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The reporting model focus is on both the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category) and the component units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net position, the governmental activities column (a) is presented on a combined basis, and (b) is reflected on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Both government-wide and fund financial statements presentations provide information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the financial information. The City generally uses restricted assets first for expenses incurred for which both restricted and unrestricted assets are available. The City may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.). Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. The City does not allocate indirect expenses. The operating grants and contributions column includes operating- specific and discretionary (either operating or capital) grants, while the capital grants and contributions column reflects capital-specific grants.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with related liabilities, fund balances and Net position, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Governmental fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, reconciliation is presented which briefly explains the adjustments necessary to reconcile the fund financial statements to the governmental activities column of the government-wide financial statements.

The City's fiduciary funds are presented in the fund financial statements by type (pension, private purpose trust and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to fund activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

The following is a brief description of the specific funds used by the City in FY 2016.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed.

a. General Fund

The General Fund is the primary operating fund of the City. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used to finance the operations of the City of Alexandria School Board.

b. Special Revenue Fund

Special revenue fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. A significant portion of the Special Revenue Fund is used for Health and Welfare programs.

The Special Revenue Fund of the City as of the end of FY 2016 is comprised of the following sub funds:

Housing – This sub fund accounts for the City's housing programs. The sources of funding are bond proceeds and the payment of note receivables.

Sanitary Sewer – This sub fund accounts for the funding of sanitary sewer maintenance and construction. The fund is funded by sewer connection fees and sewer charges.

Stormwater Management – This sub fund is funded by a dedicated real estate property tax rate of 0.5 cents per \$100 of assessed value to fund stormwater capital projects.

Potomac Yard Special Tax District – This sub fund is funded by certain real estate taxes for specific improvements in Potomac Yards, including the development of a metro rail station.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Northern Virginia Transportation Authority (NVTA) – This sub fund was established in FY 2014. It is funded by various state and local other taxes.

Other Special Revenue – This sub fund accounts for grants and donations.

c. Capital Projects Fund

The Capital Projects Fund (Capital Improvements) accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for the acquisition or construction of major capital facilities.

2. Proprietary Funds

Proprietary Funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, Net Position, revenues, expenses, and payments relating to the government's business activities are accounted for through proprietary funds. The measurement focus is on determination of net income, financial position, and cash flows. Operating revenues include charges for services. Operating expenses include costs of services as well as, materials, contracts, personnel, and depreciation. All revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses. The City has one proprietary fund – the Internal Service Fund. The Internal Service Fund accounts for the financing of goods or services provided by one department to other departments or agencies of the City on a cost-reimbursement basis and is considered a proprietary fund. The City established the Equipment Replacement Reserve Account, the internal service fund, for the purpose of providing for the accumulation of funds to replace capital equipment items used in City operations. This internal service fund derives its funding from periodic equipment rental charges assessed to the user departments in the governmental funds. This funding is then used to replace capital equipment when the need arises. The internal service fund is included in governmental activities for government-wide reporting purposes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The excess revenues or expenses for the fund are allocated to the appropriate functional activity. The component unit, Alexandria Transit Company, is considered an enterprise and derives its funding from fare box fees and some support from the City.

3. Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, and other governments. The Fiduciary Funds of the City are the John D. Collins Private Purpose Trust Fund, Employee Retirement Funds, the Human Services Special Welfare Account, the Human Services Dedicated Account, and the Industrial Development Authority Agency Funds. For accounting measurement purposes, the Private Purpose Trust Fund, the Employee Retirement Funds, and other post-employment benefits are accounted for in essentially the same manner as proprietary funds. Private Purpose Trust Funds account for assets of which the principal may not be spent. The Employee Retirement Funds account for the assets of the City's pension plans and the OPEB fund. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Fiduciary funds are not included in the government-wide financial statements because the resources cannot be used for operations of the government.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of the Pension Plans and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The agency funds held by the City as of the end of FY 2016 comprise the following:

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Human Services Special Welfare Account – This fund accounts for the current payments of supplemental security income for foster children.

Human Services Dedicated Account – This fund accounts for back payments of supplemental security income for foster children.

Industrial Development Authority – This fund accounts for Industrial Development Authority bond issuance fees and expenses, for which the City acts in a custodial capacity.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long-term liabilities are included in the government-wide statements. Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide Statement of Net Position and Statement of Activities, all proprietary funds, and private purpose trust funds and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these activities are either included on the Statement of Net Position or on the Statement of Fiduciary Net position. These operating statements present increases (e.g., revenues or additions) and decreases (e.g., expenses or deductions) in total Net position.

The Government-wide Statement of Net Position and Statement of Activities as well as the financial statements of the Proprietary Fund and Fiduciary Funds are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The fund financial statements of the General, Special Revenue, and Capital Projects funds are maintained and reported on the modified accrual basis of accounting using the current financial resources measurement focus. Under this method of accounting, revenues are recognized in the period in which they become measurable and available. With respect to real and personal property tax revenue and other local taxes, the term “available” is limited to collection within 45 days after the fiscal year-end. Levies made prior to the fiscal year end, but which are not available, are deferred. Interest income is recorded as earned. Federal and State reimbursement-type grants revenues are considered to be measurable and available as revenue when reimbursements for related eligible expenditures are collected within a year of the date the expenditure was incurred. Expenditures, other than accrued interest on long-term debt, are recorded when the fund liability is incurred.

D. Budgets and Budgetary Accounting

The City Council annually adopts budgets for the General Fund and Special Revenue Fund of the primary government. All appropriations are legally controlled at the departmental level for the General Fund and Special Revenue Fund. The School Board appropriation is determined by the City Council and controlled in total by the primary government. On June 13, 2015, the City Council formally approved the original adopted budget and on June 18, 2016, approved the revised budget reflected in the required supplemental information. Budgets are prepared for the Capital Projects Fund on a project basis, which covers the life of the project. A Capital Projects Fund appropriation does not lapse until an appropriation reduction is approved by City Council.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Encumbrances

Encumbrance accounting, the recording of purchase orders, contracts, and other monetary commitments in order to reserve an applicable portion of an appropriation, is used as an extension of formal budgetary control in the General, Special Revenue, and Capital Projects Funds. Encumbrances outstanding at year-end are classified as committed or assigned in the General Fund, or as restricted fund balance in the non-General Funds. These encumbrances are subject to reappropriation by Council ordinance in the succeeding fiscal year.

E. Equity in Pooled Cash and Investments

Cash resources of the individual funds, including imprest cash of \$19,360 and excluding cash held with fiscal agents in the General Fund, Special Revenue Fund, Capital Projects Fund, Proprietary Funds, Fiduciary Funds, and discretely presented component units (School Board, Library, and Alexandria Transit Company), are combined to form a pool of cash and investments to maximize interest earnings. Investments in the pool consist of the State Treasurer’s Local Government Investment Pool (LGIP) and are recorded at fair value. Income from pooled investments is allocated only when contractually or legally required. All investment earnings not legally or contractually required to be credited to individual accounts or funds are credited to the General Fund.

The Library maintains separate cash and investment accounts consisting of cash and obligations of the federal government and corporate bonds and stocks recorded at fair value. All cash and investments held with fiscal agents for the primary government and its discretely presented component units are recorded at fair value.

For purposes of the statement of cash flows, the Proprietary Funds consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

The fair value of investments is based on quoted market prices. All investments in external investment pools are reported at fair value.

F. Allowance for Uncollectible Accounts

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance at June 30, 2016, is comprised of the following:

GENERAL FUND:	
Taxes Receivable:	
Real Property	\$ 577,553
Personal	13,458,269
Penalties and Interest	<u>623,895</u>
Total Taxes	\$ 14,659,717
Accounts Receivable	5,756
Notes Receivable	<u>309,000</u>
	<u>\$ 14,974,473</u>
 SPECIAL REVENUE FUND:	
Housing Fund Notes Receivable	<u>\$ 42,485,547</u>
 CAPITAL PROJECTS FUND:	
Capital Projects Fund Notes Receivable	<u>\$ 1,475,000</u>

The component units’ accounts receivable are considered fully collectible and therefore an allowance for uncollectible accounts is not applicable to those receivables.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Inventory of Supplies and Prepaid and Other Assets

Primary Government

Inventories of consumable supplies are recorded at cost (determined on a first in, first out basis). Inventory in the General Fund consists of expendable supplies held for consumption. The costs are recorded as expenditures under the purchase method. Reported inventories in the General Fund are equally offset by a reservation of fund balance. Purchases of non-inventory items are recorded as expenses or expenditures under the purchase method. Prepaid expenditures in reimbursable grants are offset by unearned revenues until expenses or expenditures are recognized.

Component Units

Inventory for the School Board is comprised of food and commodities on hand pertaining to the Child Nutrition Cluster of programs. Inventories of consumable supplies are recorded at cost using the weighted average method. Inventories received from the U.S. Department of Agriculture are recorded at fair market value when received and the amounts consumed are recorded as revenue. The amounts of unused food commodities are reported as inventory and deferred revenue.

Inventory for the Alexandria Transit Company is comprised of parts and operating materials held for consumption. These inventories are costed by methods that approximate average cost or market value, whichever is lower.

Other assets in the government-wide statements also include taxes receivable discussed in Note 4 and deferred interest, which represents the excess of the reacquisition price over the net carrying amount of the refunded bonds discussed in Note 9. The total adjustment to these assets was comprised of the following:

Taxes receivable	\$ 16,510,791
Deferred interest	<u>6,846,449</u>
 Total Adjustment	 <u>\$ 23,357,240</u>

H. Capital Assets

Capital outlays are recorded as expenditures of the General, Special Revenue, and Capital Projects Funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold of \$5,000 are met. Depreciation is recorded on capital assets on a government-wide basis using the straight-line method and the following estimated useful lives:

Buildings.....	40 years
Infrastructure	25 years
Furniture and Other Equipment	3—20 years

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

To the extent the City's capitalization threshold of \$5,000 is met, capital outlays of the Internal Service Fund are recorded as capital assets and depreciated over their estimated useful lives on a straight-line basis on both the funds and the government-wide financial statements using the straight-line method and the following estimated useful lives:

Leasehold Improvements	3—40 years
Equipment.....	3—20 years

All capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at their estimated fair market value on the date donated. The City does not capitalize historical treasures or works of art. The City maintains many items and buildings of historical significance. The City uses the proceeds from the sale of historical treasures or works of art to acquire other items for the collection.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

I. Compensated Absences

The City accrues compensated absences (annual and sick leave benefits) when vested. The current portions of the governmental funds' matured compensated absences liabilities are recorded as other liabilities in the General and Special Revenue Funds. The current and noncurrent portions are recorded in the government-wide financial statements. This includes the discretely presented component unit Library, since the City funds all Library personnel costs.

The component unit School Board accrues matured compensated absences (annual, personal, and sick leave benefits) when vested. The current and noncurrent portions of compensated absences are recorded in the School Board component unit government-wide financial statements.

The component unit Transit accrues annual and sick leave benefits in the period in which they are earned.

J. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes. Actual results could differ from those estimates.

K. Fund Balance

The City considers restricted fund balance to be spent when an expenditure is incurred for purposes for which restricted and unrestricted fund balances are available unless prohibited by legal constraints or contracts. When an expenditure is incurred for purposes for which committed, assigned or unassigned amounts are available; the City considers committed fund balance to be spent first, then assigned fund balance, and lastly unassigned fund balance.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances are reported according to the following categories

Non-spendable Fund Balance—amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to remain intact. For example, notes receivable, inventory of supplies, prepaid amounts, and assets-held-for-sale.

Restricted Fund Balance—amounts constrained by external parties, constitutional provision, or enabling legislation. Effectively, restrictions may only be changed or lifted with the consent of the resource provider.

Committed Fund Balance—The City’s highest level of decision-making authority is the City Council. The formal action required to establish, modify, or rescind a fund balance commitment is an ordinance of the City Council.

Assigned Fund Balance—amounts in the Assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by City Council’s delegation of this authority to the City Manager or his designee in the annual operating budget ordinance. Amendments must follow guidance described in Note 1D.

Unassigned Fund Balance—is the residual classification for the City’s general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned. The Unassigned fund balance can only be appropriated by a resolution of the City Council.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Detail

General Fund

Nonspendable	
Inventories	\$ 2,519,789
Prepays	7,986,064
Long Term Notes	400,000
Total	<u>\$ 10,905,853</u>
Committed	
Encumbrances	\$ 6,524,556
Self-Insurance	5,000,000
Total	<u>\$ 11,524,556</u>
Assigned	
Subsequent Capital Program	\$ 11,330,800
Natural Disaster/Emergencies	2,900,000
Revenue Uncertainties	1,000,000
Accrued Leave Payout	500,000
Economic Development Incentives	600,000
Transportation Improvement	386,185
Affordable Housing Programs	500,000
City Projects/Initiatives	2,900,000
Total	<u>\$ 20,116,985</u>
Unassigned	<u>\$ 51,978,538</u>
Total Fund Balance	<u>\$ 94,525,932</u>

Self-Insurance—These monies (\$5.0 million) have been committed for reserves for the City’s self-insurance program.

Subsequent Fiscal Years’ Capital Program—These monies (\$11.3 million) have been assigned to fund a portion of the capital improvement program in FY 2017 and beyond.

Natural Disaster/Emergencies/ Emergency Response—These funds (\$2.9 million) have been assigned to cover damages and operational costs associated with responding to extraordinary emergencies.

Revenue Uncertainties—These funds (\$1.0 million) have been assigned to mitigate the effects of uncertainties brought on by actions such as sequestration.

Economic Development Incentives—These funds (\$0.6 million) are assigned to provide funds to incentivize business to locate or expand in the City.

Capital Projects	Intergraph Corporation	\$ 1.3 million
Capital Projects	Centennial Contractors Enterprises Inc.	\$ 1.0 million

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Short Term Liabilities

Short Term Liabilities include unclaimed funds. The City did not have any short term debt during FY 2016.

M. Deferred Outflows

A deferred outflow of resources represents a consumption of net assets by the government that is applicable to a future period and so will not be recognized as an outflow of resources until the future period. The City recognizes deferred outflows for contributions made subsequent to the measurement date related to pensions, difference between expected and actual experience, changes in assumptions, and net difference between projects and actual earnings on pension plans investments. At June 30, 2016, the City had deferred outflows of resources of \$56.8 million.

N. Deferred Inflows

A deferred inflow of resources represents an acquisition of net assets by the government that is applicable to a future period and will not be recognized as an inflow of resources (revenue) until that time. For government-mandated and voluntary non-exchange transactions, a deferred inflow is reported when resources are received before time requirements are met. At June 30, 2016, the City had deferred inflows of resources of \$256.2 million representing deferred taxes and grant revenues.

The City recognizes deferred inflows for the difference between the projected and actual investment earnings and expected and actual experience related to pensions. At June 30, 2016, the City had deferred inflows of resources related to pensions of \$21.1 million.

NOTE 2. LEGAL COMPLIANCE – BUDGETS

After a public hearing and several work sessions, the City Council adopts an annual budget no later than June 27 for the succeeding fiscal year to commence July 1. Transfers of appropriations among departments or projects are made throughout the fiscal year by the City Council. The City Council may also approve supplemental appropriations. In FY 2016, the Council approved a reappropriation of prior fiscal year encumbrances as well as various other supplemental appropriations. The City Manager has authority to transfer appropriations within each department. In FY 2016, a number of intradepartmental transfers were made.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 3. DEPOSITS AND INVESTMENTS

The City maintains a pool of cash and investments in which each fund participates on a dollar equivalent and daily transaction basis. Interest is distributed monthly based on the funds' average monthly balances. A "zero balance account" mechanism provides for daily sweeps of deposits made to City checking accounts, resulting in an instantaneous transfer to the investment account. Thus, the majority of funds in the City's general account are invested at all times. Exceptions to this are funds in the Library System's checking account, the School Student Activity Fund account, and some bank accounts administered by the Human Services Department. The City's pooled portfolio also excludes pension plans.

A. Deposits

Primary Government

At June 30, 2016, the carrying value of the City's deposits was \$9,320,579 and the bank balance was \$10,731,127. The difference between the carrying value of the City's deposits and the bank balance are the checks outstanding. This amount will fluctuate depending on the difference between checks issued and checks paid. The funds for these checks remain invested until the checks are presented for payment at the bank. The entire bank balance was covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (The Act). The Act provides for the pooling of collateral pledged with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor and public depositors are prohibited from holding collateral in their name as security for deposits. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by banks and savings and loan associations. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral were inadequate to cover the loss, additional amounts would be assessed on a pro rata basis to the members of the pool. Funds deposited in accordance with the requirements of the Act are considered fully secured. The City maintains cash and temporary investments for all funds and component units in a single pooled account, except for certain cash and investments required to be maintained with fiscal agents or in separate pools or accounts in order to comply with the provisions of bond indentures. The City has invested bond proceeds subject to rebate of arbitrage earnings in the Virginia State Non-Arbitrage Program ("SNAP"). SNAP is designed to assist local governments in complying with the arbitrage rebate requirements of the Tax Reform Act of 1986. These programs provide comprehensive investment management, accounting and arbitrage rebate calculation services for proceeds of general obligation and revenue tax-exempt financing of Virginia counties, cities, and towns. As of June 30, 2016, the City had \$135,028,569 in the SNAP short term investment.

Component Units

At June 30, 2016, the carrying value of deposits for the School Board was negative \$1,804,718 and the bank balance was \$0. The entire bank balance was covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act as defined above.

At June 30, 2016, the carrying value of deposits and bank balance for the Library was \$378,702. The entire amount was collateralized at 102 percent with U.S. government agency securities as part of a repurchase agreement with Burke and Herbert Bank and Trust Company.

Transit deposits are included in the City's pooled cash and investments.

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

B. Investments

State Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, commercial paper rated A-1 by Standard and Poor's Corporation or P-1 by Moody's Commercial Paper Record, banker's acceptances, repurchase agreements, the State Treasurer's Local Government Investment Pool (LGIP), Virginia Investment Pool (VIP). The City's current investment policy limits investments to obligations of the United States and agencies thereof, commercial paper, LGIP and repurchase agreements fully collateralized in obligations of the United States and agencies thereof, CDARS (the Certificate of Deposit Account Registry Service, a service that allows FDIC insured institutions to provide their customers with access to full FDIC insurance on CD investments up to \$50 million), ICS (Insured Cash Sweeps), and NOW (Negotiable Order of Withdrawal, an interest bearing bank account with which the customer is permitted to write drafts against money held on deposit) accounts.

During fiscal year 2016 most of the City investments were placed in the State Treasurer's Local Government Investment Pool (LGIP). The LGIP is under the supervision of the Virginia Treasury Board and audited by the Auditor of Public Accounts. However, some investments were made in CDARS, ICS, and NOW accounts where deposits are eligible for FDIC insurance.

During the year, the City and its discretely presented component units maintained eight pension plans. The plan provisions allow the assets of the pension plans to be invested by the pension carriers in accordance with provisions of the Code of the Commonwealth of Virginia. The Plans' investments are exposed to various risks such as interest rate, market and credit risks. Such risks, and the resulting investment security values, may be influenced by changes in economic conditions and market perceptions and expectations. Accordingly, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect the amounts reported in the statement of Net position available for benefits.

The City and its discretely presented component units' investments are subject to interest rate, credit and custodial risk as described below:

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits at least half of the City's investment portfolio to maturities of less than one year.

Credit Risk – State Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivision thereof, commercial paper rated A-1 by Standard and Poor's Corporation or P-1 by Moody's Commercial Paper Record, banker's acceptances, repurchase agreements, and Virginia Local Government Investment Pool. The City's current investment policy limits investments to obligations of the United States and agencies thereof, commercial paper, and repurchase agreements fully collateralized in the Obligations of the United States and agencies thereof, the State Treasurer's LGIP, VIP, CDARS, ICS and NOW accounts. During the fiscal year, the City held its investments in LGIP, CDARS, ICS and NOW, commercial paper, investments of US agencies and VA municipalities. The investments for five of the City's six pension plans are handled by Prudential, a company with an A (Excellent) rating, one of the top three, by A.M. Best rating agency. The investment for the defined contribution plan is directed by employees, and is invested in mutual funds and guaranteed investment accounts. The City has directed Prudential to invest funds for the other four defined benefit pension plans in guaranteed investment accounts, mutual funds and stocks. The Commonwealth of Virginia manages the investments of the Virginia Retirement System (VRS). Prudential also handles investments for OPEB (Other Post-Employment Benefits) trust fund for the City.

(Continued)

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Custodial Risk – Custodial risk is the risk that in the event of the failure of the counter-party, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Currently all City investments are held in LGIP, VIP, CDARS, ICS, and NOW accounts. If the City has to invest in a local bank, the City will require a designated portfolio manager. At the time funds are invested, collateral for repurchase agreements will be held in the City’s name by a custodial agent for the term of the agreement, and investments in obligations of the United States or its agencies will be held by the Federal Reserve in a custodial account.

As of June 30, 2016, the City had the following cash, investments and maturities:

Primary Government

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

The list below summarizes investments managed by the City of Alexandria in accordance with the fair value hierarchy established by the generally accepted accounting principles. Fair value is a sale price agreed to by a willing buyer and seller, assuming both parties enter the transaction freely. The hierarchy is based on the valuation inputs used to measure the fair value of assets. The inputs are categorized at three levels based on the degree of certainty around the asset's underlying value.

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborate by observable market data.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

During fiscal year 2016, investments worth \$3.0 million were classified in Level 1 of the fair value hierarchy. Additionally, investments worth \$73.0 million were classified in Level 2. Fixed government securities worth \$18.9 million, tax-free municipal securities worth \$25,139, taxable municipal securities worth \$1.0 million, and fixed certificates of deposit worth \$53.0 million were classified in Level 2.

Notes	709,000	44,983,868	1,475,000	47,167,868
Gross Receivables	<u>\$ 309,897,568</u>	<u>\$ 54,143,433</u>	<u>\$ 1,475,000</u>	<u>\$ 365,516,001</u>
Less: Allowance for Uncollectibles	14,974,473	42,485,547	1,475,000	58,935,020
Net Receivables	<u>\$ 294,923,095</u>	<u>\$ 11,657,886</u>	<u>\$ -</u>	<u>\$ 306,580,981</u>

Taxes receivable represents the current and past four years of uncollected tax levies for personal property taxes, and the current and past 19 years for uncollected tax levies on real property. The allowance for estimated uncollectible taxes receivable is 5.8 percent of the total taxes receivable at June 30, 2016 and is based on historical collection rates. Almost all of the uncollectible taxes derive from personal property taxes. Almost all of the real property tax receivables as of June 30, 2016, represent the second-half payment due for real estate taxes on November 15, 2016.

Receivables on a government-wide basis include taxes receivable of \$16.5 million that are not available to pay for current period expenditures and, therefore, are offset by the deferred inflows in the governmental funds. Tax revenues and the corresponding unearned revenue reported on a government-wide basis, do not include approximately \$1.7 million of taxes that are considered current financial resources and, therefore, are reported in the governmental funds. This comprises:

Real Estate Tax Receivables	\$ (953,983)
Personal Property Tax Receivables	<u>2,694,401</u>
Total	<u>\$ 1,740,418</u>

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 4. RECEIVABLES (Continued)

Governmental funds report deferred inflows in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also include unearned revenue related to resources that have been received but not yet earned. At the end of FY 2016 unearned revenue in the governmental funds consisted of the following:

	<u>Unavailable</u>	<u>Unearned</u>	<u>Total</u>
Property taxes, net of related allowances	\$ 273,460,459	\$ 6,161,411	\$ 279,621,870
Grant proceeds received prior to completion of eligibility requirements	-	6,070,571	6,070,571
Total	<u>\$ 273,460,459</u>	<u>\$ 12,231,982</u>	<u>\$ 285,692,441</u>

Deferred Outflows/Inflows

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Comment</u>
Total Deferred Taxes	\$ 273,460,459	\$ 11,031,160	
Grants Received Prior to Eligibility	798,399		Build America Bond refund in General Fund
Grants Received Prior to Eligibility	-	5,272,172	Eligible grants with timing differences
Total Deferred Outflows, Receivables	<u>\$ 274,258,858</u>	<u>\$ 5,272,172</u>	

Component Units

Receivables at June 30, 2016, consist of following:

	<u>School Board</u>	<u>Library</u>	<u>Transit</u>	<u>Total</u>
Accounts	\$ 494,959	\$ -	\$ 238,716	\$ 733,675
Intergovernmental	5,139,553	23,245	105,463	5,268,261
Total Receivables	<u>\$ 5,634,512</u>	<u>\$ 23,245</u>	<u>\$ 334,179</u>	<u>\$ 6,001,936</u>

All of the component units' receivables are considered to be collectible.

All deferred revenue in the component units is unearned.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 4. RECEIVABLES (Continued)

A. Property Taxes

The City levies real estate taxes on all real property on a calendar year basis, at a rate enacted by the City Council on the assessed value of property (except public utility property) as determined by the Director of Real Estate Assessments of the City. The Commonwealth assesses public utility property. Neither the City nor the Commonwealth imposes a limitation on the tax rate. All property is assessed at 100 percent of fair market value and reassessed each year as of January 1. The Real Estate Assessor, by authority of City ordinance, prorates billings for property incomplete as of January 1, but completed during the year.

Real estate taxes are billed in equal semi-annual installments due June 15 and November 15. The taxes receivable balance at June 30, 2016, includes amounts not yet received from the January 1, 2016 levy (due June 15 and November 15, 2016), less an allowance for uncollectible amounts. The installment due on November 15, 2016 is included as unavailable revenue since these taxes are restricted for use until FY 2016. Liens are placed on the property on the date real estate taxes become delinquent and must be satisfied prior to the sale or transfer of the property. In addition, any uncollected amounts from previous years' levies are incorporated in the taxes receivable balance. The tax rate was \$1.073 per \$100 of assessed value during calendar year 2016 and \$1.043 in 2015.

Personal property tax assessments on tangible business property and all motor vehicles are based on 100 percent of fair market value of the property as of January 1 of each year. For a vehicle, the tax may be prorated for the length of time the vehicle has status in the City. Personal property taxes for the calendar year are due on October 5. Personal property taxes do not create a lien on property; however, City vehicle decals, which are required by law for all vehicles garaged in the City, may not be issued to any individual having outstanding personal property taxes. The taxes receivable balance at June 30, 2016, includes amounts not yet billed or received from the January 1, 2016 levy (due October 5, 2016). These taxes are included as unearned revenue since these taxes are restricted for use until FY 2017. The tax rate for motor vehicles was \$5.00 per \$100 of assessed value during calendar years 2016 and 2015. The tax rates during calendar years 2016 and 2015 were \$4.75 for tangible personal property and \$4.50 for machinery and tools per \$100 of assessed value. In addition, any uncollected amounts from prior year levies are incorporated in the taxes receivable balance. Under the provisions of the Personal Property Tax Relief Act of 1998 (PPTRA), the City billed and collected from the State, 61 percent of most taxpayers' payments in FY 2016 for the January 1, 2016 levy. This represented the Commonwealth's share of the local personal property tax payment with the remainder collected by the Commonwealth from taxpayers. Unavailable revenues include the state's share of the January 1, 2016 levy.

B. Notes Receivable

The gross amount of notes receivable is primarily for the City's housing programs and consisted of the following at June 30, 2016:

Governmental Activities

General Fund	\$ 709,000
Special Revenue Fund	44,983,868
Capital Projects Fund	1,475,000
Less Allowance for Uncollectible Accounts	<u>(44,269,547)</u>
Net	<u>\$ 2,898,321</u>
Amounts due within one year	<u>\$ 231,000</u>
Amounts due in more than one year	<u>\$ 2,667,321</u>

NOTE 5. CAPITAL ASSETS (Continued)

Depreciation was charged to governmental functions as follows:

General Government	\$ 2,832,599
Judicial Administration	558,434
Public Safety	6,052,299
Public Works	8,315,950
Depreciation of Infrastructure Assets	8,373,380
Health and Welfare	498,705
Culture and Recreation	2,932,438
Education	9,474,638
Community Development	<u>404,702</u>
 Total	 <u>\$ 39,443,145</u>

Capital outlays are reported as expenditures in the governmental funds; however, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. The adjustment from governmental funds to the government-wide statements is summarized as follows:

Primary Government

City Capital Outlay	\$ 62,935,099
Donated Assets	3,761,982
Depreciation Expense	(39,443,145)
Sale of building, Net	-
Capital Outlay not capitalized	<u>(33,883,029)</u>
Total Adjustment	<u>\$ (6,629,093)</u>

Donated assets are comprised of infrastructure donated by developers.

Net position Investment in capital assets is computed as follows:

Capital Assets, Net		\$ 800,648,960
Outstanding bonds (including premium)	(\$562,293,163)	
Unspent bond proceeds at SNAP	<u>135,028,569</u>	
		<u>(427,264,594)</u>
Investment in Capital Assets Net of Debt		<u>\$ 373,384,366</u>

DRAFT 11.03.16

In FY 2002, the Virginia Assembly passed a general law to respond to GASB Statement No. 34 that establishes the local option of creating, for financial reporting purposes, a tenancy in common with the local school board when a city or county issues bonds for acquisition, construction, or improvement of public school property. The sole purpose of the law is to allow cities and counties the ability to record school assets and related debt liabilities together. As a result, certain assets purchased with the City's general obligation bonds are now recorded as part of the primary government. According to the law, the tenancy in common ends when the associated obligation is repaid; therefore, the assets will revert to the Alexandria School Board when the bonds are repaid. Nothing in the law alters the authority or responsibility of the local school board or control of the assets. All depreciation was charged to education.

Exhibit XII
(Continued)

NOTE 6. RISK MANAGEMENT

The City is exposed to various losses related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. It is the policy of the City to retain risks of losses in those areas where it believes it is more economical to manage its risks internally and account for any claims settlement in the General Fund. Exceptions to the self-insurance program are made when insurance coverage is available and when premiums are cost effective. The City is covered by property/casualty insurance policies on real and personal property and the following liability insurance policies as of June 30, 2016: public entity and public officials excess liability, medical malpractice liability, voting booths, special events, vacant buildings, volunteer liability, and commercial crime. In addition, the City maintains excess workers' compensation insurance. The City maintains a blanket surety bond on all City workers who handle funds and excess amounts on key officials. There were no material reductions in insurance coverage from coverage in the prior fiscal year, nor did settlements exceed coverage for any of the past three fiscal years.

The City is self-insured for workers' compensation claims up to \$1.0 million, and for public officers, public entity, physical damage to vehicles, and vehicle general liability under \$2.0 million and over \$10.0 million. The following Constitutional Officers and City employees are covered by surety bonds issued by Aetna Casualty and Surety in the amounts shown below as of June 30, 2016:

Director of Finance.....	\$ 1,000,000**
Deputy Director of Finance.....	\$ 1,000,000
Treasurer.....	\$ 1,000,000
Comptroller.....	\$ 1,000,000
Revenue Director.....	\$ 0**
Retirement Administrator.....	\$ 1,000,000
Clerk of the Circuit Court.....	\$ 103,000*
Sheriff.....	\$ 30,000*
All other City employees.....	\$ 100,000
Alexandria Historic Restoration and Preservation Commissioners	\$ 10,000

* Bond provided by the Commonwealth of Virginia

** The Director of Finance covered the unfilled position of Revenue Director in FY 2016.

Self-Insurance

The non-current portion of unpaid workers' compensation claims amounted to approximately \$20.5 million as of June 30, 2016, and is reflected in the government-wide statements. The current portion is recorded as an accrued liability in the General Fund and the government-wide financial statements. In FY 2009, the City became self-insured for one of the two health insurance plans offered to employees. At June 30, 2016 the current portion of employees' health insurance was \$1.8 million which represents an estimate of health insurance claims that have been incurred but not reported and are reported in accrued liabilities. The amount of expenditures did not exceed funds that are available to pay the claims covering a period of four years. Therefore, a long-term liability has not been recorded as of June 30, 2016. Liabilities are reported when it is probable that losses have occurred and the amounts of the losses can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported to date. Liabilities are determined using a combination of actual claims experience and actuarially determined amounts and include incremental claim adjustment expenses and estimated recoveries. An independent contractor processes claims and the City records a provision and liability in the government-wide statements and General Fund (current portion only) for an estimate of incurred but not reported claims.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 6. RISK MANAGEMENT (Continued)

Changes in the estimated claims payable for workers' compensation and health insurance during the fiscal years ended June 30, 2016 and 2015 were as follows:

	Workers' Compensation	Health Insurance
July 1, 2014 Liability Balances	\$ 18,755,080	\$ 1,084,558
Claims and changes in estimates	5,183,578	14,940,877
Claim Payments	(4,771,546)	(14,798,724)
June 30, 2015 Liability Balances	19,167,112	1,226,711
Claims and changes in estimates	7,052,176	18,896,206
Claim Payments	(5,731,464)	(18,342,051)
June 30, 2016 Liability Balances	\$ 20,487,824	\$ 1,780,866

The Health Insurance liability is included in the accrued liability

Insurance Commitment

In addition, the City has established a General Fund self-insurance commitment of \$5.0 million as of June 30, 2016.

DRAFT 11.03.16

Risk Pools

On March 15, 1986, the City joined the Commonwealth of Virginia's Law Enforcement Liability plan, called VA Risk, on behalf of the Office of the Sheriff. The Division of Risk Management of the Commonwealth's Department of General Services operates VA Risk. The division was created in accordance with Sec. 2.1-526.8:1 of the Code of Virginia, which says that the State shall have the right and duty to defend any suit seeking damages or compensation against the City's officials and employees on account of wrongful acts, even if any of the allegations of the suit are groundless, false, or fraudulent, and may make the investigation and settlement of any claims or suit as deemed expedient. The limits of VA Risk coverage are \$1.0 million per claim. The City retains the risk for all claims in excess of \$1.0 million. Claims have not exceeded coverage in the last three years.

Line of Duty Death and Disability Benefits

The City provides death and health benefits to the beneficiaries of certain law enforcement and rescue personnel disabled or killed in the line of duty. Benefit provisions and eligibility requirements are established by Title 9.1 Chapter 4 of the Code of Virginia.

Effective July 1, 2012 the City opted out of the Virginia Plan. The City now self-funds and self-administers its Line of Duty Benefits. In FY 2016, the City contributed to the OPEB trust fund for line of duty benefits. In fiscal year 2016, an actuarial valuation was issued for Line of Duty benefits. According to the December 31, 2015 actuarial valuation, 716 active employees were eligible for Line of Duty benefits. As of June, 2016, 74 beneficiaries were receiving Line of Duty payments. During FY 2016, Line of Duty payments for the recipients amounted to \$1.1 million.

NOTE 6. RISK MANAGEMENT (Continued)

Component Units

The School Board carries commercial insurance for all risks of loss including property, theft, auto liability, physical damage, and general liability insurance through the Virginia Municipal League. Settled claims resulting from these risks have not exceeded commercial reinsurance coverage for the past three years. There were no material reductions in insurance coverage from coverage in the prior fiscal year nor did settlements exceed coverage for any of the past three fiscal years. The School Board also carries catastrophic medical insurance for Virginia High School League Student participants.

The Library carries commercial insurance with the Virginia Municipal League for all risks of loss including property insurance, theft, auto liability, physical damage, and general liability insurances. There were no material reductions in insurance coverage from coverage in the prior fiscal year, nor did settlements exceed coverage for any of the past three fiscal years.

On October 1, 1987, the Alexandria Transit Company joined the Virginia Transit Liability Pool. Commercial companies service the Virginia Transit Liability Pool.

The coverage and limits of the pool's liability to the City are as follows:

Commercial General Liability	\$20 million
Automobile Liability	\$20 million
Uninsured Motorist	\$50,000
Automobile Physical Damage	(Actual Cash Value)

Under the provisions of the Virginia Workers' Compensation Act, the Alexandria Transit Company has secured the payment of Virginia compensation benefits and employers' liability coverage with the Virginia Municipal Group Self-Insurance Association (VMGSIA). VMGSIA is a public entity risk pool providing a comprehensive workers' compensation insurance program to Virginia municipalities and other local government entities. In addition to insurance coverage, the program provides risk management services with emphasis on loss control and claims administration. The Alexandria Transit Company pays an annual premium to VMGSIA for workers' compensation coverage. VMGSIA is self-sustaining through member premiums and will reinsure for claims in excess of \$5.0 million. Each member's premium is determined through an actuarial analysis based upon the individual member's past experience and number of employees. In FY 2016, the Alexandria Transit Company paid an annual premium of \$0.2 million for participation in this pool.

NOTE 7. OPERATING LEASES

Rental Costs

The City and the School Board lease office space and equipment under various long-term operating lease agreements expiring at various dates through FY 2031. Certain leases contain provisions for possible future increased rentals based upon changes in the Consumer Price Index.

Scheduled minimum rental payments for succeeding fiscal years ending June 30 are as follows:

Primary Fiscal Year	Government	School Board Component Unit
2017	\$5,135,508	\$3,465,460
2018	5,128,325	3,542,848
2019	5,347,568	3,615,035
2020	5,573,715	3,588,028
2021	5,740,554	3,618,352
2022-2026	30,147,154	12,447,459
2027-2031	24,080,666	12,447,459

DRAFT 11.03.16

Total rental costs during FY 2015 for operating leases were \$5.5 million for the Primary Government and \$4.47 million for the School Board.

Rental Revenues

The City also leases various City-owned properties and buildings under non-cancellable long-term lease agreements through FY 2030. The net book value of leased assets of \$9.1 million (cost of \$27.1 million less accumulated depreciation of \$17.9 million) is included in capital assets in the government-wide financial statements. Certain leases contain provisions for future increased revenues based upon changes in the Consumer Price Index.

Scheduled minimum revenues for succeeding fiscal years ending June 30 are as follows:

Fiscal Year	Total Revenues
2017	\$761,947
2018	636,716
2019	587,005
2020	533,547
2021	406,401
2022-2026	1,544,856
2027-2031	1,098,915

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 8. COMMITMENTS AND CONTINGENCIES

A. Washington Metropolitan Area Transit Authority

The City's commitments to the Washington Metropolitan Area Transit Authority (WMATA) are comprised of agreements to make capital contributions for construction of the rail transit system, contributions for replacement and improvement of rail and bus equipment, and payments of operating subsidies for rail, bus, and paratransit systems.

Due to the new State requirement to reflect all State aid to all jurisdictions in their accounting statements according to Generally Accepted Accounting Principles, all State funding for WMATA received and administered by Northern Virginia Transportation Commission (NVTC) are now reflected in the accounting statements in addition to these footnotes. Total Department of Rail and Public Transportation (DRPT) funding for WMATA administered by NVTC on behalf of the City of Alexandria for FY 2016 amounted to \$4.9 million.

The City and other participating jurisdictions have entered into a series of capital contribution agreements with WMATA to fund the local share of the cost of the regional Metrorail, Metrobus, and Metro Access transit systems. The City's commitments are summarized as follows:

1. Capital contributions - Bus and Rail Replacement

During FY 2004 the WMATA Board, the City, and other participating jurisdictions in the Washington, D.C. area discussed and negotiated a multi-year capital funding agreement known as "Metro Matters". This agreement reflects some \$3.2 billion in Metrorail and Metrobus infrastructure capital improvements, as well as the expansion of Metro transit services through the acquisition of new railcars and buses. The participating jurisdictions' share is planned at \$1.9 billion over a 20-year period with \$0.9 billion planned during the first six years. The City's share is \$82.5 million over the 20-year period with \$40.7 million planned during the first six years. The Metro Matters inter-jurisdictional agreement was signed by the City of Alexandria on September 28, 2004. The City opted out of the new 2009 series bond issue by prefunding its share. In June 2010, a new funding agreement was signed by all members of the WMATA Compact. It sets forth a commitment of one year's funding with five planning years. The new funding agreement assumes an increase of \$150 million per year of new federal funds, matched by the Commonwealth of Virginia, the State of Maryland, and the District of Columbia. The new agreement totals to \$5.0 billion, of which \$2.5 billion will be funded by the federal government. Per the Metro Matters agreement, the participating jurisdictions' financial obligations, including the City, are subject to individual jurisdictional annual appropriation consideration.

For the fiscal year ended June 30, 2016, the total City obligation was \$12.9 million, which includes payments to WMATA as well as debt service for the 2009 series of bonds used to prefund the City share. The debt service is also included in Exhibit IV in the total reported debt service. The state Aid and NVTC funding used for a portion of the payments to WMATA is included in the reported Special Revenue Fund activities for FY 2016. The City paid this obligation from the following sources:

City payments	\$ 4,198,287
State Aid and NVTC reimbursable	4,133,000
City Debt Service for 2009 bonds	<u>1,145,080</u>
TOTAL	<u>\$ 9,476,367</u>

2. Operating subsidies - Bus and Rail Systems

During the fiscal year ended June 30, 2016, obligations for bus and rail subsidies amounted to \$33.8 million. The City paid this obligation from the following sources:

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 8. COMMITMENTS AND CONTINGENCIES (Continued)

City payments	\$ 8,685,156
State Aid and State Motor Fuel Sales Tax rev	23,261,989
NVTA 30%	<u>1,890,000</u>
TOTAL	<u>\$33,837,145</u>

Expected obligations for FY 2017 are \$33.1 million of which \$6.3 million is expected to be paid from the City’s General Fund. We will also use \$24.1 million from NVTC funding and \$2.7 million from NVTA 30% funding to cover the rest of the obligations.

3. WMATA Transit Revenue Bonds

WMATA issued approximately \$1 billion of federally guaranteed transit revenue bonds to fund part of the construction of the rail transit system. Operating revenues have been insufficient to retire this debt. The federal government and WMATA entered into an agreement whereby the federal government agreed to pay two-thirds of the debt service costs for these bonds and to advance part of the remaining one-third during the first three years of the agreement. The agreement requires that WMATA repay the federal advances with interest and one-third of the debt service on the bonds. WMATA allocated the cost of the advances and the one-third of the debt service costs among the participating jurisdictions. The City has not agreed to any payments for the one-third allocation of debt service, but the Northern Virginia Transportation Commission (NVTC) has paid, from state aid, all such costs allocated to Northern Virginia jurisdictions, of which \$1,161,890 was the City’s allocation during the fiscal year ended June 30, 2016. However, NVTC has not paid any of the allocations for federal advances. In July of 1985, the Alexandria City Council authorized NVTC to pay \$4.2 million to WMATA, including accrued interest, from state aid on deposit to the credit of the City. This was the total amount allocated to the City by WMATA for advances by the federal government, including accrued interest. The City has thus, with such authorization, satisfied all claims due to WMATA for transit revenue bonds.

4. Potomac Yard Metrorail station

As a major long-term economic development initiative, on June 12, 2010, the City approved the North Potomac Yard Small Area Plan, a major rezoning of 69 acres located in the Potomac Yard area of the City into a high density mixed-use development of over 7.5 million square feet. An integral part of this plan, which is expected to add approximately 10 percent to the City’s tax base and generate over \$1 billion in new tax revenue over a 30-year period, entails the construction of a new Metrorail station on the existing heavy rail Metrorail line. The preferred site has been estimated to cost \$268.0 million, including the current planning phase, preliminary engineering, and preparation of the design-build bid package.

Potomac Yard is located in the northeast area of the City immediately south of downtown Washington, D.C. and Ronald Reagan Washington National Airport. Two special tax districts have been established to generate revenue for construction of the new Metrorail station. In December 2010, City Council approved the Tier I Special Services Tax District for Landbays F, G, and H and the multi-family portion of Landbay I. Tier I tax collections began in 2011 at the rate of 20 cents per \$100 of valuation. In 2011, City Council approved a Tier II Tax District (Landbays I and J) with a 10-cent per \$100 of valuation levy to be initiated in the calendar year after the new Metrorail station opens.

The planning process for the new Metrorail station began with the Potomac Yard Metrorail Station Concept Development Study, which was completed in February 2010. Various site alternatives proposed in the study and by others were subsequently evaluated and refined. Project development is subject to the requirements of the National Environmental Policy Act and Section 4(f) of the Department of Transportation Act. On May 20, 2015, City Council selected its locally preferred alternative site for the station (Alternative B as presented in the EIS with no construction access from the George Washington Parkway). Alternative B will be evaluated in the Final EIS, which is expected to be complete by the end of calendar year 2015. Federal Transit Administration and National Park Service Records of Decision are due in the first quarter of calendar year 2016.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 8. COMMITMENTS AND CONTINGENCIES (Continued)

The City prepared an updated financial feasibility analysis in spring 2015 that evaluated the City's ability to finance the station using only local shares. The sources included net new tax revenues from Potomac Yard, special services tax districts, developer contributions, \$69.5 million from the Northern Virginia Transportation Authority, and a \$50 million Virginia Transportation Infrastructure Bank ("VTIB") loan that was awarded to the City by the Commonwealth Transportation Board in January 2015. Federal TIFIA loan funds have been applied for. The analysis shows that the preferred alternative was feasible. A new financial feasibility study will be prepared for Fall 2016.

The City's financing of the Metrorail station will require City Council to revise its current debt policy guideline targets and limits to address the bonds used to finance the project, in that the amount of debt that may be issued for this project would exceed the City's current debt targets and debt ceilings.

B. Litigation

The City is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. It is the opinion of City management and the City Attorney that any losses not covered by insurance that may ultimately be incurred as a result of the suits and claims will not be material.

C. Waste-To-Energy Facility

The City has a waste disposal commitment to the Waste-to-Energy Facility (the "Facility"), which is owned and operated by a private corporation (the "Corporation"). The commitment, which is joint with Arlington County, Virginia (the "County"), is based on a combined volume of solid waste the City and the County expect to collect together. The Facility charges the City and the County fees on each ton based on a waste disposal agreement and contracts separately with private haulers for additional waste. It is expected that the City and the County will be able to continue to meet their minimum requirement for annual tonnage of 46,000 to 66,000 tons per year. The City and the County have the ability to adjust the tonnage thresholds annually if it appears the annual tonnage is approaching a minimum or maximum threshold.

On December 1, 1984, an inter-local joint enterprise agreement was entered into between the Alexandria Sanitation Authority and the Arlington Solid Waste Authority (the "Authorities"). The Joint Enterprise, referred to as the Alexandria/Arlington Resource Recovery Corporation, was formed to design, construct, equip, test, then operate a solid waste disposal facility with an installed capacity of 975 tons per day of mixed municipal solid waste. The Facility is located at 5301 Eisenhower Avenue, Alexandria, Virginia. The Alexandria Industrial Development Authority issued revenue bonds and proceeds were lent to the Authorities to construct the Facility.

On October 22, 1985, the Authorities sold the Facility to a private company ("the Corporation") pursuant to a Conditional Sale and Security Agreement (the "Agreement"). The sale involved the transfer of construction-in-progress together with marketable securities and other assets. The Corporation assumed the obligation to provide funds adequate to pay the current liabilities and the outstanding revenue bonds payable as of October 22, 1985. This Agreement requires the Authorities to transfer full title to the Facility only when principal and interest on the outstanding revenue bonds, or any subsequent refinancing revenue bonds, have been paid in full. The Agreement also entitles the Authorities to repossess the Facility if revenue bond debt service payments are not made.

In connection with this transaction, the Corporation entered into a Facility Agreement dated as of October 1, 1986, obligating it to construct the Facility and to provide waste disposal services to the City of Alexandria, Arlington County, and the Authorities for 20 years. Under the Facility Agreement, the City has a guaranteed annual tonnage of acceptable waste commitment to the Facility. The commitment was based on a percent of solid waste the City expects to collect. The Facility charges a fee on each ton based on defined costs, and the City has met its requirement for annual tonnage each year.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 8. COMMITMENTS AND CONTINGENCIES (Continued)

Federal law changes in the Clean Air Act and subsequent regulations required the City and Arlington County to invest in a retrofit for new equipment at the Waste-To-Energy Facility. In July 1998, the Authorities advance refunded \$55 million of the outstanding revenue bonds (the “Series 1998 A bonds”) for the Facility to take advantage of lower interest rates. The Series A bonds were fully repaid in FY 2008. In November 1998, the Arlington Industrial Development Authority issued \$48.6 million in new retrofit revenue bonds (the “Series 1998 B Bonds”) to cover the cost of new pollution abatement equipment at the Facility required by federal law. The proceeds of the Series 1998 B bonds were lent to Authorities to construct the equipment.

The retrofitting of the Facility’s boiler units with certain air pollution control equipment was made necessary by the U. S. Environmental Protection Agency regulations adopted pursuant to the 1990 Clean Air Act Amendments, which imposed more stringent emission limitations on waste-to energy facilities. The Corporation has agreed to design, construct, start-up, and test the equipment so that it passes the acceptance tests.

Acceptance testing on each unit was completed in November 2000, and the Operating Lease agreement between the Authorities and the Corporation took effect in January 2001. Since, in essence, the lease is a capital lease, the capital assets completed and covered by the lease and the promissory note are removed from the City records and are now considered a part of the plant. In FY 2008, they were recorded in the same manner, as was the rest of the plant.

By December 2012, all of the revenue bonds debt service had been paid in full. A new Facilities Monitoring Group (“FMG”) was established and a new trust fund was set up to fund FMG’S activities. It is funded entirely by contributions from Arlington County (60%) and the City (40%). The FMG budget for FY 2015 was \$118,000 and according to the inter-jurisdictional agreement the City’s contribution was \$47,200. Operating costs of the Facility are paid for primarily through tipping fees. The City paid \$0.9 million in tipping fees in FY 2016.

D. Northern Virginia Transportation District Bonds

In November 1999, the City signed an agreement with the Commonwealth Transportation Board to provide \$256,070 annually, subject to appropriation, to finance certain Northern Virginia Transportation District Bond projects benefiting the City and other jurisdictions in Northern Virginia. The FY 2015 payment of \$256,070 was made from the proceeds from the City’s telecommunications tax received by the General Fund. The City is not liable for repayment of the 20-year bonds.

E. Combined Sanitary Sewer/Stormwater Sewer System

Because of state and federal regulations related to improving the water quality of the Chesapeake Bay in the six states and the District of Columbia that comprise the bay’s watershed, many cities and counties in this large geographic area will be required to make significant capital investments in sanitary, stormwater treatment, and agricultural runoff systems over the coming decades. For Alexandria, this means making between \$100 million and \$180 million in investments to its combined sanitary-stormwater sewer system, as well as investing between \$65 million to \$100 million to upgrade stormwater infrastructure over the next two to three decades. The development of project plans, costs, timetables, and funding plans will occur over the next few years, with the results of these efforts being added to future City CIP plans. While the 10-year plan includes \$142.8 million for sanitary sewer and stormwater capital projects, the future funding strategy involves adjusting the sanitary sewer maintenance fee in the coming fiscal years, to provide additional resources for separation of the City’s combined sanitary-stormwater system, and exploration of a stormwater utility to support mandated stormwater infrastructure improvements.

NOTE 9. LONG-TERM DEBT

General Obligation Bonds - The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. These bonds are subject to the provisions of the Internal Revenue Code of 1986 related to arbitrage and interest income tax regulations under those provisions. The City currently has no outstanding arbitrage obligation. General obligation bonds outstanding as of June 30, 2016, are comprised of the following individual issues:

\$10.6 million General Obligation Refunding Bonds (taxable) of 2015, installments ranging from \$1 to \$1.1 million through 2028, bearing interest rates ranging from 0.9 to 3.5 percent payable semiannually on January 15 and July 15 and maturing on July 15, 2028. The Bonds will not be subject to optional redemption prior to maturity.	\$	10,595,000
\$23.2 million General Obligation Capital Improvement (tax-exempt) Bonds of 2015, installments ranging from \$1.1 to \$1.2 million through 2035, bearing interest rates ranging from 3.0 to 5.0 percent payable semiannually on January 15 and July 15. The Bonds are subject to optional redemption in whole or in part at the direction of the City on or after July 15, 2025.		23,215,000
\$34.0 million General Obligation (tax-exempt) Refunding Bonds of 2015, installments ranging from \$0.4 to \$6.2 million through 2028, bearing interest at 1.9 percent. The Bonds are subject to optional redemption in whole or in part, at any time, by the City, upon thirty days prior written notice, at a redemption price equal to 100% of the outstanding principal amount of the Bond redeemed plus accrued interest to the redemption date, plus the Fixed Rate Prepayment Charge. This is a direct Bank Loan.		33,435,000
\$36.0 million Public Improvement (tax-exempt) Bonds of 2014 installments averaging \$1.8 million through 2035, bearing interest rates ranging from 2.0 percent to 5.0 percent. The Bonds maturing on or before January 15, 2025 are not subject to redemption prior to maturity. The Bonds maturing on or after January 15, 2026, may be redeemed before their maturities on or after January 15, 2025, at the option of the City, in whole or in part, in installments of \$5,000 at any time or from time to time at par plus the interest accrued and unpaid on the principal amount to be redeemed to the date fixed for redemption.		34,195,000
\$18.6 million General Obligation (tax-exempt) Refunding Bonds of 2014, installments ranging from \$2.8 to \$3.4 million through 2020, bearing interest at 1.0 percent. The Bonds maturing on or before June 15, 2020 are not subject to redemption prior to maturity. This is a direct Bank Loan. The debt is being held as an investment with no intention of sale or distribution.		11,930,000
\$63.8 million General Obligation Capital Improvement (tax-exempt) Bonds of 2013, installments averaging \$3.3 million through 2033, bearing interest at rates ranging from 4.0 percent to 5.0 percent. The Bonds maturing on or before June 15, 2023, are not subject to redemption prior to their maturity. The bonds maturing on or after June 15, 2024, are subject to optional redemption before maturity on or after June 15, 2023, at the option of the city in whole or in part, in installments of \$5,000 at any time or from time to time at par plus the interest accrued and on the principal amount to be redeemed to the date fixed for redemption.		56,190,000
\$76.8 million General Obligation Capital Improvement (tax-exempt) Bonds of 2012, installments ranging from \$200,000 to \$4.0 million through 2033, bearing interest rates ranging from 2.0 percent to 5.0 percent. The Bonds maturing on or before June 15, 2022 are not subject to redemption prior to maturity. The Bonds maturing on or after June 15, 2023, may be redeemed before their maturities on or after June 15, 2022, at the option of the City, in whole or in part, in installments of \$5,000 at any time or from time to time at par plus the interest accrued and unpaid on the principal amount to be redeemed to the date fixed for redemption.		67,800,000
\$17.3 million General Obligation (tax-exempt) Refunding Bonds of 2012, installments ranging from \$70,000 to \$5.6 million through 2025, bearing interest at rates ranging from 2.0 percent to 4.0 percent. The Bonds maturing on or after June 15, 2022, are not subject to redemption before maturity. The bonds at the time outstanding that are stated to mature on or after June 15, 2023, may be redeemed before their maturities on or after June 15, 2022, at the option of the city in whole or in part, in installments of \$5,000 at any time or from time to time at par plus the interest accrued and unpaid on the principal amount to be redeemed to the date fixed for redemption.		17,005,000
\$63.6 million General Obligation (tax-exempt) Refunding Bonds of 2012, installments ranging from \$2.9 million to \$8.6 million through 2023, bearing interest rates ranging from 2.0 percent to 4.5 percent. The Bonds maturing on or before June 15, 2022, are not subject to optional redemption. The Bonds maturing on June 15, 2023, are subject to optional redemption before maturity on or after June 15, 2022, at the direction of the City in whole or in part in installments of \$5,000 at par plus interest accrued and unpaid on the principal amount to be redeemed to the date fixed for redemption.		51,860,000

DRAFT 11.03.16

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 9. LONG-TERM DEBT (Continued)

The requirements to pay all long-term bonds as of June 30, 2016, including interest payments of \$153.8 million, are summarized as follows:

<u>Fiscal Year</u>	<u>Serial Bonds</u>	
	<u>Principal</u>	<u>Interest</u>
2017.....	\$ 43,300,000	\$ 20,685,899
2018.....	43,085,000	18,970,643
2019.....	42,845,000	17,216,794
2020.....	40,710,000	15,499,661
2021.....	37,905,000	13,960,944
2022-2026.....	163,100,000	47,408,327
2027-2031.....	120,495,000	18,150,611
2032-2036.....	31,270,000	1,918,979
	<u>\$ 522,710,000</u>	<u>\$ 153,811,858</u>

The General Fund meets debt service requirements for general obligation bonds. The City retains the liability for the portion of general obligation bonds issued to fund capital projects of the School Board. The City expects to receive \$14.7 million in Build America Bonds interest subsidy payments through 2031.

Legal Debt Margin - The City has no overlapping debt with other jurisdictions. As of June 30, 2016, the City had a legal debt limit of \$3.8 billion and a debt margin of \$1.3 billion.

Assessed Value of Real Property, January 1, 2016.....	<u>\$38,195,318,730</u>
Debt Limit: 10 Percent of Assessed Value.....	\$ 3,819,531,873
Amount of Debt Applicable to Debt Limit:	
General Obligation Bonds.....	<u>\$522,710,000</u>
Less Total General Obligation Debt.....	<u>(522,710,000)</u>
LEGAL DEBT MARGIN REMAINING	<u>\$ 3,296,821,873</u>

Unissued Bonds - Bond authorizations expire three years from the effective date of the respective bond ordinances. Authorization of bonds, bonds issued and expired during the fiscal year ended June 30, 2016, are summarized below:

	Authorized and Unissued		Authorized and Unissued		
	<u>July 1, 2015</u>	<u>Authorized</u>	<u>Issued</u>	<u>Expired</u>	<u>June 30, 2016</u>
General Obligation Bonds	<u>\$ 29,002,000</u>	<u>\$ 80,535,000</u>	<u>\$ 23,215,000</u>	<u>\$ -</u>	<u>\$ 86,322,000</u>

On August 9, 2016 the City Council issued \$73.7 million in General Obligation Bonds. The General Obligation Bonds were issued with an original premium of \$10.5 million and a true cost of 2.1%. The \$73.7 million bonds will be used to finance certain capital improvement projects for the City including, but not limited to, public school projects, City parks and buildings, transit and traffic control infrastructure, capital contributions to the Washington Metropolitan Area Transit Authority, storm water infrastructure improvements, and acquisition of fire department vehicles and apparatus.

The City did not issue any short-term debt or have any short-term debt outstanding during FY 2016. Other short-term liabilities represent unclaimed money and deposits.

Changes in Long-Term Liabilities - Changes in the total long-term liabilities during the fiscal year ended June 30, 2016 are summarized below. In general, the City uses the General Fund to liquidate long-term liabilities.

Net Pension Liability	170,715,574	37,095,673	4,581,984	203,229,263	-
Net OPEB Obligation	21,225,190	-	1,755,882	19,469,308	-
Total	\$ 814,403,643	\$ 94,632,342	\$ 80,204,132	\$ 828,831,853	\$ 54,971,560

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.

All liabilities – both current and long-term – are reported in the statement of Net position. The adjustment from modified accrual to full accrual is as follows:

Balances at June 30, 2016:	
Long-term liabilities (detail above)	\$ 828,831,853
Accrued interest payable	4,880,643
Adjustment	<u>\$ 833,712,496</u>

Under the modified accrual basis of accounting used in the fund financial statements for the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the government-wide statement of activities, however, which is presented on the accrual basis, expenses are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. This adjustment from modified accrual to full accrual is composed of the following items:

Compensated absences	\$ 387,046
Workers compensation	1,320,712
Change in net OPEB obligation	(1,755,882)
Amortization of bond premium,	
Discount and interest	435,500
Accrued interest on bonds	<u>(437,081)</u>
Adjustment	<u>\$ (49,705)</u>

NOTE 9. LONG-TERM DEBT (Continued)

Refunding Bonds

Prior-year Defeasance of Debt

In prior years, the City defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. On June 30, 2016, \$27.3 million of bonds outstanding were considered defeased.

Current year Defeasance of Debt

On August 5, 2015, the City Council issued \$10.595 million in Taxable General Obligation Bonds with an effective interest rate of 2.5 percent to advance refund a portion of the City's 2006B and 2008B series, aggregating in principal amount of \$10.0 million. The net proceeds of \$10.7 million (after payment of \$0.2 million in issuance cost) were used to purchase U.S. Government securities. These securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. Accordingly, the refunded bonds are considered to be defeased and are not included in the City's financial statements.

The advance refunding resulted in a deferred outflow of resources of \$.06 million due to a difference between the reacquisition price of \$10.6 million dollars and the net carrying value of the old debt \$10.0 million. This refunding will achieve a savings for the city of \$1.7 million in future debt service payments over the next 14 years and obtain economic gain of \$1.3 million.

Total	\$ 206,166,604	\$ 11,014,547	\$ -	\$ 4,138,184	\$ 221,319,335

Primary government transfer activities include:

Transfers from the General Fund to the Special Revenue Fund represent City funds required to match grant programs resources and taxes collected for affordable housing projects and to fund transportation agreements.

Special Revenue funds are transferred to other funds for capital and equipment purchases as determined by the terms of the grant agreements.

Transfers from the General Fund to the Capital Projects fund represent the City's budgeted pay-as-you go funding of capital projects.

Transfers from Special Revenue funds to Capital Projects represent grants received for capital related expenditures.

Transactions with the component units represent budgeted subsidies for the school operations and capital projects, library operations, and transit operations. In addition, the City transferred \$0.7 million in capital assets to Alexandria Transit in FY 2016.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 11. GRANTS

The City receives financial assistance from numerous federal, state, and local governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements and is subject to audit by the grantor agencies. Any unallowed disbursements resulting from such audits could become a liability of the City. In the opinion of City management, no material refunds will be required as a result of unallowed disbursements (if any), by the grantor agencies.

NOTE 12. INTERGOVERNMENTAL REVENUES

Intergovernmental revenues for the City and its component units totaled \$164.6 million in FY 2016. Sources of these revenues were as follows:

GOVERNMENTAL FUNDS

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 14. JOINT VENTURES

A. Northern Virginia Criminal Justice Academy

The City participates in a joint venture with the Counties of Arlington and Loudoun and the Cities of Fairfax, Falls Church, Manassas, and Manassas Park to provide training for sworn law enforcement and correctional officers to satisfy requirements mandated by the Commonwealth of Virginia. The Industrial Development Authority of Loudoun County, Virginia issued \$6,585,000 Northern Virginia Criminal Justice Academy Lease Revenue Bonds, Series 1993, to finance the acquisition, renovation, and equipment of the Academy Training Center. The City and the Counties of Arlington and Loudoun have entered into a capital lease with the Industrial Development Authority of Loudoun County. The City maintains an equity interest only in the land and building of the Academy, which is reflected in the City's Statement of Net position. The City does not maintain an equity interest in the Academy's operations. This lease was paid in full in FY 2007. New debt of \$18.7 was issued in FY 2007. The City does not have an equity interest associated with this debt. In addition, the City pays the Northern Virginia Criminal Justice Academy for operating costs based on the pro-rata share of officers trained. In FY 2016, the City paid \$0.6 million for operating costs.

Financial statements for the Academy may be obtained at Northern Virginia Criminal Justice Academy, 45299 Research Place, Ashburn, Virginia 22011-2600.

B. Northern Virginia Juvenile Detention Home

The City participates in a joint venture with Arlington County and the City of Falls Church to operate a regional juvenile detention home. In July 1993, the City agreed to fund 55.3 percent of the construction costs of a new facility. The final construction payments were made in FY 1995. In addition, the City pays part of the Northern Virginia Juvenile Detention Home's operating costs based on the number of beds utilized by Alexandria residents. These payments totaled \$0.3 million in FY 2016.

The City does not maintain an equity interest in the detention home. Complete separate financial statements for this operation may be obtained from Northern Virginia Juvenile Detention Home, 200 South Whiting Street, Alexandria, Virginia 22304.

C. Peumansend Creek Regional Jail Authority

In 1992, the City entered into an agreement with the Counties of Caroline, Arlington, Prince William, and Loudoun to form an authority to construct and operate a regional jail in Caroline County. The regional jail, which commenced operations in September 1999, is used primarily to hold prisoners from each member jurisdiction. The Regional Jail Authority is composed of two representatives, the Chief Administrative Officer and the Sheriff, from each participating jurisdiction. The City of Richmond, which was not party to the original agreement, is now a part of the project. The regional jail has the capacity for 336 prisoners. The City is guaranteed a minimum of 50 beds.

The total project cost is \$27 million, with 50 percent of the eligible construction cost (\$23.8 million) expected to be reimbursed by the Commonwealth. The Regional Jail Authority issued \$10.2 million in revenue bonds and \$12 million of grant anticipation notes in March 1997. The City's total share is \$18.2 million, including approximately \$3.2 million in capital and debt service costs and \$15 million in operating costs over the 20-year period of debt service payments (1997-2016). For FY 2016, the City paid \$0.5 million for operating costs and \$0.1 million for debt service payments. The City does not maintain an equity interest in the jail and is not responsible for repayment of the debt.

NOTE 14. JOINT VENTURES (Continued)

The agreement expires at the end of FY 2017. The City will no longer be a participating jurisdiction. Complete financial statements can be obtained by writing to the Regional Jail Authority at Post Office Box 1460, Bowling Green, Virginia 22427.

D. Washington Metropolitan Area Transit Authority

As discussed in Note 8, the City participates in a joint venture with other local jurisdictions to share in the cost of a regional transportation system. The City does not maintain an equity interest in WMATA. Complete financial statements of WMATA may be obtained from WMATA, 600 5th Street, N.W., Washington, DC 20001.

NOTE 15. RELATED PARTY TRANSACTIONS

In February 2013, the City of Alexandria created a special purpose entity, East Reed LLC (ERLLC), in order to enter into a public-private partnership arrangement with nonprofit housing developer, AHC Inc., to develop 78 units of affordable housing, pending completion of AHC's proposed \$32 M funding package (including an award of competitive low income housing tax credits to provide equity necessary for the project). The project is complete, operational, and occupied.

Following ERLLC's establishment, a parcel of City-owned land located at 3600 Jefferson Davis Highway (the 3600 parcel), required to complete AHC's assemblage for the development, was transferred into the LLC. ERLLC joined the tax credit partnership formed by AHC and its tax credit investor, as a Special Limited Partner, with the 3600 parcel providing the City's equity stake. While ERLLC's interest in the tax credit entity is de minimis, the City has specified governance and oversight participation rights as detailed in the March 2013 agreement between the City and AHC.

Separate from the 3600 Parcel and the ERLLC, the City provided a residual receipts loan of \$2.5M to assist AHC, Inc. with the affordable housing project.

NOTE 16. OTHER POST EMPLOYMENT BENEFITS (OPEB)

In 1989 City Council voted to establish three classes of post-employment health care benefits to supplement the increasing health care costs for City retirees. The three classes are as follows: (a) Full Time City employees who are eligible to retire under the Virginia Retirement System and City Supplemental Pension plan; (b) Fire and Police employees who are eligible to retire under the current defined benefit pension plan; and (c) Fire and police employees who retired and were eligible for normal retirement with 20 years of service under the old defined contribution retirement income plan and the retirees under the old defined benefit pension. In addition, spouses of deceased retirees are also eligible to receive benefits under this provision.

This plan is a reimbursement program that is based on the actual cost of the retiree's monthly premium up to a maximum amount determined by the City Council. Effective July 1, 2005, the maximum monthly amount an eligible retiree or a surviving spouse may receive is \$260. The City Council has authority to establish or amend the provisions. The City for fiscal year ending 2016 decided to go above the 260 limit to \$279.49 for the Kaiser DHMO plan because they did not want the retiree rates to increase greater than 7.5%. As of June 30, 2016, 343 retirees were eligible and received benefits from all three classes of this plan. Eligibility is contingent upon retiree providing proof of participation and payment to a health insurance plan. The City contributed on a "pay-as-you-go" basis at the rate of up to \$260 per month for each retiree, for a total annual contribution of \$2.5 million for FY 2016. Employees hired after September 30, 2007 will have their retirees' health benefits prorated based on the length of service.

In addition to the healthcare benefits, the City pays for basic life insurance two times the amount of salary at the time of retirement to regular full time employees with applicable reductions if over 65 at no cost to the employees. On January 1, following the 65th birthday, the basic life insurance amount is reduced by 25% and then by 10% each year till the 70th birthday. The ultimate insurance amount is 25% of the salary. This benefit is only available to those hired prior to July 1, 2008.

The City follows the guidance in Statement No. 45 of the Governmental Accounting Standards Boards (GASB), (Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions). The City established a Single Employer OPEB Trust and plans to fund on a phased in basis the obligation through this trust. There are no legal or contractual requirements for contributing to the OPEB Trust Fund. The City does not issue a stand-alone financial report for OPEB trust fund. The financial statements and required supplementary information are included in City's Comprehensive Annual Financial Report.

MEMBERSHIP

At January 1, 2016, membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits	782
Terminated Employees Entitled to Benefits But not yet receiving them	---
Active Employees	<u>2,216</u>
TOTAL	<u>2,998</u>

NOTE 16. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

ANNUAL OPEB COSTS AND NET OPEB OBLIGATIONS

Effective July 1, 2012, the City assumed responsibility for funding benefits required under the Virginia Line of Duty Act. The OPEB Trust Fund is comprised of regular OPEB benefits and Line of Duty (LOD) benefits. Two separate actuarial reports are generated for each.

The annual required contribution (ARC) for Other Post-Employment Benefits decreased from \$7.6 million for fiscal year 2015 to \$7.0 million for the current fiscal year. The ARC for Line of Duty Benefits decreased from \$5.6 million for fiscal year 2015 to \$3.8 million for the current year. As a percentage of payroll, the ARC decreased from 4.76% to 4.27% for the current fiscal year for regular benefits and decreased from 10.57% to 4.99% for Line of Duty benefits. As of June 30, 2016, the Net OPEB Obligation (NOO) for Regular Benefits decreased to \$9.2 million compared to \$11.8 million for fiscal year 2015 and for Line of Duty Benefits the NOO increased to \$10.3 million compared to \$9.4 million for fiscal year 2015. As of the December 31, 2015 actuarial reports, the Unfunded Actuarial Accrued Liability (UAAL) decreased from \$63.5 million to \$59.3 million for Regular Benefits and decreased from \$28.5 million to \$15.9 million for Line of Duty Benefits. The net OPEB Obligation as of June 30, 2016 is as follows:

	Regular	LOD	Total
Annual Required Contribution	\$7,020,912	\$3,783,205	\$10,804,117
Interest on NET OPEB Obligation	884,468	613,099	1,497,567
Adjustment to Annual Required Contribution	(1,033,243)	(767,790)	(1,801,033)
Annual OPEB Cost	6,872,137	3,628,514	10,500,651
Contribution Made			
Trust fund Contributions	(4,000,000)	(1,750,000)	(5,750,000)
Pay-Go Contributions	(5,451,088)	(1,055,445)	(6,506,533)
Total Contributions Made	(9,451,088)	(2,805,445)	(12,256,533)
Increase in NET OPEB Obligation	(\$2,578,951)	\$823,069	(\$1,755,882)
Net OPEB Obligation, Beginning of Year	11,792,903	9,432,287	21,225,190
Net OPEB Obligation, End of Year	\$9,213,952	\$10,255,356	\$19,469,308

Line of Duty (LOD) is part of the OPEB Trust Fund. OPEB Trust fund contributions are comprised of contributions to the Trust Fund and Pay-Go Contributions.

FUNDED STATUS AND FUNDING PROGRESS

The funded status of the plan as of December 31, 2015 was as follows:

	(1)	(2)	(3)	(4)	(5)	(6)
Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	Unfunded AAL (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll ((2-1)/5)
Regular Benefits 12/30/2015	\$ 32,133,684	91,469,013	59,335,329	35.13%	164,413,239	36.09%
Line of Duty Benefits (LOD) 12/30/2015	\$ 1,346,173	17,262,055	15,915,882	7.80%	56,263,415	28.29%

Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 16. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

The Statement of Net Position for the City's OPEB plan is included in footnote 17.

Actuarial valuations of the plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about the future employment, mortality and the healthcare cost trend. The actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following notes to the financial statements, presents results as of December 31, 2015. The schedule provides multi-year trend information about whether the actuarial values of plan Net position are increasing or decreasing over time relative to actuarial accrued liabilities for benefits.

ACTUARIAL METHODS AND ASSUMPTIONS

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of calculations.

For the December 31, 2015 actuarial valuations, regular OPEB benefits valuation used a 7.50% investment rate whereas the LOD valuation used a 6.50% investment rate. The following assumptions apply to both valuation reports. The entry-age actuarial cost method was used. An annual medical cost trend rate of 7.75% graded down to 5.00% over 19 years was used for non-Medicare and 7.5% graded down to 5.00% over 19 years for Medicare. Salary scale ranges were from 3.50% to 7.25% for Fire and Police and 3.25% to 5.10% for City employees depending on service with 3.50% attributable to inflation. The plan's unfunded actuarial accrued liability is being amortized as a level dollar of projected payroll on a closed basis. Asset valuation method used was market value and the remaining amortization period as of December 31, 2015 was 22 years.

Schedule of Employer Contributions

	Fiscal Year Ended	Annual Required Contributions	Employer Contributions	Percentage Contributed
Regular OPEB Benefits	06/30/2014	7,696,929	6,158,346	80.00%
	06/30/2015	7,617,075	6,353,814	83.40%
	06/30/2016	7,020,912	9,451,088	134.61%
Line of Duty Benefits	06/30/2014	5,839,828	1,152,663	19.70%
	06/30/2015	5,634,567	2,369,478	42.10%
	06/30/2016	3,783,205	2,805,445	74.16%

Three Year Trend Information

	Fiscal Year Ended	Annual OPEB Cost	Percentage Contributed	Net OPEB Obligation
Regular OPEB Benefits	06/30/2014	7,647,694	80.53%	10,647,610
	06/30/2015	7,499,107	84.73%	11,792,903
	06/30/2016	6,872,137	137.53%	9,213,952
Line of Duty Benefits	06/30/2014	5,801,196	19.87%	6,323,517
	06/30/2015	5,478,248	43.25%	9,432,287
	06/30/2016	3,628,514	77.32%	10,255,356

Employer contributions are comprised of Trust Fund contributions and Pay-Go contributions.

NOTE 16. OTHER POST EMPLOYMENT BENEFITS (OPEB) (Continued)

OPEB Trust

The table below summarizes investments managed by the City of Alexandria in accordance with the fair value hierarchy established by the generally accepted accounting principles. Fair value is defined as the quoted market value on the last trading day of the period. The hierarchy is based on the valuation inputs used to measure the fair value of assets.

Level 1 – Quoted prices in active markets for identical assets or liabilities. During fiscal year 2016, \$5.1 million worth of investments were evaluated and classified in Level 1 of the fair value hierarchy.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborate by observable market data. During fiscal year 2016, \$30.6 million worth of investments were evaluated and classified in Level 2 of the fair value hierarchy.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs. During fiscal year 2016, \$4.8 million worth of investments were evaluated and classified in Level 3 of the fair value hierarchy.

Securities Lending

The City permits the Other Post Employment Benefit trust (OPEB) fund to lend its securities with a simultaneous agreement to return the collateral. In FY2016, the OPEB trust fund lent U.S. Equities with a fair value of underlying securities of \$347,336 and cash collateral received from the borrower of \$354,223. Collateral investments are reported at cost, not market value.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS

Primary Government

During FY 2016, the City participated in six public employee retirement systems (PERS). One of these systems is handled by Virginia Retirement System (VRS), an agent multi-employer public retirement system that acts as a common investment and administrative agent for political subdivisions in the Commonwealth of Virginia, and is, therefore, not reflected as a City pension trust fund. Of the remaining five, four are single-employer defined benefit systems (City Supplemental, Pension for Fire and Police, Firefighters and Police Officers Pension Plan-defined benefit component, and Firefighters and Police Officers Pension Plan-disability component), where a stated methodology for determining benefits is provided, and one is a defined contribution plan (Firefighters and Police Officers Pension Plan-defined contribution component), where contribution requirements are not actuarially determined. All of these systems are included as part of the City's reporting entity and as such are reflected as Pension Trust Funds.

Plan Administration

The City Supplemental plan is administered by the Supplemental Retirement Plan board. The board consists of eight members. Four of the members are nominated by the City Manager, while the other remaining four are nominated by the Pension Board. The Firefighters and Police Office Pension Plan Board manages the Firefighters and Police Officers Defined Contribution plan, Defined Benefit plan, Disability plan, as well as the Pension for Fire and Police plan. The board consists of eight members. Four are nominated by the City Manager and four by the Voting Participants. In addition, there are two alternate members nominated by the Voting Participants and one alternate nominated by the City Manager.

Method Used to Value Investments

Investments are valued at fair market value.

DRAFT 11.03.16

Investment Policy

The Firefighters and Police Office Pension Plan Board investment policy objectives for Defined Benefit and Disability components are to preserve the actuarial soundness of each plan in order to meet contractual benefit obligations and to maximize investment return given an acceptable level of risk. The objective of the Defined Contribution component is to help beneficiaries save for retirement by enabling them to construct portfolios that will achieve an acceptable level of return while minimizing risk through diversification. The objective of the Supplemental plan is to preserve the actuarial soundness of each plan in order to meet contractual benefit obligations.

VRS Long- Term Expected Rate of Return

The long-term expected rate of return on pension system investments were determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension system investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the above table.

VRS Discount Rate

The discount rate used to measure the total pension liability was 7.00 %. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Based on those assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

The actuarial valuations for all defined benefit plans are performed annually with the exception of Virginia Retirement System (VRS), which is performed biennially; however, an actuarial update is performed in the interim year for informational purposes. The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. The employer contribution rate based on the June 30, 2015 actuarial valuation is 7.97% of payroll. The valuation reflects a contribution timing adjustment based on feedback from the 2014 quadrennial audit of the Virginia Retirement System.

Beginning January 1, 2014, employees newly covered under VRS were enrolled in the new VRS Hybrid Retirement Plan (Hybrid Plan). The Hybrid Plan combines the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members of VRS could opt into the new Hybrid Plan. The Employees under the new plan have a mandatory contribution to the Defined Contribution Plan of 1% which is matched by the City. A voluntary employee contribution of up to an additional 4% is allowed with the City matching 1% on the first additional 1% plus .25% for each additional .50%. The recommended contribution includes the contribution to the Defined Contribution Plan for hybrid members.

As of June 30, 2016, the City of Alexandria had 312 employees enrolled in the Hybrid Plan. The FY 2016 City contribution was \$0.2 million.

The 2015 VRS valuation reflects no changes in the actuarial assumptions since the last actuarial valuation.

Financial statements and required supplementary information are presented in the VRS comprehensive annual financial report, which can be obtained at www.varetire.org.

The City has assumed the responsibility of paying 2% of the employee share of contributions for the City Supplemental pension plan. The employees commencing their participation in this plan after July 1, 2009, will make two percent of the employee contributions. The City will continue to make the two percent contribution for employees who were participants prior to July 1, 2009. However, these contributions will be characterized as employer contributions.

The recommended contribution rate decreased from 27.76% as of July 1, 2014 to 27.30% as of July 1, 2015 for the Firefighter and Police Officers Basic Plan and decreased from 13.82% as of July 1, 2014 to 13.49% as of July 1, 2015 for the Disability Plan. During the year ended June 30, 2015, the Basic Plan's assets returned 2.94% and the Disability Plan's assets had a return of 2.87% on a market value basis. However, due to the Plans' asset-smoothing technique which recognizes only a portion of the gains and losses, the returns on the actuarial asset values were 8.46% and 8.00%, respectively. As of the July 1, 2015 Actuarial Valuation, the Basic Plan's unfunded actuarial liability was \$20.4 million. There were no benefit provisions changes. Effective with the July 1, 2015 valuation, annual experience gains and losses as well as assumption changes will be amortized over separate 15 year periods.

The actuarial assumptions for the Firefighters and Police Officers Basic and Disability Plans are based on an actuarial experience study based on experience of the Plans from July 1, 2009 to June 30, 2013 completed in February 2014. The actuarial assumptions for the Pension Plan for Firefighters and Police Officers, with the exception of the mortality and expense assumptions, were recommended by the prior actuary. The actuarial assumptions for the Supplemental Plan have been changed since the last actuarial valuation as a result of an actuarial experience study covering the period July 1, 2010 through July 30, 2015. Effective with the July 1, 2015 valuation, annual experience gains and losses as well as assumption changes will be amortized over separate 10 year periods. Demographic assumptions were updated to reflect the study.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

**Exhibit XII
(Continued)**

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

The assumed rate of return was changed from 7.50% to 7.25%
The rate of inflation was changed from 3.00% to 2.75%
The rate of wage inflation was changed from 3.75% to 3.25%
The interest rate for lump sum conversion was changed from 5.00% to 4.00%

At June 30, 2016, the City recognized a total liability of \$128.0 million for the City's four Single Employer Pension Plans. Measurements as of June 30, 2016 were based on the fair value of assets as of June 30, 2016 and the Total Pension Liability as of the valuation date, June 30, 2015, updated to June 30, 2016. The City recognized a liability of \$75.2 million for the VRS net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

All of the Single Employer Pension Plans use the following mortality assumption: Sex-distinct RP-2000 Combined Mortality Table for their mortality assumptions.

For each of the City's four Plans, the funding policy is to contribute at least the Actuarially Determined Contribution annually. This contribution is equal to the amortization of the unfunded liability plus expected administrative expenses. The amortization of the unfunded liability is calculated as a level-dollar closed period for the Supplemental and Pension Plan for Firefighters and Police Officers. The firefighters and Police Officers Basic Plan and Disability Plan are calculated as a level percentage.

The remaining amortization periods as well as other major provisions of all the defined pension plans are listed in the disclosure in the following tables.

Securities Lending

The City permits its pension plan trust funds to lend its securities for collateral with a simultaneous agreement to return the collateral. In FY2016, the City's pension plan trust funds lent U.S. Equities with a fair value of underlying securities and cash collateral received from the borrower as indicated below. Collateral investments are reported at cost, not market value.

Securities Lent as of June 30, 2016

Pension Plan	Fair Value of Underlying Securities	Cash Collateral Received
Firefighters & Police Officers	\$2,083,110	\$2,106,509
Firefighters & Police Officers – Disability Component	175,540	178,149
Supplemental Retirement Plan	541,779	552,059
Total	\$2,800,429	\$2,836,717

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the City recognized a total pension expense of \$29,135,912 for the City's Fire and Police Officers Pension Plan, Fire and Police Officers Disability Plan, the Supplemental Plan, and the Pension Plan for Firefighters and Police Officers. The City recognized pension expense of \$4,577,554 for the VRS Pension Plan.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

DESCRIPTION OF BENEFITS:

VRS—City—Regular, full time City employees who are not covered employees under the Firefighters & Police Officers Pension Plan are members of VRS. Participation is mandatory. This plan is administered by the Virginia Retirement System. Members earn one month of service credit for each month they are employed and for which they and their employer are pay contributions to VRS. Employees with credit for services rendered prior to July 1, 2010 are covered under plan 1, while members hired or rehired on or after July 1, 2010 are covered under plan 2. Members hired after January 1, 2014 are covered under the hybrid plan. Employees are eligible for an unreduced retirement at age 65 with 5 years of service and at age 50 with 30 years of service under plan 1, and at normal Social Security retirement age with at least five years of service or when age and service are equal to 90 under plan 2 and hybrid. An optional reduced retirement benefit is available as early as age 55 with five years of service or age 50 with 10 years of service under plan 1, and age 60 with at least five years of service under plan 2 and hybrid. The retirees are entitled to an annual retirement benefit payable monthly for life in an amount equal to 1.7 percent of their average final salary (AFS) for each year of credited service under plan 1; 1.65 % of AFS for plan 2; 1.0% for hybrid. AFS under plan 1 is 36 highest consecutive months while it is 60 highest consecutive months under plan 2 and for plan 1 active non-vested members. In addition, retirees qualify for annual cost-of-living (COLA) increases on July 1 of the second calendar year after retirement. These benefit provisions and all other requirements are established and may be amended by State statutes.

City Supplemental Retirement Plan—Regular, full time City Employees and regular, part-time City employees who are scheduled to work at least 50% time and who are not covered under the Firefighters & Police Officers Pension Plan are participants in the Supplemental Retirement Plan. This plan is administered by the City of Alexandria. Full time employees receive Credited Service for each month the City and/or employee makes a contribution. Part-time employees accrue Credited Service on a pro-rata basis determined by scheduled work hours. Regular City employees who retire at or after age 65 or after age 50 with 30 years of credited service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to the sum of (1) and (2), increased by 50 percent, plus (3):

- (1) 1.625 percent of the participant's past service compensation up to \$100, plus 0.25 percent of the participant's past service compensation in excess of \$100, multiplied by number of years of credited service earned after July 31, 1960, but prior to August 1, 1970.
- (2) 1.625 percent of the participant's average earnings up to \$100, plus 0.25 percent of the participant's average earnings in excess of \$100, multiplied by the number of years of credited service earned after July 31, 1970, but prior to January 1, 1988.
- (3) 0.80 percent of average earnings multiplied by credited service earned after December 31, 1987.

Benefit provisions are established and may be amended by City Ordinance.

Pension Plan for Fire Fighters and Police Officers (closed plan)—Employees who retired on or after age 60 are entitled to an annual retirement defined benefit, payable monthly for life, in an amount equal to 2.5 percent of final average earnings multiplied by years of credited service, up to a maximum of 30 years. The plan also provided early retirement on or after age 50 with 20 years of credited service or on or after age 56 with 10 years of credited service. This plan further provided early retirement on or after age 50 with 10 years of service with an actuarially reduced benefit. Benefit provisions are established and may be amended by City Ordinance. This plan was closed to new participants in FY 1979.

Retirement Income Plan for Fire & Police- defined contribution (closed plan)—The employees are entitled to contributions made on their behalf after 100 percent vesting. Benefit provisions are established and may be amended by City Ordinance. This plan was closed to new members in FY 2004 and converted to a defined benefit plan. Employees in the plan at date of conversion could leave their contributions in the defined contribution component or purchase prior service with the assets associated with their contributions.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Firefighters and Police Officers Pension Plan—defined benefit component—Full-time sworn Firefighters and Police Officers are covered employees in the Firefighters and Police Officers Pension Plan. Recruits are also covered by the Plan. This plan is administered by the City of Alexandria. Full time employees receive one month of credit for each full month covered by the Plan. Special rules apply for service prior to January 1, 2004. The plan provisions were approved by City Council in FY 2004 and provide retirement benefits for covered employees who retire at age 55 with 5 years of service or any age with 25 years of service for employees hired before October, 2013. The retirees are entitled to 2.5 % of the participant’s average monthly compensation (AMC), multiplied by the years of credited service up to 20 years; plus 3.2 % of the participant’s AMC, multiplied by years of credited service in excess of 20 years. The maximum benefit is 82% of the AMC. For employees hired after October 22, 2013 the retiree is entitled to 2.5% of the participant’s average monthly compensation, multiplied by years of credit service. There is no limitation service or maximum benefit. The plan also allows for early retirement at age 50 with 20 years of service with reduced benefits.

Firefighters and Police Officers Pension Plan—disability component—The plan provisions provide disability benefits for firefighters and police officers. The benefits for service-connected total and permanent disability are 70 percent of final average earnings, 66 2/3 percent for non-service connected total and permanent disability and service-connected partial disability, and 2.5% multiplied by years of credit service. Employees hired after October 23, 2013 are not eligible for the non-service connected disability. 50 percent for non-service connected partial disability. Benefits provisions are established and may be amended by City Ordinance. Effective January 1, 2004, this plan was merged with the Firefighters and Police Officers Pension Plan. Separate actuarial calculations have been performed for the defined benefit and disability components.

Deferred Retirement Option Program (DROP)—This program is available for members of the Firefighters and Police Officers Pension Plan who were hired prior to October 23, 2013. Entitled members who are eligible for normal service retirement and have completed at least 30 years of credited service are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. For members whose DROP effective date is prior to October 31, 2013 the account balance is credited with interest in the amount of 3.0 percent compounded annually. No interest is applied for members whose DROP effective date is after October 31, 2013. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

PENSION NOTE FOR COMPONENT UNIT

Alexandria Public School

ACPS participates in three public employee retirement systems (PERS). Two of these systems, a cost-sharing multiple-employer plan (professional) and an agent multiple-employer plan (non-professional), are administered by the Virginia Retirement System (VRS) and are, therefore, not reflected as ACPS pension trust funds. The third plan, Employees’ Supplemental Retirement Plan (Supplemental Plan), is a single-employer defined benefit plan, where a stated methodology for determining pension benefits is provided. This plan is part of ACPS’ reporting entity and, as such, is reflected as a Pension Trust Fund.

The actuarial valuation for the Supplemental Plan is performed annually. The actuarial valuation for VRS is performed biennially; however, an actuarial update is performed in the interim year.

In the Supplemental Plan, no changes occurred in the actuarial valuation assumptions, plan benefits, actuarial cost method, or procedures affecting the comparability of costs

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

A. Virginia Retirement System

Plan Description

All full-time salaried permanent (professional) employees of Alexandria City Public Schools (ACPS) are automatically covered by the VRS Teacher Retirement Plan upon employment. All full-time salaried permanent employees (non-professional) of ACPS are automatically covered by the VRS Political Subdivision Retirement Plan. These plans are administered by the Virginia Retirement System (The System or VRS) along with plans for other employer groups in the commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees in the VRS Teacher Retirement Plan and VRS Political Subdivision Retirement Plan—Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criterion. The specific information for each plan and the eligibility for covered groups within each plan are set out in the following table.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

VRS Plan 1	VRS Plan 2	VRS Hybrid Retirement Plan
<p>About Plan 1</p> <p>Plan 1 is a defined benefit plan. The Retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010 and they were vested as of January 1, 2013.</p>	<p>About Plan 2</p> <p>Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at Retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p>About the Hybrid Plan</p> <p>The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (See "Eligible Members").</p> <p>The defined benefit is based on member's age, creditable service and average final compensation at retirement using a formula.</p> <p>The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.</p>
<p>Eligible Members</p> <p>Employees are in Plan 1 if their membership date is before July 1, 2010 and they were vested as of January 1, 2013</p> <p>Hybrid Opt-In Election</p> <p>VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p> <p>Political Subdivision Plan Only: Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.</p>	<p>Eligible Members</p> <p>Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p> <p>Hybrid Opt-In Election</p> <p>Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p> <p>Political Subdivision Plan Only: Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as plan 2 or ORP.</p>	<p>Eligible Members</p> <p>Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes: Political subdivision employees* Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014</p> <p>*Non-Eligible Members</p> <p>Some employees are not eligible to participate in the Hybrid Retirement Plan. They include: Political Subdivision employees who are covered by enhanced benefits for hazardous duty employees Those employees eligible for an optional retirement plan (ORP) must elect the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.</p>

VRS Plan 1	VRS Plan 2	VRS Hybrid Retirement Plan
<p>Retirement Contributions</p> <p>Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>Retirement Contributions</p> <p>Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in their required 5% member contribution, but all employees will be paying the full 5% by July 1, 2016.</p>	<p>Retirement Contributions</p> <p>A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>
<p>Creditable Service</p> <p>Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement if the employer offers the health insurance credit.</p>	<p>Creditable Service</p> <p>Same Plan 1.</p>	<p>Creditable Service <u>Defined Benefit Component:</u> Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.</p>
<p>Vesting</p> <p>Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.</p>	<p>Vesting</p> <p>Same as Plan 1.</p>	<p>Vesting <u>Defined Benefit Component</u> Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. Plan 1 or Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.</p>

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

VRS Plan 1	VRS Plan 2	VRS Hybrid Retirement Plan
		<p><u>Defined Contributions Component:</u></p> <p>Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan. Members are always 100% vested in the contributions that they make. Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service. After two years a member is 50% vested and may withdraw 50% of employer contributions. After three years, a member is 75% vested and may withdraw 75% of employer contributions. After four or more years, member is 100% vested and may withdraw 100% of employer contributions. Distribution is not required by law until age 70 ½.</p>
<p>Calculating the Benefit</p> <p>The Basic Benefit is calculated based on formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement. An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.</p>	<p>Calculating the Benefit</p> <p>See definition under Plan 1.</p>	<p>Calculating the Benefit</p> <p><u>Defined Benefit Component:</u></p> <p>See definition under Plan 1. The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.</p>
<p>Average Final Compensation</p> <p>A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.</p>	<p>Average Final Compensation</p> <p>A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.</p>	<p>Average Final Compensation</p> <p>Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.</p>

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Political Subdivision Retirement Plan

Employees Covered by Benefit Terms

As of the June 30, 2014 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Count
Inactive members:	
Vested inactive members	29
Non-vested Inactive Members	101
Inactive members active elsewhere in VRS	48
Total Inactive Members	178
Inactive members or their beneficiaries currently receiving benefits	186
Active Members	237
Total Covered Employees	601

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute five percent of their compensation towards their retirement. Prior to July 1, 2012, all or part of the five percent member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the five percent-member contribution. In addition, for existing employees, employers were required to begin making the employee pay the five percent member contribution. This could be phased in over a period of up to five years and the employer is required to provide a salary increase equal to the amount increase in the employee-paid member contribution.

ACPS' contractually required contribution rate for the year ended June 30, 2015 was 5.6% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from ACPS were \$0.9 million and \$0.8 million for the years ended June 30, 2016 and June 30, 2015, respectively.

Net Pension Liability

ACPS' net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Actuarial Assumptions- General Employees

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Actuarial Assumptions	
Inflation	2.5 percent
Salary increases, including Inflation	3.5 percent – 5.35 percent
Investment rate of return	7.0 Percent, net of pension plan investment expense, including inflation*
Mortality rates:	14% of deaths are assumed to be service related
Largest 10- Non-LEOS:	
- Pre-Retirement	RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females were set back 2 years.
- Post-Retirement	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
- Post-Disablement	RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.
All Others (non 10 Largest) Non-LEOS:	
- Pre-Retirement	RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females were set back 2 years.
- Post-Retirement	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
- Post-Disablement	RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement
* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.	

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10-Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest)-Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Long-Term Expected Rate of Return

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of the expected future real rates of return (expected returns, net of pension System investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	<u>100.00%</u>		5.83%
Inflation			<u>2.50%</u>
⁽¹⁾ Expected arithmetic nominal return			<u>8.33%</u>

(1) Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made in accordance with the rates adopted by VRS funding policy at rates equal to difference between actuarially determined contribution rates adopted by VRS Board of Trustees and member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Political Subdivision Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

2019	(514)
2020	208
2021	-
Thereafter	\$ (2,140)

DRAFT 11.03.16

Payables to the Pension Plan

At June 30, 2016, ACPS reported payables to the VRS Political Subdivision Retirement Plan of \$0.1 million. These payables are reflected in the balance sheet of the governmental funds and represent short-term amounts due for legally required contributions outstanding at the end of the fiscal year.

VRS Teachers Retirement Plan

Contributions

The contribution requirement for active employees is governed by Title 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school division by the Virginia General Assembly. Employees are required to contribute five percent of their compensation toward their retirement. Prior to July 1, 2012, all or part of the five percent member contributions may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the five percent member contribution. In addition, for existing employees, employers were required to begin making the employee pay the five percent member contribution. This could be phased in over a period of up to five years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. Each school division's contractually required contribution rate for the year ended June 30, 2016 was 14.1% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013, adjusted for the transfer in June 2015 of \$192.9 million as an accelerated payback of the deferred contribution in the 2010-2012 biennium. The actuarial rate for the Teacher Retirement Plan was 18.2%. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

amount to finance any unfunded accrued liability. Based on the provision of title 51.1-145 of the Code of Virginia, as amended, the contributions were funded at 79.7% of the actuarial rate for the year ended June 30, 2016. Contributions to the pension plan from ACPS were \$29.3 million and \$25.7 for the years ended June 30, 2016 and June 30, 2015, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, ACPS reported a liability of \$226.7 million for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. ACPS' proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions for all participating employers. At June 30, 2015, the school division's proportion was 1.80155% as compared to 1.77072% at June 30, 2014. For the year ended June 30, 2016, ACPS recognized pension expense of \$16.1 million. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2016, ACPS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 13,886,000
Changes in proportion and differences between employer contributions and proportionate share of contributions	3,497,000	4,526,000
Differences between expected and actual experience	-	3,122,000
Employer contributions subsequent to the measurement date	21,900,603	-
Total	\$ 25,397,603	\$ 21,534,000

The deferred outflows of resources of \$21.9 million related to pensions, resulting from the school division's contributions subsequent to the measurement date, will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2017. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	\$ (18,037)

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2014 using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Actuarial Assumptions	
Inflation	2.5 percent
Salary increases, including Inflation	3.5 percent – 5.95 percent
Investment rate of return	7.0 Percent, net of pension plan investment expense, including inflation*
Mortality rates:	14% of deaths are assumed to be service related
Largest 10- Non-LEOS:	
- Pre-Retirement	RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females were set back 2 years.
- Post-Retirement	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
- Post-Disablement	RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.
All Others (non 10 Largest) Non-LEOS:	
- Pre-Retirement	RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females were set back 2 years.
- Post-Retirement	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
- Post-Disablement	RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement
* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.	

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2008 through June 30, 2012.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

Long – Term Expected Rate of Return

The long-term expected rate of return on pension System investments were determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	<u>100.00%</u>		<u>5.83%</u>
Inflation			<u>2.50%</u>
⁽¹⁾ Expected arithmetic nominal return			<u>8.33%</u>

(1) Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means that is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Discount Rate

The discount rate used to measure the total pension liability was seven percent. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by ACPS for the VRS Teacher Retirement Plan will be subject

to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, school divisions are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School Division's Proportionate share of the Net Pension Liability to Changes in the Discount Rate The following presents ACPS' proportionate share of the net pension liability using the discount rate of seven percent, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage lower (six percent) or one percentage point higher (eight percent) than the current rate:

	Current	
(-1% Decrease	Discount Rate	(+1% Increase
6.0%	7.0%	8.0%
<u>11.03</u>	<u>11.03</u>	<u>16</u>

ACPS' proportionate share of VRS Teacher Plan Net Pension Liability	\$ 331,826,000	\$ 226,749,000	\$ 140,249,000
---	----------------	----------------	----------------

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf>, System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500

Payables to the Pension Plan

At June 30, 2016, ACPS reported payables to the VRS Teacher Retirement Plan of \$5.5 million. These payables are reflected in the balance sheet of the governmental funds and represent short-term amounts due for legally required contributions outstanding at the end of the fiscal year.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

B. Employees' Supplemental Retirement Plan

Plan Description

The Employees' Supplemental Retirement Plan (the Plan) is a single-employer defined benefit plan sponsored by ACPS. The Plan is governed by the Alexandria School Board (Board) which has the authority to make all investment and policy decisions impacting the Plan's existence, investments, benefits, and administration. The Board has established an Investment Advisory Board (Advisory Board) to monitor and manage the Plan. The Advisory Board consist of five members: 1) The Plan Administrator/ ACPS Chief Human Resource Officer; 2) The Plan Investment Officer/ ACPS Chief Financial Officer; 3) One teacher member selected from among active employee participants; 4) One retired member actively earning benefits from the plan; and 5) One certified investment management professional. The Board has contracted with the Principal Financial Group to manage certain plan assets and administer the retirement benefits to the plan participants.

The purpose of the Plan is to provide supplemental retirement benefits to employees of Alexandria City Public Schools. Statutory authority for the establishment of this Plan is provided by the Code of Virginia §51.1-800 through §51.1-803.

All full-time employees are eligible to participate in the Plan as of July 1, 1961, if classified as a twelve-month employee. Ten-month employees were eligible to participate in the Plan as of July 1, 1971. The Plan's fiscal year end is August 31. For purposes of implementing GASB No. 68, Accounting and Financial Reporting for Pension Plans, the measurement period of 09/01/2014 to 08/31/2015 has been used for the plan year ending 08/31/2015. The net pension liability reported for period ending 08/31/2015 was measured as of 08/31/2014 using the total pension liability that was determined by an actuarial valuation as 09/01/2015.

The Plan's policy is to prepare its financial statements on the accrual basis of accounting. The Plan does not issue a separate, publicly-available financial report.

Measurement Date

A measurement date of August 31, 2015 has been used for GASB 68 reporting.

Benefits provided

The Plan provides disability and death benefits. Benefits at retirement are based upon years of service and the average earnable compensation of an eligible employee during any three years that provide the highest average earnable compensation and are adjusted for inflation after retirement. Benefits at early retirement are reduced by an early retirement factor. Employees are considered vested on or after completing five years of service, or on or after attaining age 60. Employees who retire at or after age 65 or after age 50 with 30 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 0.4 percent of effective compensation multiplied by credited future service on and after September 1, 1984, and 1.6 percent of effective compensation not to exceed \$100 plus 0.3 percent of the amount by which effective compensation exceeds \$100 multiplied by credited past service before September 1, 1984, and 1.6 percent of past service compensation in excess of \$100 plus 0.3 percent of past service compensation in excess of \$100 times credited past service. There have been no changes in plan provisions during the measurable period.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Contributions

Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and a formal commitment has been made to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. The funding policy of the Plan provides for monthly contributions at actuarially-determined rates, which will remain relatively level over time as a percentage of payroll and will accumulate sufficient assets to meet the cost of all basic benefits when due. The basis for determining contributions is an actuarially determined contribution rate that is calculated each year in the Plan's actuarial valuation report. Starting January 2013, contributions were made at the rate of 1.5% of covered payroll. During FY 2015, only ACPS employees contributed to the Plan. These contributions totaled \$2.5 million for the fiscal year ended June 30, 2016. Administrative costs of the Plan are paid from the Plan's assets.

Investment policy

The objective of the Plan is to maintain actuarial soundness so that funds will be available to meet contractual benefit obligations. The investment policy may be amended by the Board at any time. Principal Financial Advisors, Inc., a registered investment advisor and wholly-owned subsidiary of Principal Financial Group, has been hired to manage the asset allocation strategy for the Plan. The following was the Plan's adopted asset allocation policy as of August 31, 2015.

U.S Equity - Large Cap	27.46%	8.80%	7.45%
U.S Equity - Mid Cap	3.10%	9.10%	7.45%

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Concentrations

As of the measurement date, the plan had investments (other than US Government and US Government guaranteed obligations) in only Principal Financial Group, totaling \$113.7 million, that represented 5 percent or more of the Plan's fiduciary net position.

Annual Money-Weighted Rate of Return

For the Plan year ended August 31, 2015, the annual money-weighted rate of return on plan investments for the measurement period is (0.7)%. The money-weighted rate of return is calculated as a rate of return on pension plan investments incorporating the timing and amount of cash flows. This return is calculated net of investment expenses.

Long-Term Expected Rate Return

For the plan year ending August 31, 2015, the expected long-term rate of return assumption is 6.5%. The long-term interest rate assumption was developed as a weighted average rate based on the target asset allocation of the plan using the long-term capital market assumption. The overall return for each asset class was developed by combining a long-term inflation component and the associated expected real rates. The development of the capital market assumptions utilized a variety of methodologies, including, but not limited to, historical analysis, stock valuation models such as dividend discount models and earning yields' models, expected economic growth outlook, and market yields analysis.

Actuarial Assumptions

The actuarial assumptions used in the August 31, 2015 valuation were based upon the results of an actuarial assumption review for the five-year period of September 1, 2007 to August 31, 2012.

MEMBERSHIP AND PLAN PROVISIONS (Employees' Supplemental)

Active plan members		2,012
Retirees and beneficiaries currently receiving benefits		1,191
Inactive or disabled plan members entitled to but not receiving benefits		970
Total		4,173
Normal retirement age		65 years
Benefits age	50 yrs (+30 yrs of service)	
Benefits vesting years		5 years
Disability and death benefits		Yes

NOTE 18. TERMINATION BENEFITS

The City provided termination benefits to one employee in fiscal year 2016. The benefit consisted of four weeks of pay based on completed years of service. The total cost to the City was \$19,990.

NOTE 19. NEW ACCOUNTING STANDARD ADOPTED

During the fiscal year ended June 30, 2016, the City adopted four new GASB standards

GASB Statement No. 72 Fair Value Measurement and Application

GASB Statement 72 addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement establishes a hierarchy of inputs to apply valuation techniques used to measure fair value. That hierarchy has three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly. Finally, Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage-backed security.

GASB Statement No. 76 The Hierarchy of Generally Accepted Accounting Principles for State and Local Government

The objective of GASB statement 76 is to identify, in the context of the current governmental financial reporting environment, the hierarchy of generally accepted accounting principles (GAAP). As a result, the City will apply financial reporting guidance with less variation, which will improve the usefulness of financial information for making decisions and assessing accountability. This Statement supersedes Statement 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Government.

GASB Statement No. 79 Certain External Investment Pools and Participants

This statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. The specific criteria address (1) how the external investment pool transacts with participants; (2) requirements for portfolio maturity, quality, diversification, and liquidity; and (3) calculation and requirements of a shadow price.

The City is a participant in the Local Government Investment Pool (LGIP), which is administered by the Virginia Treasury Board. The Board is committed to managing certain risk limiting provisions to maintain a stable net asset value (NAV) at \$1.00 per share, which is determined at the close of each business day. The goal of maintaining NAV is facilitated as follows:

- The LGIP is rated 'AAAm' by Standard and Poor's and managed in a manner to comply with their 'AAAm' rating requirements.
- The LGIP is managed in accordance with GASB Statement No. 79.
- The portfolio securities are valued by the amortized cost method, and on a weekly basis this valuation is compared to current market to monitor any variance.
- Investments are limited to short-term, high quality credits that can be readily converted into cash with limited price variation.

GASB Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73

The primary purpose of Statement No. 82 is to improve financial reporting by enhancing consistency in the application of financial reporting requirements to certain pension issues raised by stakeholders under Statements No. 67, 68, and 73. These issues are related to (1) the presentation of payroll-related measures, (2) deviations from actuarial standards of practice, and (3) classification of member contributions. The provisions for Statement No. 82 are not required for immaterial items.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Financial Statements
June 30, 2016

Exhibit XII
(Continued)

NOTE 19. NEW ACCOUNTING STANDARD ADOPTED (Continued)

- Statement No. 82 requires the presentation and use of *covered payroll* (payroll on which contributions to a pension plan are based), versus the presentation of *covered-employee payroll* (total payroll of employees that are provided with pensions through the pension plan) and ratios based on *covered-employee payroll* in the schedules of required supplementary information (RSI).
- Statement No. 82 clarifies that, for the purposes of *selection of assumptions* used in determining the total pension liability and related measures, a deviation from the guidance in an Actuarial Standard of Practice is not considered to be in conformity with the requirements of Statement No. 67, 68, or 73.
- With respect to pension plan contributions made by an employer to satisfy contribution requirements identified under the plan as plan member contribution requirements, Statement No. 82 provides that, those amount should be classified as *plan member contributions* under Statement No. 67, and *employee contributions* under Statement No. 68 (including when determining a cost-sharing employer's proportion).

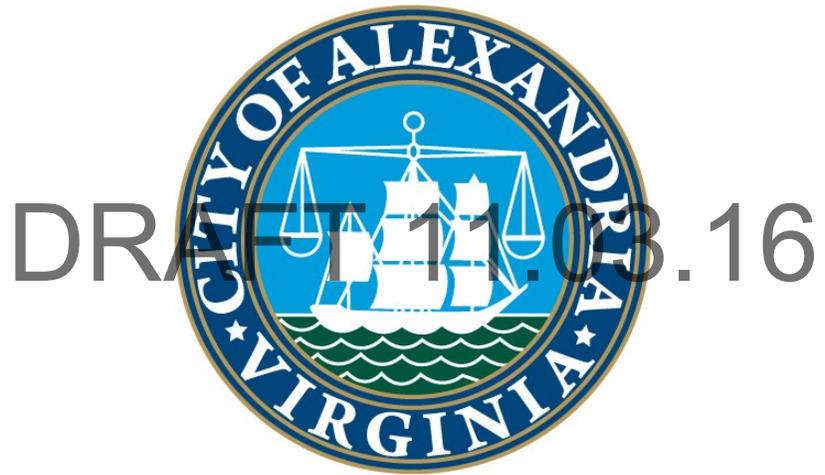

NOTE 20. SUBSEQUENT EVENTS

On August 9, 2016, the City Council issued \$73.7 million in General Obligation Bonds. The General Obligation Bonds were issued with an original premium of \$10.5 million and a true cost of 2.12%. The \$73.7 million bonds will be used to finance certain capital improvement projects for the City including, but not limited to, public school projects, City parks and buildings, transit and traffic control infrastructure, capital contributions to the Washington Metropolitan Area Transit Authority, storm water infrastructure improvements, and acquisition of fire department vehicles and apparatus.

On July 20, 2016, the City sold a parcel of land, located at 1505 Powhatan Street, for the amount of \$4.4 million.

CITY OF ALEXANDRIA, VIRGINIA
Notes to Budgetary Comparison Schedules
For Fiscal Year Ended June 30, 2015

Exhibit XV

(1) SUMMARY OF SIGNIFICANT BUDGET POLICIES

The City Council annually adopts budgets for the General Fund and Special Revenue Fund of the primary government. All appropriations are legally controlled at the departmental level for the General Fund and Special Revenue Fund. On May 1, 2015, the City Council approved the original adopted budget and on June 15, 2016, approved the revised budget reflected in the required supplementary information.

The budgets are integrated into the accounting system, and the budgetary data, as presented in the required supplementary information for all funds with annual budgets, compare the revenues and expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the accompanying Budgetary Comparison Schedules for the General and Special Revenue Funds present actual expenditures in accordance with U.S. generally accepted accounting principles on a basis consistent with the legally adopted budgets, as amended. See Table XVII for the schedule of departments' expenditure detail by function. A reconciliation of the perspective difference for reporting Expenditures and Other Financing Uses in the General Fund relates to how transfers to component units are recorded in each statement and includes the following:

General Fund

Budget Statement Title	Budgetary Statement Amount	Adjustment for Transfer to Component Unit (Footnote 10)	Exhibit IV	Exhibit IV Title
Other Educational Activities	\$ 11,971	\$ 198,811,472	\$ 198,823,443	Education
Transit Subsidies	-	617,518	617,518	Transit
Library Transfer	-	6,737,614	6,737,614	Library
Other Expenditures (not listed separately)	379,928,160	-	379,928,160	Other Expenditures (not listed separately)
Total Expenditures	\$ 379,940,131	\$ 206,166,604	\$ 586,106,735	Total Expenditures
Transfers Out – Component Units	\$ 206,166,604	\$ (206,166,604)	\$ -	None
Operating Transfers Out	64,029,633	-	64,029,633	Operating Transfers Out
Other Financing	6,870,282	-	6,870,282	Other Expenditures (not listed separately)
Total Financing (Sources) Uses	\$ 277,066,519	\$ (206,166,604)	\$ 70,899,915	Total Financing Uses

Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

Assumed Rate of Return for Firefighters' & Police Officers' Pension Plan also applies to Firefighters' and Police Officers' Disability Pension Plan

Money-weighted Rate of Return

Last Ten Fiscal Years

	<u>Firefighters' & Police Officers' Pension Plan**</u>	<u>Supplemental Retirement Plan</u>	<u>Pension Plan for Firefighters & Police Officers</u>
2014	17.48%	17.60%	4.42%
2015	3.03%	4.73%	4.11%
2016	1.14%	0.37%	5.31%

**Money-weighted Rate of Return for Firefighters' & Police Officers' Pension Plan also applies to Firefighters' and Police Officers' Disability Pension Plan

Notes to the Required Supplemental Information for the City of Alexandria Pension Plans for the year ended June 30, 2016

Firefighters and Police Officers Pension Plan, Basic Plan

Effective with the July 1, 2015 actuarial evaluation, annual experience gains and losses as well as assumption changes will be amortized over separate 15-year periods. Previously the entire portion of Unfunded Actuarial Liability (UAL) was amortized over closed 25-year periods from July 1, 2004.

Firefighters and Police Officers Pension Plan, Disability Plan

Effective with the July 1, 2015 actuarial evaluation, annual experience gains and losses as well as assumption changes will be amortized over separate 15-year periods. Previously the entire Unfunded Actuarial Liability (UAL) was amortized over closed 25-year periods from July 1, 2004.

Supplemental Pension Plan

Effective with the July 1, 2015 actuarial valuation, annual experience gains and losses as well as assumption changes will be amortized over separate 10-year periods.

Pension Plan for Firefighters and Police Officers

There were no changes of benefit terms nor were there any changes in assumptions since the prior actuarial valuation.

Virginia Retirement System (VRS) Pension Plan

Benefit Changes– There have been no material actuarial changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement members for the first time. The Hybrid plan applies to most of the new employees hired on or after January 1, 2014, and not covered by enhanced hazardous duty benefits. Because this was a new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2015, was not material.

Changes of assumptions – The following changes of actuarial assumptions were made effective June 30, 2013, based on the most recent experience study of the VRS for the four-year period ending June 30, 2102:

**CITY OF ALEXANDRIA, VIRGINIA
Other Post-Employment Benefits (OPEB)
Required Supplementary Information
For Fiscal Year Ended June 30, 2016**

**Exhibit XVI
(Continued)**

Largest 10 – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decreases in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 – LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increases by 0.25% per year

All Others (Non 10 Largest) – LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

DRAFT 11.03.16

STATISTICAL SECTION

DRAFT 11.03.16

The statistical section includes detailed information to assist in understanding how the financial statements relate to the City's overall financial well-being and includes the following categories:

Financial trends: These tables assist users in understanding how the City's financial position has changed over time and include the following tables:

Table I—Schedule of Changes in Net Position

Table II—Changes in Fund Balances Governmental Funds

Table VII—Net Position

Table VIII—Fund Balances Governmental Funds

Table XXII—Five-Year Summary of General Fund Revenues and Expenditure

Revenue Capacity: These tables assist in understanding and assessing the City's own source revenues and include the following tables:

Table III—Tax Revenues by Source

Tables IV and V—Tax Levies and Collections

Table VI—Real and Personal Property Tax Assessments and Rates

Table IX—2016 Tax Rates for Major Revenue Sources

Table XV and XVI—Principal Taxpayers

Debt Capacity: These tables present information to assist in assessing the affordability of the City's current levels of debt and the City's ability to issue additional debt in the future and include:

Table X—Legal Debt Margin Information

Table XI—Ratio of Net General Debt to Assessed Value and Net Debt Per Capita

Table XXII—Overlapping Debt and Debt History

Table XIII—Ratio of Annual Debt Service Expenditures for Net General Debt to Total General Expenditures

Table XXIII—Summary of Total General Obligation Bonds Debt Service

Demographic and Economic Information: These tables include demographic and economic information to assist in understanding the external factors that affect the City’s financial activities and include:

Table XIV—Population and Per Capita Income

Table XVII—Alexandria City School Board Demographic Statistics

Table XVIII—Government Employees by Function

Table XIX—Principal Employers

Table XXI—Miscellaneous Statistical Data

Operating information: This table includes service and capital data to assist in understanding how financial information relates to the programs and activities the City performs and includes:

Table XX—Operating and Capital Indicators

DRAFT 11.03.16

Limitations on the Incurrence of General Obligation Debt:

There is no requirement in the Virginia Constitution, the Virginia Statutes, or in the Charter of the City of Alexandria that the issuance of general obligation bonds of the City be subject to approval of the electors of the City at referendum.

Under the City Charter the City Council has full authority to authorize and issue general obligation bonds. The authorizing procedure consists of the passage on the first reading of an ordinance authorizing the issuance of the bonds, followed by a notice of public hearing at a subsequent meeting, and the final passage on second reading following the public hearing.

The only constitutional limitation on the issuance of general obligation bonds is contained in Article VII, Section 10 of the Virginia Constitution, which states that: "No city or town shall issue any bonds or other interest-bearing obligations which, including existing indebtedness, shall at any time exceed ten percent of the assessed valuation of real estate in the city or town subject to taxation, as shown by the last preceding assessment for taxes."

CITY OF ALEXANDRIA, VIRGINIA
Overlapping Debt and Debt History
June 30, 2016

TABLE XII

The City of Alexandria is autonomous from any county, town, or other political subdivisions of the Commonwealth of Virginia. There is no overlapping general obligation debt or taxing powers. The water system and the sewage treatment plant within the City are operated by a private company and an independent authority, respectively, for which the City has no debt obligations.

The City has never defaulted in the payment of any part of either principal or interest on any debt.

Credit Ratings

Moody's Investors Service	Aaa
Standard & Poor's Corporation	AAA

Paying Agents

The City's coupon bonds and interest coupons are payable at the Chase Manhattan Bank, N.A., New York, New York, or SunTrust Bank in Richmond, Virginia. Registered bonds and interest are payable at the principal corporate trust office of the Chase Manhattan Bank, N.A., New York, New York, or Depository Trust Company, New York, New York, which are the Registrars for bonds of the City of Alexandria.

Miscellaneous Statistical Data
As of June 30, 2016

TABLE XXI

Date of Incorporation.....	1779
Date of City Charter.....	1922
Form of Government Council-Manager	
Number of Full-Time City Positions (Other than Schools).....	2,481
Number of Full-Time Equivalent School Positions	2,277

Land Area

15.75 Square Miles

Elevation

0 to 287 Feet Above Sea Level

Location

38.8210 N
 77.0861 W

Climate

Average January Temperature 34.9°
 Average July Temperature 79.2°

Transportation

Major Highways:
 Capital Beltway (I-95)
 I-395 (Shirley Highway)
 U.S. Route 1
 George Washington Memorial Parkway
 Rail:

The City is served by the north-south routes of Amtrak. The Virginia Railway Express provides commuter service between Alexandria, Washington, D.C., Fredericksburg, and Manassas, Virginia. Freight lines entering the City are Conrail, CSX Transportation, and Norfolk Southern Company.

Washington Metropolitan Area Transit Authority (WMATA) provides light transit to the Washington Metro area. Four of the systems stations are located in Alexandria.

Air:

Ronald Reagan Washington National Airport is only minutes away from any location within the City.

Dulles International Airport provides international and longer domestic travel.

Ground:

The City is served by local bus service provided by the Alexandria Transit Company.

The City is served by the local and express buses of the Washington Metropolitan Area Transit Authority (METRO) and the Fairfax Connector.

Individualized service is available through privately owned taxicab fleets.

Port Facilities:

The port of Alexandria has two docks for ocean-going freighters and two major public docks. The 24-foot deep Potomac River channel runs the length of the Alexandria waterfront.

Population

2016 Resident Population	153,511
Number of Households—2010 Census.....	72,376
Household Size (2010 U.S. Census).....	1.93 Persons Per Unit
2010 Population by Race (2013 U.S Census American Community Survey):	
White	66.4%
Black	22.6%
Native American.....	0.8%
Asian and Pacific Islanders.....	7.0%
Multi-Racial.....	3.1%

CITY OF ALEXANDRIA, VIRGINIA
Notes to Schedule of Expenditures of Federal Awards
June 30, 2016

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards includes all federal grant activity of the City of Alexandria, Virginia and its component units during FY 2016. The City's reporting entity is defined in Note 1 of the City's Basic Financial Statements. Federal awards are received directly, as well as passed through other governmental agencies.

This schedule has been prepared on the modified accrual basis of accounting. Expenditures are recorded when the liability is incurred.

RECONCILIATION OF NOTES TO FINANCIAL STATEMENTS TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The City receives and expends federal revenues that are non-grant related and therefore not reportable under the Schedule of Expenditures of Federal Awards. A reconciliation of the Schedule of Expenditures of Federal Awards to Note 12 in the Notes to the Financial Statements, Intergovernmental Revenues, is provided below. The City and the Alexandria City Public Schools did not elect the 10% de Minimis indirect cost rate allowed under the Uniform Grant Guidance.

Total Federal Expenditures per Schedule	\$ 38,387,426
Non-Reportable Federal Revenue	8,523,769
Commodities Distribution	<u>(192,851)</u>
Total Federal Revenue per Note 12	<u>\$ 46,718,344</u>

DRAFT 11.03.16

CITY OF ALEXANDRIA, VIRGINIA
Schedule of Findings and Questioned Costs (Continued)
For the Year Ended June 30, 2016

II **Federal Award Findings and Questioned Costs**

There are no findings and questioned costs.

DRAFT 11.03.16

CITY OF ALEXANDRIA, VIRGINIA
Summary Schedule of Prior Year Findings and Questioned Costs
For the Year Ended June 30, 2016

Financial Statement Finding

2015-001 Improper Recording of Intergovernmental Grant Revenues

Condition:

An error recording intergovernmental grant revenue was identified in testing. An adjusting entry was recorded to accrue \$578,845 in grant revenue in FY2015. The transaction was originally recorded as FY2016 revenue. The entry affected the Governmental Activities and the School Nutrition Fund opinion units. The amount was also omitted from the schedule of expenditures of federal awards (SEFA) and subsequently corrected when identified.

Current Status:

ACPS has implemented procedures to validate the recording and reporting of federal reimbursement activities.
