- Feedback solicited through
 - Six Month Stakeholder Workgroup process
 - April 5 Public Meeting
 - April 14 City Council Public Hearing
 - City website (survey)
 - Other (email correspondence)

Summary of Feedback

- Support for Option B+
- Support for Green Infrastructure
 - Either as part of LTCPU or as part of existing stormwater requirements
- Support for continuing to seek funding from State similar to other CSO communities
- Support for implementing in the most economical way possible while meeting regulatory mandate

Summary of Feedback

- Support memo from Ad Hoc Combined Sewer Stakeholder Group
- Support letter from Alexandria Renew Enterprises
- Support letter from the Environmental Policy Commission

Staff Recommendation and Next Steps

- Staff Recommendation
 - Approve LTCPU and authorize submission to Virginia Department of Environmental Quality (VDEQ)
- Next Steps
 - Submit LTCPU to VDEQ
 - Implementation of LTCPU
 - AlexRenew to lead with ongoing City partnership
 - Development of communications plan
 - Continued engagement
 - Engineering, design and construction
