

Docket Item # 5
BAR CASE # 2018-00341

BAR Meeting
September 5, 2018

ISSUE: Partial Demolition/Capsulation

APPLICANT: Carmella Bocchino

LOCATION: 820 South Fairfax Street

ZONE: RM / Townhouse zone.

STAFF RECOMMENDATION

Staff recommends approval of the Permit to Demolish/Capsulate as submitted.

GENERAL NOTES TO THE APPLICANT

1. **ISSUANCE OF CERTIFICATES OF APPROPRIATENESS AND PERMITS TO DEMOLISH:** Applicants must obtain a stamped copy of the Certificate of Appropriateness or Permit to Demolish PRIOR to applying for a building permit. Contact BAR Staff, Room 2100, City Hall, 703-746-3833, or preservation@alexandriava.gov for further information.
2. **APPEAL OF DECISION:** In accordance with the Zoning Ordinance, if the Board of Architectural Review denies or approves an application in whole or in part, the applicant or opponent may appeal the Board's decision to City Council on or before 14 days after the decision of the Board.
3. **COMPLIANCE WITH BAR POLICIES:** All materials must comply with the BAR's adopted policies unless otherwise specifically approved.
4. **BUILDING PERMITS:** Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Building and Fire Code Administration (including signs). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, Room 4200, City Hall, 703-746-4200 for further information.
5. **EXPIRATION OF APPROVALS NOTE:** In accordance with Sections 10-106(B) and 10-206(B) of the Zoning Ordinance, any official Board of Architectural Review approval will expire 12 months from the date of issuance if the work is not commenced and diligently and substantially pursued by the end of that 12-month period.
6. **HISTORIC PROPERTY TAX CREDITS:** Applicants performing extensive, certified rehabilitations of historic properties may separately be eligible for state and/or federal tax credits. Consult with the Virginia Department of Historic Resources (VDHR) prior to initiating any work to determine whether the proposed project may qualify for such credits.

I. ISSUE

The applicant is requesting approval of a Permit to Demolish/Capsulate to partially demolish/capsulate approximately 38 square feet of the east (rear) elevation at 820 South Fairfax Street. The proposed demolition/capsulation is limited to the first story of the property and is not visible from the public right-of-way, so the BAR's purview is limited in this case to an analysis of the material being demolished and there is no associated Certificate of Appropriateness review.

II. HISTORY

820 South Fairfax Street is a three-bay end unit rowhouse constructed of common bond brick. The property was constructed in **1953** as part of the Yates Garden subdivision. Sanborn Fire Insurance Map research does not show a property existing in this location prior to the construction of the subject property.

Figure 1: Existing east elevation, not visible from the public right-of-way.

Previous Approvals:

June 4, 1997 – approved for partial demolition, capsulation, alterations, and a one-story addition (BAR97-56/57).

June 19, 2002 – approved alterations (BAR2002-00136).

March 15, 2016 – approved administratively for door replacement (BAR2016-00068).

February 22, 2017 – approved administratively for roof repair (BAR2017-00069).

III. ANALYSIS

Permit to Demolish/Capsulate

In considering a Permit to Demolish/Capsulate, the Board must consider the following criteria set forth in the Zoning Ordinance, §10-105(B), which relate only to the subject property and not

to neighboring properties. The Board has purview of the proposed demolition/capsulation regardless of visibility.

Standard	Description of Standard	Standard Met?
(1)	Is the building or structure of such architectural or historical interest that its moving, removing, capsulating or razing would be to the detriment of the public interest?	No
(2)	Is the building or structure of such interest that it could be made into a historic shrine?	No
(3)	Is the building or structure of such old and unusual or uncommon design, texture and material that it could not be reproduced or be reproduced only with great difficulty?	No
(4)	Would retention of the building or structure help preserve the memorial character of the George Washington Memorial Parkway?	N/A
(5)	Would retention of the building or structure help preserve and protect an historic place or area of historic interest in the city?	No
(6)	Would retention of the building or structure promote the general welfare by maintaining and increasing real estate values, generating business, creating new positions, attracting tourists, students, writers, historians, artists and artisans, attracting new residents, encouraging study and interest in American history, stimulating interest and study in architecture and design, educating citizens in American culture and heritage, and making the city a more attractive and desirable place in which to live?	No

Staff has no objection to the demolition/capsulation of a portion of the east elevation. The partial demolition will occur on the rear of the property and is not visible from the public right-of-way. The materials and details are not old and unusual or uncommon and this structure could be reproduced easily using modern materials.
