Re: T.C. Williams lights

Greetings,

There were several predominately African American neighborhoods throughout Alexandria dating back to the 1800s, that have now gentrified.

The **Bottoms**, in the Southwest Quadrant/Dip, long ago the object of gentrification, is about to redevelop to a higher affordability level.

**Cross Canal**, at the north end of town along the waterfront, is now Canal Center and includes much commerce and the Watergate townhomes.

South of that area was another large African American neighborhood on the **then**, undesirable waterfront, alternately called Fishtown, Grantsville, Petersburg later shortened to **the Berg**. It was the first African American neighborhood destroyed by the city to build public housing. But then, the city had to come back and destroy most of **that** to build Chatham Square.

**John Roberts Homes** were built for whites, but they eventually integrated. And what did the city destroy to facilitate Metro? **John Roberts**. And in the same area we now have upscale Colecroft.

Across the street from John Roberts was **Colored Rosemont**, which included the second **Parker-Gray High School**. The city destroyed that community to build more public housing, **Andrew Adkins**.

Those two areas are now part of the **Braddock East Planning Area**, with its 'new neighbors' who want to quote "follow an open, fair, and inclusive process to de-concentrate public housing" end quote. We know that it is coming. **Adkins** redevelopment has just been delayed.

In the **Uptown** neighborhood, the several blocks surrounding the first Parker-Gray/Charles Houston School, African American homes were again destroyed to build public housing. Then in comes development, the public housing is destroyed, and in its place are houses costing nearly a million dollars.

Don't forget **On the Hill** where the African American businesses were destroyed to build a new Lyles-Crouch School to replace the old silk factory Lyles-Crouch School that I went to.

And last but not least, **Seminary neighborhood**, where I live now, about the geographic center of Alexandria; where in the 1960s, when the city was **had** to desegregate, it couldn't find anywhere else to build its new public high school, **T.C. Williams**, except in **another** African American community.

The Seminary Civic Association fought back. As a result the residents got near market value for their homes and a verbal promise to **not light the fields at the TC**. The promise was kept. When the old T.C. Williams was torn down and a new T.C. Williams was built, a new promise was made in the form of a DSUP.

You are now in the process of trying to do to **this** community what you have done to **every** African American community in Alexandria, **come back and do some more damage**, in this case, add lights when you promised **not to**. Where is your honor? Today it is light up our area, but I am reading that the plan is to light all of the fields. Does that mean the ones near your houses also?

# Docket #7, DSUP 2017-2016 TC Williams Athletic Fields

Jane Foote <janefoote@aol.com>

To: PlanComm <PlanComm@alexandriava.gov>;

To whom it may concern:

I am writing to express my opposition to the text amendment being proposed in docket number 7, DSUP 2017-2016. This amendment would radically intensify the use of T.C. Williams athletic fields and would be a breach of trust by our city government.

I have lived at 910 Vicar Lane, in the shadow of the TC Williams athletic fields, for the past 29 years. When we purchased this property we did so with the understanding that the City had promised the residents nearby T C Williams that the athletic fields would never be lighted permanently. That promise provided nearby homeowners comfort in knowing that they could live in harmony with the TCW athletic events. Later the City reaffirmed that commitment with Condition #85 of the DSUP that allowed the "new" TCW to be built in 2004. That Condition prohibits all permanent lighting on athletic fields at TCW.

To change the DSUP and permit permanent lighting on TCW athletic fields will create a circus-like atmosphere on those fields and on the streets and in the neighborhoods surrounding the fields. The intention if the DSUP is changed is to permit lighted fields for use beyond the high school community seven days a week. That will result in excessive bright lights glaring into the neighborhood, and loud, amplified noise blaring into the neighborhoods. It will also generate automobile congestion and parking issues in the surrounding neighborhoods. For many years the City has permitted those using the fields to blast sound into our neighborhood on a regular basis. Week after week this continues despite complaints by citizens and meetings with city officials and school staff. Already the situation without the lights is disruptive and disrespectful of taxpaying citizens living nearby. We can only imagine what will happen once the fields are lighted and in use seven days a week, well into the evening.

The inherent problem is that the TCW Athletic field, Parker Gray Stadium, is too close to a residential area. It literally abuts residential property. There is no buffer. That is why the condition not to permit permanent lighting of the field was agreed to in the first place. Nothing has changed. While it might be nice to have a lighted, community stadium in the City the location at TCW is an inappropriate location. In addition, once permanent lighting is permitted on the TCW fields, such lighting will surely follow on the athletic fields of the other schools in Alexandria. Permanent lighting of Parker Gray Stadium is an affront to the community, a breach of trust by our City and a dangerous precedent to establish.

Thank you.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.

Athletics are a very important part of the high school experience and help create well-rounded students. A quality sports program can add that little boost to a student's college application and make a real difference in their higher education trajectory. I feel strongly that we need to invest in our athletic programs and especially our embarrassing stadium.

I am writing concerning your consideration of the proposal for updated athletic facilities at TC Williams High School. I live at 818 Marshall Lane adjacent to Chinguapin Park. Our home is a short walk through the park to the school. My perspective on this issue may be a little different from others in my neighborhood. I first moved into this house in 1953 at age five. We lived "next door" to Chinguapin Village, a group of homes full of playmates, noise, and a street that connected our neighborhood directly to King Street. In 1979 my husband and I bought this house from my parents. In the interim, Chinguapin Village had been dismantled and our neighborhood was the beneficiary of a twenty-eight acre city park right next door. Key Drive was closed to traffic at the park, eliminating cut through traffic to and from King Street. We also are home to TC Williams, our city's public high school. My family has been active in support of the school, our three children are graduates and all participated in sports, two having been inducted into the athletic hall of fame. The city has provided a first rate school for our students. I hope that you will carefully consider providing first rate athletic facilities for them, as well, with adequate stadium lighting to allow full use of the playing field and track. Sound and lighting systems have been vastly improved since TC's construction and such modern advances are in use throughout the DC area in renovated stadiums. Living in a city such as ours requires making compromises. We have all benefited from changes in our neighborhood, now we need to accommodate upgrades for the high school that shares this space with us. Thank-you for your consideration.

I think it is absolutely ridiculous that there are no lights at the stadium and that the stadium is in the condition it's in. A stadium upgrade would boost school pride an immeasurable amount.

TC's soccer team is one of the best in the state, night games would give the soccer happy Alexandria community an opportunity to support the team.

I grew up on PA blocks from my high school. for those who say that it will reduce their quality of life , I say that is a first world problem. My immigrant family embraced living by the school and loved hearing the chatter of kids and crowds during games.

Imagine if the wealthy living in urban areas around the country had the ability to restrict lights at high schools?

**Be it resolved:** The Board of Directors of the Seminary Hill Association, Inc., a civic association representing more than 2,000 homes, strongly supports the residents of the Woods neighborhood and other neighbors in opposing the repeal of Condition #85 of the DSUP for T.C. Williams High School, that bans permanent lights at Parker-Gray Stadium. Given the hours of operation proposed by the ACPS for the stadium, if lighting is approved, it is clear that homeowners adjacent to or near the stadium will have their quality of life and their enjoyment of property affected adversely and massively. The pledge by the ACPS that is expressed in Condition #85 must be respected and sustained.

## In support of the TC Stadium Project

Christy Counts Finn <ccfinn@gmail.com>

Tue 9/25/2018 5:26 PM

I am writing in support the comprehensive upgrade for the TC Williams Stadium Project, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf and track.

I have two students currently enrolled at TC Williams -- one in 9th and one in 11th. While it is unlikely the renovation will be done in time for my children to appreciate it, I feel these students and this city deserve a complete stadium. One that allows them to fully experience night games in their home stadium -- for many of their sports.

I spent some of my elementary years in Alexandria, VA (the Fairfax County one). Both of my siblings graduated from Hayfield High School. I remember, even back then, the talk that TC Williams couldn't have night games due to the fights that broke out. We all know that is not true, but that reputation/story still persists almost 40 years later.

I have attended at least three of the planning meetings and heard from those that are against the process of adding the lights and upgrading the restrooms and concessions area. While I do feel for the impact this will have on those neighbors, the planning board has addressed many of the issues that concern them regarding the noise and light pollution. It is up to ACPS/the city to set appropriate limits on the use of the field during the hours that lights are required and limit it to to just ACPS events in order to limit the impact on those neighbors.

When this process began four years ago, I hoped that my children would be able to enjoy the benefits. That time looks like it has passed, but in the interest of all the upcoming students and the city, I ask that you support the comprehensive upgrade of the stadium. It addresses a number of issues Alexandria faces. It helps with the current crowding of Alexandria fields, it builds school and community spirit, it accurately represents the many fantastic things about ACPS and Alexandria.

Thank you,

Christy Finn

Nate,

I hope you are well. Thanks for all your continued efforts on the Planning Commission!

I am writing to ask if you would consider meeting with residents who live near the T.C. Williams High School football field, in advance of the October Planning Commission hearing on Stadium lights. I have been told that residents have invited Planning Commission members to meet with them between 1 and 3 pm on this Saturday, to observe conditions during a TC Williams home football game; The next home game occurs on 10/27 - after the Planning Commission hearing. If you can meet with residents this Saturday, that would be ideal. That said, if Saturday does not work for you, I would ask that you try to meet with Fran Terrell, and perhaps Carter Flemming, another time before the October hearing. Fran's story is compelling; here is a short summary: [Letter to the Editor: Alexandria, Don't Break This Promise](#), and Carter has been engaged on this issue for many years. You can reach them directly at [fterrell56@msn.com](mailto:fterrell56@msn.com) and [carterflemming@gmail.com](mailto:carterflemming@gmail.com).

As a grandparent of six grandchildren in Alexandria (ages 4 to 11), I appreciate the high demand for playing fields in Alexandria, and hence the compelling City interest in lighting more playing fields. That said, the T.C. Williams High School stadium situation warrants special consideration because of its history. ACPS had opportunities to make provisions for a lighted field when the current TC Williams High School was built but opted instead to place the field adjacent to displaced residents, promising never to permanently light the field. Now ACPS and City Staff want to break that promise.

I respectfully ask that you meet with Fran Terrell, and perhaps Carter Flemming, to learn more about the history of the City's actions from their perspectives. If you can talk with them on Saturday, that might be best, but if not, I would greatly appreciate your finding another time that will work.

Thanks so much,

Just to add to my note below, my wife is a 2nd year administrator at TC and from listening to her experience with those children the past 14-15 months, I truly believe that a Friday Night lights atmosphere for football and soccer could change some of the lives of the kids at that school. Nothing like having something to work for (earning the right to play any sport in the stadium) to get someone to work harder.

Just a thought.

Docket Item #7  
DSUP #2017-0016, Parker Gray Stadium Modernization

Good Evening,

My name is Nancy Jennings and I live at 2115 Marlboro Drive. I am president of the Seminary Hill Association, Inc., and will speak tonight on its behalf in opposition to changes to the DSUP for T.C. Williams High School.

On September 23rd, Seminary Hill passed a resolution in opposition to the repeal of Condition 85 of the DSUP that bans permanent lights at Parker-Gray Stadium.

As many of you know, SHA is an umbrella organization that represents nine neighborhoods on Seminary Hill. Seminary Civic Association is one of these nine—we know as Area 1—and you will hear from their members tonight.

As a former history teacher, I must note that the Seminary Civic Association represents an historic community with families that settled near Fort Ward during the Civil War and were moved in the 1960s to make way for a park and then moved again in the 1970s to make way for T. C. Williams High School. The agreement to not put lights on the school's playing field is decades old. When the school was rebuilt in 2004, citizens suggested relocating the football stadium to King Street, but the City did not wish to do so. Instead, all agreed to formalize the long-standing agreement prohibiting lights on the stadium field and thus protect the quality of life in the single-family residential neighborhood adjacent to the school that had gone through so many upheavals since being annexed by the City of Alexandria in 1952.

This proposal before you to amend the DSUP and allow lights on the stadium field will betray an agreement made with a community that has suffered enough. In the more than 40 years since TC was created, this agreement has been reaffirmed twice. If you want to remember the Titans accurately, a lighted stadium would be built where they played back in the 1970s.

While the lights in themselves would be ugly and intrusive, the main concern about them is the increase in usage of the field which severely detracts from the quality of life of nearby residents. The noise from the field is often unbearable, such as the whistles during all-day track meets and whenever the sound system is used. The sound system was not properly placed and blasts into not only the neighboring homes but also those of the faculty across Quaker Lane and up the hill on the Episcopal High School campus. Other problems related to the field include trash, students climbing over the fence and cutting through private property, drinking, and couples having sex within view of the neighbors, some of whom have young children. Putting lights on this field would destroy any quality of life now enjoyed by the neighbors because their problems with this field would extend past sunset on a nightly basis until 8:30 pm and on the weekends until 10 pm.

Please don't destroy the quality of life on Seminary Hill and honor the agreement the City made with us to retain Condition 85 that prohibits stadium lights on this playing field.

Thank you.

Dear Chairman and members of the Planning Commission,

My apologies for overlooking to send this to you prior to tonight's controversial meeting. I meant to include Commission members, who have the initial vote on the lighting at school facilities, and then the Council takes a look at it.

As cited in my note to the Commission, I had hoped to attend in person and read my statement, but I just got out of the hospital in Australia, where I had a medical emergency, 10,000 miles from home.

But as a civic-minded person, I wanted to make public my comments.

For the hearing record, I would ask that the City Clerk be allowed to include my remarks. And I will correct the initial draft to eliminate any confusion that tonight's hearing was before the Planning Commission, and not before the Council, but I wanted them to be aware that many residents do not support this poorly thought-out proposal in its current form.

Sincerely,

Dear members of the current Council and to the 4 Democratic candidates who will be involved in this volatile issue in the near future.

Regrettably, this is a staff-driven issue, rather than one that reflects the thinking and priorities of Alexandria residents---both those with school-age children and those that don't.

The initial proposal was for lights at TC Williams at an estimated cost of \$500,000. It has now morphed into a massive plan to put lights in all the major parks and recreation areas at an estimated cost of millions of dollars, according to Mayor Silberberg.

In an average football season, this use of lights would involve six games. But the proposal has bloomed way beyond the use of this space for Alexandria's TC Williams students and their parents and guests.

Staff and supporters of this proposal has circulated marketing ideas throughout Northern Virginia, salivating at the prospect of renting out this space throughout the year.

Gone would be the quiet neighborhood that surrounds this stadium, along with the mad rush for finding parking spaces.

Given the many needs of the burgeoning school district, lights are NOT an academic priority. Yes, let's hear it for physical fitness but this would apply to only the 11 members of the football team, their substitutes and coaches, plus the rival teams.

I am from the Chicago area, which has many, many high schools, and the majority of games are played on Saturday and Sunday afternoons, with no loss of attendees. And no massive costs for lighting.

The main issue that the 7 members of Council should focus on is not the athletic accoutrements, but the value of written and spoken promises made to the residents who were initially displaced for the construction of this statement.

The City's word, and that of the staff, will count for nothing, if the spoken and written promises are violated. Once that wall is breached, what comes next? I understand some on the City's legal staff are looking for ways out of this commitment on when and when not you have to adhere to such written and spoken promises.

This is an ethical and legal issue and one that is not receiving the attention it deserves. It is an athletic issue and not an academic issue. First we fight about lights for the tennis courts, then we move to TC Williams, and then we move into the "bait and switch mode" and expand the unpopular plan for TC lights to spreading it to the entire city and its athletic fields.

In some ways, it seems this battle reflects the national one involving Judge Brett Kavanaugh and the false perception by Congressional Republicans that they must put him on the Supreme Court IMMEDIATELY. Ironically, these are the same politicians who refused to even the minimal courtesy of a public hearing to Judge Merrick Garland, who sits on the very same Appeals Court as does Kavanaugh.

This should not be rushed through, with tonight only the first public hearing. being held tonight. We need to hear more about the funding for this "wish list" of lights, and where this will come from with an already limited Alexandria budget.

And we need to rein in an overly ambitious group of staff for the Planning Committee that wishes to turn their not-well documented plans into policies. I urge our elected leaders---both current and those who will assume office in January---to take back the leadership reins.

They have a record of missteps already from the behind-the-scenes actions for the two METRO stops and the Kerig Estates.

I would ask my comments be given to the City Clerk as part of the hearing record since I am not able to attend in person. I recently returned from Australia, 10,000 miles away, where I had a major medical emergency, involving unexpected surgery, transfusions, a hospital stay and a host of unusual medical issues. Thus, I don't have the stamina to spend hours at a Council hearing. I wish I could say it was something exotic, like being bitten by a snake or a crocodile or a shark or a poisonous spider---but then I'd probably be dead. Nor did I look the wrong way on a street corner and get hit by a bus which seemed to be on the wrong side of the road. No, it was something more mundane, but it could have had the same deadly consequences----and fortunately it didn't. So I'm back in time to pay the real estate taxes in Alexandria and to savor the joys of my town.

But as a committed citizen, I wish to submit my input to the Council members and I'd ask that it is also filed with the City Clerk as part of the hearing record. (I do not have her email.) I urge all parties in this debate NOT to rush ahead with a proposal tonight that does not have overwhelming support from the community's tax payers who would be forced to add this to an every growing list of financial demands. And none of these people should be painted as anti-schools. Quite the contrary. They want clearly defined priorities among budget items for education versus those solely for recreation and entertainment.

I ask the voting Council members to focus first and foremost on the academics and the tutoring and the support systems instead of spending this enormous chunk of money for a small number of students, and a huge number of Northern Virginia marketers and entrepreneurs, looking for space for their loud, crowded and boisterous events in our backyards.

Such controversial proposals should be decided by citywide referendums, not by just seven Council votes, and the behind-the-scenes actions of the staff, who are not held accountable at the polling places for their actions.

Sincerely,

## MEMORANDUM

DATE: OCTOBER 2, 2018

TO: CHAIRWOMAN MARY LYMAN AND MEMBERS OF THE PLANNING COMMISSION

FROM: KARL MORITZ, DIRECTOR  
DEPARTMENT OF PLANNING AND ZONING

SUBJECT: REVISION TO DEVELOPMENT SPECIAL USE PERMIT #2017-0016: Parker-Gray Stadium Modernization at T.C. Williams High School

---

**SUMMARY:** ACPS is requesting a change the permitted hours of the proposed lights at Parker-Gray Stadium in order to allow the stadium to be used for athletic events that occur during the week, when women's/girl's athletic events are routinely scheduled. Title IX requires equal treatment of male and female athletes in the scheduling of games and practice times. ACPS's proposal (attached) would allow lighted evening athletic events until 10:00 PM (or up to 30 minutes after the activity ends) Monday through Saturday for scheduling events; during Monday through Thursday, the events would be limited to competition events with other schools and for high school team practices. ACPS would post a schedule of these athletic events prior to the start of each athletic season.

**STAFF RECOMMENDATION:** Staff recommends approval of the revised condition. Staff's improved understanding of the athletic schedule and the requirements of Title IX weigh in favor of the revised condition. The new agreement to set and post the schedule for lighted athletic events at the start of the season helps mitigate the impact of these events on the neighbors.

Current Proposed Condition 127. ~~CONDITION ADDED BY STAFF: Athletic field lighting used for ACPS athletic events and other ACPS-approved events shall be turned off no later than 15 minutes after the activity ends. In no case shall athletic field lighting for this use be turned off later than 10:15 PM. Events requiring lighting per this condition may only be held on Fridays and Saturdays. (DSUP2017-0016)~~

New Proposed Condition 127. **CONDITION ADDED BY STAFF:** Athletic field lighting used for ACPS athletic events and other ACPS- approved events shall be turned off no later than 10:00 PM or up to 30 minutes after the activity ends. Events requiring lighting per this condition may be scheduled Monday through Saturday; with events on Monday through Thursday restricted to ACPS interscholastic sports teams and practices. A schedule for events requiring lighting will be provided and posted publicly by ACPS prior to the start of each athletic season. (DSUP2017-0016).

October 2, 2018

TO: Karl Moritz, Director of Planning and Zoning, City of Alexandria

FROM: Mignon R Anthony, Chief Operating Officer, ACPS

SUBJECT: October 2, 2018 Planning Commission Hearing, Docket Item #7  
Request for a Change to Condition 127

Amended Change Request Language:

ACPS is requesting that the lights off time proposed under this condition (10:15 PM) be extended to include Monday through Thursday and be restricted to ACPS interscholastic sports teams and practices, with a schedule provided and posted publicly prior to the start of each athletic season.

The ACPS request for an Amendment to Staff Condition 127 centers around two primary issues:

- a. Equal access - If only Friday nights are available for lighted high school athletic events and they are taken up with varsity football, it creates an equity issue vis-à-vis girls' athletic contests, since there is no practical opportunity to hold varsity games and limits practices which are primarily held during weekdays. It means that other sports, participated in by females, do not have equal access to a lighted field to schedule, practice or play their games on other nights. This was an issue a number of years ago when girls' softball did not have the ability to play varsity games under lights, while boys' baseball did, and which became the subject of a Title IX complaint against ACPS.
- b. Operational Sufficiency and Impact on other ACPS and City Resources – TC Williams' athletic programs which would benefit from increased accessibility of the field at Parker-Gray Stadium include Freshman, Junior Varsity and Varsity in Football, Soccer, Lacrosse, Field Hockey and Track and Field, including girls and boys teams in most of these categories. ACPS agrees with the October 1, 2018 memorandum from the Director of Planning and Zoning to the Planning Commission regarding the Existing and Potential Uses of Parker-Gray Stadium.

Particular emphasis should be placed on the fact that ACPS fields should operate under the same rules for lights extended to Recreation, Parks and Cultural Affairs (RPCA) and that reducing the use of other recreational fields throughout the City is another goal of this action which increasing use opportunities at Parker-Gray Stadium will provide.

ACPS request that this request be considered as an amendment to the conditions and the chart on Page 21 of the Staff Report be revised.

## MEMORANDUM

DATE: OCTOBER 4, 2018

TO: CHAIRWOMAN MARY LYMAN AND MEMBERS OF THE PLANNING COMMISSION

FROM: KARL MORITZ, DIRECTOR OF PLANNING AND ZONING

SUBJECT: REVISED AND ADDITIONAL CONDITIONS DEVELOPMENT SPECIAL USE PERMIT #2017-0016: Parker-Gray Stadium Modernization at T.C. Williams High School

---

**SUMMARY:** Staff is providing you with the language of the conditions for you to confirm that we have appropriately characterized the conditions Planning Commission voted on October 2, 2018 to recommend to City Council. Please let us know if you have any concerns.

### *II. LANDSCAPING/OPEN SPACE*

12. **CONDITION ADDED BY PLANNING COMMISSION:** ACPS shall develop, implement, and maintain a comprehensive landscape and fence improvement plan for the western and southern property lines between Parker-Gray Stadium and adjacent residences. The landscape and fence plan will strengthen the visual buffer between the stadium and residences and provide a physical deterrent to scaling. The improvement plan should also address the current condition of the landscape plantings including where such plantings have encroached. (P&Z) (PC) (DSUP2017-0016)

### *XI. NEIGHBORHOOD COMMITTEES AND COMMUNICATIONS*

105. **CONDITION DELETED BY PLANNING COMMISSION:** ~~To provide a permanent forum for the discussion and resolution of neighborhood issues that arise as a result of the ongoing operation of the new high school, ACPS shall create and coordinate a Community Advisory Committee to include representatives of ACPS, TC Williams High School, the Department of Recreation, Parks and Cultural Activities, and the adjoining neighborhoods. The Advisory Committee shall determine its meeting schedule, which may be either on a regular basis or as conditions require. Use of the stadium speaker system by RPCA shall not be increased beyond historical levels (last two years) without agreement by this Committee or by the Planning Commission and City Council. (P&Z) (PC) (DSUP2002-0044)~~

106. **CONDITION ADDED BY PLANNING COMMISSION:** To provide a permanent forum for the discussion and resolution of neighborhood issues that arise as a result of the impacts on the adjacent neighborhood from the ongoing operation of the high school and stadium, ACPS shall establish and coordinate a T.C. Williams Neighborhood Forum. The members of the Forum from ACPS will include the Principal, Athletic Director, Director of Facilities and Operations for T.C. Williams, and the ACPS Chief Operating Officer or designee. The adjacent neighborhood representatives to the Forum will select a chair from the neighbors of the school, for a term not to exceed two years, to assist in the coordination of meetings and topics for discussion. The Forum will meet quarterly to include a walking tour of the school site at each meeting with the above-stated representatives in attendance. The Forum will provide a report of the quarterly meetings and walking tours to the School Board, no later than two weeks following the meetings. (P&Z) (PC) (DSUP2017-0016)
107. **CONDITION ADDED BY PLANNING COMMISSION:** ACPS shall provide a mailed schedule of events and or programming requiring lighting to residents of Woods Lane, Woods Place, Bishop Lane and Vicar Lane prior to the start of each athletic season. (P&Z) (PC) (DSUP2017-0016)
108. **CONDITION ADDED BY PLANNING COMMISSION:** ACPS shall designate a community liaison or liaisons to be accessible 24 hours a day to address community concerns. The contact information for the liaison(s) shall be made available to the adjacent properties on Woods Lane, Woods Place, Bishop Lane and Vicar Lane. (P&Z) (PC) (DSUP2017-0016).

## ***XII. SECURITY***

117. **CONDITION ADDED BY PLANNING COMMISSION:** ACPS shall establish comprehensive security monitoring measures along the perimeter of the stadium area that abuts residential properties. Measures may include but are not limited to increased patrolling, addition of security cameras, or other security measures. (P&Z) (PC) (DSUP2017-0016).

## ***XV. NOISE***

132. **CONDITION ADDED BY STAFF:** Athletic field sound system(s) shall be operated only by ACPS staff or other ACPS-authorized persons during scheduled ACPS athletic events or ACPS-approved events, in accordance with the times stated in Condition 127 above. Team practices and training that occur Monday through Thursday during times when use of the lighting system is necessary shall not utilize the public address (amplification) system, nor broadcast music through the public address or other portable amplification system. (DSUP2017-0016)
133. **CONDITION ADDED BY PLANNING COMMISSION:** ACPS shall engage an outside consultant to measure noise generated by representative athletic events a minimum of once per athletic season and provide the results of each test, in comparison to the noise ordinance of the City, to the T.C. Williams Neighborhood Forum, Department of Planning

and Zoning, and Department of Transportation and Environmental Services. (P&Z) (PC)

## **Fort Ward-Seminary African American Descendants Society**

Good evening, our names are Adrienne Terrell Washington and I am Carol Johnson. We are representatives from the Fort Ward-Seminary African American Descendant Society, an organization devoted to remembering our ancestors and telling Alexandria's west end African American story from the Civil War to the 1960's and beyond.

As you may have heard from others, Seminary (aka Woods Subdivision), is a community formed by African Americans after the Civil War - many from this Northern VA area - that lived independently, worked, and provided for their families with the skills acquired from forced servitude and slavery. We, along with others here are the descendants who still remain in the community after 150 years. After the Civil War our ancestors were self sufficient and earnestly believed in education and building a thriving community. Our community built Churches and even had a Rosenwald (sponsored) school built on the same land (donated by my Great Grandfather) where the TC Williams campus now occupies. Ms Washington's former home address became the address for the original TC Williams High School. Since the *seizure* of our land, the Seminary residents have been affected with family displacement, financial losses (due to originally de-valued land and the high price for new homes), the school encroachments, student/gang trespassing, rodents' infestations, noise and increased traffic.

When TC Williams was reconstructed there was a continuing agreement (a development special use permit (DSUP)) made with the neighboring communities that stadium lights would NOT be installed. And therefore, we the Descendants Society also expect the DSUP agreement be honored and respected. The community has continuously made concessions with the ACPS and the city. We are adamantly opposed to the installations of lights at TC Williams Parker-Gray Stadium.

The Fort Ward-Seminary African American Descendants Society strongly stresses that the city agreements made must be adhered to with the Seminary community and the other neighboring communities on Bishop & beyond. Allowing lights elsewhere (outside of Seminary) has always been an option and should be considered where communities are not affected. It is well known that there are other sufficient areas where lighted games can be played while not impacting any community especially one that sits next to and less than 8 feet from the school stadium area. As a final note, stadium lights should not be on any list for a school addition that is overcrowded - needs additional space and maintains non-competitive test scores.

In closing, we thank you for your time and attention. (Ms Washington is a direct descendent of the Terrell family and I am a direct descendant of the Wood family.)

Clara Shorts Adams and Robert Adams conveyed a quarter-acre to the Falls Church School District of Fairfax County in 1898 for the purpose of educating African American children. The one-room “Colored School Building at Seminary” served as a public schoolhouse for African Americans living in this community, replacing the earlier Oak Hill School south of Braddock Road. The school closed in 1925, yet School House Lane can still be discerned in the park’s landscape. The building became an African American Episcopal chapel, St. Cyprian’s, with students from the Virginia Theological Seminary leading services and teaching children. Its members joined Meade Memorial Episcopal Church when the chapel closed. Renovated for residential use, the chapel became the home of the Young family, who lived there from 1947 until the City of Alexandria’s purchase and demolition of the building in the 1960s. Sgt. Lee Thomas Young remembers that his bedroom was located in the chapel’s pulpit, and the kitchen was in the “Amen Corner.”

## Education—Initiative & Excellence

Few African Americans were educated in Virginia before the Civil War. While some individuals gained literacy, the almost 550,000 African American Virginians—about 90 percent of whom were enslaved—did not have access to education. Even after the war, when public education was established in Virginia, black schools were segregated with unequal funding, facilities, and supplies. African Americans continually took measures to secure education for their children by donating land, building schools and raising funds. The school that once stood at The Fort and its successor, the Seminary School, were such community initiatives. Douglass Wood donated the land and the community raised \$1000 to ensure construction of the Seminary School, which was located where T.C. Williams High School now stands.

## Descendant Voices— “We’re Still Here.”

“Through sheer strength of will, determination, fortitude, guts, and against all odds, our ancestors fashioned a life here at Fort Ward, an abandoned Union fort. Then, out of necessity, they developed an entire viable, self-sustaining community that is still very much in existence today. It’s undergone many changes, but we’re still here.”

In the 1950s and 1960s, the City moved the residents out of Fort Ward to establish the Park and Museum, which disrupted their tranquility. In 1962, the City displaced our community once again to build T.C. Williams High School. But, we’re still here. ”

*Frances (Johnson) Colbert Terrell, great-great-granddaughter of Seminary community founders, Wallace and Virginia Roy Wans(z)er*

“The African American Descendants of The Fort and Seminary communities have only one dutiful and determined goal, the restoration and preservation of our sacred heritage. Where others view deeds, cannons, and picnic pavilions, we see people buried on this hallowed ground whose blood runs through our veins and four generations of our families’ veins.

Countless unmarked graves of our ancestors are buried under the very soil that joggers, dog walkers and Civil War buffs unknowingly tread today. Where others see “open space,” we see familiar faces, family memories and challenges on land that our ancestors—from slavery to freedom to Jim Crow to urban renewal—toiled, bought and successively seeded to grow a sustainable community through self-sufficiency, small farms, churches, schools and community values that have contributed to the prosperity of this city and nation for 150 years.

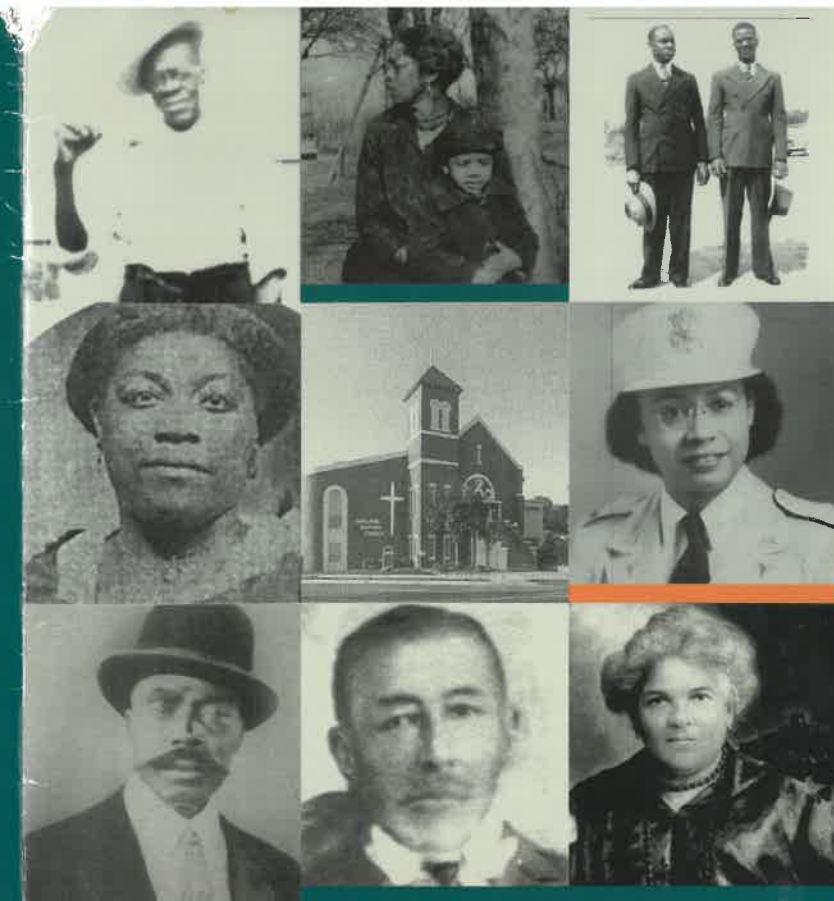

What does Fort Ward mean to us? It means blood, land and life. It models faith and morality. It conveys endurance and excellence. It speaks of our struggle but trumpets our survival. ”

*Adrienne Terrell Washington, great-great-granddaughter of “The Fort” founder, Harriett Stuart McKnight Shorts*

## AN ENDURING AFRICAN AMERICAN COMMUNITY

“The Fort” community began in large part from the results of the Civil War—freedom, rights, and opportunities for enslaved African Americans. Ironically, The Fort ended almost a century later as civil rights expanded. The City of Alexandria dedicated this park and museum for the Civil War Centennial in 1964. People were displaced, buildings demolished, graves lost as the African American presence faded from view.

Yet, The Fort endures. The remains of its homes and school/chapel, fragments of household items, and numerous graves survive underground. The Fort’s descendants retain memories, images and traditions. New generations of those who founded The Fort and larger “Seminary” community still live nearby. The Oakland Baptist Church stands on King Street as a landmark to the community’s founders and members. Oakland’s cemetery is surrounded on three sides by Fort Ward Park. The Virginia Theological Seminary and Episcopal High School remain as testimony to African American craftsmanship and care, and to the service of those who once worked there.

# CIVIL WAR TO CIVIL RIGHTS

1

African Americans established “The Fort,” a community that continued here for nearly a century after the Civil War (1861-1865) and into the Civil Rights Era of the 1960s. The place received its name from The Fort’s location on and around the remnants of Fort Ward, one of the fortifications that were built as part of the Defenses of Washington. In the late 19th and first half of the 20th centuries, families living at The Fort and in the larger “Seminary” community—located around the Virginia Theological Seminary and Episcopal High School on Braddock, Howard, King and Quaker streets—were connected through shared kinship, marriage, church, and work, particularly at the two Episcopal educational institutions. Four generations of families (including the Adams, Ashby, Craven, Casey, Henry, Hall, Jackson, Javins, Johnson, Lewis, McKnight, Miller, Peters, Randall, Roy, Shorts, Simms, Terrell, Wans(z)er, Wood and Young families) sustained The Fort through these associations, faith, adherence to a strict moral code, and emphasis on education.

# OAKLAND BAPTIST CHURCH

Several residents of “The Fort” community were founders of the Oakland Baptist Church, which is located at the intersection of King Street and Braddock Road. The congregation started worshipping in a bush arbor as Oak Hill Baptist Mission in 1888, established the church in 1891, and moved to the current location at 3408 King Street two years later. Despite the hardships associated with the community’s displacement and the development of Fort Ward into a historical park, the Oakland Baptist Church and Cemetery survive as symbols of the self-sufficiency, integrity, and longevity of this distinctive African American community.

# OAKLAND BAPTIST CHURCH CEMETERY

In 1939, the Oakland Baptist Church acquired a lot from Samuel Javins after the death of his wife, Florence McKnight Javins. She inherited the property from her mother, Harriett Stuart McKnight Shorts, one of the founders of the church. Family ownership of the land started in 1879, when Burr Shorts, Harriett’s husband, began purchasing 10 acres. The Shorts-McKnight family was one of the principal founding families of “The Fort” and continued living here until the 1960s. Three McKnight family graves are the earliest known in the cemetery and pre-date church ownership of the land: James W. Terrell and Maria McKnight (1925) and Burney McKnight Terrell, wife of James and sister of Maria (1930).

# AFRICAN AMERICANS AND THE CIVIL WAR

2

The Civil War opened the door for opportunity and civil rights for African American Virginians, about 90 percent of whom were enslaved in 1860. The mayhem caused by the war provided an opening to escape slavery, while the federal presence in Alexandria and eastern Fairfax County offered a destination for thousands to seek refuge and jobs behind Union lines, and create new lives. These “contrabands” and freed people aided the Union cause by working as hospital attendants, gravediggers, stevedores, teamsters, cooks, and laundresses, and in labor gangs to build roads, construct fortifications and trenches, and maintain rail lines. More than 200,000 men enlisted in the United States Colored Troops (USCT). Many African American soldiers escaped slavery before enlistment, such as the fathers of two long-time residents at “The Fort” and “Seminary” community.

## Employment—Continuity and Self-sufficiency

Before the Civil War, enslaved African Americans worked as domestics and laborers at the Virginia Theological Seminary and Episcopal High School. Change occurred in June 1861 when Union troops occupied the closed schools and established a military hospital. The Fairfax Seminary Hospital provided employment and support for some freed people. After the war, African Americans settled in the areas surrounding the Episcopal complex, where they worked as carpenters, cooks, waiters, drivers and maintenance staff. By the end of the 19th century, many of these families had bought land and established their homes in “The Fort” and “Seminary” community. Some families retained their connection to these educational institutions for nearly a century.

# JACKSON CEMETERY

3

In 1884, James F. Jackson purchased the largest of “The Fort” parcels with 11.5 acres and the “western slope of a bank of Fort Ward.” Over 40 years, James farmed and worked as a driver at the Episcopal High School. His wife, Katie, was a laundress. The Jacksons established a burial ground on the fort’s slope (glacis). “Uncle Jim” dug graves with “Uncle Fred” Rust and “Uncle Simon” Reed. In 1926, investors intending to build Eagle Crest development purchased most of the land, and the City of Alexandria acquired it 30 years later for the park. Only a few names of those buried are known, and none of the grave markers survived. Elizabeth Henry Douglas, whose two brothers’ graves are here, remembers that the disappearance of the markers “made our hearts sad, and we never did know what happened to them.” Archaeological investigations have identified grave locations for positioning new markers.

“ I don’t know how they made it. You didn’t have a credit card back then, and you just dropped in and the people gave you a little share of molasses and a hoecake and what they called ‘soft fish,’ which was salt fish. ”

Madam Chairman and Members of the Commission,

I just wanted to take a minute and thank you for your many hours of volunteer service for the betterment of the City of Alexandria and its residents. As part of my job requirements, I have attended and participated in many Planning Commissions and Council Hearings in Alexandria and other jurisdictions in the DMV. Last night was the first time I stood up as a resident and spoke on behalf of a cause I feel strongly about and one that directly impacts my two student athletes attending TCW.

I support your decision and I further agree ACPS needs to be held accountable for being better neighbors. As the current president of the TCW Lacrosse Boosters, I will do what I can to help hold ACPS accountable for the conditions you approved last night, or rather this morning. To the extent I can be of help in that regard please let me know. Maybe a volunteer day or series of days the TCW Lacrosse Boosters and student athletes can sponsor where trash is picked up or some other service project is performed to benefit the adjacent property owners. It would be a great cause and a great teaching moment for the students. I'll get some feedback from the other Board members at our meeting later this month.

Kind regards,

Adam Hayes

I was there last night in support of the lights for the students of TC Williams but I had to leave around 11 - dogs needing walking - but thank you so much for saying yes to the lights.

When we moved across the street from TC Williams so that my granddaughter would be close to her high school six years ago, I had looked forward to watching Friday night football - I was taken aback when I found out nope - no lights - no football at night. While I have tried to see the other side of this argument, all I see is hate, hate of change, hate of maybe some crime that the lights might bring. I see the lights promoting school spirit, community spirit and finally lights make any thing better.

Thank you again for a forward view of how our city should be going into the light.

# Impact of lights at TC on parking in and around the TC field

Dear Planning Commissioners,

I watched the proceedings for approval for the lights at the TC field from home. I don't remember hearing any discussion about the impact on parking in and around the TC field.

Will there be impact and what is the TMP for parking/traffic in the area?

My major concern is how this might impact parking for patrons of Chinguapin Aquatic and Recreation Center. The Chinguapin Circle parking is managed by the Recreation Department. Do they have a plan for additional parking that may happen with more use of the TC field?

Currently the after school parking around the circle is used by patrons of the Chinguapin facilities and the park and gardens and citizens.

Will the one entrance in and out of the park, Chinguapin Drive, be able to handle additional traffic? It is already very busy.

There are current problems with students and parents of TC students violating the posted signs indicating the spaces are for Chinguapin patrons at the three reserved parking lots. Has thought been given to how the additional usage of the TC field might further impact these parking lots?

I have no problem with additional use of the TC field but I think there needs to be discussion about the traffic and parking impact this might cause for those using Chinguapin Center. I did not hear any discussion on this topic during the Planning Commission meeting.

The Chinguapin Center is open until 9pm Monday - Thursday and 6pm on Friday, Saturday and Sunday.

This topic may have been discussed prior to the meeting and just not mentioned during the meeting.

There is always the possibility that there will be no impact.

Thanks,

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Many students either choose to not play football, or not come to games, simply based on the inconvenience of home Saturday football games. High school experience would skyrocket for students with the addition of lights.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Please help give our Alexandria student athletes every opportunity for academic and athletic success.

<p><b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b></p>	<p>Yes</p>
<p><b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b></p>	<p>This is long overdue. There are literally thousands of students, athletes, alumni, parents and other citizens who enjoy or support youth sports -- black, white, hispanic and others who support this. We have been waiting five years for the TC stadium upgrade, including the lights. There is not another large public high school in Virginia that has no lights or bathrooms at its football/soccer field, not to mention a usable press box. Time for the community to be able to come together on Friday nights for the 4-5 home football games as well as big soccer and lacrosse games (that fans often can't attend in the afternoons) and track meets (which can be suspended due to darkness before some athletes have been able to compete). A handful of folks who decided to live next to a school have been resisting the will of the many. The City and School Board have bent over backwards to hear their concerns and design the new facilities to be as unobtrusive as possible. Time for you all to favor the many over the few.</p>

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I am a student at TC and none of us get to experience the typical Friday night lights at our school for football. Also, in the spring when we play soccer in the stadium we have to play right after school which gives us no time to prepare for the game.

<p><b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b></p>	<p>Yes</p>
<p><b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b></p>	<p>It is a travesty and, frankly, embarrassing that one of the largest high schools in Virginia has a condemned press box, rotting turf, porta-potties...and no lights. It's not just about "Friday Night Lights" and fall football games...it's about all of the other school sports that miss out on the benefit of being able to practice and play at home like other public high schools, particularly in the winter months, when the sun goes down at 5 pm. It is a shame that a select few in the vicinity of the school could protest so vehemently against the progress of a school, its young people (also the future of our city, state, and country), and the community as a whole. That a few could—and would—hold hostage the enrichment of several thousand students and members of the surrounding community for what amounts to money (the neighbors' poor property values!) is tragic.</p>

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	As a parent of a student in the TCWilliams marching band, I would fully support the ability to host Friday night home games in order to allow the band to perform both at our home games as well as in competitions, which are typically held on Saturdays and conflict with day games. Since we have no lights, we can only host games on Saturdays during the day. The full sun is not the healthiest environment for athletes, band members, or spectators. Games are relatively short and bring the whole community together.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	With almost 4000 students (and more on the way!) at TC Williams, we just physically need more time to use the one onsite sport field! When it gets dark, the space is rendered useless. We have teams of kids being bussed across the city, and we have band practicing in a lit parking lot. For our students, we must create a safe and usable space that makes Alexandria proud of its high school and that supports our students. High tech lighting and sound will reduce the impact to neighbors in a way that was not available when promises about "no lights" were made. The space is more unsafe now without lights and bathrooms than it would be if the stadium were fixed and lit.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It's time to allow our TC Williams athletes and students the same sports experience as their No Va peers, and not be held hostage by a small group of residents.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It has a lot of memories for me. It's not to many titans, who can say they attended TCW for 4 years. After the changes in the 1970's. To know your school has a movie about them and a group players who still goes around and keeps the Titan spirit alive. We need this makeover. If not for school and students. We just need to support them #HTCW

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	For a school so rich in history, not having a stadium where the football players, cheerleaders, alumni, and community come together for Friday night football game underneath the lights is counterintuitive and has been incredibly detrimental to school spirit. For sports like field hockey and lacrosse -who still have evening games but play at Minnie Howard -it makes the games lack home-field advantage and again the school spirit that comes with an evening game underneath the lights.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Due to seasonal decreases in daylight, without lights from October through March, field are useless after 5 pm. Lights will extend the field/track use for the entire community and students after work (when most resident can use them) and School hours.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Our student athletes do not get to experience the same game day experience as other student athletes do. JV and Varsity soccer games are held at the same time in different locations. The situation is very sub-optimal and does little to foster a sense of school spirit when games are spread all over the City and no one but parents are able to watch the game.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It is time. Facilities are run down. Tc students and the Alexandria community deserve to be able to gather on Friday nights and watch football or other sporting events. It will also allow practices and residents to be able to utilize fields in am or pm after sun goes down. Technology has improved so lights would only light the field, not surrounding properties. Tc is a community treasure - not a burden to be borne. Let it be the evening gathering place it should be for our most precious resource - our kids.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	We are simply doing a disservice to our children by not providing them educational facilities, including athletic facilities that are current and up-to-date with today's standards. It is part of the reason why so many friends and neighbors we know have decide to leave Alexandria for Arlington or Fairfax County, because we don't have adequate facilities to ensure their children will get the very best education and high-school experience. Let's not remain stuck in 1965.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	With careful design, the impact of the lighting on the neighboring property can be minimized. Lighting design and technology has improved since the original agreement was made. We need to find a middle ground with the neighbors and not just steamroll them, but the time has come for Alexandria's only high school—serving 4000 students—to have evening use of its stadium.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I play football and recently I went to the south county hayfield game at south county and it was Friday night and they had lights. The turnout was tremendous. Then, the afternoon after, we, TC, had a game in which we played Patriot high school, where their stands had more people than our stands. I believe we are missing a major part of our ticket sales because we don't have any Friday night games, rather we have Saturday afternoon games, which is a terrible idea, nobody wants to play on Saturday, we want to play on Friday night, at home, under the lights.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	The students of TCW deserve to have a stadium that they feel proud of. Our current stadium and facilities are embarrassingly decrepit. The fact that there is not a restroom is disgusting and embarrassing. The citizens of Alexandria deserve to have a sports facility that is state of the art. The fact that our stadium is what it is projects a perception that public schools are not important. Tcw is too good of a school - the largest high school in the state- to be treated this way. The fact that alexandrians have so much wealth makes it even worse.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	This move, along with promoting community attendance and support of TC sports, could help bind this community in favor of our public schools. When we have a community excited about a common interest we gain community buy in, when the community is invested together our public schools win. We need the whole community's pride to help lift us out of our current state of disrepair and this modernization is one step in the right direction.

<p><b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b></p>	<p>We need lights because as a TC track and Field athlete we can never hold track meets such as regionals or other invitationals that may last long, we have to wake up at like 6am and that is when everybody is tired we can not wake up at like 8am and end a little later because their is no lights on the field. Lights will help benefit every sport such as football, soccer, etc so we can play long lasting games we as a whole will never forget because if it is about to get dark and we are in the middle of the game we are all suppose to depart the field because it turns pitch black. If you see other high schools they have lights and the games are so much fun. They have nice a big bleachers, good concessions stands, etc. we should also have bathrooms because it can be a little gross to go to a potterpotty and then we have to eat with our nasty hands. Please upgrade our field to make it a better rest of the school year for all of us.</p>

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I respect the validity of the agreement that was made with residents, and later upheld, by City Council, but the harm being inflicted on the community at large now is much greater than the harm that would be inflicted on this very small group of homeowners during evening events at T.C. Williams. It is time to come to a compromise solution that allows use of the stadium after sundown.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	We had lights at my high school in Alabama--in 1979! And the high school was in the middle of a wealthy, residential neighborhood. With regard to the promise made 50 years ago, should we honor all promises forever, even as the future brings change? Along with a chance to re-evaluate in light of growth and new opportunities? I can think of many promises made in the City Of Alexandria since it was founded that proved to be detrimental as the city moved forward. And these were either fixed or discarded. Time to do the same here.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It is time for the TC Williams Stadium to have lights! There have been numerous planning meetings and accommodations to make the lights the least intrusive possible for neighboring areas and years and years of discussion on efficient planning. Our TC students deserve to have a lighted field like every other highschool. Let's support our kids and move forward.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Alexandria is an international city where we represent many cultures and where we host people from all over the world. We need top notch and world class facilities to show visitors, tourists and ourselves our strength and beauty. In addition, to move forward in the modern world where more time is spent in a digital realm, we still need public and in person gathering places to establish, build and unify a community. A stadium with lights and other upgrades is essential in these ways- for a world class city and for our local community.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It is time and has been for a long time for TC to join the rest of the schools to have lights for games. Many parents could not attend games that were held at TC because they had to be held an an early hour and parents were working. Letting a few decide and dictate what is good for TC just isn't right. Good schools create good communities. Sports games are a community event.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I am an Alumni of TC Williams and I have been a part of the student section for all of my years at T.C. As a fan it honestly was horrible being one of the only highschools in VA without lights. As an alumni I can guarantee you that we will have a greater fan base which equals more revenue for the school. T.C. Is one of the most famous high schools for football and we don't even have lights which is absolutely absurd. I will continue to withhold my donations until the athletics department makes upgrades including lights.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

<p><b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b></p>	<p>Yes</p>
<p><b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b></p>	<p>Students at Alexandria's only public high school deserve the full high school experience. They deserve quality facilities across the board, including a more modern stadium with lights for evening events, including Friday Night Football. As the parent of two TC Williams Marching Titans alums (one a drum major), it saddened me that they could only participate in the Friday night football experience by traveling to away games and watch the home team marching band perform under the lights. Opposing marching bands do not come to TC Williams on Saturdays for games. They are off at Marching Band competitions, performing before appreciative audiences and receiving valuable feedback to improve their performance prior to the State Marching Assessment. TC's marching band has a much more difficult time getting to very many marching competitions because of Saturday football games. Excellence in marching and in the seated band are both required to earn the Honor Band designation.</p> <p>Surely, a reasonable accommodation can be made with the neighbors that would allow this modernization initiative.</p> <p>Thank you for your consideration of this issue. Please do "Remember the Titans" and bring back Friday night lights. (And all the other positive impacts of a modern stadium)</p>

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It's too hot for afternoon games and marching band performances. Lights are needed to allow for activities to take advantage of the cooler evenings.

<b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b>	Yes
<b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b>	<p>I went to high school in the 80's and we had lights. Most every other high school in the area has lights. Why in the year 2018 can't our high school have lights? It not like they will be on every night. Its only a few nights a year for three hours. I think the neighbors can manage even if 40 years ago they were promised no lights. Please modernize and lets not make us wait another four years.</p> <p>We just want to be able to come together as a community on a Friday or Saturday night to support our team. There is enough division at TC. This is a way to bring everyone together.</p> <p>Justin Wilson, I don't support most (any?) of your initiatives. Can you please support just this one for me so I won't be bitter for another four years?</p>

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I am a fellow cheerleader for T.C. and on the days that we have home games (Saturday), I have to put homework to the side and get prepared for my game. Or, i'm out late nights at away games, due to us not having lights. Instead, I should be able to cheer at home games and have time to be a scholar as well. Also, our stadium looks very old & not proactive. A stadium upgrade could be a valuable asset to our school spirit!

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	We are already, spirit wise, the best school in NOVA. Why not update our outside features and have our visitors amazed everytime they pay the Titans a visit!

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Athletics are integral to a student's development, instilling discipline and confidence, and leads to a lifetime of exercise. TC needs to have world class athletic facilities to support that mission. These need to be next to the school and not spread out around the community. Furthermore, I would support developing Chinquapin park into a viable athletic facility.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	There is no feeling playing in the Friday night lights, we as young athletes shouldn't pay for something people who came before us did. And playing on Saturdays interrupts whole lotta stuff like homework, catching up whether I'm specific classes and or even with your friends and also resting or just normal sleeping. Oh my goodness, waking up early on a Saturday is no where close to normal.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It's the only high school in the City of Alexandria. Every high school our athletes visit has the basics of lights, concessions, a press box with announcements during the game, and restrooms. Why can't our City have the same?!

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Sports are an important aspect of high school experience. The social aspect of sports events is a positive one in our community. There are few opportunities outside of the classroom where students can come together to support one another. Our students are very proud of their school and it is important for them to be able to host evening track and field and other games or event at home. Our community deserves a chance to participate in home events in the evening. The current conditions prohibit this experience. The stadium lighting available today is a huge improvement over what may have been available in the past. It is possible to light the stadium with fixtures that cut off any light from spilling on to adjacent properties. Folks who purchased homes next to a high school cannot have expected the school grounds to remain the same for years to come.

<b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b>	Technology has come along way in stadium lighting, all you need to do is visit Wakefield HS to see the the latest in efficient direct lighting. As a football referee it used to be difficult to work a game with the old lights they had, but now with the new lights that shine directly on the feild, its no problem seeing and when they come on its instant, no waiting to warm up. The hoods over the lights keep the light pointing only on the field. If anything I hope more schools move to this type of lighting. If you do approve the lights I just hope we can find enough refs to work your night games, but that's our problem not yours. I love working Friday nights under the lights and look forward to doing it at TC one night. It's time, Bret Wolford class of 79

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

**I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.**

Yes

**Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:**

I grew up in a home right next to TC Williams, and I know own a home about a mile from the school (that I currently rent). My family attended ACPS public schools from K-12 (my parents, and my two sisters). We were all student-athletes, and my sisters and I all went on to play college sports. After college, I returned home and coached the TC soccer team for six seasons. My oldest sister and I were honored to be inducted into the ACPS sports hall of fame last year. I would also note that my family is one of the only families to live next to TC before the high school was ever built.

I have heard for many years representations made to me and my classmates, as well as the students I coached, that TC Williams cannot have lights on its game field because of the types of students who attend school and how they behave. Unfortunately, this is a gross and false stereotype that is widespread. I am passionate about this issue because I believe our student athletes, and their families, deserve the same experience as their counterparts throughout northern Virginia and the rest of the state. There are schools throughout northern Virginia that coexist with the neighborhoods around them with fully functioning athletic facilities (this is a long list that includes schools like McLean, Langley, West Potomac and Annandale). TC should be no different.

Without lights at TC, games are cut short or cancelled, or moved up early in the afternoon. This means parents must take leave to come watch their children play. Many of our parents do not have the luxury to take off for a few hours to come watch an athletic event. I walked many of my seniors out to midfield when I was a coach to celebrate "Senior Day" because their parents were unable to take off of work and attend a game that started during work hours. This is obviously even more of an issue for our JV teams that typically have 3pm start times, and for visiting teams from further out in Fairfax County, etc.

As a former member of the Parks and Recreation Commission, I worked through the issue of having Council approve lights at Hammond Middle School. We made many compromises with the local civic association- the field is under lock and key and only permitted teams can play on it. This was a compromise in order to get lights on the field. That said, it has kept many neighbors from playing pick up soccer on that field- folks who work and pay taxes in our community, and traditionally have

always been able to play there. Unfortunately, after both planning approval and Council approval, the funding for lights was shifted away from Hammond. Now, we have a beautiful turf field, under lock and key, with no lights. I would suggest this turned out to be a bad deal for the city because we don't get the use out of the field that we could and neighbors no longer can access it as they have for decades prior. I would ask that lights for TC's game field are approved and be weary of restrictions that are placed on this condition that restrict the full use of the field and track- both by students and by community members. Note that the new Hammond field now lacks a track- another resource that had been used by the community at large. TC now has the only standard track in the city, and is used by students and residents alike. Being able to jog in the evening, in a safe and lit environment, is important- unfortunately you need only look at recent incidents in the DC area to underscore this. Imagine for a moment what a nice resource the TC track will be once it has lights.

Lastly, I would like to address the issue of a "promise" for no lights to be put at TC. My family has asked about this promise for years- we have never seen it in writing, and it only worked its way into this conversation when the idea of having lights at the school started to gain traction. It is true that when TC was rebuilt in the 2000s, that the SUP included such language- and to my understanding, this was included because there was concern that the school would not be opened on time due to numerous concerns from neighbors about operations at the high school, and that if lights were included, it would drag the process out to the point of not being able to open on time. This puts the "promise" into context- i.e. being from the 2000's and not from decades and decades ago, and certainly a past Council's actions cannot bind the current Council.

I am passionate about this and could go on, but won't. I'll end with one short story that is similar to many conversations I have had over the years. When I arrived at college my freshman year, one of the first individuals I met was a student who had gone to school in northern Virginia. When I introduced myself and said where I had gone to school, the reply was that she was surprised to meet me, that she didn't know students like me went to TC, that she was always told TC students carried knives and guns and that's why they she never came to a game at TC and why we weren't allowed to play games at night. This is not a unique story- it is one our students hear throughout their high schools years. It isn't fair and it isn't right. And they deserve the same high school experience as their counterparts through the region.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Our students and community deserve a stadium that is at least commensurate with others in the region. Currently and sadly, we don't have anything approaching that norm. Additionally, the wide variety and scope of activities that are a part of the educational experience at TC Williams require a facility that is available for more hours than daylight can provide, making lighting a de facto requirement, as all other jurisdictions in the region have always realized without question, and have automatically provided.

Evening games allow working parents to attend their child's event, and, foster introductions to kids that parents may otherwise only hear about and not get to meet. An updated stadium and lights will also allow the community to plan for other community events that we otherwise have no room for, and are currently hosted by Episcopal High School like the JusTryanIt race and other non profit activities.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It would be great for the community and school culture to give them something to do that is safe on Friday nights. Having lived in Alexandria for 8 years and now in a community with my family that Friday' football games are the thing to do from ages Elem. to HS ultimately brings the family and community together.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	As a parent of a current and graduate TC student, I believe it is time to bring the community together with the opportunity for night-time games. It has been an embarrassment to our big, beautiful school to have teams play Varsity Lacrosse and Field Hockey the MH field when most other schools have accommodations-such as restroom facilities and a concession stand-and we do not have that to offer them in return. I can see that it is demeaning to our students and I have heard many comments regarding that from both students and parents, and even parents of other schools, over the past 5 years as a TC parent. The addition of lights at the stadium would be a welcome boost for the spirit of our teams and the neighborhood.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	TC is the only public high school in the region without lights, other school groups, including marching band, suffer because they can't get precious field time, and as a result while representing our school, haven't scored as well in competitions and assessments as they could have - because they can't get time on the field. If we want kids to compete, and represent our school and our community, let's give them all the tools they need to actually do so!

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	When I went to T.C. I ran track, played soccer, and worked as an athletic trainer for the football team. We always had to travel away for night games/meets, meaning we never had many fans in attendance, and often got home late. This impacted our performance both athletically and academically (less time to study when you are always on the road).

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	It is time that ALEXANDRIA step and approve a fully functional, lighted state of the art athletic facility. If we are spending what we are for schools, we do not need to shortcut in any way.

<b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b>	Yes
<b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b>	I graduated from TCW in 1992 and played sports year round with a focus on track. I was honored to be inducted into the TCW athletic hall of fame along with my brother two years ago. TCW is an amazing school with fabulous opportunities for all students in both academics and sports. Upgrading the facilities to include lights at the stadium is essential to support the mission of excellence at the only public high school in Alexandria. I grew up on the other side of Chinguapin Park- and my parents still live there. We are lifelong supporters of TCW and would love to see these improvements. Thank you for supporting our school!

<p><b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b></p>	<p>Yes</p>
<p><b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b></p>	<p>Having lights isn't just about Friday Night Lights for the football games. Not having lights trickles down to other sports such as soccer. I have two daughters who play TC soccer. One varsity and one JV the last two years, and we have had to choose which game to see since they play at different fields (Witter for JV; TC stadium for Varsity) at the same exact time (4:30pm) for home games. All other schools have back-to-back games on one field, JV first, then varsity starting around 7:15pm. Parents and student fans can attend these games (and even JV will get to see Varsity) because of the convenient time due to lights. When it comes to Districts and Regionals for both the boys and girls teams, our players have to miss part of the school day in order to get back-to-back games done in time before it gets dark since they have home field advantage when they have done well in District rankings. Even their opponents have to miss classes and leave even earlier to get transported to our field for such an early game time (school is still going on many times!). And for senior night, the game is usually played at Minnie Howard under the lights so that girls can finally have some friends who play other sports come to the later time and cheer them on ... finally. (This is technically not a regulation size soccer field.) And one year, the Minnie Howard lights didn't work, and the Senior Night was cut in half, a big disappointment for these senior girls who worked hard during their high school years as part of the soccer team. TC needs lights and should be able to work something out that will make players, parents, and surrounding neighborhoods happy.</p>

<b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b>	It is unreasonable for a few people to hold tens of thousands of students & TC families hostage to their will. It is unreasonable to live adjacent to a high school in an urban environment & expect the tranquility of rural Virginia. TCW is the only public HS in Virginia w/o stadium lights. Athletics are fundamental to a holistic high school education & are students are being cheated. Students have had to bear a stigma propagated by this no-lights policy. Other school districts believe it is because our student body is inherently dangerous & our campus too dangerous to visit after dark. They don't understand it is because of a few neighbors wielding their influence to the detriment of our school family. Let there be LIGHT at Parker-Gray Stadium! Also let there be toilets, concessions stand, safe bleachers, & an announcer's box.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	The TC Marching Titans can only perform/attend a single game this year because of daytime competitions. The football team needs the band for support and enthusiasm. There are many other reasons why we need lights in our only stadium. Surely a compromise can be reached by limiting how many nights there are games and how late the lights can be on for other purposes, such as lighting the track or soccer games or whatever. Set a limit and stick to it.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Times have changed and the neighborhood has changed since the original stadium was built. Most people don't know the real reason there are no lights or night games. It's time to treat TC students like those from other area high schools.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I wish that TC's student athletes can share in the tradition of competing against other student athletes underneath the lights-an experience cherished by all who are able to enjoy it whether they are on the field or in the stands. This experiential value that we are depriving our city's students is coupled with the logistical burden of having to play games on weekends or during working hours. It's not fair to them, and they deserve better.

<p><b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b></p>	<p>Yes</p>
<p><b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b></p>	<p>Why is this so hard? We go to other schools and see their fantastic facilities. When we host other schools, it is so embarrassing. My kids have been playing lacrosse for TC for 8 years and we have never had a chance to play on our stadium field like we do at EVERY other school. The field we do play on at least has lights, but it is not regulation size. This has caused other schools to refuse to play district or regional games on our field -- even when we earn the home field advantage. It's always a struggle.</p> <p>Again, Why is it so hard? A lot has changed with lighting and sound since the stadium was built. My family lived close to my high school football field and we loved Friday night when we could see lights, heard the fans &amp; listen to the bands. I feel sad my kids have not grown up with the ability to enjoy Friday Night games--really builds a lot of comradare not only for the students, but for the community as well.</p>

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Don't eliminate the Saturday afternoon football heritage if you install lights. Keep a Sat or 2 in the mix! Class of 1978!

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Alexandria City students are the future leaders of our community and nation. They deserve facilities that are safe, well maintained, and functional so they can focus on developing well-rounded qualities such as accountability, dedication, and leadership in both the classroom and through athletic performance. As a community we have an opportunity to grow in unity as we support our student athletes. By neglecting the upgrade, we limit their options to gain experience and demonstrate a indifferent attitude toward their future.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	This is way overdue and does not impact the neighborhood but for a few hours a few nights out of the year. Residents are blowing this way out of proportion. Students are getting squeezed out of parking at the school, charged by the city to park on the Chinquapin circle with 40 less spots for permits than capacity, being squeezed out of the neighborhoods with restricted parking...quit making the kids suffer

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

<b>I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf &amp; track.</b>	Yes
<b>Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:</b>	<p>My son and daughter both currently attend TC Williams High School and both play sports. My son has played football since being in the 8th grade, he is now a senior player. Both my wife and I volunteer for the TC Williams football team in various capacities. The condition of the TC Williams stadium is in my opinion truly disgraceful for school with this much pride and spirit, not to mention history. The fact that there has been so much opposition to lights does not make sense. If folks are so concerned about crime that lights will bring, then I would propose putting in lights for predetermined amount of time, lets say one school year - and then do a study to show if crime and complaints actually risen. As for the stadium enhancement, press box and bathrooms- this is absolute must. We have been working in snack shack- and have witnessed folks making fun and mocking. This needs to happen to enhance the students experience and for those who attend the events. As Alexandria's only public high school and one of the largest high schools in the state of VA- our stadium should reflect TCW pride and community.</p>

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Starting at the end of September, the sun sets around 7pm. This ends the playing time for the Freshman, JV, and Varsity Football games. It is hard for the Fairfax Schools to get to our school to start the Football games earlier than 5pm - which leaves the end of the game in the dark.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Extra - curricular activities are a vital part of a well-rounded education. The lack of upgrade limits students' ability to participate with their competitive community. A large outdoor venue that is lighted at night can be a facility used for the benefit of the city and city events, not just the school.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	By adding lights at TC Williams, we will expand the capacity of recreational fields access across the City of Alexandria. Rather than busing students to other fields, T.C. Williams students will be able to practice and play on their home field. This will free up much needed athletic fields already used by many youth sports. It's time.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Of course our high school should have lights, a stadium, a full size track and all the other trappings that any other normal high school would have -- especially in our day and age where there has been so much technological advancement in the area of lighting that doesn't cause light pollution surrounding neighborhoods. Please make TC Williams a desirable place for high school sports. I wholeheartedly support lights etc. for TC Williams high school.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I have had 2 science fair projects on the effects of lighting on the neighbors. My findings were that with an average high school stadium light, the neighbors will not be effected. My project did not focus so much on noise, and although that will affect them more that light will, they made a concious decision to live near a high school.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I think that night football games are a big part of the high school experience and without lights kids are missing out on that one major experience. Also, if there were lights it would attract a lot more students to come.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	As a TC Williams student, I feel that it is important to upgrade the stadium, as it will help to foster a greater sense of community within the TC student body. Going to games is a great way to show school spirit, and with the upgrade to the stadium, it will make the entire experience more desirable for both the players and spectators.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	We are 15 years into 20 with ACPS. The student growth has been explosive. It takes a toll on buildings and facilities. And we have witnessed the disruption of deferred maintenance. Our students deserve strong modern facilities.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Friday night football games, that will be possible with lights, will bring together the community of the city of Alexandria where students and adults alike can join together to watch their local football team. This tradition of Friday night games is a staple to many communities.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I run cross country and track for tc and it is very difficult to do long workouts on the track, especially in the winter, because it is already dark outside. Also, it is very difficult for me to be able to support the tc football team because all of the home games are on saturday mornings when I have cross country meets. Adding lights to the tc field would allow there to be friday night games.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

**I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.**

Yes

**Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:**

I support lights at TC Williams Stadium.

The city needs to weigh the benefit to over 3500 students versus 6 residents.

The neighborhood response to exhaustive efforts by the school and ACPS is continuously and unapologetically no by a very small number of reticent and embittered residents for actions 50 years ago. None of the students and almost none of the parents were born then.

The suit reflects the narrow wishes of 6 residents.

Instead of blind resistance let's solve real problems with a school that has grown beyond its capacity.

- let's stop saying no to the kids, let's have the small number of neighbors stop discriminating and targeting the students with selfish agendas.

- let's reflect the yard signs of the neighborhood of "kindness" and "reject hate" and say yes to the school, to the diverse student body and their needs

- stop the self focused policies of a small number of neighbors that despise the school no matter what and say yes to renovating the stadium including lights

- say yes to student parking in the neighborhood until extra parking is available in campus, why do four residents get to restrict hard working students that need to get to practices at distant facilities and to work by inflicting 2 hr parking on Scroggins?

- Parks and Rec needs to say yes to accommodating all the needed car permits in Chinquapin circle.

- and the city needs to say yes to the neighbors by extending some sort of property tax exemption to compensate them

Let's be positive and say yes, stop saying no to our kids and let's make the biggest high school in Virginia the best and help the kids of Alexandria. The school is special, let's hope the neighbors stop targeting, stop discriminating against the students and stop making the students suffer for the self fixated desires of a very few.

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I have two student athletes at TCW. I have coached youth sports in Alexandria, sat on the Youth Sport Advisory Board, the Alexandria Lacrosse Club Board and am the current President of the TC Williams Lacrosse Boosters. I strongly support the improvements proposed. The benefits to the students, the community and future student athletes is at risk. The current condition of our facilities is an embarrassment and its time the School Board, City Council and Planning Commission did something about it.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	<p>Dear City Planning Commission members, City Council members &amp; Alexandria School Board Members:</p> <p>My name is Luke Wilson and I am a junior at T.C. Williams High School. My parents moved to Alexandria in 1997 and my brother and I were born here at Alexandria Hospital. We have lived in Alexandria and we have both attended school in ACPS all our lives. My brother Ben graduated last year from TC and is now studying physics and playing baseball at Rhodes College in Memphis, Tennessee.</p> <p>I have played football in the city of Alexandria since I was in 2nd grade at Charles Barrett, and I've played baseball since I was in first grade. Football has always been my passion and it is my hope to play football in college. I am working hard to be a strong student, a good citizen of Alexandria and a contributing member of my teams. Honestly, it can be a struggle to play these particular sports at TC. The baseball field isn't located at our school like every other high school in our district, and our football field is in disrepair, doesn't have lights or bathrooms and doesn't have a press box or a concession stand in working order. I'm not proud of it and I am sort of embarrassed. There is such a difference between our stadium and those of our opponents. It is very discouraging to see every one of the teams we play draw huge numbers of fans from their school and their community in their beautiful stadiums come to cheer on their home team. They have huge booster programs where every parent and the entire community wants to be involved. Every local business wants their banner hung, and they are all so proud. It just seems like so much fun and they have so much school spirit. I think it seems really good for the community. Just take a trip out to Robinson or to South County or West Potomac on a Friday night, then join us on a Saturday for a game at home and compare for yourself. The excitement at their stadiums is infectious. It's so amazing to see the events under the lights on Friday nights, and they are so positive for the morale of the school and the community. Every other team has a fan base three times the size of ours. We don't have this here in Alexandria and we lose a lot of great athletes I've played with in Little Titans football and Little League baseball to the local private schools because of these reasons. It's not just about the lights, we need all of the upgrades the committee is proposing, but the idea of playing a football game</p>

under the lights is the stuff of dreams for every Little Titan football player in this city. I know the dream of playing in my city at my school under the lights is not attainable for me because of my age, but I hope by writing to you, I can do my small part to help some other Little Titans see their dreams become a reality. T.C. Williams is a great school and our football team means everything to me. I have so much pride in my school, but the stadium is something that makes us look so bad to the rest of the schools we play. We already have great football coaches who really care about the players. I am very proud to attend TC Williams High School. Please help us be proud of our stadium. I am asking you to please approve the stadium improvement plan as outlined by the Stadium Modernization Committee. Thank you for your time.

Sincerely,  
Luke Wilson - T.C. Williams Class of 2020

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	I believe upgrading the facilities at TC is a win for the whole city. My kids have not gone to TC however, I grew up going to Friday night games and they brought our community together. Also, with daylight savings times, it makes it hard for teams to practice past 6 pm and in order to accommodate more children on the field, lights are important.

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	Schools build a community. To foster that community spirit, learning, nurturing and support must occur both inside and outside of the classroom. TC Williams is the only public high school in Alexandria and the Parker-Gray Stadium is in shambles, and has been for years. We owe it to all ACPS students and to the Alexandria community to modernize the TC Williams Stadium now!

Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	We are a true laughingstock of NOVA, if not all of Virginia. So sad to hear the same old, tired, and tendentious arguments put forth from forty-five years ago. All three of my kids have attended TCW High. My two sons played football. I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	As the only HS in Alexandria, we need stadium lights and we need to support our students on an equal playing field to our area HS. Lighting technology has come a long way since TC was built and the inconvenience to the neighbors will not have a de minimus impact compared to the gross disadvantage our students face by not having lights!

Dear Members of the Alexandria City Council, Alexandria School Board, Alexandria Planning Commission, and 2018 School Board and Council Candidates. Please see my response and thoughts about the TC Stadium Project.

I support a comprehensive upgrade for the TC Williams Stadium, which includes concessions, lights, bleachers, restrooms, press box, and upgraded turf & track.	Yes
Additional comments to share with the School Board, City Council, and Planning Commission on why you support this upgrade:	As the only high school for the city, we need to have a modern and competitive infrastructure. So many kids us the field, not just football, and timing usage around natural daylight w/o lights is simply not feasible given the aiming of activities that require access. I feel that a compromise that doesn't provide significant impact to the homes backing to the field can be achieved.
