BAR #2018-0530

BAR Meeting
January 2, 2019

ISSUE: Alterations

APPLICANT: Louis & Susan Walsh

LOCATION: 314 Queen Street

ZONE: RM/Townhouse Zone

STAFF RECOMMENDATION

Staff recommends approval of the Certificate of Appropriateness, as submitted.

GENERAL NOTES TO THE APPLICANT

1. **ISSUANCE OF CERTIFICATES OF APPROPRIATENESS AND PERMITS TO DEMOLISH:** Applicants must obtain a stamped copy of the Certificate of Appropriateness or Permit to Demolish PRIOR to applying for a building permit. Contact BAR Staff, Room 2100, City Hall, 703-746-3833, or preservation@alexandriava.gov for further information.
2. **APPEAL OF DECISION:** In accordance with the Zoning Ordinance, if the Board of Architectural Review denies or approves an application in whole or in part, the applicant or opponent may appeal the Board's decision to City Council on or before 14 days after the decision of the Board.
3. **COMPLIANCE WITH BAR POLICIES:** All materials must comply with the BAR's adopted policies unless otherwise specifically approved.
4. **BUILDING PERMITS:** Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Building and Fire Code Administration (including signs). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, Room 4200, City Hall, 703-746-4200 for further information.
5. **EXPIRATION OF APPROVALS NOTE:** In accordance with Sections 10-106(B) and 10-206(B) of the Zoning Ordinance, any official Board of Architectural Review approval will expire 12 months from the date of issuance if the work is not commenced and diligently and substantially pursued by the end of that 12-month period.
6. **HISTORIC PROPERTY TAX CREDITS:** Applicants performing extensive, certified rehabilitations of historic properties may separately be eligible for state and/or federal tax credits. Consult with the Virginia Department of Historic Resources (VDHR) prior to initiating any work to determine whether the proposed project may qualify for such credits.

I. ISSUE

The applicant is requesting approval of a Certificate of Appropriateness to modify the existing first-floor storefront windows at 314 Queen Street.

The two end panels of the six panel storefront window fronting Queen Street will be replaced with five stacked full-light awning windows in the existing opening. On North Royal Street, the two end panels will be replaced with four stacked full light awning windows. The new windows will match the existing storefront window system and have Low-e 272 glass.

II. HISTORY

A structure existed at this site in the late 19th century, addressed as 229 North Royal Street. It appears on the 1885 thru 1896 Sanborn Fire Insurance Maps as a two-story dwelling and is then replaced on the **1902** thru 1958 Sanborn maps with a two-story brick grocery store having a slightly different footprint. There have been numerous alterations to the building since its construction, including a complete renovation in **1977** to change the slope of the roof and install large contemporary windows. In 2002 the BAR approved alterations to the building when it was converted from a commercial use to a residential use (BAR Case #2002-0270 & 0271, November 6, 2002). On November 11, 2013, BAR staff administratively approved the replacement of the solid wood door on Queen Street with a full light wood door (BAR #2013-0396).

III. ANALYSIS

Staff has no objection to the proposed alterations to this unique adaptive use building, which has both residential and commercial features which suggest the building's original use while still appearing as a private residence. The storefront windows which will be modified are not historic and staff does not object to the addition of awning windows, which will allow for additional ventilation. The new windows are symmetrically balanced within the existing layout and simply expand on the existing awning windows at the base of these openings. The windows comply with the Board's *Alexandria New and Replacement Window Performance Specifications*.

Staff recommends approval of the application, as submitted.

DESCRIPTION OF PROPOSED WORK: *Please describe the proposed work in detail (Additional pages may be attached).*

To replace two windows on Queen Street and two windows on Royal Street with stacks of operating awning windows. On Queen Street there is currently a row of 6 storefront windows, each panel is 97.5" X 47". The two panels on either end of the row have an awning window under a fixed storefront window. We want to replace this configuration in the two end panels with a 5 stacked awning windows. This will result in two stacked awning window columns on either end of the row, framing the 4 remaining large storefront windows in the middle of the row. Currently, there are 5 storefront windows on Royal Street, each panel is 85.5" X 38". The center panel on Royal Street contains a large storefront window over an awning window. We want the windows on Royal Street to match Queen Street, with two stacks of awning windows on either end of the row and 3 large storefront windows remaining in the middle. There will only be 4 windows in the stack on Royal Street because the windows are shorter than those on Queen Street.

The glass will be Marvin's standard Low-e 272 w/Argon.

The operation of the awnings will be to open from the bottom and crank out.

SUBMITTAL REQUIREMENTS:

Items listed below comprise the **minimum supporting materials** for BAR applications. Staff may request additional information during application review. Please refer to the relevant section of the *Design Guidelines* for further information on appropriate treatments.

Applicants must use the checklist below to ensure the application is complete. Include all information and material that are necessary to thoroughly describe the project. Incomplete applications will delay the docketing of the application for review. Pre-application meetings are required for all proposed additions. All applicants are encouraged to meet with staff prior to submission of a completed application.

Electronic copies of submission materials should be submitted whenever possible.
