

ISSUE: Certificate of Appropriateness for alterations

APPLICANT: Coble LLC

LOCATION: Old and Historic Alexandria District
428 North Washington Street

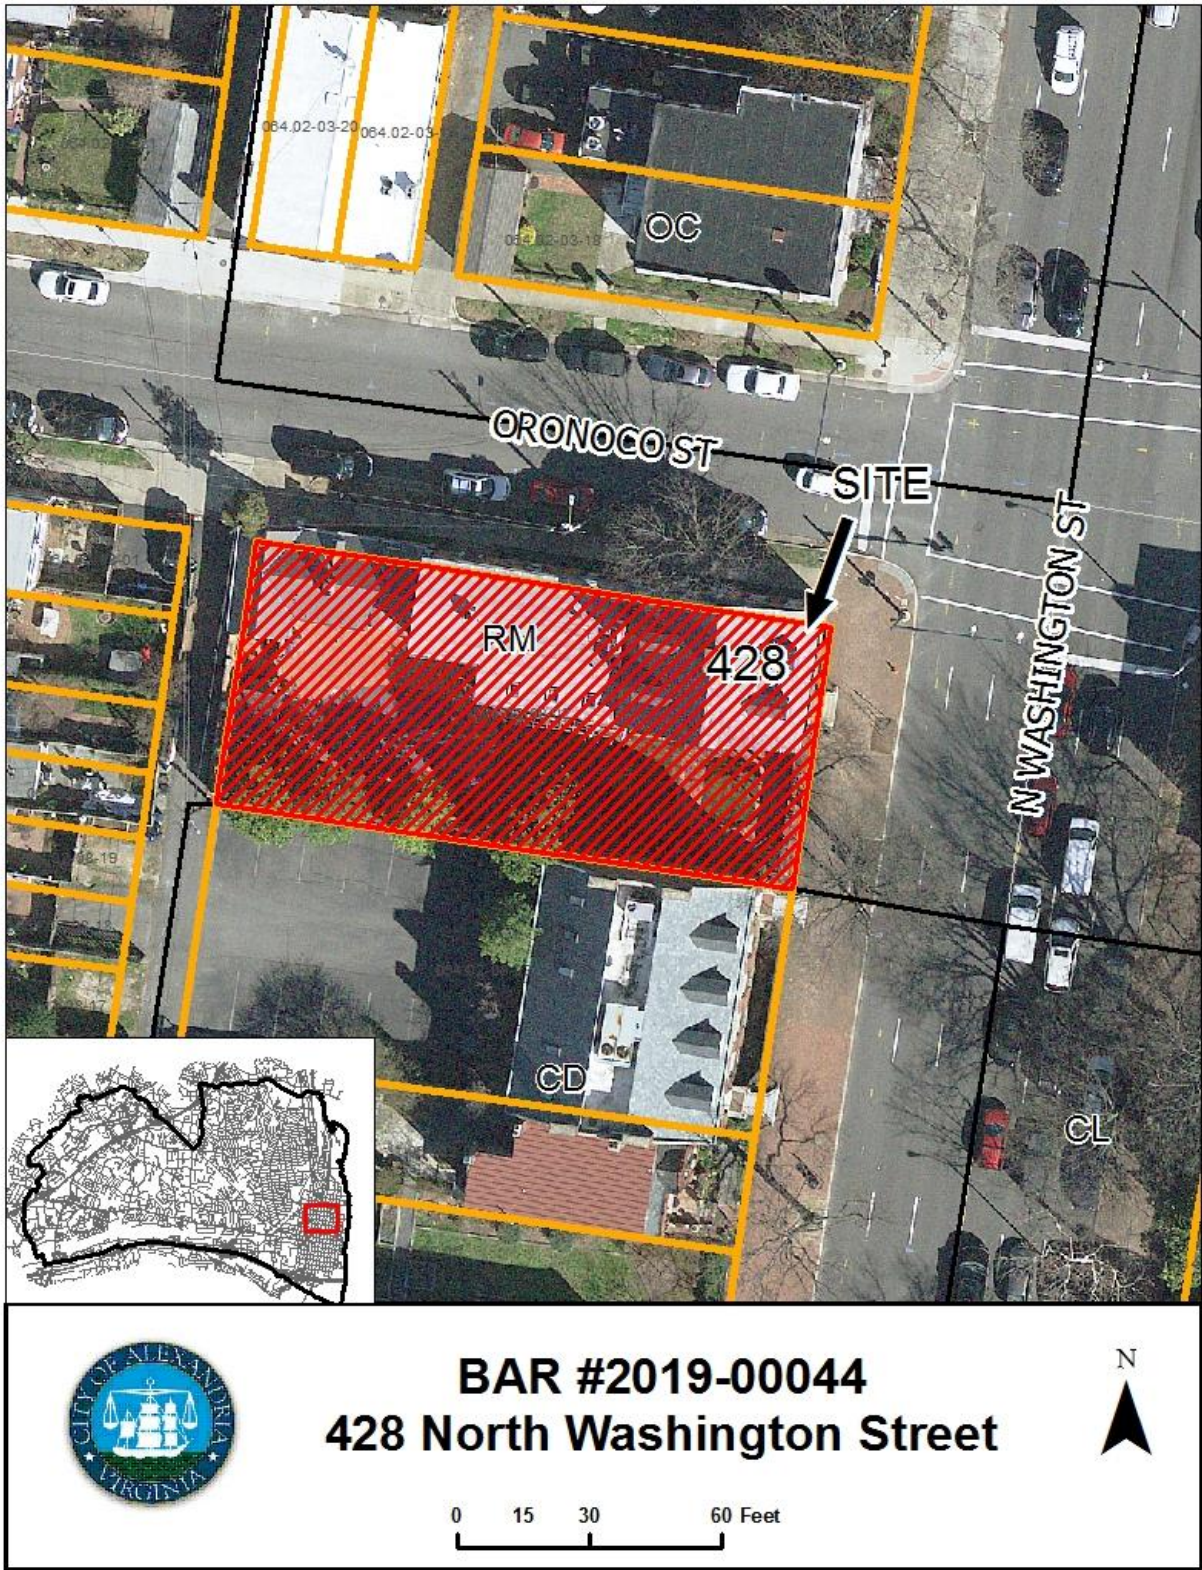

ZONE: RM/Residential Townhouse Zone

STAFF RECOMMENDATION

Staff recommends approval of the Certificate of Appropriateness, as submitted.

GENERAL NOTES TO THE APPLICANT

1. **ISSUANCE OF CERTIFICATES OF APPROPRIATENESS AND PERMITS TO DEMOLISH:** Applicants must obtain a copy of the Certificate of Appropriateness or Permit to Demolish PRIOR to applying for a building permit. Contact BAR Staff, Room 2100, City Hall, 703-746-3833, or preservation@alexandriava.gov for further information.
2. **APPEAL OF DECISION:** In accordance with the Zoning Ordinance, if the Board of Architectural Review denies or approves an application in whole or in part, the applicant or opponent may appeal the Board's decision to City Council on or before 14 days after the decision of the Board.
3. **COMPLIANCE WITH BAR POLICIES:** All materials must comply with the BAR's adopted policies unless otherwise specifically approved.
4. **BUILDING PERMITS:** Most projects approved by the Board of Architectural Review require the issuance of one or more construction permits by Department of Code Administration (including signs). The applicant is responsible for obtaining all necessary construction permits after receiving Board of Architectural Review approval. Contact Code Administration, Room 4200, City Hall, 703-746-4200 for further information.
5. **EXPIRATION OF APPROVALS NOTE:** In accordance with Sections 10-106(B) and 10-206(B) of the Zoning Ordinance, any official Board of Architectural Review approval will expire 12 months from the date of issuance if the work is not commenced and diligently and substantially pursued by the end of that 12-month period.
6. **HISTORIC PROPERTY TAX CREDITS:** Applicants performing extensive, certified rehabilitations of historic properties may separately be eligible for state and/or federal tax credits. Consult with the Virginia Department of Historic Resources (VDHR) prior to initiating any work to determine whether the proposed project may qualify for such credits.

I. APPLICANT'S PROPOSAL

The applicant is requesting a Certificate of Appropriateness to replace the existing second floor enclosed porch windows at 428 North Washington Street.

The existing vinyl windows in each bay will be replaced with triple simulated-divided-light wood casement windows, with the exception of the two central bays which will have faux wood shutters to suggest hidden fenestration. The two trim panels in each bay will also be replaced with a single trim panel.

II. HISTORY

The Federal style three-bay, two-and-a-half-story brick house with prominent dentil cornice molding, elliptical fanlight and keystone lintels was built in **1800**, according to Ethelyn Cox in *Alexandria Street by Street*. The house was the home of Edmund Jennings Lee, who was the Mayor of Alexandria from 1815 to 1818. The house first appears on the 1877 Hopkins Map with the main block and a two-story rear ell. By 1902, according to the Sanborn Fire Insurance maps, a two-story porch was added off the ell. By 1941, a one-story addition connected the house with an existing one-story garage.

Previous BAR Approvals

BAR staff has approved several repairs to the property within the past ten years, including the installation of security cameras and the conversion of some of the exterior lights from electric to gas (BAR Case #2016-0380), as well as repointing in 2017 (BAR Case #2017-0055). The Board also approved a Permit to Demolish and Certificate of Appropriateness for alterations on the south elevation of the property on December 7, 2016 (BAR Case #2016-0394 & 0395).

III. ANALYSIS

The *Design Guidelines* chapter on porches note that they can serve as a defining element of an architectural style. While the porch in question does not date to the first period of construction, it has gained historic integrity since its construction over a century ago. As central air conditioning became more common in the mid-20th century, it was not uncommon to enclose open porches to convert the porch into interior living space and the BAR has generally supported this alteration. The existing vinyl windows are not historically appropriate and the proportions are squat. Staff finds the proposed new wood casement windows and fixed shutters are much more architecturally appropriate and are in keeping with the recommendations of the *Design Guidelines*.

Staff recommends approval of the application, as submitted.

IV. CITY DEPARTMENT COMMENTS

Legend: C- code requirement R- recommendation S- suggestion F- finding

Zoning

F-1 Proposed alterations comply with zoning.

Code Administration

F-1 A building permit, plan review and inspections are required prior to the start of construction.

Transportation and Environmental Services

R-1 The building permit must be approved and issued prior to the issuance of any permit for demolition, if a separate demolition permit is required. (T&ES)

R-2 Applicant shall be responsible for repairs to the adjacent city right-of-way if damaged during construction activity. (T&ES)

R-3 No permanent structure may be constructed over any existing private and/or public utility easements. It is the responsibility of the applicant to identify any and all existing easements on the plan. (T&ES)

F-1 After review of the information provided, an approved grading plan is not required at this time. Please note that if any changes are made to the plan it is suggested that T&ES be included in the review. (T&ES)

F-2 If the alley located at the rear of the parcel is to be used at any point of the construction process the following will be required:

For a Public Alley - The applicant shall contact T&ES, Construction Permitting & Inspections at (703) 746-4035 to discuss any permits and accommodation requirements that will be required.

For a Private Alley - The applicant must provide proof, in the form of an affidavit at a minimum, from owner of the alley granting permission of use. (T&ES)
