

## COMMEMORATING THE FIFTH ANNIVERSARY OF THE FREE HEALTH FAIR FOR ALEXANDRIA'S UNINSURED

Since its first year in 2015, The Free Health Fair has brought "Health and Hope" to more than 1,000 low-income uninsured residents of the City of Alexandria!!

More than 1,000 adults and children have received a broad-array of diagnostic and preventive health services, including vision and hearing screenings, glucose tests for diabetes, dental screenings and referrals, blood pressure monitoring, mental health screenings, and HIV tests and counseling.

Hundreds have been referred to Neighborhood Health for critical follow-up care, where, as a result, many are now enrolled as their "medical home".

Many others were assisted with applying for Obamacare, Medicaid, and FAMIS.

Still others continue to benefit from the free or discounted health and/or social services offered by the numerous community-based organizations that have exhibited at the Fairs.

The value of the Free Health Fair was summed up best by a Spanish-speaking attendee at the Second Health Fair:

*"Thanks and blessings to all the generous people who helped to make this program a reality.  
The Hispanic community is grateful."*

This year's Fifth Anniversary Health Fair is dedicated to Bill Euille, former mayor of Alexandria, for without his early leadership and unwavering support the Free Health Fair would never have existed.

This year's Health Fair also honors all the Community, Faith-based and Health Care partners listed below that have participated in one or more of the five Free Health Fairs for Alexandria's Uninsured.

### Community Partners:

AARP Virginia  
ACT for Alexandria  
Alexandria Cares for the Uninsured
