Interests & Experiences

Statement of Interest/Why You Should Be Appointed

As a home owner, President of our community home owners associations, and business owner in North Old Town I've seen a increase in suspicious/dangerous activity along with an increase in rumors of gang activity. I feel it's my duty to help as a local resident to increase awareness of this activity, better engage the city and law enforcement, so that we can better protect residents of the city.

Statement of Interest/Why You Should Be Appointed

My wife and I have lived in Old Town Alexandria for thirteen years. We live in a 130-year old restored carriage house and have fully remodeled this house, doing all the work ourselves (including the kitchen and bathrooms). We are highly vested in the city of Alexandria and want it to succeed and grow—we love it here. The external appearance (beautification) of the city environs is an important aspect of its success. I want to be a part of that process.

Michael Budinski

SUMMARY OF WORK AND PRACTICAL EXPERIENCE (Please list titles and duties for the past five years):

Professionally, I have worked for The National Transportation Safety Board in DC for thirteen years. I'm the laboratory chief for the Office of Research and Engineering (I am a people leader). Before NTSB, I was a manager at General Motor R&D and worked on the development of hydrogen powered electric cars. With over 44 patents, I am a very creative inventor. I am an expert on diagnosing the failure of engineered structures, components, and products and determining solutions to those failures. Under Becky Super, I have been a volunteer gardener for the Carlyle House Garden for over 10 years. (I'm the only one that is allowed to prune/sculpt the sundial boxwoods.) I am a former volunteer at the Alexandria Seaport Foundation (I am a master woodworker and experienced boatwright) Prior to moving to Old Town, I owned and fully landscaped a 1-acre residential property in upstate New York. I know how to plan manage and maintain landscaping on a larger scale. Having done all my own work, I am very knowledgeable and skilled in gardening, planting, pruning, as well as maintaining large trees. As a basis of reference and perspective, I have traveled to many international cities and have seen how beautification can enhance the success and vibrancy of a place.

For the past 30 years, I've focused on building collaborations between the public, private, and nonprofit sectors to achieve various philanthropic missions. I recently founded the ALX Dog Walk, a pending 501(c)(3) nonprofit, to raise funds through an annual dog walk in Old Town to help support beautification efforts in the City of Alexandria. The inaugural dog walk will take place April 2, 2022. Chuck Bell, NBC4, will serve as our Honorary MC, and the City of Alexandria has also lent its support to this effort.

Interests & Experiences

Statement of Interest/Why You Should Be Appointed

Prior to moving to Alexandria, my wife and I lived in Huntington, WV, a lovely, post-industrial, college town on the banks of the Ohio river. We helped found and and helped lead a non-profit focused on citizen engagement. As part of this, we hosted a weekly, open, brainstorming and action session created to help citizens express their visions for the community and engage them in realizing the vision. Over the course of several years, we saw several hundred successful projects, ranging from neighborhood trash pick-ups to flower and tree plantings; from the creation of a "Huntington in Bloom" campaign to the creation of a new dog park; and from the launch of a craft beer festival to the transformation of a historic train depot into a boutique retail business incubator. I saw how beautifying a community, and engaging residents in the beautification process, can have a meaningful, lasting input on people and a city. I'd like to bring that experience and help my new home become an even lovelier place where residents feel a meaningful part of the community.

Interests & Experiences**Statement of Interest/Why You Should Be Appointed**

Dear City of Alexandria: I am interested in volunteering for the City of Alexandria as a board member. I moved here last year, and after buying a house in Alexandria I decided that I want to give back to my local community. I would make a great board member for the city, because I have prior experience in city government, training in public policy and administration, and a strong belief in public service. At the Board of Veterans Affairs, I serve military veterans and their families. I help the agency write adjudicatory decisions that either provide the veteran with the benefits they deserve, or give clear and concise explanations to the veteran for why the agency is unable to provide the benefits requested. My success rests on empathy for the veterans, my time management skills, and attention to detail in each case. At the non-profit United South Broadway I served low-income homeowners facing foreclosure. I analyzed each case for claims and defenses, reviewed financial and accounting documents, negotiated with the bank, and made written and oral arguments. My success rested on my ability to analyze complex legal and factual issues, successfully litigate, negotiate settlements, and communicate persuasively. At the City of Albuquerque, I served the citizens and public officials by helping formulate effective policies and ordinances. I researched tax and policy initiatives, assessed the financial feasibility of municipal and construction projects, and helped the city to communicate with and listen to our constituents. My success depended on the ability to reconcile competing policy goals and diverse community perspectives together into effective municipal policy and planning actions. I'd love to bring my experience, training, and my passion for public service as a volunteer for the City of Alexandria. Sincerely, Dane Lauritzen

Interests & Experiences**Statement of Interest/Why You Should Be Appointed**

I am very interested in serving the children and youth of Alexandria on the Children, Youth, and Families Collaborative Commission. I have worked with children and youth in a variety of capacities and in many locations. I began working with youth as an AVID tutor at GW and Hammond. After receiving my master's degree in education, I was employed at Charles Barrett Elementary School first as a special education teacher and then as a fourth grade classroom teacher. Since retiring in 2020, I have continued to work with Charles Barrett and its students, heading up a tutoring program for students (Panda Friends) and leading a book club for 5th graders. I would love to continue and expand this work in a broader way, by participating in policymaking discussions and decisions affecting Alexandria's young people.

For many years I have been interested in working on issues impacting women. I began working right out of college as a volunteer at an orphanage in Mexico. When I moved back to the East Coast and into the City of Alexandria, I immediately began working as a volunteer with the Domestic Violence Program as an interpreter and a shelter volunteer. I feel I could be a real asset to Board of the Commission on Women. Not only do I bring my years of experience, but I'm also bilingual in English/Spanish. I could assist with outreach in the Hispanic Community within the City.

I was the Vice-Chair of (and served five years on) the Cable Advisory Committee (CAC) for the Town of Acton, Massachusetts. The duties/charter of the CAC overlaps with those of the Alexandria IT Commission, and the charter of the Acton CAC overlaps with that of the Commission on IT, including cable company license renewal (Comcast and Verizon) and the municipal network that ran over the Institutional Network (I-Net) managed by Comcast. A video showing my presiding over a hearing (for Verizon license renewal) can be found here (that's me in the green shirt): <http://actontv.org/on-demand/post-video/cable-advisory-committee-meeting-8-19-19> Moreover, I have a professional career that includes many years working in the areas of communications and networking. I've published numerous technical papers and hold eight US patents. The focus of most of that portion of my career was on network architecture and network management. Of course, I keep current on IT technology and related matters (e.g., cybersecurity). Giving back to the community is important to me. When my kids were young enough to be in the public school system, I volunteered to be on the Technology Committee. Later on, I was a BSA volunteer (Cub Scouts and Boy Scouts), and served as Scoutmaster for four years (following three years as Assistant Scoutmaster, and was an Eagle Mentor until I moved to Alexandria). I have no COI; my current employer is a not-for-profit working in the public interest.

SUMMARY OF WORK AND PRACTICAL EXPERIENCE (Please list titles and duties for the past five years):

My current job title is "Chief Scientist, Systems Architecture," which involves developing system-level and system-of-systems-level architectures, with a focus on open systems architecture. My previous job title was "Director, Product Family Development and Open Systems Architecture," and my duties involved defining product platforms with broad applicability, thereby supporting efficient and cost-effective development of new products, all aligned with the modular open systems approach. Previous roles include systems architecture, and network management. For example, I led the development of the architecture for, and the design, development, and deployment of an advanced military network for the US Army (wireless and wired), and I led the development of a network architecture for a distributed array of experimental radars for the FAA (a network of smaller radars can see closer to the ground over a greater range than one big radar). My resume and LinkedIn profile contain additional details.

Statement of Interest/Why You Should Be Appointed

I am interested in helping solve local challenges to upward mobility and quality of life. I believe strongly in the power of local action and community, and want to do my part to contribute. When I first moved to the area five years ago, I made \$25,000 my entire first year -- certainly above the poverty line but barely getting by. I was fortunate to move on from that chapter quickly, but I understand that many families continue to struggle with economic challenges from employment to childcare to housing. While I'm no economist, I have some experience in public policy and social sciences generally, and would love to apply whatever strengths I have to help local families.

Statement of Interest/Why You Should Be Appointed

I spent 2 years in Alexandria as a child in 3rd and 4th grade then recently moved back and bought my first home - a home in Del Ray, Alexandria. As I was looking at communities in the DC area, Del Ray and Alexandria stuck out to me for 4 primary reasons: 1) community, 2) diversity in demographics, industries, architecture, landscape, 3) opportunity to be involved with a city that is set to develop quite dramatically in the next 2-5 years, and 4) a feeling of home.

I have been on the EPC for 2 years, and am currently serving on the ECCAP Task Force as well.

Interests & Experiences

Statement of Interest/Why You Should Be Appointed

Over the past two years, I have had the pleasure of serving as a Member of the Environmental Policy Commission and have found the experience fulfilling and impactful. It is a real honor to participate in such a group that impacts the environmental progress of our city - pushing the city to do more, guiding policy, advising on budget asks, engaging on city lobbying efforts, asking developers to be more sustainable, and more. It's the embodiment of "act local, think global" and I love that Alexandria is so interested in addressing the climate crisis. As a sustainability professional with roots in the energy industry and green building community, I feel very at home with the Alexandria Environmental Policy Commission. The heart of my interests and experience lies at the nexus of sustainability and real estate, essentially the "green buildings" world, and I would love to continue contributing my knowledge and enthusiasm as a member of the EPC. I work for the Urban Land Institute, a global, member-driven organization comprising more than 45,000 real estate and urban development professionals dedicated to advancing the Institute's mission of providing leadership in the responsible use of land and in creating and sustaining thriving communities worldwide. My specific position is Senior Vice President of the ULI Greenprint Center for Building Performance, which is a worldwide alliance of leading real estate owners, investors, and strategic partners committed to improving the environmental performance of the global real estate industry. I am interested in continuing to serve on this Committee for a number of reasons, the first of which is that I deeply want to use my scientific, technical, and market expertise to better the city's building stock and overall sustainable land use. City policy has such a strong impact on the betterment of the built environment and our climate, and I want to contribute to improving sustainability across Alexandria. This includes topics such as energy efficiency, benchmarking, renewables, embodied carbon, health and wellness, resilience, waste and recycling, net-zero, and more. I also recognize that we have a climate emergency on this earth and a science-based impetus to take action as soon as possible to reduce the impacts of climate change. As a bio-engineer by education, and an energy nerd by profession, I get it. This is real. And Alexandria, having committed to the "We are Still In" pledge for the Paris Climate Accord goals, and having adopted a Climate Emergency, has a responsibility to play its part. Living in a Dillon Rule state certainly complicates things, but that just means we get extra creative when thinking through ways to get our community to be more sustainable. Granted, it's one thing to be aspirational about reducing the impacts of climate change and meeting a city's climate action goals – its another thing to operationalize those strategies and find a way for improvements to happen in the real world. Looking at policy incentives (carrots and sticks) that would motivate the building community to go green (beyond code, beyond the city's Green Building Policy) is often on my mind. Tying the motivations for and benefits of green buildings to the bottom line for buildings – increase in asset value, increased net operating income, reduced utility expenses and repairs/maintenance costs, increased rental rates, increased occupancy – is what I do in my day job in communicating with the real estate community and is a perspective I can continue to bring to the EPC as well. I've been quite vocal and engaged over my 2 years so far on the EPC, whether it be encouraging North Potomac Yard to be more innovative on sustainability design features, encouraging the city to further analyze the science behind the stream restoration choices, proposing challenging legislative priorities that would enable Alexandria to make accelerate decarbonization, or firmly asking for additional FTEs to be funded to execute on the city's climate work. It's helpful to know that, at the end of the day, we're all on the same team – pushing for a better, healthier, more sustainable Alexandria. I am excited to continue contributing to our city's work on reducing carbon emissions and making a difference in our community. Thank you for your consideration, and I look forward to hearing from you soon regarding next steps. It would be an honor and a pleasure to continue being a part of this Committee in the city that I live and love.

SUMMARY OF WORK AND PRACTICAL EXPERIENCE (Please list titles and duties for the past five years):

12 years' experience in the green building/sustainability market across government and private organizations. My career has progressed from focusing on cost and policy studies at the Department of Energy (2010-2011), to consulting on federal energy programs and analyses with Booz Allen Hamilton (2011-2013), to managing utility and real estate advisory and analysis work at Waypoint Energy (2013-2018), to my current position running the green buildings team "Greenprint" at the Urban Land Institute (2018-present). My titles and duties from the past five years are provided below. Senior Vice President, ULI Greenprint, Aug 2018-Present: Leads the ULI Greenprint Center, a worldwide alliance of leading real estate owners, investors, and strategic partners committed to improving the environmental performance of the global real estate industry. Through measurement, benchmarking, knowledge sharing, and implementation of best practices, Greenprint and its members strive to reduce greenhouse gas emissions 50 percent by 2030. - Advances thought-leadership to remain current with the latest trends and thinking on sustainability in the private building sector. Oversees the creation of research reports and other materials for publication and dissemination through various ULI channels. Works with ULI Greenprint members to identify and elevate emerging sustainability technologies, best practice management strategies, and the evolving business case for sustainable investments. - Serves as the Center's lead spokesperson to a variety of public and private stakeholders representing communities around the world and companies operating in international real estate markets. Develop ULI's leading edge views on sustainability best practices with enhancing investment performance and mitigating risk. Conducts meetings with ULI members and outside experts to research and disseminate ideas. Director, Waypoint Energy, Aug 2013 – Jul 2018: Responsible for running sustainability consulting contracts, leading business development activities and proposal writing, and managing (and mentoring) teams of analysts to ensure quality program delivery. Maintains client relationships and management of utility, government, and real estate sustainability programs. Finds new ways for the business to grow and succeed in its mission to drive energy efficiency in the built environment. - Managed utility demand side management contracts to improve energy efficiency of the commercial real estate market through portfolio-wide consumption analyses, energy audits, property staff trainings, energy conservation measure business cases, and incentive application support across base building systems. - Developed and implemented new utility incentive programs to target energy efficiency in office tenant fit-outs, tying in existing programs such as ENERGY STAR for Tenant Spaces and Department of Energy (DOE) Green Lease Leaders, and training brokers on the direct and indirect benefits of sustainability. - Oversaw implementation of sustainability metric benchmarking (energy, water, waste) for commercial real estate partners through ENERGY STAR Portfolio Manager through direct relationships with firms such as Colliers International, and through formal partnerships with industry groups such as the Building Owners and Managers Association (BOMA) International. - Conducted outreach and engagement to the commercial building market through market transformation programs to encourage adoption of energy efficient technologies such as advanced roof top units, advanced power strips, and sub-metering. Connected with all stakeholder types from the boiler room to board room. - Lead analyses and presentation of commercial building performance data via market segmentation calculations and visualization of results. Analyzed key market data and trends to shed light on specific sectors that are underperforming, less efficient, or require industry-specific attention, with data ranging from a portfolio of ten buildings to a utility customer base of 10,000 customers. - Educated the utility industry on the nuances and jargon of the commercial real estate industry, and vice versa, to increase understanding and opportunity for increasing the energy efficiency of buildings. - Identified new business opportunities and maintains strong grasp on the direction of the sustainability industry via attendance at national conferences, discussions with industry leaders, and regular research of industry publications. Executed proposal writing and lead generation for government and private clients. Orchestrated content development and marketing activities for consulting team's website and social media.

I am a dedicated and motivated health care professional with eleven years experience in health care delivery, health center operations, health policy, and non-profit program management. I have a background in health policy, health insurance contracting, Medicaid, and health care reform. I am a proven leader with a long-standing commitment to improving the public health system and reducing health care disparities to facilitate greater access to comprehensive health care services. I am also extremely committed to health equity and the elimination of health disparities for people in this country, specifically in my hometown of Alexandria. In 2019, I completed the Massachusetts General Hospital (MGH) Disparities Leadership Program and as a person of color, I feel strongly about the work that must be done to improve our public health infrastructure to achieve health equity.

If yes, please explain

I am a 27-yr Old Town resident and homeowner. When I had military assignments elsewhere, I maintained my home and home of record here. I have been very active over several years as a volunteer with Alexandria's Community and Human Services in the areas of homeless veterans and domestic violence. I attend all meetings with the homeless committee and give a military oversight to veterans seeking assistance, make suggestions of other types of assistance in cases that are out of the norm, and watch for signs of abuse of the system. When the domestic violence coordinator puts out a call of someone with a need, I work with my contact list to find and collect the items or services needed, or provide them myself. I established an ad hoc neighborhood watch program in my neighborhood of Quaker Hill. We use it for more than security. It has brought all of us together and gives us a feeling of community in spite of everyone's busy lives. Our model has expanded into our surrounding areas as well. I am very involved and stay in close touch with the happenings in our City. As our current Mayor and previous Mayors will attest, I give frequent feedback on issues, likes/dislikes, let them know of problems occurring, and make many suggestions. Formerly, for many years, I served as a very active volunteer at George Washington's Mount Vernon Estate and Gardens.

Statement of Interest/Why You Should Be Appointed

I have served as a member of the Waterfront Commission for the past 2 years. We stopped in-person meetings soon after I was appointed, so I have mostly participated virtually. I look forward to working now in a normal fashion together with my colleagues. I am a retired senior military officer, a lifelong boater, and current member of the Coast Guard Auxiliary. In this current role, I am interested in particular in flood and debris mitigation, and the connection between them. Not only will improvements in these areas help the health of our City and wildlife, but will at the same time aid local boaters and the Coast Guard by improving boating safety and, hopefully, reducing the number and severity of rescue and assist calls. Of course, being a long-time resident of the Old Town area, I am very interested that the direction of future waterfront park and area improvements maintains our historic culture and health of our natural environment. I am very pleased with what has been done to date.

I'm currently serving in my 5th year as a member of the Environmental Policy Commission. I am also serving in my 4th year as the representative of the EPC on the Waterfront Commission.

Interests & Experiences

Statement of Interest/Why You Should Be Appointed

I have an extensive background and a very strong interest in technological issues and natural systems in general, and in air, water, and natural resource protection in particular. In addition, both my professional career and my daily life have consistently included a strong focus on service to the natural world and to my community. I also have a keen sense of the importance of collaboration and teamwork for the success of advisory entities such as the Environmental Policy Commission (EPC). As a member of the Alexandria EPC for 4 years, my most visible contribution has been to serve as Chair of the Planning Committee for Alexandria Earth Day in both 2018 and 2019. In addition, I am proud to have contributed to the very intensive and collaborative efforts of the EPC members and T&ES staff that have resulted in the formulation of Alexandria's 2040 Environmental Action Plan. I believe that plan provides an explicit outline of the path that Alexandria needs to follow to reduce its greenhouse gas emissions as required by our commitment to the goals of the Paris Climate Accord and I applaud City Council's unanimous adoption of that EAP. I'm also pleased to have the honor of representing the EPC as a member of Alexandria's Waterfront Commission. Finally, I'm happy to have participated in the selection of this year's Ellen Pickering Award winner to be announced soon. I am very interested in continuing to contribute to the environmental and natural resource conservation causes of Alexandria and this region. While I am already active in a number of related areas, such as river cleanups, promoting safe bicycling among youth, and natural resource education efforts, I believe that I can continue to make valuable contributions to the Environmental Policy Commission's efforts to provide sound and informed guidance on the full spectrum of environmental and resource protection issues facing our community and region.
