As the applicant or the applicant's authorized agent, I hereby attest to the best of my ability that the information provided above is true and correct.

19/21 Mark E. Herrmann Much E. Signatur

If property owner or applicant is being represented by an authorized agent such as an attorney, realtor, or other person for which there is some form of compensation, does this agent or the business in which the agent is employed have a business license to operate in the City of Alexandria, Virginia?

[] Yes. Provide proof of current City business license

[/] No. The agent shall obtain a business license prior to filing application, if required by the City Code.

NARRATIVE DESCRIPTION

3. The applicant shall describe below the nature of the request **in detail** so that the Planning Commission and City Council can understand the nature of the operation and the use. The description should fully discuss the nature of the activity. (Attach additional sheets if necessary.)

The existing parking lot is currently used by church members and staff of the
Basilica of St. Mary. This parking area, designated Lot B, and containing sixteen
parking spaces, is located at 324 S. Royal Street. Currently, the parking area has no
lighting. Consequently, church attendees and visitors users lack a sufficient a sense of
security and cannot see well, particularly during periods of darkness in the evening or
early morning. This Special Use Permit application proposes the installation of 5
parking lot light poles to illuminate the travelways of pedestrians at a safe level.
The combination of light poles is subject to change based on the type of fixture and
pole height ultimately selected. The lighting levels will conform with the requirements
of the Zoning Ordinance and the fixtures are to be compatible with those existing in
the surrounding neighborhood. Please see included photos providing example fixtures
found in the surrounding area and which these lights will resemble. No other changes
to the parking area are proposed.

RE: Basilica of St. Mary Parking Lot Lighting

The following photos were taken from Google Maps Street View in the vicinity of the Basilica of St. Mary parking area. The photo on the left was taken on Duke Street, and photo on the right was taken on S. Lee Street. The pole mounted lights proposed in the parking lot area for St. Mary will resemble the style of the examples shown.
