Interests & Experiences

Statement of Interest/Why You Should Be Appointed

I am very interested in assisting Alexandria make prudent IT decisions and be forward looking for opportunities. I led a team implementing program and financial management software within the Army and continue to provide consulting services to government agencies to make the best IT decisions. I have a wealth of experience to offer my City and would like to assist however I can. In addition to software implementations, I have a wide array of experience with risk management, project management, and analytics. I can provide valuable insight into leading practices in industry working regularly working on large-scale multi-million dollar efforts. I'm an outside the box thinker and work great as both a lead and team-member. I appreciate the consideration for this opportunity and would be excited to serve in this role.

SUMMARY OF WORK AND PRACTICAL EXPERIENCE (Please list titles and duties for the past five years):

Currently I lead the Army's deployment of the Project Management Resource Tools (PMRT) system as the Director of ASA(ALT) Operations for Integrated Data Services. I direct a team of nearly fifty people in implementing a tool which automates the Army acquisition workforce's existing workflows and standardizes data collection to allow better insight across the acquisition domain to senior Army leaders. Prior to that role, I provided consulting services to the US Government with Deloitte as a Senior Consultant. My focus was on risk and data management.

Interests & Experiences

Statement of Interest/Why You Should Be Appointed

I am looking for ways to serve my community and I believe my education and skillset align well to the mission of the Commission on Information Technology. To paraphrase from the Commission's website, I am particularly interested in helping the city identify new technologies and leverage them to enhance the delivery of services to our citizens. In a professional capacity, I work with federal customers in the financial sector to better leverage cloud computing technologies in order to further their missions. I believe this experience, coupled with an education background in machine learning and artificial intelligence, would enable me to benefit the City and play an active role in the community. After spending a few years in Old Town, two years ago my wife and I moved into the home that my grandparents built in the 1960s. My Grandfather was an Alexandria Circuit Court Judge and instilled in me a strong sense of community service. I believe this would be a great opportunity to give back to the City and improve our ability to serve our citizens.
