City of Alexandria, Virginia

MEMORANDUM

DATE: MARCH 20, 2019
TO: THE HONORABLE MAYOR AND MEMBERS OF CITY COUNCIL
FROM: MARK B. JINKS, CITY MANAGER /s/

DOCKET TITLE:
Consideration of Receipt of Fiscal Year 2019 Second Quarter Capital Projects Status Report Related to City Council Approved Capital Projects.

ISSUE: Receipt of the Fiscal Year (FY) 2019 Second Quarter Capital Projects Status Report as relates to City Council approved capital projects.

RECOMMENDATION: That City Council receive as information the FY 2019 Second Quarter Capital Projects Status Report.

BACKGROUND: Attached to this docket item is the FY 2019 Second Quarter Capital Projects Status Report, which covers project progress through December 31, 2018 and anticipated project progress through March 31, 2019 for 24 active projects with high community visibility. When City staff initiated the Quarterly Capital report all capital projects were detailed and discussed. This resulted in a near 200-page report which required substantial staff preparation time. As reported to Council earlier in Fall 2015, as an efficiency increase now

only the top/high priority 24 projects are fully detailed. The executive summary/overview lists projects which have been completed and also provides summary budget and expenditure information for all active Category 2 and 3 capital projects. If Council would like to add another project to the detailed reporting list, staff can expand the list for the next quarterly report.

The full FY 2019 Second Quarter Capital Projects Status Report posted on the City's website at <http://www.alexandriava.gov/Budget>. This report does not contain project status report information for Alexandria City Public Schools (ACPS) who prepare their own status report. Those reports are available on the ACPS website.

FISCAL IMPACT: City Council's receipt of the FY 2019 Second Quarter Capital Projects Status Report does not require any additional resources. The report will, however, be utilized in the development of the CIP. Available project balances, implementation rate, and current and projected project status will be utilized to determine the appropriate level of investment in and any associated borrowing for a project for the forthcoming fiscal year
