

meetings.

BACKGROUND: At the request of City Council, City staff has suggested a revised approach to conducting legislative meetings to improve the policy making process. The purpose of the suggested process revision is to improve the efficiency of Council meetings and to permit more time for Council to engage in substantive discussion of key policy issues of the City. There is also the intent to reduce late night decision making which can be affected by fatigue.

DISCUSSION: The revised structure reserves the first legislative meeting of the month for conducting the routine business of Council (ie. proclamations, appointments, consent calendar items, oral reports, etc.). The second legislative meeting of each month is held for policy discussion and debate. The presentation of policy issues to Council has been adjusted to establish a routine method for staff presentations of policy matters to Council. The template elucidates key questions and policy points for Council consideration and will permit Council to effectively and efficiently perform their policy making responsibilities.

Other substantive revisions to the current legislative meeting process are noted below:

- All Legislative meetings will begin at 6 pm. If an Executive session is required, it will be the first item on the agenda. If the Executive session has not concluded by 7 pm, the discussion will be suspended and the regular meeting agenda will begin. The Executive session may be resumed at the end of the regular agenda if necessary.
- Worksessions prior to the beginning of legislative meeting are eliminated and worksession topics pertaining to policy will be addressed during the second Legislative meeting of each month.
- Both Legislative meetings will include a Roll-Call Consent Calendar which will allow City Council to act on non-controversial Resolutions or Ordinances that typically do not require discussion. Action items withdrawn from the Roll-Call Consent Calendar will be addressed separately as is current practice.
- Reports and Recommendations from Boards, Commissions, and Committees will be distinguished from Oral Reports and the specific Board, Commission, or Committee being reported will be noted on the agenda.

The attached ordinance reflects the time adjustment from 7:00 pm to 6:00 pm. The attached resolution, which will be adopted on May 17, adopts the following order of business for the legislative meetings:

1. At the first legislative meeting (business) the order of business shall be as follows:
