ISSUE: Consideration of an ordinance to adopt the implementation ordinance for Text Amendment No. 2021-00003 associated with Zoning Ordinance Practical Updates approved by City Council on September 18, 2021.

RECOMMENDATION: That City Council:

1. Approve on first reading an ordinance to adopt the implementation ordinance for Text Amendment No. 2021-00003 associated with Zoning Ordinance Practical Updates approved by City Council on September 18, 2021; and
2. Schedule for second reading, public hearing and final passage on Saturday, October 16, 2021.

BACKGROUND: In reviewing the implementation ordinance language related to Text Amendment No. #2021-0003, approved by Council on September 18, staff discovered an unintentional deletion of a subsection within Zoning Ordinance section 7-2501. No other sections are affected.

DISCUSSION: The language, approved by Council, read:

7-2501 - Freestanding private garages to the rear to the rear of the main building.

The supplemental regulations in this section 7-2501 apply to residential lots developed or proposed to be developed with a single-family or two-family dwelling in the R-20, R-12, R-8, R-5, R-2-5, RA and RB zones, not including property located within the Old and Historic Alexandria and Parker-Gray Districts. Freestanding private garages located within required yards or excluded from floor area shall be ~~are~~ only permitted subject to ~~in compliance with~~ the following standards:

(B) Standards.

(2) *Setback.* The freestanding garage may be located in the required side or rear yard if it complies with the following:

(c) The freestanding garage must be located completely behind the rear wall of the dwelling unless, the director determines that locating the garage completely behind the rear building wall is not possible due to topography, shape of the lot, placement of the existing dwelling on the lot or other environmental concerns, in these cases the garage must be located completely behind the front building wall, and approved by the director as to location. ~~If a wall of a dwelling on an adjacent lot has any windows or doors that have a sill lower than 13.50 feet, measured from grade, facing the shared property line and located within three feet of that shared property line, the new garage's setback shall be five feet, including any architectural features, from that shared property line. This setback from that shared lot line is required at the location of the affected window(s) or doorway(s) and is required to extend along the width of those window(s) or doorway(s) and for a minimum of five feet in each direction from that window or doorway.~~

(d) The freestanding garage must be located completely behind the rear wall of the dwelling unless, the director determines that locating the garage completely behind the rear building wall is not possible due to topography, shape of the lot, placement of the existing dwelling on the lot or other environmental concerns, in these cases the garage must be located completely behind the front building wall, and approved by the director

as to ~~location~~.

Through the practical updates proposed, there was no intention to delete subsection 7-2501(B)(2)(d), rather the reflection of the language as struck through was inadvertent. Therefore, the proposed ordinance no longer includes this deletion and staff recommends that the ordinance be adopted reflecting that this subsection is not to be deleted. Otherwise the Zoning Ordinance amendments proposed are the same as those set out in the prior staff reports.

FISCAL IMPACT: None.
